Office of the Chief Information Officer

Broadband Map V5
Final Agency Decision

DOCKET NO. 051P

A. CHALLENGER INFORMATION

Entity/Community Name	Citizens Mututal Telephone Cooperative
FRN (Provider Only)	3733029
Address	114 W Jefferson St
City	Bloomfield
State	IA
Zip	52537

B. DESIGNATED CONTACT INFORMATION

Contact Name	Vince Tyson
Contact Phone Number	641-664-2074
Contact Email	vtyson@mycmtech.com

C. CHALLENGE TYPE

- [ ] Resident
- [ ] Community
- [x] Provider - Self-reporting
- [x] Provider - Third-party
- [ ] State
- [ ] Location Not on Map

D. EVIDENCE CONSIDERED

With respect to the address locations forming the basis of this Challenge, the Office has reviewed the evidence and information submitted by Challenger related thereto (see Appendix C for original submission), in conjunction with the maps and data sources originally utilized in determining whether and to what extent service was available to a particular address location.

- [x] Challenger submitted an Attestation as part of its Challenge, affirming under penalty of perjury whether and to what extent Broadband service was offered as of August 2, 2022.
- [x] Challenger submitted additional information in support of its Challenge. This information has been considered by the Office in making its Final Decision.
- [x] Challenged address locations within this Challenge overlap with other Challenge(s) containing one or more of the same address locations. The Office considered evidence submitted in connection with any overlapping Challenge in making its final decision for any overlapping address location.
- [x] The Office sent a Notice to impacted Provider(s) at the challenged address location concerning whether and to what extent reported broadband service was offered as of August 2, 2022. The Office may have received a Response and/or other evidence from impacted Provider(s) in response to such Notices, or in response to the general Notice posted on the website. Refer to Appendix D for a record of these efforts.

Go to https://ocio.iowa.gov/broadband-availability-map-version-5-challenge-process for more information regarding how the Office evaluates evidence and makes determinations regarding information reflected on the map.

E. APPEAL

The Office will post its Final Decisions on its website at ocio.iowa.gov/broadband. If a Challenger wishes to appeal the Decision, the Challenger must notify the Office in writing within thirty (30) days of the posting of the Decision. A request for a contested case must be filed by mailing a written request to:

Office of the Chief Information Officer
c/o Matt Behrens
200 E. Grand Ave.
Des Moines, IA 50309

In so doing, the reason for appealing this Decision must be stated, specifically identifying the particular aspects of the Decision with which Appellant disagrees and the reasons why, whether factual or legal in nature. The request for a contested case proceeding should state the name and address of the requester; identify the specific Office action which is disputed; and, where the requester is represented by a lawyer, identify the provisions of law or precedent requiring or authorizing the holding of a contested case proceeding in the particular circumstances involved, and include a short and plain statement of the issues of material fact in dispute. Iowa Admin. Code r. 129—6.4.

Upon receipt, the appeal will be forwarded to the Department of Inspections and Appeals where an Administrative Law Judge ("ALJ") will perform an independent review. Iowa Admin. Code r. 129—6.6. At that time, an ALJ will schedule a hearing. If Appellant does not exercise its appeal right within thirty (30) days of the posting of this Decision, this Decision shall become final and no longer subject to challenge.

SIGNED	Matt Behrens Chief Information Officer State of Iowa
DATE	12/22/2022

Date of Issuance: December 22, 2022

Definitions	
Challenged Provider	A provider that has been named in a challenge; the challenge is specific to that provider.
Notice Form	A notice was sent in the form of an Excel workbook to all providers at a challenged address location regardless of whether the challenge named the provider specifically. Multiple Notice Forms may have been sent regarding Map V5.
Unchallenged Provider	A provider that reflects on the Map as serving an address location that is being challenged but the challenge is not specific to that provider.

Basis Number	Decision	Explanation	For Use When:	Result
1	Accepted	The Office accepts the information submitted by the Challenger for this address location because the Office does not possess conflicting information.	(1) A provider confirms they do not serve that address location; (2) The challenged provider did not respond to the Notice Form.	Change to the map
2	Declined	The Office declines the information submitted by the Challenger due to one of the following reasons: (1) the evidence provided by the Challenger is not sufficiently probative; (2) the evidence or explanation given by provider(s) at that location was sufficient to overcome challenger's claim; (3) Challenger's claim was not against this provider, and provider responded to Notice; (4) Location ID is outside of NOFA project area.	(1)The Unchallenged Provider responded to the Notice Form; (2) The address location falls outside the area identified in the evidence; (3) The Challenged Provider responded to the Notice Form with sufficient evidence to rebut the claim.	No change to the map
3	Accepted	The Office accepts the information submitted by the Challenger for this address location despite information having been submitted by impacted provider(s). The Office finds the evidence submitted by the Challenger to be more probative than the information submitted by impacted provider(s).	(1) The Challenged Provider responded without evidence or without sufficient evidence to rebut the claim.	Change to the map
4	Declined	The Office declines the information submitted by the Challenger because there was an insufficient basis for challenge.	(1) No providers reflect at this address location; (2) A provider was noticed for their own submitted challenge and did not respond; (3) Provider claims previous incentive already reflected on the map; (4) Resident claims they are happy with their service and not reporting problems with their provider; (5) Challenged provider is not reflected on the Map for that address location; (6) Map already reflects the stated claim for challenge.	No change to the map

APPENDIX C
Original Challenge Submission

Broadband Map v5
Community and Provider Challenge Form

The Office of the Chief Information Officer ("OCIO" or "Office") recently published the Statewide Broadband Availability Map version 5 ("Map v5"). Map v5 is designed to facilitate decisions concerning future spending under federally-funded broadband programs. Because Map v5 does not use the tiered structure envisioned by Iowa Code chapter 8B and because future federally-funded grant opportunities made available by the Office in accordance with Map v5 will not conform to Iowa Code chapter 8B, the map challenge process envisioned under Iowa Code section 8B.10 does not apply. However, the Office is making available a challenge process to allow public input into whether the map accurately reflects broadband coverage as of the publication date of Map v5 (the "As Of" date of Map v5).

The Office utilizes maps and data sources made available by the Federal Communications Commission (FCC) and/or developed or produced by contractors or third parties retained or utilized by the Office. These maps and corresponding data sources represent the status of Broadband in Iowa on the As Of date as reported by Communication Service Providers in Iowa. Unlike prior broadband coverage maps, Map v5 identifies broadband coverage by individual locations, making Map v5 far more granular than prior maps that displayed eligibility at the census block level.

Challenges to Map v5 will be based on presence or reliability of service and/or speed. Challengers will be required to provide for every location challenged an address and corresponding IA Location ID, to the extent a Location ID is available on the map. Challenges without this information may not be evaluated.

Every location on Map v5 reflects a status of 'likely eligible' or 'likely ineligible.' This status is based solely on speed and technology type. The eligibility of any particular location is contingent on the requirements associated with the federal funding being used to fund future Notices of Funding Availability ("NOFAs"). Eligibility determinations are subject to change over time. In addition, eligibility designations in no way guarantee facilitation of service in the future through state- or federally-funded broadband builds.

On August 2, 2022, the Office posted the final version of Broadband Availability Map v5 and opened a 30-calendar-day challenge window wherein anyone aggrieved or adversely affected by mapping determinations may challenge the Office's final determination of whether service at a particular location is accurately reflected.

This for is for PROVIDERS and COMMUNITIES only. Resident challengers should fill out the form via the Map on the website.

You must check next to each row that you have read and understood the terms of the challenge process. Without this acknowledgment, the appeal will not be evaluated.

Use the tab titled "Challenge Form" to challenge any particular location. If you would like to report an address not presenting on the map, please use the tab titled "Location Not Present on Map." You can also use this tab to report when the location is not presenting at the correct area.

