Office of the Chief Information Officer

Broadband Map V5
Final Agency Decision

DOCKET NO. 055C

A. CHALLENGER INFORMATION

Entity/Community Name	City of Dubuque, IA
FRN (Provider Only)	
Address	50 West 13th Street
City	Dubuque
State	IA
Zip	52001

B. DESIGNATED CONTACT INFORMATION

Contact Name	Christine Kohlmann
Contact Phone Number	563-589-4281
Contact Email	ckohlman@cityofdubuque.org

C. CHALLENGE TYPE

- [ ] Resident
- [x] Community
- [ ] Provider - Self-reporting
- [ ] Provider - Third-party
- [ ] State
- [x] Location Not on Map

D. EVIDENCE CONSIDERED

With respect to the address locations forming the basis of this Challenge, the Office has reviewed the evidence and information submitted by Challenger related thereto (see Appendix C for original submission), in conjunction with the maps and data sources originally utilized in determining whether and to what extent service was available to a particular address location.

- [x] Challenger submitted an Attestation as part of its Challenge, affirming under penalty of perjury whether and to what extent Broadband service was offered as of August 2, 2022.
- [x] Challenger submitted additional information in support of its Challenge. This information has been considered by the Office in making its Final Decision.*
- [x] Challenged address locations within this Challenge overlap with other Challenge(s) containing one or more of the same address locations. The Office considered evidence submitted in connection with any overlapping Challenge in making its final decision for any overlapping address location.
- [x] The Office sent a Notice to impacted Provider(s) at the challenged address location concerning whether and to what extent reported broadband service was offered as of August 2, 2022. The Office may have received a Response and/or other evidence from impacted Provider(s) in response to such Notices. Refer to Appendix D for a record of these efforts.

Go to https://ocio.iowa.gov/broadband-availability-map-version-5-challenge-process for more information regarding how the Office evaluates evidence and makes determinations regarding information reflected on the map.

* Of particular note, the City of Dubuque forwarded additional evidence consisting of a survey conducted by the City in June 2021 for a different program. There are two problems with the proof submitted in this regard.

First, the data is at this point more than 18 months old. Because broadband buildouts and system improvements are constantly in flux, it is critical that proof of current broadband availability be current. The data submitted is not. The Office is obligated to disregard the evidence in those instances in which the City survey data is the only proof submitted in support of the claim.

Second, the data the City gathered through this survey process included geo-located points using latitude and longitude coordinates as opposed to physical structure addresses. The Office worked to convert these GPS coordinates to physical addresses. Many of the GPS points resolved to parking lots or in one case as a skyway as opposed to houses and business structures. Of the addresses identified that could be located based on the GPS points, only five of the addresses appeared to be consistent with addresses submitted by the City as part of its challenge. To the extent that physical structures could not be identified with the data submitted, the Office again cannot rely on the data submitted to support the challenge. Of the five structures that the Office was able to identify using the geo-located information, the Office will not use the data in the supplemental infomration in these instances because the data submitted is approximately 18 months old and not current.

E. APPEAL

The Office will post its Final Decisions on its website at ocio.iowa.gov/broadband. If a Challenger wishes to appeal the Decision, the Challenger must notify the Office in writing within thirty (30) days of the posting of the Decision. A request for a contested case must be filed by mailing a written request to:

Office of the Chief Information Officer
c/o Matt Behrens
200 E. Grand Ave.
Des Moines, IA 50309

In so doing, the reason for appealing this Decision must be stated, specifically identifying the particular aspects of the Decision with which Appellant disagrees and the reasons why, whether factual or legal in nature. The request for a contested case proceeding should state the name and address of the requester; identify the specific Office action which is disputed; and, where the requester is represented by a lawyer, identify the provisions of law or precedent requiring or authorizing the holding of a contested case proceeding in the particular circumstances involved, and include a short and plain statement of the issues of material fact in dispute. Iowa Admin. Code r. 129—6.4.

Upon receipt, the appeal will be forwarded to the Department of Inspections and Appeals where an Administrative Law Judge ("ALJ") will perform an independent review. Iowa Admin. Code r. 129—6.6. At that time, an ALJ will schedule a hearing. If Appellant does not exercise its appeal right within thirty (30) days of the posting of this Decision, this Decision shall become final and no longer subject to challenge.

SIGNED	Matt Behrens Chief Information Officer State of Iowa
DATE	12/22/2022

Date of Issuance: December 22, 2022

Definitions	
Challenged Provider	A provider that has been named in a challenge; the challenge is specific to that provider.
Notice Form	A notice was sent in the form of an Excel workbook to all providers at a challenged address location regardless of whether the challenge named the provider specifically. Multiple Notice Forms may have been sent regarding Map V5.
Unchallenged Provider	A provider that reflects on the Map as serving an address location that is being challenged but the challenge is not specific to that provider.

Basis Number	Decision	Explanation	For Use When:	Result
1	Accepted	The Office accepts the information submitted by the Challenger for this address location because the Office does not possess conflicting information.	(1) A provider confirms they do not serve that address location; (2) The challenged provider did not respond to the Notice Form.	Change to the map
2	Declined	The Office declines the information submitted by the Challenger due to one of the following reasons: (1) the evidence provided by the Challenger is not sufficiently probative; (2) the evidence or explanation given by provider(s) at that location was sufficient to overcome challenger's claim; (3) Challenger's claim was not against this provider, and provider responded to Notice; (4) Location ID is outside of NOFA project area.	(1)The Unchallenged Provider responded to the Notice Form; (2) The address location falls outside the area identified in the evidence; (3) The Challenged Provider responded to the Notice Form with sufficient evidence to rebut the claim.	No change to the map
3	Accepted	The Office accepts the information submitted by the Challenger for this address location despite information having been submitted by impacted provider(s). The Office finds the evidence submitted by the Challenger to be more probative than the information submitted by impacted provider(s).	(1) The Challenged Provider responded without evidence or without sufficient evidence to rebut the claim.	Change to the map
4	Declined	The Office declines the information submitted by the Challenger because there was an insufficient basis for challenge.	(1) No providers reflect at this address location; (2) A provider was noticed for their own submitted challenge and did not respond; (3) Provider claims previous incentive already reflected on the map; (4) Resident claims they are happy with their service and not reporting problems with their provider; (5) Challenged provider is not reflected on the Map for that address location; (6) Map already reflects the stated claim for challenge.	No change to the map

APPENDIX C
Original Challenge Submission

Broadband Map v5
Community and Provider Challenge Form

The Office of the Chief Information Officer ("OCIO" or "Office") recently published the Statewide Broadband Availability Map version 5 ("Map v5"). Map v5 is designed to facilitate decisions concerning future spending under federally-funded broadband programs. Because Map v5 does not use the tiered structure envisioned by Iowa Code chapter 8B and because future federally-funded grant opportunities made available by the Office in accordance with Map v5 will not conform to Iowa Code chapter 8B, the map challenge process envisioned under Iowa Code section 8B.10 does not apply. However, the Office is making available a challenge process to allow public input into whether the map accurately reflects broadband coverage as of the publication date of Map v5 (the "As Of" date of Map v5).