Challenger acknowledges the following (click checkbox to acknowledge):

The information on the Map may be challenged for conditions existing as of August 2, 2022 (the "As Of" date). Challenges based on changes occurring to broadband service after the As Of date will not be considered.		
When submitting a challenge, evidence must be submitted for every location challenged in support of changing the likely eligible or likely ineligible status. Documentation that is speculative, generalized, or vague will not be sufficient. You may use the Sworn Statement/Survey template provided. Supporting documentation must be provided in one pdf. Reference to the page number of the supporting evidence within the pdf must be noted in Challenge Form. Challenged locations without a referenced page will not be evaluated.		
The Office reserves the right to reject challenges for a variety of reasons, including but not limited to: >> Challenges claiming buildout at a future date; >> Challenges received reflecting incomplete information, including lacking IA Location ID; >> Challenges to a provider's service that are submitted without supporting evidence; >> Multiple challenge forms submitted by a provider or a community; >> Challenges received after September 1, 2022; >> Challenges received without all checkboxes marked indicating acknowledgement of the terms.		
The Office will notify affected parties by posting to the website any notice of challenge received. Final agency decisions shall become final unless within 30 days of the posting of a final decision, a challenger or person or party aggrieved or adversely affected requests a contested case proceeding pursuant to Iowa Administrative Code chapter 129-6.		

Broadband Map V5
Provider/Community Challenge Form

A. CHALLENGER INFORMATION	
Entity/Community Name	Citizens Mututal Telephone Cooperative
FRN (Provider Only)	3733029
Address	114 W Jefferson St
City	Bloomfield
State	IA
Zip	52537

B. DESIGNATED CONTACT INFORMATION	
Contact Name	Vince Tyson
Contact Phone Number	641-664-2074
Contact Email	vtyson@mycmtech.com

C. EXPLANATION

To the extent you believe additional explanation is required to ensure that you are communicating full and accurate information, please provide narrative to further explain your challenge.

Citizens Mutual believes the DSL rate and reach are overstated in rural areas for some locations outside our incumbent service area. Because we do not know the location of each and every DSL access node, we are challenging the locations we believe are highly unlikely to have DSL service at the speeds indicated. It is our hope the OCIO can request specific information for the DSL provider that either confirms or denies their ability to provide the speeds. The ability to provide the speed can easily be determined if the provider indicates the copper loop length from the address location to the serving DSL electronics node.

D. ATTESTATION

By signing and submitting this form, the authorized representative attests that to the best of the authorized representatives knowledge and belief, the information submitted through this challenge form is true and accurate, and the form is signed under the pains and penalties of perjury. By typing your name, you are affixing your signature to this form and attesting to the accuracy of the information submitted herein.

Citizens Mutual Telephone Cooperative Challenge Location Supporting Documentation

- Citizens Mutual is challenging locations in two general groups:
  - Locations that are within our service area that is shown as 'likely eligible' but is either currently connected to our fiber network or is within a distance that a connection can be established within 10 business days (installation of a drop cable), upon request by the business/resident. Map clips are provided as the supporting documentation that fiber is either present at the location or nearby.
  - Locations that are outside our service area and we believe lacks adequate broadband service and Citizens Mutual is interested in applying for grant funds. These locations are reported as being served by DSL at speeds greater than 100 mbps. Citizens Mutual does not believe network connections exist that can facilitate these speeds based upon our proximity and field work in these areas. Therefore, we are hopeful the OCIO can request the reporting carrier provide the relevant information (copper loop length, gauge of cable, etc) that would verify the DSL speeds that are attainable at these locations to support either their reported speeds or Citizens Mutual's challenge.

This location is currently connected to Citizens Mutual's fiber network.

This location is within Citizen Mutual's service area. A drop cable would need to be placed to provide service and can be accomplished within 10 business days.

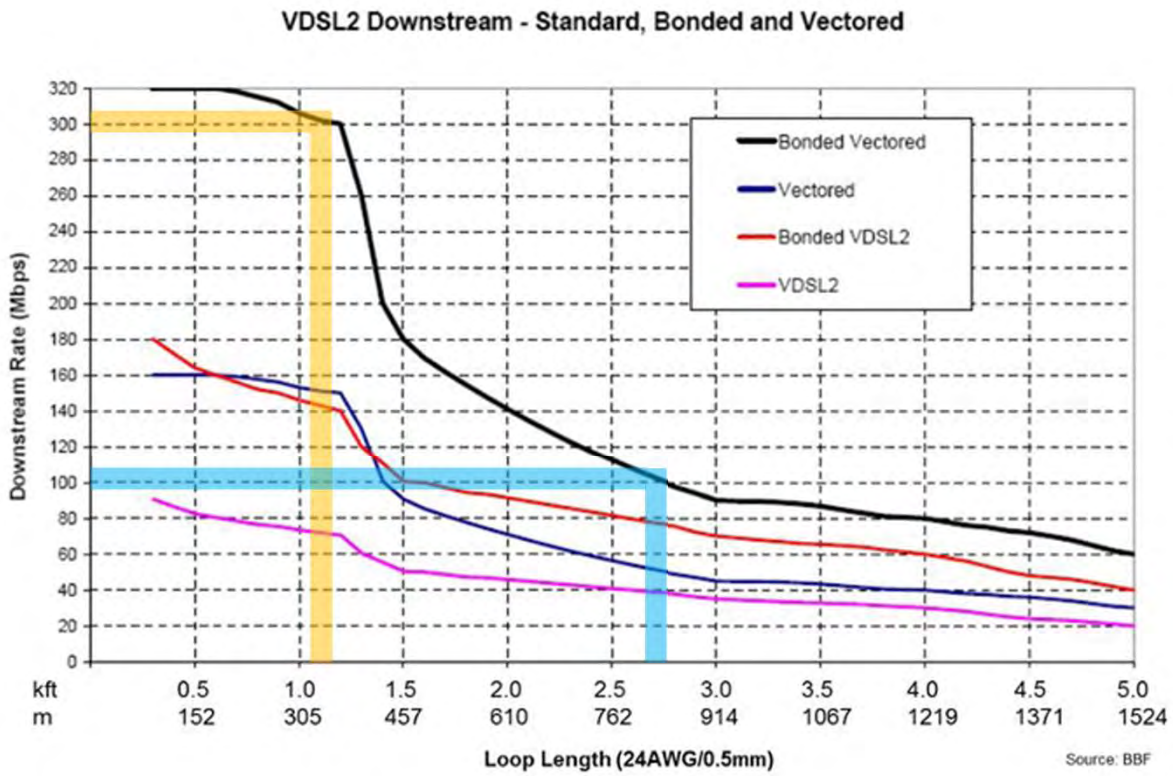
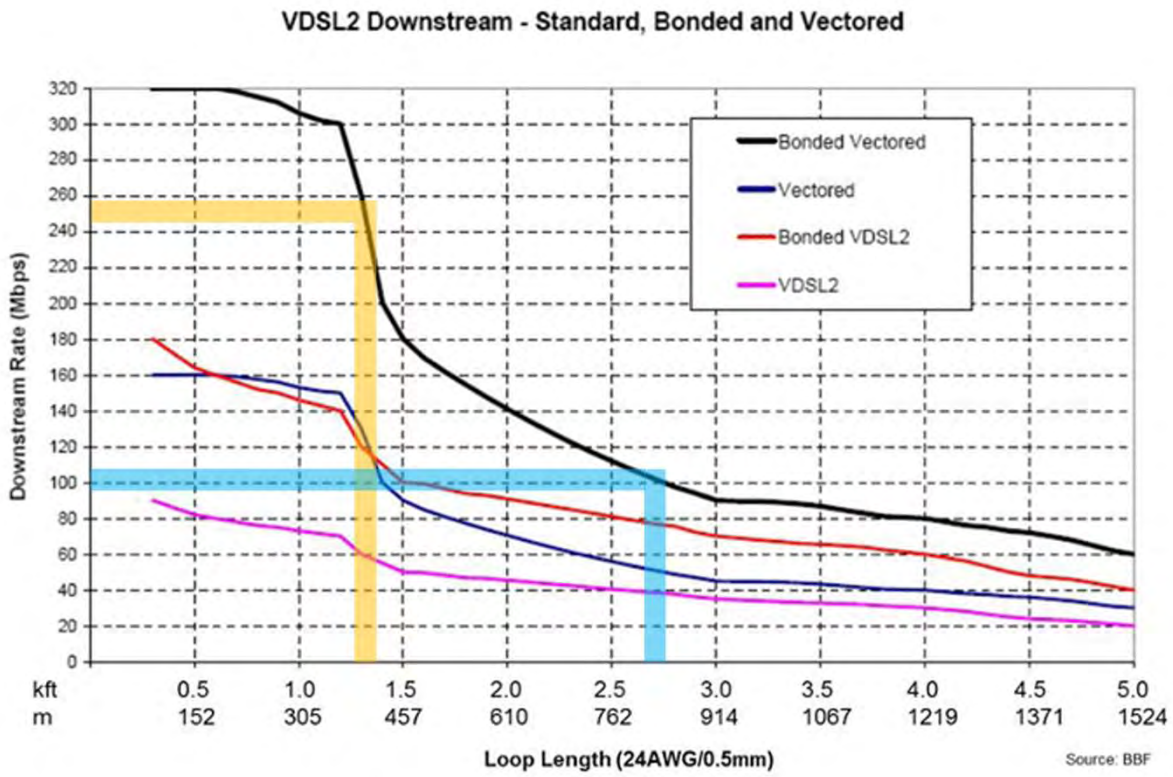
Approximately 1,100' from fiber access location

Challenged Location

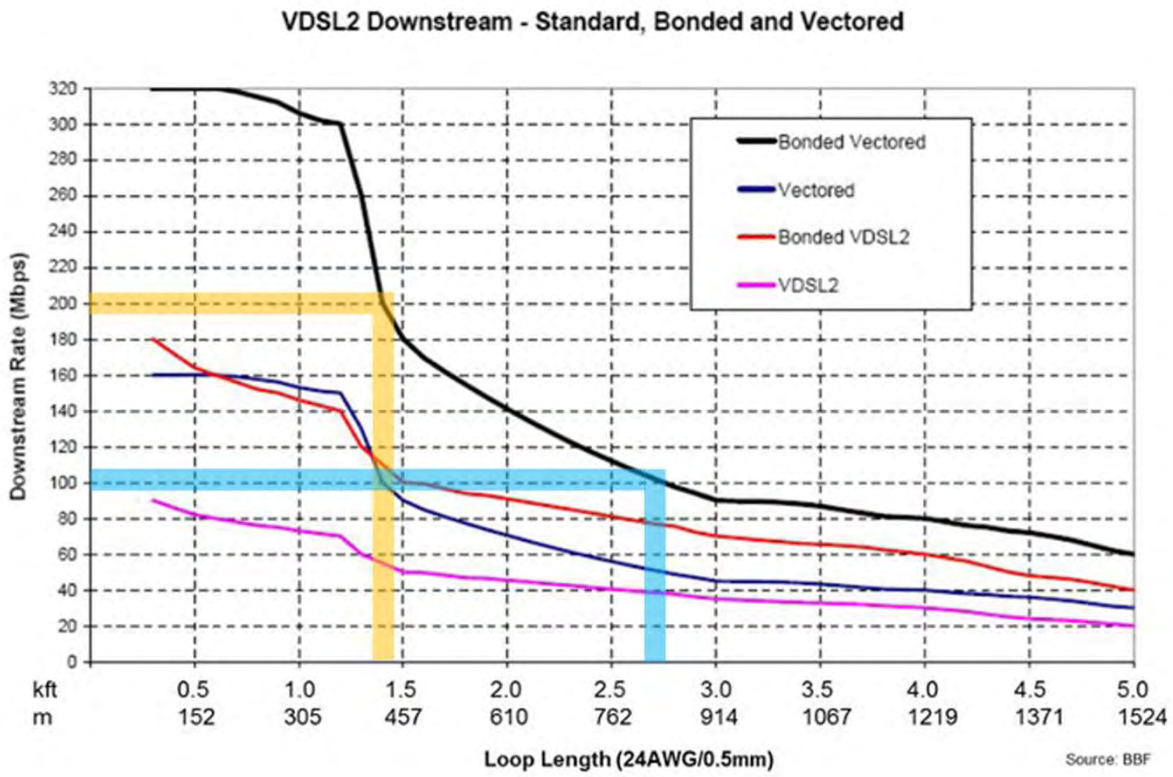
The rate/reach chart below is an independent representation of the downstream rates that can be achieved using the latest VDSL2 technology. This chart is produced by an independent organization, the Broadband Forum (BBF). As the chart indicates, without any impairments, the maximum distance that 307 mbps download can be achieved is approximately 1,100 feet (yellow highlight). The maximum distance for 100 mbps necessary to be considered likely served is approximately 2,700' (blue highlight) Citizens Mutual is not aware of fiber in this areas that would facilitate a DSL access node that would be within the physical limitations of VDSL2 to achieve these speeds.



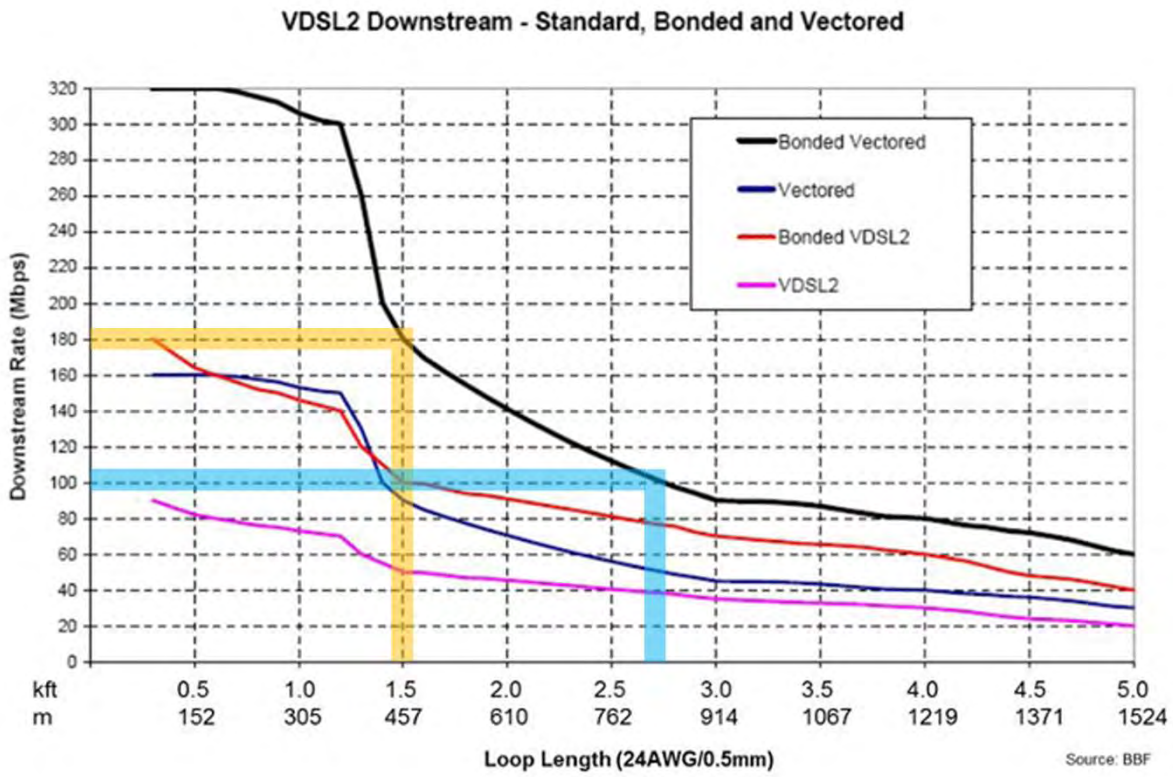
The rate/reach chart below is an independent representation of the downstream rates that can be achieved using the latest VDSL2 technology. This chart is produced by an independent organization, the Broadband Forum (BBF). As the chart indicates, without any impairments, the maximum distance that 252 mbps download can be achieved is approximately 1,300 feet (yellow highlight). The maximum distance for 100 mbps necessary to be considered likely served is approximately 2,700' (blue highlight) Citizens Mutual is not aware of fiber in this areas that would facilitate a DSL access node that would be within the physical limitations of VDSL2 to achieve these speeds.