The Office utilizes maps and data sources made available by the Federal Communications Commission (FCC) and/or developed or produced by contractors or third parties retained or utilized by the Office. These maps and corresponding data sources represent the status of Broadband in Iowa on the As Of date as reported by Communication Service Providers in Iowa. Unlike prior broadband coverage maps, Map v5 identifies broadband coverage by individual locations, making Map v5 far more granular than prior maps that displayed eligibility at the census block level.

Challenges to Map v5 will be based on presence or reliability of service and/or speed. Challengers will be required to provide for every location challenged an address and corresponding IA Location ID, to the extent a Location ID is available on the map. Challenges without this information may not be evaluated.

Every location on Map v5 reflects a status of 'likely eligible' or 'likely ineligible.' This status is based solely on speed and technology type. The eligibility of any particular location is contingent on the requirements associated with the federal funding being used to fund future Notices of Funding Availability ("NOFAs"). Eligibility determinations are subject to change over time. In addition, eligibility designations in no way guarantee facilitation of service in the future through state- or federally-funded broadband builds.

On August 2, 2022, the Office posted the final version of Broadband Availability Map v5 and opened a 30-calendar-day challenge window wherein anyone aggrieved or adversely affected by mapping determinations may challenge the Office's final determination of whether service at a particular location is accurately reflected.

This for is for PROVIDERS and COMMUNITIES only. Resident challengers should fill out the form via the Map on the website.

You must check next to each row that you have read and understood the terms of the challenge process. Without this acknowledgment, the appeal will not be evaluated.

Use the tab titled "Challenge Form" to challenge any particular location. If you would like to report an address not presenting on the map, please use the tab titled "Location Not Present on Map." You can also use this tab to report when the location is not presenting at the correct area.

Challenger acknowledges the following (click checkbox to acknowledge):

The information on the Map may be challenged for conditions existing as of August 2, 2022 (the "As Of" date). Challenges based on changes occurring to broadband service after the As Of date will not be considered.		
When submitting a challenge, evidence must be submitted for every location challenged in support of changing the likely eligible or likely ineligible status. Documentation that is speculative, generalized, or vague will not be sufficient. You may use the Sworn Statement/Survey template provided. Supporting documentation must be provided in one pdf. Reference to the page number of the supporting evidence within the pdf must be noted in Challenge Form. Challenged locations without a referenced page will not be evaluated.		
The Office reserves the right to reject challenges for a variety of reasons, including but not limited to: >> Challenges claiming buildout at a future date; >> Challenges received reflecting incomplete information, including lacking IA Location ID; >> Challenges to a provider's service that are submitted without supporting evidence; >> Multiple challenge forms submitted by a provider or a community; >> Challenges received after September 1, 2022; >> Challenges received without all checkboxes marked indicating acknowledgement of the terms.		
The Office will notify affected parties by posting to the website any notice of challenge received. Final agency decisions shall become final unless within 30 days of the posting of a final decision, a challenger or person or party aggrieved or adversely affected requests a contested case proceeding pursuant to Iowa Administrative Code chapter 129-6.		

Broadband Map V5
Provider/Community Challenge Form

A. CHALLENGER INFORMATION	
Entity/Community Name	City of Dubuque, IA
FRN (Provider Only)	
Address	50 West 13th Street
City	Dubuque
State	IA
Zip	52001

B. DESIGNATED CONTACT INFORMATION	
Contact Name	Christine Kohlmann
Contact Phone Number	563-589-4281
Contact Email	ckohlman@cityofdubuque.org

C. EXPLANATION

To the extent you believe additional explanation is required to ensure that you are communicating full and accurate information, please provide narrative to further explain your challenge.

D. ATTESTATION

By signing and submitting this form, the authorized representative attests that to the best of the authorized representatives knowledge and belief, the information submitted through this challenge form is true and accurate, and the form is signed under the pains and penalties of perjury. By typing your name, you are affixing your signature to this form and attesting to the accuracy of the information submitted herein.

Authorized Signature:	**Christine A. Kohlmann**

City of Dubuque Iowa OCIO Challenge Map Narrative

Introduction

Thank you for the opportunity to respond to the data presented in the Office of the Chief Information Officer Broadband Map v5 and Federal Program Eligibility Determinants. In 2021, the City of Dubuque submitted a grant proposal under the National Telecommunications and Information Administration's (NTIA) Broadband Infrastructure Program, authorized by the Consolidated Appropriations Act, 2021, Division N, Title IX, Section 905, Public Law 116-260, 134 Stat. 1182 (Dec. 27, 2020) (Act) application. The grant submittal covered a project area including 286 census blocks within 4 different Census Tracts, including total households of 5,523 and a total population of 12,700 people.

The area evaluated for the challenge to the state of Iowa Broadband eligibility covers those same households as the NTIA grant application. The City of Dubuque continues to contend that the households within this project area constitute broadband "underserved" households. The challenge is based on what was learned in the analysis and findings of the 2021 grant proposal.

Although NTIA grant dollars were not awarded to the city of Dubque, a review of the application with official from NTIA, indicated that Dubuque did indeed make it to the final round of review and was considered a "qualified" application. It was explained that Dubuque did not receive funding mainly due to the grant being oversubscribed for the funds that were available. Therefore, the analysis as well as response to challenges raised during the grant evaluation, give the city of Dubuque reason to continue to believe this project area represents a great number of underserved households and submits the following areas of challenges as provided on the forms' worksheets.

Challenge Form

During the NTIA grant evaluation process, existing service providers, specifically, Lumen Technologies (Lumen) and Mediacom, filed challenges during the grant evaluation to NTIA, claiming that qualifying broadband services are already available in 174 of 286 census blocks census blocks within the City's identified project area. (See Appendix 1 for a map of the proposed project area designating with different colors the 174 census blocks that have been challenged and the 112 census blocks that have not been challenged.)

In those census blocks that neither Lumen nor Mediacom challenged the classification as"underserved," infers that there is indeed "underserved" households. Each provider in effect is saying there is inconsistency in the maximum advertised download/upload of 1000/50 and truly available upload and download capacity. Addresses within those unchallenged census blocks have been offered as a challenge to the ability to offer 25/3 and thus are posed by the City of Dubuque as "underserved" based on this provider feedback..

In addition, NTIA defined “unserved ” for its Broadband Infrastructure Grant Program to mean broadband service with a download speed of not less than 25 Mbps, an upload speed of not less than 3 Mbps, with “underserved” defined as a download speed of not less than 100 Mbps, an upload speed of not less than 20 Mbps and latency sufficient to support real-time interactive applications. More specifically, NTIA stated that it interprets the standard to mean the ability to provide downstream and upstream simultaneously to every household in the eligible service area” A similar high-level NTIA service standard has been expressed as to latency. NTIA interprets its latency requirement “to mean [that] 95 percent or more of all peak period measurements of the network round trip latency . . . are at or below 100 milliseconds.”

In 2021 the City of Dubuque issued a community broadband survey to residents. It is evident from resident feedback that many households, businesses, and other locations within the proposed challenged addresses are unable to receive broadband services that measure up to the NTIA expressed standards for an acceptable or “qualifying broadband service” despite provider advertised maximum speeds. (Appendix 2 provides the results of a 2021 community broadband survey.)

The broadband issues in our community are the consequence of existing broadband infrastructure that is deficient relative to both the last mile and middle mile transport facilities used in serving the project area. The current infrastructure is out-of-sync with both the greater population densities and the collective broadband needs of the residents within that area of Dubuque. These conclusions are supported by various informational sources, including not only information gleaned from FCC and NTIA broadband mapping resources and from an on-line community broadband survey, but also from extensive community engagement activities undertaken as part of the City’s work to address and reduce poverty’s negative effects throughout the Dubuque Community.

With respect to the proposed project area challenges presented by Lumen and Mediacom, the City has no information at this time as to what specific source data each of these companies is relying upon in presenting their claims that broadband services meet the NTIA standards and are being provided in the challenged project area. Lumen and Mediacom as the entities presenting should bear the burden of proving up their claims, and if the challenges presented rest only on currently available FCC “Form 477” data, or a blanket DOCSIS standard of capability, they should be viewed as grossly deficient and promptly rejected.

The FCC’s broadband mapping data is based on advertised broadband speeds and entire census blocks are considered served with the advertised broadband service if only one location within a census receives that service. Although efforts are being made through this latest round of mapping challenges for the state of Iowa, it seems that census block level data has been applied across all addresses.

The City of Dubuque disputes the accuracy of the data for Maximum available provided on the maps and believes the provided addresses are underserved by what many residents within this area are in fact experiencing relative to the performance of their existing broadband services.

Locations Not Present on Map

The design of the City's NTIA grant submittal determined the total number of addresses within the project area of 4,678, with a business address count of 493, residential address count of 4185, and "unique" addresses of 3230 (referring to street addresses associated with within a separate building or structure). Addresses were verified against the Ciy's GIS. Addresses identified within the same project area on the state of Iowa map numbered 3111. After analysis of "real" addresses where an individual, or business could receive broadband services against GIS and grant design documents, the difference number is roughly 630 locations shown on the locations not present on the map.

Survey Information

It is evident that many households, businesses, and other locations within the proposed project area are unable to receive broadband services that measure up to the NTIA expressed standards for an acceptable or "qualifying broadband service." This is the consequence of existing broadband infrastructure that is deficient relative to both the last mile and middle mile transport facilities used in serving the project area. The current infrastructure is out-of-sync with both the greater population densities and the collective broadband needs of the residents within that area of Dubuque. These conclusions are supported by various informational sources, including not only information gleaned from FCC and NTIA broadband mapping resources and from an on-line community broadband survey, but also from extensive community engagement activities undertaken as part of the City's work to address and reduce poverty's negative effects throughout the Dubuque Community. The survey data is provided for review.

Conclusion

We are supportive of the state of Iowa's initiatives to determine eligibility for funding that will allow the citizens of Dubuque to gain access to the high-speed broadband services they desperately need. A webapp has been created showing data behind the assertions put forward in this challenge. It can be found at https://arcg.is/nXGnT0
Please don't hesitate to let us know how we can be of further assistance in your review.

66	fc792c13-d1ba-44b9-8b5	6/10/2021 23:31	Mediacom	ATT	39.00	69.90	-	On the South side of Dubuque when I looked to find an internet provider there was only 1 Mediacom. There are no other options and they are costly and I consider that a monopoly as they think they can charge higher since only option, unless you want CenturyLink which is crazy slow (only 1.5 mbps). So this side of town has no options. Comlec told me not available. There needs to be more options on north or south ends as people do live here but Eve seems to be installed on the west end and only there. The original part of Dubuque needs better service, we live here too. FYI the cell phone question needs to also ask do you share a plan as I estimated the bill but I don't pay it as I share a plan with other family.			Yes it was requested got it	-90.67340323	42.47710566

Their prices are unreasonably high for what they offer, and their customer support is extraordinarily lackluster. Having data caps, especially ones so very low in 2021 is nothing more than a money-grab. Modern networking equipment makes data caps no longer necessary. In 2015 a Comcast engineering executive was quoting saying that data caps are a business decision, not a technical necessity (source: https://arstechnica.com/information-technology/2020/11/comcasts-data-cap-finally-goes-nationwide-in-expansion-to-12-more-states/). Dubuque needs modern internet access available to everyone, provided by companies that aren't greedy and soulless. Municipal internet would be ideal, but Mediacom shut that down when it was brought up.		80/20mbps	Yes it was requested and was told it wasn't available	-90.67998328	42.4550861

Mediacom is too expensive and 'Comelec' is practically non-existent and is not a viable 2nd option. I contacted Comelec and was told they "weren't providing service in my area". I live in Dubuque and can't use them? Besides, Comelec basically charges the same as Mediacom---100/month for their top tier service isn't a good deal at all...The only other option I know of after this is satellite/dish or "Windstream" and both of these deliver sketchy, unreliable, slow, internet. This option might be cheaper, but it's not trustworthy and stable enough to work from home with. Please help! This has been an issue for YEARS and everyone knows it. We need a viable alternative, otherwise we'll be paying $150+ JUST for high speed internet. Our bill is already over $90 just for high speed internet alone and it's going up.		100 mbps download, 2 simultaneous devices	Yes it was requested and was told it wasn't available	-90.66889	42.50508511

170	618afc7b-8ae0-42fd-85cb	6/13/2021 13:31	Comelec	Verizon	13.00	234.00	229.00	Your first question should have been "working or retired". That would explain why I had to leave the first 6 questions answered as "No Impact". Another area is the question regarding the landline. We have a landline phone but it uses a service called Ooma. That system uses the wifi home system to communicate to the world. So it is a land line but not using a landline and only costs about $17.00 per month. Great system. The other switch we've made is to have the car wifi system turned on. That plus the home wifi have allowed us to reduce the data plan for the cell phone down to the absolute minimum. Everything in this house that needs to runs through the router, phones, tvs, computers, printers, weather station, and maybe one or two other things that I can't think of right now. Not bad for a couple that are 81 and soon to be 80.	dach@yousq.net	250 Mbps	I have never requested improved services	-90.73699236	42.50696201