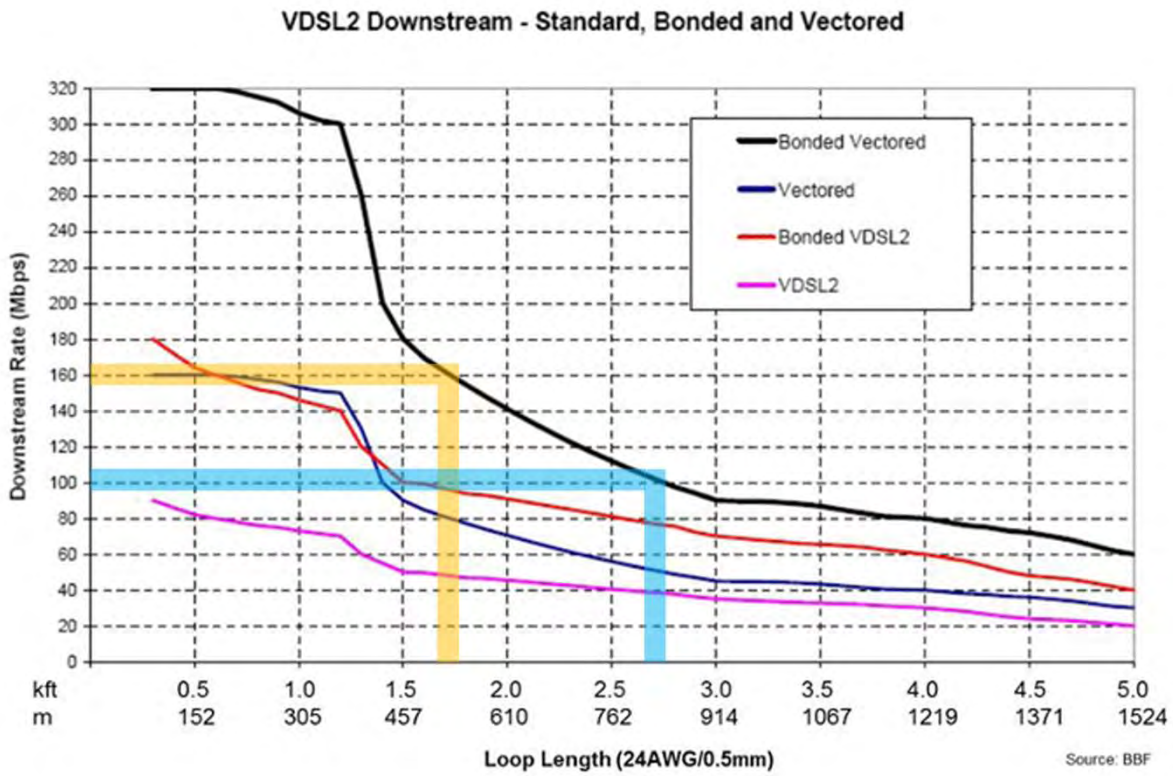
The rate/reach chart below is an independent representation of the downstream rates that can be achieved using the latest VDSL2 technology. This chart is produced by an independent organization, the Broadband Forum (BBF). As the chart indicates, without any impairments, the maximum distance that 200 - 209 mbps download can be achieved is approximately 1,400 feet (yellow highlight). The maximum distance for 100 mbps necessary to be considered likely served is approximately 2,700' (blue highlight) Citizens Mutual is not aware of fiber in this areas that would facilitate a DSL access node that would be within the physical limitations of VDSL2 to achieve these speeds.



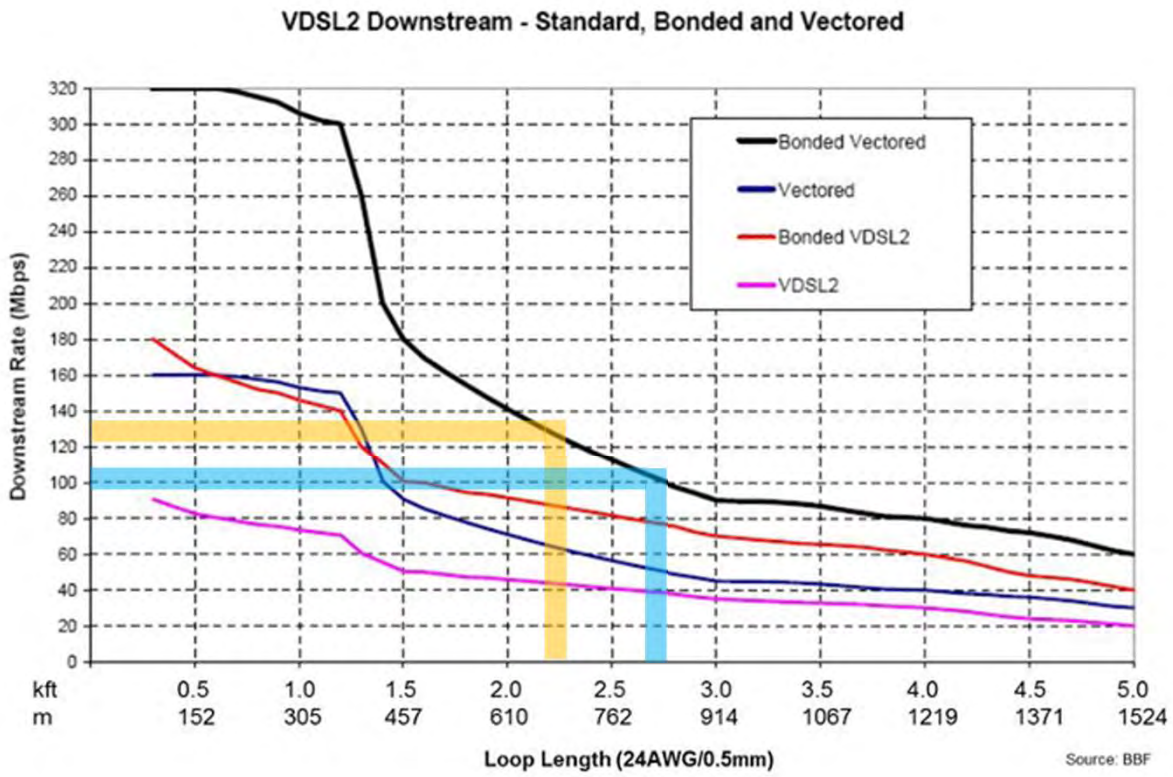
The rate/reach chart below is an independent representation of the downstream rates that can be achieved using the latest VDSL2 technology. This chart is produced by an independent organization, the Broadband Forum (BBF). As the chart indicates, without any impairments, the maximum distance that 180 - 184 mbps download can be achieved is approximately 1,500 feet (yellow highlight). The maximum distance for 100 mbps necessary to be considered likely served is approximately 2,700' (blue highlight) Citizens Mutual is not aware of fiber in this areas that would facilitate a DSL access node that would be within the physical limitations of VDSL2 to achieve these speeds.