223	ba241e0a-5873-4c87-812	6/17/2021 0:37	Mediacom	Verizon	31.00	-	-	We lose our internet service completely at least 4-5 times per day. Sometimes the internet is 'down' for over an hour or more. Often it is down for a few minutes. Our monthly rates have gone up (without clear notice) since January 2021--at least 30 dollars per month, yet we experience many outages and do not have consistent service. No refunds have been offered. It's difficult to get hold of anyone at the company to assist. The company is Mediacom. We have been told by that company that service is not as good "down here" because cable is so old. Is anyone repairing it? I feel there is a sense that this downtown neighborhood is not as 'worthy' as other neighborhoods to get good service or good repair of old cable. Oldest should be repaired first, right? Is this an attitude about mixed race neighborhoods, about average income, about people who rent and not own their homes? If the service is not consistent, either fix it or lower our rates. No bias, please.	struckkathryn@gmail.com		Yes it was requested and was told it wasn't available	-90.66954798	42.50829301

Too many times I've been scammed by Mediacom for overusage when there's nobody at home. There is nobody directly to talk to you it's all automated and it's very frustrating.		1000gig/month mediacom scams people sucks they overcharge	Yes it was requested and was told it wasn't available	-90.66889	42.50508511

APPENDIX D
Notices

10/3/2022

CenturyLink Inc.
Jerry Melick
jsmelick@corp.lcom.net
Sent via email only

To whom it may concern:

This is a letter of inquiry concerning your organization's prior reporting to the State of Iowa Office of the Chief Information Officer ("OCIO" or "Office") regarding the availability of Broadband service at certain address location(s). Our Office received a timely-filed Challenge Form challenging information reported on the Broadband Availability Map Version 5 ("V5") of the Statewide Broadband Availability Map ("Map"). The data reflected on V5 of the Map was either: (1) provided by you to the Office's contractor, Connected Nation, during the data collection window of November 1, 2021 through February 11, 2022; (2) gathered from other sources (such as FCC) that collected data from you; or (3) carried forward from prior reporting made to this Office by you under a previous Map version.

Map V5 identifies where Broadband service was offered or facilitated at speeds greater than 25/3 as of August 2, 2022. The Map also reflects a preliminary determination of 'likely eligible' or 'likely ineligible' based on speed, technology type, and previous incentives and is a prospective estimate of potential eligibility under various federal programs. The publication of the Map on August 2, 2022 triggered a formal 30-day challenge window during which time we received challenges citing or implicating your service. The challenge(s) we received claims that the data reflected on V5 of the Map is inaccurate. All timely-filed challenges can be found at https://ocio.iowa.gov/broadband-availability-map-version-5-challenge-process. **To resolve this matter, the Office requests that your organization provide information concerning your service at the affected address locations as further identified and described below by October 24, 2022 at 5:00 CDT.**

Map V5 is designed to facilitate decisions concerning future spending under federally-funded broadband programs. Because Map V5 does not use the tiered structure envisioned by Iowa Code chapter 8B and because future federally-funded grant opportunities made available by the Office in accordance with Map V5 will not conform to Iowa Code chapter 8B, the map challenge process outlined in Iowa Code section 8B.10 does not apply. Similarly, within 30 days after the Office's official publication of the Map, the Office permitted any person or party aggrieved or adversely affected by such determination to challenge the office's finding by submitting a challenge form along with all evidence or information supporting the challenge. The

proffered bases for challenge largely mirror those offered by the FCC in their Broadband Data Collection efforts.

V5 of the Map currently shows that service offered at a particular address location renders that address location either likely eligible or likely ineligible for future federal grant funding. As part of the above-outlined process, OCIO received a formal challenge and supporting evidence from one or more Iowa residents or Communications Service Provider(s), claiming that service your organization reports is insufficient to warrant the likely ineligible status of a particular address location.

At this time, the Office requests your assistance in making an accurate determination as to whether your organization in fact offers the speeds reported at each challenged address location as of August 2, 2022. To that end, the Office requests that you:

1) Complete and return the attached Challenge Notice Form (see Exhibit A, Affirmation tab), by **October 24, 2022 at 5:00 CDT**. Pursuant to this form, OCIO requests that a representative with legal authority to bind your organization:

   a) Confirm that the speeds reported at the challenged address locations are correct as of August 2, 2022.

   b) Fully complete all other aspects of the Form.

2) In addition to the form, please also submit any other evidence or information in your possession to the Office that supports your prior representations to the Office regarding the address locations identified in Exhibit A. Examples of evidence and information the Office would consider particularly probative include: Bills or invoices provided to or received by customers at the applicable address location which identify the specific download and upload speeds provided or received as of August 2, 2022.

Please return the completed form and supporting evidence or information to ociogrants@iowa.gov.

Please note that you are under no legal obligation to respond to this request for information. The Office permits any affected person or party to submit evidence or information to the Office in support of or in opposition to a challenge within 20 days after the challenge has been posted to ocio.iowa.gov/broadband. However, this Office is affirmatively reaching out to notify you of the challenge, of the circumstances surrounding the challenge, and to solicit your feedback and position. If this Office does not receive your response via Exhibit A of the Form by **October 24, 2022 at 5:00 CDT**, the Office will make a final decision based on the evidence and information currently available to it.

Sincerely,

Office of the Chief Information Officer
State of Iowa

Broadband Map V5 Challenge Notice

EXHIBIT A

Affirmation of Service or Lack of Service at Address Locations

Broadband Availability Map Challenge Process Version 5

A. RESPONDENT INFORMATION	
Company Name	CenturyLink
Address	100 CenturyLink Dr
City	Monroe
State	LA
Zip	71203

B. DESIGNATED CONTACT INFORMATION	
Contact Name	Jacob Barlow
Contact Phone Number	303-707-7004
Contact Email	Jacob.Barlow@Lumen.com

C. EXPLANATION

To the extent you believe additional explanation is required to ensure that you are communicating full and accurate information, you may provide narrative to further rebut this challenge. You may consider uploading evidence to substantiate your claims as an attachment to this Affirmation. An Affirmation submitted without sufficient and probative evidence may be inadequate to overcome a challenge.

The addresses in the Affirmation tab were cross-referenced with CenturyLink provisioning systems. Which was used to populate the technology and max speeds. Addresses that could not be found in CenturyLink provisioning systems were marked for the technology of 'No Service.'

D. AFFIRMATION

By signing and submitting this form, the authorized representative attests that to the best of the authorized representatives knowledge and belief, the information submitted through this challenge form is true and accurate, and the form is signed under the pains and penalties of perjury. By typing your name, you are affixing your signature to this form and attesting to the accuracy of the information submitted herein.

To whom it may concern:

This is a letter of inquiry concerning your organization's prior reporting to the State of Iowa Office of the Chief Information Officer ("OCIO" or "Office") regarding the availability of Broadband service at certain address location(s). Our Office received a timely-filed Challenge Form challenging information reported on the Broadband Availability Map Version 5 ("V5") of the Statewide Broadband Availability Map ("Map"). The data reflected on V5 of the Map was either: (1) provided by you to the Office's contractor, Connected Nation, during the data collection window of November 1, 2021 through February 11, 2022; (2) gathered from other sources (such as FCC) that collected data from you; or (3) carried forward from prior reporting made to this Office by you under a previous Map version.

Map V5 identifies where Broadband service was offered or facilitated at speeds greater than 25/3 as of August 2, 2022. The Map also reflects a preliminary determination of 'likely eligible' or 'likely ineligible' based on speed, technology type, and previous incentives and is a prospective estimate of potential eligibility under various federal programs. The publication of the Map on August 2, 2022 triggered a formal 30-day challenge window during which time we received challenges citing or implicating your service. The challenge(s) we received claims that the data reflected on V5 of the Map is inaccurate. All timely-filed challenges can be found at https://ocio.iowa.gov/broadband-availability-map-version-5-challenge-process. **To resolve this matter, the Office requests that your organization provide information concerning your service at the affected address locations as further identified and described below by November 26, 2022 at 11:59 p.m. CST.**

Map V5 is designed to facilitate decisions concerning future spending under federally-funded broadband programs. Because Map V5 does not use the tiered structure envisioned by Iowa Code chapter 8B and because future federally-funded grant opportunities made available by the Office in accordance with Map V5 will not conform to Iowa Code chapter 8B, the map challenge process outlined in Iowa Code section 8B.10 does not apply. Similarly, within 30 days after the Office's official publication of the Map, the Office permitted any person or party aggrieved or adversely affected by such determination to challenge the office's finding by submitting a challenge form along with all evidence or information supporting the

challenge. The proffered bases for challenge largely mirror those offered by the FCC in their Broadband Data Collection efforts.

V5 of the Map currently shows that service offered at a particular address location renders that address location either likely eligible or likely ineligible for future federal grant funding. As part of the above-outlined process, OCIO received a formal challenge and supporting evidence from one or more Iowa residents or Communications Service Provider(s), claiming that service your organization reports is insufficient to warrant the likely ineligible status of a particular address location.

At this time, the Office requests your assistance in making an accurate determination as to whether your organization in fact offers the speeds reported at each challenged address location as of August 2, 2022. To that end, the Office requests that you:

1) Complete and return the attached Challenge Notice Form (see Exhibit A, Affirmation tab), by **November 26, 2022 at 11:59 p.m. CST**. Pursuant to this form, OCIO requests that a representative with legal authority to bind your organization:

   a) Confirm that the speeds reported at the challenged address locations are correct as of August 2, 2022.

   b) Fully complete all other aspects of the Form.

2) In addition to the form, please also submit any other evidence or information in your possession to the Office that supports your prior representations to the Office regarding the address locations identified in Exhibit A. Examples of evidence and information the Office would consider particularly probative include: Bills or invoices provided to or received by customers at the applicable address location which identify the specific download and upload speeds provided or received as of August 2, 2022.

Please return the completed form and supporting evidence or information to ociogrants@iowa.gov.

Please note that you are under no legal obligation to respond to this request for information. The Office permits any affected person or party to submit evidence or information to the Office in support of or in opposition to a challenge within 20 days after the challenge has been posted to ocio.iowa.gov/broadband. However, this Office is affirmatively reaching out to notify you of the challenge, of the circumstances surrounding the challenge, and to solicit your feedback and position. If this Office does not receive your response via Exhibit A of the Form by **November 26, 2022 at 11:59 p.m. CST**, the Office will make a final decision based on the evidence and information currently available to it.

Sincerely,

Office of the Chief Information Officer
State of Iowa

Broadband Map V5 Challenge Notice

EXHIBIT A

Affirmation of Service or Lack of Service at Address Locations

Broadband Availability Map Challenge Process Version 5

A. RESPONDENT INFORMATION

Company Name	CenturyLink
Address	100 CenturyLink Dr
City	Monroe
State	LA
Zip	71203

B. DESIGNATED CONTACT INFORMATION

Contact Name	Jacob Barlow
Contact Phone Number	303-707-7004
Contact Email	Jacob.Barlow@Lumen.com

C. EXPLANATION

To the extent you believe additional explanation is required to ensure that you are communicating full and accurate information, you may provide narrative to further rebut this challenge. You may consider uploading evidence to substantiate your claims as an attachment to this Affirmation. An Affirmation submitted without sufficient and probative evidence may be inadequate to overcome a challenge.

The addresses in the Affirmation tab were cross-referenced with CenturyLink provisioning systems. Which was used to populate the technology and max speeds. Addresses that could not be found in CenturyLink provisioning systems were marked for the technology of 'No Service.'

D. AFFIRMATION

By signing and submitting this form, the authorized representative attests that to the best of the authorized representatives knowledge and belief, the information submitted through this challenge form is true and accurate, and the form is signed under the pains and penalties of perjury. By typing your name, you are affixing your signature to this form and attesting to the accuracy of the information submitted herein.

To whom it may concern:

This is a letter of inquiry concerning your organization's prior reporting to the State of Iowa Office of the Chief Information Officer ("OCIO" or "Office") regarding the availability of Broadband service at certain address location(s). Our Office received a timely-filed Challenge Form challenging information reported on the Broadband Availability Map Version 5 ("V5") of the Statewide Broadband Availability Map ("Map"). The data reflected on V5 of the Map was either: (1) provided by you to the Office's contractor, Connected Nation, during the data collection window of November 1, 2021 through February 11, 2022; (2) gathered from other sources (such as FCC) that collected data from you; or (3) carried forward from prior reporting made to this Office by you under a previous Map version.

Map V5 identifies where Broadband service was offered or facilitated at speeds greater than 25/3 as of August 2, 2022. The Map also reflects a preliminary determination of 'likely eligible' or 'likely ineligible' based on speed, technology type, and previous incentives and is a prospective estimate of potential eligibility under various federal programs. The publication of the Map on August 2, 2022 triggered a formal 30-day challenge window during which time we received challenges citing or implicating your service. The challenge(s) we received claims that the data reflected on V5 of the Map is inaccurate. All timely-filed challenges can be found at https://ocio.iowa.gov/broadband-availability-map-version-5-challenge-process. **To resolve this matter, the Office requests that your organization provide information concerning your service at the affected address locations as further identified and described below by November 28, 2022 at 5:00 p.m. CST.**

Map V5 is designed to facilitate decisions concerning future spending under federally-funded broadband programs. Because Map V5 does not use the tiered structure envisioned by Iowa Code chapter 8B and because future federally-funded grant opportunities made available by the Office in accordance with Map V5 will not conform to Iowa Code chapter 8B, the map challenge process outlined in Iowa Code section 8B.10 does not apply. Similarly, within 30 days after the Office's official publication of the Map, the Office permitted any person or party aggrieved or adversely affected by such determination to challenge the office's finding by submitting a challenge form along with all evidence or information supporting the

challenge. The proffered bases for challenge largely mirror those offered by the FCC in their Broadband Data Collection efforts.

V5 of the Map currently shows that service offered at a particular address location renders that address location either likely eligible or likely ineligible for future federal grant funding. As part of the above-outlined process, OCIO received a formal challenge and supporting evidence from one or more Iowa residents or Communications Service Provider(s), claiming that service your organization reports is insufficient to warrant the likely ineligible status of a particular address location.