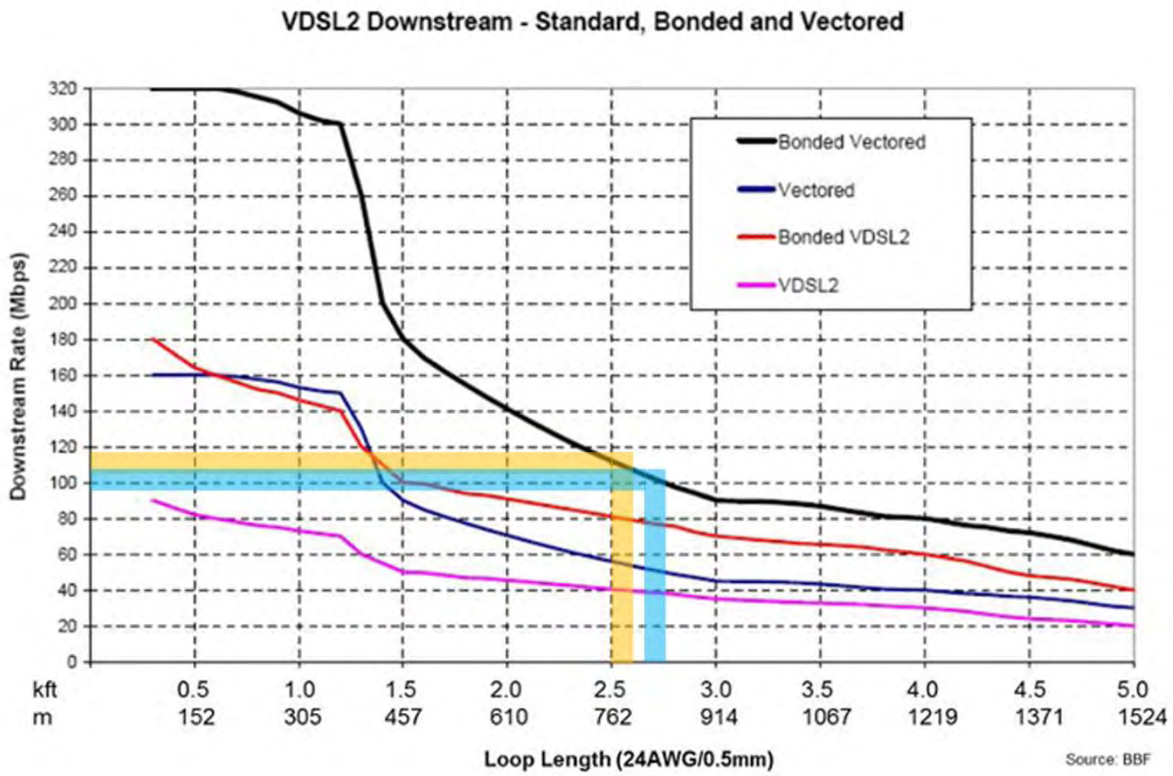
The rate/reach chart below is an independent representation of the downstream rates that can be achieved using the latest VDSL2 technology. This chart is produced by an independent organization, the Broadband Forum (BBF). As the chart indicates, without any impairments, the maximum distance that 160 mbps download can be achieved is approximately 1,700 feet (yellow highlight). The maximum distance for 100 mbps necessary to be considered likely served is approximately 2,700' (blue highlight) Citizens Mutual is not aware of fiber in this areas that would facilitate a DSL access node that would be within the physical limitations of VDSL2 to achieve these speeds.



The rate/reach chart below is an independent representation of the downstream rates that can be achieved using the latest VDSL2 technology. This chart is produced by an independent organization, the Broadband Forum (BBF). As the chart indicates, without any impairments, the maximum distance that 123 mbps download can be achieved is approximately 2,300 feet (yellow highlight). The maximum distance for 100 mbps necessary to be considered likely served is approximately 2,700' (blue highlight) Citizens Mutual is not aware of fiber in this areas that would facilitate a DSL access node that would be within the physical limitations of VDSL2 to achieve these speeds.



The rate/reach chart below is an independent representation of the downstream rates that can be achieved using the latest VDSL2 technology. This chart is produced by an independent organization, the Broadband Forum (BBF). As the chart indicates, without any impairments, the maximum distance that 111 mbps download can be achieved is approximately 2,300 feet (yellow highlight). The maximum distance for 100 mbps necessary to be considered likely served is approximately 2,700' (blue highlight) Citizens Mutual is not aware of fiber in this areas that would facilitate a DSL access node that would be within the physical limitations of VDSL2 to achieve these speeds.



APPENDIX D
Notices

10/3/2022

Farmers & Merchants Mutual Telephone Company
Ray Fear
rayfear@farmtel.com
Sent via email only

To whom it may concern:

This is a letter of inquiry concerning your organization's prior reporting to the State of Iowa Office of the Chief Information Officer ("OCIO" or "Office") regarding the availability of Broadband service at certain address location(s). Our Office received a timely-filed Challenge Form challenging information reported on the Broadband Availability Map Version 5 ("V5") of the Statewide Broadband Availability Map ("Map"). The data reflected on V5 of the Map was either: (1) provided by you to the Office's contractor, Connected Nation, during the data collection window of November 1, 2021 through February 11, 2022; (2) gathered from other sources (such as FCC) that collected data from you; or (3) carried forward from prior reporting made to this Office by you under a previous Map version.

Map V5 identifies where Broadband service was offered or facilitated at speeds greater than 25/3 as of August 2, 2022. The Map also reflects a preliminary determination of 'likely eligible' or 'likely ineligible' based on speed, technology type, and previous incentives and is a prospective estimate of potential eligibility under various federal programs. The publication of the Map on August 2, 2022 triggered a formal 30-day challenge window during which time we received challenges citing or implicating your service. The challenge(s) we received claims that the data reflected on V5 of the Map is inaccurate. All timely-filed challenges can be found at https://ocio.iowa.gov/broadband-availability-map-version-5-challenge-process. **To resolve this matter, the Office requests that your organization provide information concerning your service at the affected address locations as further identified and described below by October 24, 2022 at 5:00 CDT.**

Map V5 is designed to facilitate decisions concerning future spending under federally-funded broadband programs. Because Map V5 does not use the tiered structure envisioned by Iowa Code chapter 8B and because future federally-funded grant opportunities made available by the Office in accordance with Map V5 will not conform to Iowa Code chapter 8B, the map challenge process outlined in Iowa Code section 8B.10 does not apply. Similarly, within 30 days after the Office's official publication of the Map, the Office permitted any person or party aggrieved or adversely affected by such determination to challenge the office's finding by submitting a challenge form along with all evidence or information supporting the challenge. The

proffered bases for challenge largely mirror those offered by the FCC in their Broadband Data Collection efforts.

V5 of the Map currently shows that service offered at a particular address location renders that address location either likely eligible or likely ineligible for future federal grant funding. As part of the above-outlined process, OCIO received a formal challenge and supporting evidence from one or more Iowa residents or Communications Service Provider(s), claiming that service your organization reports is insufficient to warrant the likely ineligible status of a particular address location.

At this time, the Office requests your assistance in making an accurate determination as to whether your organization in fact offers the speeds reported at each challenged address location as of August 2, 2022. To that end, the Office requests that you:

1) Complete and return the attached Challenge Notice Form (see Exhibit A, Affirmation tab), by **October 24, 2022 at 5:00 CDT**. Pursuant to this form, OCIO requests that a representative with legal authority to bind your organization:

    a) Confirm that the speeds reported at the challenged address locations are correct as of August 2, 2022.

    b) Fully complete all other aspects of the Form.