At this time, the Office requests your assistance in making an accurate determination as to whether your organization in fact offers the speeds reported at each challenged address location as of August 2, 2022. To that end, the Office requests that you:

1) Complete and return the attached Challenge Notice Form (see Exhibit A, Affirmation tab), by **November 28, 2022 at 5:00 p.m. CST**. Pursuant to this form, OCIO requests that a representative with legal authority to bind your organization:

   a) Confirm that the speeds reported at the challenged address locations are correct as of August 2, 2022.

   b) Fully complete all other aspects of the Form.

2) In addition to the form, please also submit any other evidence or information in your possession to the Office that supports your prior representations to the Office regarding the address locations identified in Exhibit A. Examples of evidence and information the Office would consider particularly probative include: Bills or invoices provided to or received by customers at the applicable address location which identify the specific download and upload speeds provided or received as of August 2, 2022.

Please return the completed form and supporting evidence or information to ociogrants@iowa.gov.

Please note that you are under no legal obligation to respond to this request for information. The Office permits any affected person or party to submit evidence or information to the Office in support of or in opposition to a challenge within 20 days after the challenge has been posted to ocio.iowa.gov/broadband. However, this Office is affirmatively reaching out to notify you of the challenge, of the circumstances surrounding the challenge, and to solicit your feedback and position. If this Office does not receive your response via Exhibit A of the Form by **November 28, 2022 at 5:00 p.m. CST**, the Office will make a final decision based on the evidence and information currently available to it.

Sincerely,

Office of the Chief Information Officer
State of Iowa

Broadband Map V5 Challenge Notice

EXHIBIT A

Affirmation of Service or Lack of Service at Address Locations

Broadband Availability Map Challenge Process Version 5

A. RESPONDENT INFORMATION

Company Name	CenturyLink
Address	100 CenturyLink Dr
City	Monroe
State	LA
Zip	71203

B. DESIGNATED CONTACT INFORMATION

Contact Name	Jacob Barlow
Contact Phone Number	303-707-7004
Contact Email	Jacob.Barlow@Lumen.com

C. EXPLANATION

To the extent you believe additional explanation is required to ensure that you are communicating full and accurate information, you may provide narrative to further rebut this challenge. You may consider uploading evidence to substantiate your claims as an attachment to this Affirmation. An Affirmation submitted without sufficient and probative evidence may be inadequate to overcome a challenge.

The addresses in the Affirmation tab were cross-referenced with CenturyLink provisioning systems. Which was used to populate the technology and max speeds. Addresses that could not be found in CenturyLink provisioning systems were marked for the technology of 'No Service.'

D. AFFIRMATION

By signing and submitting this form, the authorized representative attests that to the best of the authorized representatives knowledge and belief, the information submitted through this challenge form is true and accurate, and the form is signed under the pains and penalties of perjury. By typing your name, you are affixing your signature to this form and attesting to the accuracy of the information submitted herein.

Re: V5 State DSL Challenge

Dear CenturyLink,

On August 2, 2022, the Iowa Office of the Chief Information Officer (OCIO) posted the final version of Broadband Availability Map v5 and opened a 30-calendar-day challenge window wherein anyone aggrieved or adversely affected by mapping determinations may challenge the Office's final determination of whether service at a particular address location is accurately reflected and/or whether an address location is geographically located on Map v5. The Office also reserved the right to challenge provider-reported data to the extent that any provider-reported data appeared faulty.

As part of the map challenge process, OCIO has filed a challenge to CenturyLink's reported DSL service speeds. Inaccurate reporting may limit the State's opportunity to receive federal funds for future broadband grants. It is in the best interest of the State and the residents of Iowa to have an accurate broadband map so that the State will be in the best possible position to receive maximum funds for future grant rounds.

To this end, OCIO is requesting additional information regarding the service speeds delivered at the address locations listed in the Notice Form. The Notice Form must be received by this Office no later than **October 17, 2022**. It is the understanding of the OCIO that DSL as a broadband internet technology has a number of limitations, especially with regard to serving rural locations that may be some distance from a provider's central office or other hub distribution point. The address locations indicated in the Notice Form indicate download and upload speeds in excess of the traditional DSL capabilities. These speeds are as reported by your organization.

In the Notice Form, please address the following:

1. Define what method you are using to reach speeds higher than typically available through DSL as described in the map data:
    a. Do you deploy remote DSLAMs with fiber feeds? If not, what is the average distance from a customer to the DSLAM on copper?
    b. Do you bond copper pairs?
    c. How are you overcoming the distance limitations in your vendor's DSL technology?

2. Provide the formula or calculation used to calculate the provided speed.

3. Indicate the technology type at the address location. If the technology type is in fact DSL, indicate which **type of DSL** you are providing.

4. Confirm that the speeds indicated on Broadband Map v5 for said locations are correct, and that CenturyLink can facilitate speeds consistent with the map data for that location using the specified DSL technology type indicated in the Notice Form. In the alternative, enter the actual download and upload speeds able to be facilitated at that address location.

OCIO must receive your response no later than **October 17, 2022**. Please let us know if you have any questions or require additional information to respond to this request.

Regards,

Office of the Chief Information Officer
State of Iowa

Broadband Availability Map Challenge Process Version 5

A. RESPONDENT INFORMATION

Company Name	CenturyLink
Address	100 Centurylink Dr
City	Monroe
State	LA
Zip	71203

B. DESIGNATED CONTACT INFORMATION

Contact Name	Hunter Deckelman
Contact Phone Number	415-373-4830
Contact Email	hunter.deckelman@lumen.com

C. EXPLANATION

C.1 Define what method you are using to reach speeds higher than typically available through DSL as described in the map data:

a. Do you deploy remote DSLAMs with fiber feeds? If not, what is the average distance from a customer to the DSLAM on copper?	Yes
b. Do you bond copper pairs?	Yes
c. How are you overcoming the distance limitations in your vendor's DSL technology?	We use a proprietary algorithm to calculate noise level.

C.2 Provide the formula or calculation used to calculate the provided speed.

This is confidential information.

D. AFFIRMATION

By signing and submitting this form, the authorized representative attests that to the best of the authorized representatives knowledge and belief, the information submitted through this challenge form is true and accurate, and the form is signed under the pains and penalties of perjury. By typing your name, you are affixing your signature to this form and attesting to the accuracy of the information submitted herein.

The Office did not receive a response to this Notice.

To whom it may concern:

This is a letter of inquiry concerning your organization's prior reporting to the State of Iowa Office of the Chief Information Officer ("OCIO" or "Office") regarding the availability of Broadband service at certain address location(s). Our Office received a timely-filed Challenge Form challenging information reported on the Broadband Availability Map Version 5 ("V5") of the Statewide Broadband Availability Map ("Map"). The data reflected on V5 of the Map was either: (1) provided by you to the Office's contractor, Connected Nation, during the data collection window of November 1, 2021 through February 11, 2022; (2) gathered from other sources (such as FCC) that collected data from you; or (3) carried forward from prior reporting made to this Office by you under a previous Map version.

Map V5 identifies where Broadband service was offered or facilitated at speeds greater than 25/3 as of August 2, 2022. The Map also reflects a preliminary determination of 'likely eligible' or 'likely ineligible' based on speed, technology type, and previous incentives and is a prospective estimate of potential eligibility under various federal programs. The publication of the Map on August 2, 2022 triggered a formal 30-day challenge window during which time we received challenges citing or implicating your service. The challenge(s) we received claims that the data reflected on V5 of the Map is inaccurate. All timely-filed challenges can be found at https://ocio.iowa.gov/broadband-availability-map-version-5-challenge-process. **To resolve this matter, the Office requests that your organization provide information concerning your service at the affected address locations as further identified and described below by October 24, 2022 at 5:00 CDT.**

Map V5 is designed to facilitate decisions concerning future spending under federally-funded broadband programs. Because Map V5 does not use the tiered structure envisioned by Iowa Code chapter 8B and because future federally-funded grant opportunities made available by the Office in accordance with Map V5 will not conform to Iowa Code chapter 8B, the map challenge process outlined in Iowa Code section 8B.10 does not apply. Similarly, within 30 days after the Office's official publication of the Map, the Office permitted any person or party aggrieved or adversely affected by such determination to challenge the office's finding by submitting a challenge form along with all evidence or information supporting the challenge. The

proffered bases for challenge largely mirror those offered by the FCC in their Broadband Data Collection efforts.

V5 of the Map currently shows that service offered at a particular address location renders that address location either likely eligible or likely ineligible for future federal grant funding. As part of the above-outlined process, OCIO received a formal challenge and supporting evidence from one or more Iowa residents or Communications Service Provider(s), claiming that service your organization reports is insufficient to warrant the likely ineligible status of a particular address location.

At this time, the Office requests your assistance in making an accurate determination as to whether your organization in fact offers the speeds reported at each challenged address location as of August 2, 2022. To that end, the Office requests that you:

1) Complete and return the attached Challenge Notice Form (see Exhibit A, Affirmation tab), by **October 24, 2022 at 5:00 CDT**. Pursuant to this form, OCIO requests that a representative with legal authority to bind your organization:

   a) Confirm that the speeds reported at the challenged address locations are correct as of August 2, 2022.

   b) Fully complete all other aspects of the Form.

2) In addition to the form, please also submit any other evidence or information in your possession to the Office that supports your prior representations to the Office regarding the address locations identified in Exhibit A. Examples of evidence and information the Office would consider particularly probative include: Bills or invoices provided to or received by customers at the applicable address location which identify the specific download and upload speeds provided or received as of August 2, 2022.

Please return the completed form and supporting evidence or information to ociogrants@iowa.gov.

Please note that you are under no legal obligation to respond to this request for information. The Office permits any affected person or party to submit evidence or information to the Office in support of or in opposition to a challenge within 20 days after the challenge has been posted to ocio.iowa.gov/broadband. However, this Office is affirmatively reaching out to notify you of the challenge, of the circumstances surrounding the challenge, and to solicit your feedback and position. If this Office does not receive your response via Exhibit A of the Form by **October 24, 2022 at 5:00 CDT**, the Office will make a final decision based on the evidence and information currently available to it.

Sincerely,

Office of the Chief Information Officer
State of Iowa

C. EXPLANATION

To the extent you believe additional explanation is required to ensure that you are communicating full and accurate information, you may provide narrative to further rebut this challenge. You may consider uploading evidence to substantiate your claims as an attachment to this Affirmation. An Affirmation submitted without sufficient and probative evidence may be inadequate to overcome a challenge.

D. AFFIRMATION

By signing and submitting this form, the authorized representative attests that to the best of the authorized representatives knowledge and belief, the information submitted through this challenge form is true and accurate, and the form is signed under the pains and penalties of perjury. By typing your name, you are affixing your signature to this form and attesting to the accuracy of the information submitted herein.

To whom it may concern:

This is a letter of inquiry concerning your organization's prior reporting to the State of Iowa Office of the Chief Information Officer ("OCIO" or "Office") regarding the availability of Broadband service at certain address location(s). Our Office received a timely-filed Challenge Form challenging information reported on the Broadband Availability Map Version 5 ("V5") of the Statewide Broadband Availability Map ("Map"). The data reflected on V5 of the Map was either: (1) provided by you to the Office's contractor, Connected Nation, during the data collection window of November 1, 2021 through February 11, 2022; (2) gathered from other sources (such as FCC) that collected data from you; or (3) carried forward from prior reporting made to this Office by you under a previous Map version.

Map V5 identifies where Broadband service was offered or facilitated at speeds greater than 25/3 as of August 2, 2022. The Map also reflects a preliminary determination of 'likely eligible' or 'likely ineligible' based on speed, technology type, and previous incentives and is a prospective estimate of potential eligibility under various federal programs. The publication of the Map on August 2, 2022 triggered a formal 30-day challenge window during which time we received challenges citing or implicating your service. The challenge(s) we received claims that the data reflected on V5 of the Map is inaccurate. All timely-filed challenges can be found at https://ocio.iowa.gov/broadband-availability-map-version-5-challenge-process. **To resolve this matter, the Office requests that your organization provide information concerning your service at the affected address locations as further identified and described below by October 24, 2022 at 5:00 CDT.**

Map V5 is designed to facilitate decisions concerning future spending under federally-funded broadband programs. Because Map V5 does not use the tiered structure envisioned by Iowa Code chapter 8B and because future federally-funded grant opportunities made available by the Office in accordance with Map V5 will not conform to Iowa Code chapter 8B, the map challenge process outlined in Iowa Code section 8B.10 does not apply. Similarly, within 30 days after the Office's official publication of the Map, the Office permitted any person or party aggrieved or adversely affected by such determination to challenge the office's finding by submitting a challenge form along with all evidence or information supporting the challenge. The

proffered bases for challenge largely mirror those offered by the FCC in their Broadband Data Collection efforts.

V5 of the Map currently shows that service offered at a particular address location renders that address location either likely eligible or likely ineligible for future federal grant funding. As part of the above-outlined process, OCIO received a formal challenge and supporting evidence from one or more Iowa residents or Communications Service Provider(s), claiming that service your organization reports is insufficient to warrant the likely ineligible status of a particular address location.

At this time, the Office requests your assistance in making an accurate determination as to whether your organization in fact offers the speeds reported at each challenged address location as of August 2, 2022. To that end, the Office requests that you:

1) Complete and return the attached Challenge Notice Form (see Exhibit A, Affirmation tab), by **October 24, 2022 at 5:00 CDT**. Pursuant to this form, OCIO requests that a representative with legal authority to bind your organization:

   a) Confirm that the speeds reported at the challenged address locations are correct as of August 2, 2022.

   b) Fully complete all other aspects of the Form.