2) In addition to the form, please also submit any other evidence or information in your possession to the Office that supports your prior representations to the Office regarding the address locations identified in Exhibit A. Examples of evidence and information the Office would consider particularly probative include: Bills or invoices provided to or received by customers at the applicable address location which identify the specific download and upload speeds provided or received as of August 2, 2022.

Please return the completed form and supporting evidence or information to ociogrants@iowa.gov.

Please note that you are under no legal obligation to respond to this request for information. The Office permits any affected person or party to submit evidence or information to the Office in support of or in opposition to a challenge within 20 days after the challenge has been posted to ocio.iowa.gov/broadband. However, this Office is affirmatively reaching out to notify you of the challenge, of the circumstances surrounding the challenge, and to solicit your feedback and position. If this Office does not receive your response via Exhibit A of the Form by **October 24, 2022 at 5:00 CDT**, the Office will make a final decision based on the evidence and information currently available to it.

Sincerely,

Office of the Chief Information Officer
State of Iowa

C. EXPLANATION

To the extent you believe additional explanation is required to ensure that you are communicating full and accurate information, you may provide narrative to further rebut this challenge. You may consider uploading evidence to substantiate your claims as an attachment to this Affirmation. An Affirmation submitted without sufficient and probative evidence may be inadequate to overcome a challenge.

We have researched the challenge in depth. I have noted what customers we can serve with what speed is available. I have also noted 2 customer we currently serve and what speed they are subscribed to. If there is not a tech type selected we can not reach these customers.

D. AFFIRMATION

By signing and submitting this form, the authorized representative attests that to the best of the authorized representatives knowledge and belief, the information submitted through this challenge form is true and accurate, and the form is signed under the pains and penalties of perjury. By typing your name, you are affixing your signature to this form and attesting to the accuracy of the information submitted herein.

To whom it may concern:

This is a letter of inquiry concerning your organization's prior reporting to the State of Iowa Office of the Chief Information Officer ("OCIO" or "Office") regarding the availability of Broadband service at certain address location(s). Our Office received a timely-filed Challenge Form challenging information reported on the Broadband Availability Map Version 5 ("V5") of the Statewide Broadband Availability Map ("Map"). The data reflected on V5 of the Map was either: (1) provided by you to the Office's contractor, Connected Nation, during the data collection window of November 1, 2021 through February 11, 2022; (2) gathered from other sources (such as FCC) that collected data from you; or (3) carried forward from prior reporting made to this Office by you under a previous Map version.

Map V5 identifies where Broadband service was offered or facilitated at speeds greater than 25/3 as of August 2, 2022. The Map also reflects a preliminary determination of 'likely eligible' or 'likely ineligible' based on speed, technology type, and previous incentives and is a prospective estimate of potential eligibility under various federal programs. The publication of the Map on August 2, 2022 triggered a formal 30-day challenge window during which time we received challenges citing or implicating your service. The challenge(s) we received claims that the data reflected on V5 of the Map is inaccurate. All timely-filed challenges can be found at https://ocio.iowa.gov/broadband-availability-map-version-5-challenge-process. **To resolve this matter, the Office requests that your organization provide information concerning your service at the affected address locations as further identified and described below by October 24, 2022 at 5:00 CDT.**

Map V5 is designed to facilitate decisions concerning future spending under federally-funded broadband programs. Because Map V5 does not use the tiered structure envisioned by Iowa Code chapter 8B and because future federally-funded grant opportunities made available by the Office in accordance with Map V5 will not conform to Iowa Code chapter 8B, the map challenge process outlined in Iowa Code section 8B.10 does not apply. Similarly, within 30 days after the Office's official publication of the Map, the Office permitted any person or party aggrieved or adversely affected by such determination to challenge the office's finding by submitting a challenge form along with all evidence or information supporting the challenge. The

proffered bases for challenge largely mirror those offered by the FCC in their Broadband Data Collection efforts.

V5 of the Map currently shows that service offered at a particular address location renders that address location either likely eligible or likely ineligible for future federal grant funding. As part of the above-outlined process, OCIO received a formal challenge and supporting evidence from one or more Iowa residents or Communications Service Provider(s), claiming that service your organization reports is insufficient to warrant the likely ineligible status of a particular address location.

At this time, the Office requests your assistance in making an accurate determination as to whether your organization in fact offers the speeds reported at each challenged address location as of August 2, 2022. To that end, the Office requests that you:

1) Complete and return the attached Challenge Notice Form (see Exhibit A, Affirmation tab), by **October 24, 2022 at 5:00 CDT**. Pursuant to this form, OCIO requests that a representative with legal authority to bind your organization:

   a) Confirm that the speeds reported at the challenged address locations are correct as of August 2, 2022.

   b) Fully complete all other aspects of the Form.

2) In addition to the form, please also submit any other evidence or information in your possession to the Office that supports your prior representations to the Office regarding the address locations identified in Exhibit A. Examples of evidence and information the Office would consider particularly probative include: Bills or invoices provided to or received by customers at the applicable address location which identify the specific download and upload speeds provided or received as of August 2, 2022.

Please return the completed form and supporting evidence or information to ociogrants@iowa.gov.

Please note that you are under no legal obligation to respond to this request for information. The Office permits any affected person or party to submit evidence or information to the Office in support of or in opposition to a challenge within 20 days after the challenge has been posted to ocio.iowa.gov/broadband. However, this Office is affirmatively reaching out to notify you of the challenge, of the circumstances surrounding the challenge, and to solicit your feedback and position. If this Office does not receive your response via Exhibit A of the Form by **October 24, 2022 at 5:00 CDT**, the Office will make a final decision based on the evidence and information currently available to it.

Sincerely,

Office of the Chief Information Officer
State of Iowa

To whom it may concern:

This is a letter of inquiry concerning your organization's prior reporting to the State of Iowa Office of the Chief Information Officer ("OCIO" or "Office") regarding the availability of Broadband service at certain address location(s). Our Office received a timely-filed Challenge Form challenging information reported on the Broadband Availability Map Version 5 ("V5") of the Statewide Broadband Availability Map ("Map"). The data reflected on V5 of the Map was either: (1) provided by you to the Office's contractor, Connected Nation, during the data collection window of November 1, 2021 through February 11, 2022; (2) gathered from other sources (such as FCC) that collected data from you; or (3) carried forward from prior reporting made to this Office by you under a previous Map version.

Map V5 identifies where Broadband service was offered or facilitated at speeds greater than 25/3 as of August 2, 2022. The Map also reflects a preliminary determination of 'likely eligible' or 'likely ineligible' based on speed, technology type, and previous incentives and is a prospective estimate of potential eligibility under various federal programs. The publication of the Map on August 2, 2022 triggered a formal 30-day challenge window during which time we received challenges citing or implicating your service. The challenge(s) we received claims that the data reflected on V5 of the Map is inaccurate. All timely-filed challenges can be found at https://ocio.iowa.gov/broadband-availability-map-version-5-challenge-process. **To resolve this matter, the Office requests that your organization provide information concerning your service at the affected address locations as further identified and described below by November 26, 2022 at 11:59 p.m. CST.**

Map V5 is designed to facilitate decisions concerning future spending under federally-funded broadband programs. Because Map V5 does not use the tiered structure envisioned by Iowa Code chapter 8B and because future federally-funded grant opportunities made available by the Office in accordance with Map V5 will not conform to Iowa Code chapter 8B, the map challenge process outlined in Iowa Code section 8B.10 does not apply. Similarly, within 30 days after the Office's official publication of the Map, the Office permitted any person or party aggrieved or adversely affected by such determination to challenge the office's finding by submitting a challenge form along with all evidence or information supporting the

challenge. The proffered bases for challenge largely mirror those offered by the FCC in their Broadband Data Collection efforts.