2) In addition to the form, please also submit any other evidence or information in your possession to the Office that supports your prior representations to the Office regarding the address locations identified in Exhibit A. Examples of evidence and information the Office would consider particularly probative include: Bills or invoices provided to or received by customers at the applicable address location which identify the specific download and upload speeds provided or received as of August 2, 2022.

Please return the completed form and supporting evidence or information to ociogrants@iowa.gov.

Please note that you are under no legal obligation to respond to this request for information. The Office permits any affected person or party to submit evidence or information to the Office in support of or in opposition to a challenge within 20 days after the challenge has been posted to ocio.iowa.gov/broadband. However, this Office is affirmatively reaching out to notify you of the challenge, of the circumstances surrounding the challenge, and to solicit your feedback and position. If this Office does not receive your response via Exhibit A of the Form by **October 24, 2022 at 5:00 CDT**, the Office will make a final decision based on the evidence and information currently available to it.

Sincerely,

Office of the Chief Information Officer
State of Iowa

Broadband Map V5 Challenge Notice

EXHIBIT A

Affirmation of Service or Lack of Service at Address Locations

Broadband Availability Map Challenge Process Version 5

A. RESPONDENT INFORMATION	
Company Name	Mediacom LLC
Address	1 Mediacom Way
City	Mediacom Park
State	NY
Zip	10918

B. DESIGNATED CONTACT INFORMATION	
Contact Name	Christopher Lord
Contact Phone Number	850-934-2551

To whom it may concern:

This is a letter of inquiry concerning your organization's prior reporting to the State of Iowa Office of the Chief Information Officer ("OCIO" or "Office") regarding the availability of Broadband service at certain address location(s). Our Office received a timely-filed Challenge Form challenging information reported on the Broadband Availability Map Version 5 ("V5") of the Statewide Broadband Availability Map ("Map"). The data reflected on V5 of the Map was either: (1) provided by you to the Office's contractor, Connected Nation, during the data collection window of November 1, 2021 through February 11, 2022; (2) gathered from other sources (such as FCC) that collected data from you; or (3) carried forward from prior reporting made to this Office by you under a previous Map version.

Map V5 identifies where Broadband service was offered or facilitated at speeds greater than 25/3 as of August 2, 2022. The Map also reflects a preliminary determination of 'likely eligible' or 'likely ineligible' based on speed, technology type, and previous incentives and is a prospective estimate of potential eligibility under various federal programs. The publication of the Map on August 2, 2022 triggered a formal 30-day challenge window during which time we received challenges citing or implicating your service. The challenge(s) we received claims that the data reflected on V5 of the Map is inaccurate. All timely-filed challenges can be found at https://ocio.iowa.gov/broadband-availability-map-version-5-challenge-process. **To resolve this matter, the Office requests that your organization provide information concerning your service at the affected address locations as further identified and described below by November 26, 2022 at 11:59 p.m. CST.**

Map V5 is designed to facilitate decisions concerning future spending under federally-funded broadband programs. Because Map V5 does not use the tiered structure envisioned by Iowa Code chapter 8B and because future federally-funded grant opportunities made available by the Office in accordance with Map V5 will not conform to Iowa Code chapter 8B, the map challenge process outlined in Iowa Code section 8B.10 does not apply. Similarly, within 30 days after the Office's official publication of the Map, the Office permitted any person or party aggrieved or adversely affected by such determination to challenge the office's finding by submitting a challenge form along with all evidence or information supporting the

challenge. The proffered bases for challenge largely mirror those offered by the FCC in their Broadband Data Collection efforts.

V5 of the Map currently shows that service offered at a particular address location renders that address location either likely eligible or likely ineligible for future federal grant funding. As part of the above-outlined process, OCIO received a formal challenge and supporting evidence from one or more Iowa residents or Communications Service Provider(s), claiming that service your organization reports is insufficient to warrant the likely ineligible status of a particular address location.

At this time, the Office requests your assistance in making an accurate determination as to whether your organization in fact offers the speeds reported at each challenged address location as of August 2, 2022. To that end, the Office requests that you:

1) Complete and return the attached Challenge Notice Form (see Exhibit A, Affirmation tab), by **November 26, 2022 at 11:59 p.m. CST**. Pursuant to this form, OCIO requests that a representative with legal authority to bind your organization:

   a) Confirm that the speeds reported at the challenged address locations are correct as of August 2, 2022.

   b) Fully complete all other aspects of the Form.

2) In addition to the form, please also submit any other evidence or information in your possession to the Office that supports your prior representations to the Office regarding the address locations identified in Exhibit A. Examples of evidence and information the Office would consider particularly probative include: Bills or invoices provided to or received by customers at the applicable address location which identify the specific download and upload speeds provided or received as of August 2, 2022.

Please return the completed form and supporting evidence or information to ociogrants@iowa.gov.

Please note that you are under no legal obligation to respond to this request for information. The Office permits any affected person or party to submit evidence or information to the Office in support of or in opposition to a challenge within 20 days after the challenge has been posted to ocio.iowa.gov/broadband. However, this Office is affirmatively reaching out to notify you of the challenge, of the circumstances surrounding the challenge, and to solicit your feedback and position. If this Office does not receive your response via Exhibit A of the Form by **November 26, 2022 at 11:59 p.m. CST**, the Office will make a final decision based on the evidence and information currently available to it.

Sincerely,

Office of the Chief Information Officer
State of Iowa

Broadband Map V5 Challenge Notice

Mediacom understands that fast, reliable Internet is more important than ever as our customers' online use increases and homes become smarter every year. Because of this, Mediacom is continuing to enhance our 100% gigabit technology network and will also change your Internet 200 service to Internet 300 service, increase your Download speed from up to 200 Mbps to up to 300 Mbps, increase your Upload speed from up to 10 Mbps to up to 20 Mbps, and the Monthly Data Usage Allowance from 1,000 GB to 1,500 GB. However, due to cost increases, effective November 15, 2022, the standard monthly rate card price for Internet 100 will increase by $10.00.

FOR COMPLAINTS REGARDING YOUR TELEPHONE SERVICE, YOU MAY REQUEST ASSISTANCE FROM THE IOWA UTILITIES BOARD BY WRITING 1375 E COURT AVENUE, ROOM 69, DES MOINES, IOWA 50319-0069, BY CALLING 515-725-7321 OR TOLL FREE 1-877-565-4450 OR EMAIL CUSTOMER@IUB.IOWA.GOV FCC COMMUNITY ID: IA0032

The wholesale cost of television channels is Mediacom's largest expense and in the past year, rates from the national networks, broadcast stations, and sports channels, have skyrocketed. Despite our efforts to keep costs down, these increases along with other operating expenses make it necessary for us to adjust our rates effective with this bill. The Local Broadcast Station Surcharge has increased by $0.79 and the Regional Sports Surcharge will increased by $0.23.