V5 of the Map currently shows that service offered at a particular address location renders that address location either likely eligible or likely ineligible for future federal grant funding. As part of the above-outlined process, OCIO received a formal challenge and supporting evidence from one or more Iowa residents or Communications Service Provider(s), claiming that service your organization reports is insufficient to warrant the likely ineligible status of a particular address location.

At this time, the Office requests your assistance in making an accurate determination as to whether your organization in fact offers the speeds reported at each challenged address location as of August 2, 2022. To that end, the Office requests that you:

1) Complete and return the attached Challenge Notice Form (see Exhibit A, Affirmation tab), by **November 26, 2022 at 11:59 p.m. CST**. Pursuant to this form, OCIO requests that a representative with legal authority to bind your organization:

   a) Confirm that the speeds reported at the challenged address locations are correct as of August 2, 2022.

   b) Fully complete all other aspects of the Form.

2) In addition to the form, please also submit any other evidence or information in your possession to the Office that supports your prior representations to the Office regarding the address locations identified in Exhibit A. Examples of evidence and information the Office would consider particularly probative include: Bills or invoices provided to or received by customers at the applicable address location which identify the specific download and upload speeds provided or received as of August 2, 2022.

Please return the completed form and supporting evidence or information to ociogrants@iowa.gov.

Please note that you are under no legal obligation to respond to this request for information. The Office permits any affected person or party to submit evidence or information to the Office in support of or in opposition to a challenge within 20 days after the challenge has been posted to ocio.iowa.gov/broadband. However, this Office is affirmatively reaching out to notify you of the challenge, of the circumstances surrounding the challenge, and to solicit your feedback and position. If this Office does not receive your response via Exhibit A of the Form by **November 26, 2022 at 11:59 p.m. CST**, the Office will make a final decision based on the evidence and information currently available to it.

Sincerely,

Office of the Chief Information Officer
State of Iowa

C. EXPLANATION

To the extent you believe additional explanation is required to ensure that you are communicating full and accurate information, you may provide narrative to further rebut this challenge. You may consider uploading evidence to substantiate your claims as an attachment to this Affirmation. An Affirmation submitted without sufficient and probative evidence may be inadequate to overcome a challenge.

Address 12925 137TH AVENUE, PLANO, IA is 2200ft from a Lockridge Networks tower and can receive service with 50ft tower.
Address 1881 WATROUS ROAD, DERBY, IA is 5.8 miles from a Lockridge Networks tower and can receive service with 80ft tower.
Address 431 ARMORY AVENUE, CHARITON, IA is 2100ft from a Lockridge Networks tower and can receive service with 50ft tower.
Address 6732 192ND PLACE, ALBIA, IA is 2.6 miles from a Lockridge Networks tower and can receive service with 80ft tower.
All other addresses in the Affirmation tab are not included in Lockridge Networks territory. OCIO shall contact its Connected Nation representative for details, as these are not sectors in our territory. We routinely receive requests for service out of coverage area, and perform site surveys, custom tower quotes and construction where needed to service customers.

D. AFFIRMATION

By signing and submitting this form, the authorized representative attests that to the best of the authorized representatives knowledge and belief, the information submitted through this challenge form is true and accurate, and the form is signed under the pains and penalties of perjury. By typing your name, you are affixing your signature to this form and attesting to the accuracy of the information submitted herein.

To whom it may concern:

This is a letter of inquiry concerning your organization's prior reporting to the State of Iowa Office of the Chief Information Officer ("OCIO" or "Office") regarding the availability of Broadband service at certain address location(s). Our Office received a timely-filed Challenge Form challenging information reported on the Broadband Availability Map Version 5 ("V5") of the Statewide Broadband Availability Map ("Map"). The data reflected on V5 of the Map was either: (1) provided by you to the Office's contractor, Connected Nation, during the data collection window of November 1, 2021 through February 11, 2022; (2) gathered from other sources (such as FCC) that collected data from you; or (3) carried forward from prior reporting made to this Office by you under a previous Map version.

Map V5 identifies where Broadband service was offered or facilitated at speeds greater than 25/3 as of August 2, 2022. The Map also reflects a preliminary determination of 'likely eligible' or 'likely ineligible' based on speed, technology type, and previous incentives and is a prospective estimate of potential eligibility under various federal programs. The publication of the Map on August 2, 2022 triggered a formal 30-day challenge window during which time we received challenges citing or implicating your service. The challenge(s) we received claims that the data reflected on V5 of the Map is inaccurate. All timely-filed challenges can be found at https://ocio.iowa.gov/broadband-availability-map-version-5-challenge-process. **To resolve this matter, the Office requests that your organization provide information concerning your service at the affected address locations as further identified and described below by October 24, 2022 at 5:00 CDT.**

Map V5 is designed to facilitate decisions concerning future spending under federally-funded broadband programs. Because Map V5 does not use the tiered structure envisioned by Iowa Code chapter 8B and because future federally-funded grant opportunities made available by the Office in accordance with Map V5 will not conform to Iowa Code chapter 8B, the map challenge process outlined in Iowa Code section 8B.10 does not apply. Similarly, within 30 days after the Office's official publication of the Map, the Office permitted any person or party aggrieved or adversely affected by such determination to challenge the office's finding by submitting a challenge form along with all evidence or information supporting the challenge. The

proffered bases for challenge largely mirror those offered by the FCC in their Broadband Data Collection efforts.

V5 of the Map currently shows that service offered at a particular address location renders that address location either likely eligible or likely ineligible for future federal grant funding. As part of the above-outlined process, OCIO received a formal challenge and supporting evidence from one or more Iowa residents or Communications Service Provider(s), claiming that service your organization reports is insufficient to warrant the likely ineligible status of a particular address location.

At this time, the Office requests your assistance in making an accurate determination as to whether your organization in fact offers the speeds reported at each challenged address location as of August 2, 2022. To that end, the Office requests that you:

1) Complete and return the attached Challenge Notice Form (see Exhibit A, Affirmation tab), by **October 24, 2022 at 5:00 CDT**. Pursuant to this form, OCIO requests that a representative with legal authority to bind your organization:

   a) Confirm that the speeds reported at the challenged address locations are correct as of August 2, 2022.

   b) Fully complete all other aspects of the Form.

2) In addition to the form, please also submit any other evidence or information in your possession to the Office that supports your prior representations to the Office regarding the address locations identified in Exhibit A. Examples of evidence and information the Office would consider particularly probative include: Bills or invoices provided to or received by customers at the applicable address location which identify the specific download and upload speeds provided or received as of August 2, 2022.

Please return the completed form and supporting evidence or information to ociogrants@iowa.gov.

Please note that you are under no legal obligation to respond to this request for information. The Office permits any affected person or party to submit evidence or information to the Office in support of or in opposition to a challenge within 20 days after the challenge has been posted to ocio.iowa.gov/broadband. However, this Office is affirmatively reaching out to notify you of the challenge, of the circumstances surrounding the challenge, and to solicit your feedback and position. If this Office does not receive your response via Exhibit A of the Form by **October 24, 2022 at 5:00 CDT**, the Office will make a final decision based on the evidence and information currently available to it.

Sincerely,

Office of the Chief Information Officer
State of Iowa

To whom it may concern:

This is a letter of inquiry concerning your organization's prior reporting to the State of Iowa Office of the Chief Information Officer ("OCIO" or "Office") regarding the availability of Broadband service at certain address location(s). Our Office received a timely-filed Challenge Form challenging information reported on the Broadband Availability Map Version 5 ("V5") of the Statewide Broadband Availability Map ("Map"). The data reflected on V5 of the Map was either: (1) provided by you to the Office's contractor, Connected Nation, during the data collection window of November 1, 2021 through February 11, 2022; (2) gathered from other sources (such as FCC) that collected data from you; or (3) carried forward from prior reporting made to this Office by you under a previous Map version.

Map V5 identifies where Broadband service was offered or facilitated at speeds greater than 25/3 as of August 2, 2022. The Map also reflects a preliminary determination of 'likely eligible' or 'likely ineligible' based on speed, technology type, and previous incentives and is a prospective estimate of potential eligibility under various federal programs. The publication of the Map on August 2, 2022 triggered a formal 30-day challenge window during which time we received challenges citing or implicating your service. The challenge(s) we received claims that the data reflected on V5 of the Map is inaccurate. All timely-filed challenges can be found at https://ocio.iowa.gov/broadband-availability-map-version-5-challenge-process. **To resolve this matter, the Office requests that your organization provide information concerning your service at the affected address locations as further identified and described below by October 24, 2022 at 5:00 CDT.**

Map V5 is designed to facilitate decisions concerning future spending under federally-funded broadband programs. Because Map V5 does not use the tiered structure envisioned by Iowa Code chapter 8B and because future federally-funded grant opportunities made available by the Office in accordance with Map V5 will not conform to Iowa Code chapter 8B, the map challenge process outlined in Iowa Code section 8B.10 does not apply. Similarly, within 30 days after the Office's official publication of the Map, the Office permitted any person or party aggrieved or adversely affected by such determination to challenge the office's finding by submitting a challenge form along with all evidence or information supporting the challenge. The

proffered bases for challenge largely mirror those offered by the FCC in their Broadband Data Collection efforts.

V5 of the Map currently shows that service offered at a particular address location renders that address location either likely eligible or likely ineligible for future federal grant funding. As part of the above-outlined process, OCIO received a formal challenge and supporting evidence from one or more Iowa residents or Communications Service Provider(s), claiming that service your organization reports is insufficient to warrant the likely ineligible status of a particular address location.

At this time, the Office requests your assistance in making an accurate determination as to whether your organization in fact offers the speeds reported at each challenged address location as of August 2, 2022. To that end, the Office requests that you:

1) Complete and return the attached Challenge Notice Form (see Exhibit A, Affirmation tab), by **October 24, 2022 at 5:00 CDT**. Pursuant to this form, OCIO requests that a representative with legal authority to bind your organization:

   a) Confirm that the speeds reported at the challenged address locations are correct as of August 2, 2022.

   b) Fully complete all other aspects of the Form.

2) In addition to the form, please also submit any other evidence or information in your possession to the Office that supports your prior representations to the Office regarding the address locations identified in Exhibit A. Examples of evidence and information the Office would consider particularly probative include: Bills or invoices provided to or received by customers at the applicable address location which identify the specific download and upload speeds provided or received as of August 2, 2022.

Please return the completed form and supporting evidence or information to ociogrants@iowa.gov.

Please note that you are under no legal obligation to respond to this request for information. The Office permits any affected person or party to submit evidence or information to the Office in support of or in opposition to a challenge within 20 days after the challenge has been posted to ocio.iowa.gov/broadband. However, this Office is affirmatively reaching out to notify you of the challenge, of the circumstances surrounding the challenge, and to solicit your feedback and position. If this Office does not receive your response via Exhibit A of the Form by **October 24, 2022 at 5:00 CDT**, the Office will make a final decision based on the evidence and information currently available to it.

Sincerely,

Office of the Chief Information Officer
State of Iowa

To whom it may concern:

This is a letter of inquiry concerning your organization's prior reporting to the State of Iowa Office of the Chief Information Officer ("OCIO" or "Office") regarding the availability of Broadband service at certain address location(s). Our Office received a timely-filed Challenge Form challenging information reported on the Broadband Availability Map Version 5 ("V5") of the Statewide Broadband Availability Map ("Map"). The data reflected on V5 of the Map was either: (1) provided by you to the Office's contractor, Connected Nation, during the data collection window of November 1, 2021 through February 11, 2022; (2) gathered from other sources (such as FCC) that collected data from you; or (3) carried forward from prior reporting made to this Office by you under a previous Map version.

Map V5 identifies where Broadband service was offered or facilitated at speeds greater than 25/3 as of August 2, 2022. The Map also reflects a preliminary determination of 'likely eligible' or 'likely ineligible' based on speed, technology type, and previous incentives and is a prospective estimate of potential eligibility under various federal programs. The publication of the Map on August 2, 2022 triggered a formal 30-day challenge window during which time we received challenges citing or implicating your service. The challenge(s) we received claims that the data reflected on V5 of the Map is inaccurate. All timely-filed challenges can be found at https://ocio.iowa.gov/broadband-availability-map-version-5-challenge-process. **To resolve this matter, the Office requests that your organization provide information concerning your service at the affected address locations as further identified and described below by November 26, 2022 at 11:59 p.m. CST.**

Map V5 is designed to facilitate decisions concerning future spending under federally-funded broadband programs. Because Map V5 does not use the tiered structure envisioned by Iowa Code chapter 8B and because future federally-funded grant opportunities made available by the Office in accordance with Map V5 will not conform to Iowa Code chapter 8B, the map challenge process outlined in Iowa Code section 8B.10 does not apply. Similarly, within 30 days after the Office's official publication of the Map, the Office permitted any person or party aggrieved or adversely affected by such determination to challenge the office's finding by submitting a challenge form along with all evidence or information supporting the

challenge. The proffered bases for challenge largely mirror those offered by the FCC in their Broadband Data Collection efforts.

V5 of the Map currently shows that service offered at a particular address location renders that address location either likely eligible or likely ineligible for future federal grant funding. As part of the above-outlined process, OCIO received a formal challenge and supporting evidence from one or more Iowa residents or Communications Service Provider(s), claiming that service your organization reports is insufficient to warrant the likely ineligible status of a particular address location.

At this time, the Office requests your assistance in making an accurate determination as to whether your organization in fact offers the speeds reported at each challenged address location as of August 2, 2022. To that end, the Office requests that you:

1) Complete and return the attached Challenge Notice Form (see Exhibit A, Affirmation tab), by **November 26, 2022 at 11:59 p.m. CST**. Pursuant to this form, OCIO requests that a representative with legal authority to bind your organization:

   a) Confirm that the speeds reported at the challenged address locations are correct as of August 2, 2022.

   b) Fully complete all other aspects of the Form.

2) In addition to the form, please also submit any other evidence or information in your possession to the Office that supports your prior representations to the Office regarding the address locations identified in Exhibit A. Examples of evidence and information the Office would consider particularly probative include: Bills or invoices provided to or received by customers at the applicable address location which identify the specific download and upload speeds provided or received as of August 2, 2022.

Please return the completed form and supporting evidence or information to ociogrants@iowa.gov.

Please note that you are under no legal obligation to respond to this request for information. The Office permits any affected person or party to submit evidence or information to the Office in support of or in opposition to a challenge within 20 days after the challenge has been posted to ocio.iowa.gov/broadband. However, this Office is affirmatively reaching out to notify you of the challenge, of the circumstances surrounding the challenge, and to solicit your feedback and position. If this Office does not receive your response via Exhibit A of the Form by **November 26, 2022 at 11:59 p.m. CST**, the Office will make a final decision based on the evidence and information currently available to it.

Sincerely,

Office of the Chief Information Officer

To whom it may concern:

This is a letter of inquiry concerning your organization's prior reporting to the State of Iowa Office of the Chief Information Officer ("OCIO" or "Office") regarding the availability of Broadband service at certain address location(s). Our Office received a timely-filed Challenge Form challenging information reported on the Broadband Availability Map Version 5 ("V5") of the Statewide Broadband Availability Map ("Map"). The data reflected on V5 of the Map was either: (1) provided by you to the Office's contractor, Connected Nation, during the data collection window of November 1, 2021 through February 11, 2022; (2) gathered from other sources (such as FCC) that collected data from you; or (3) carried forward from prior reporting made to this Office by you under a previous Map version.

Map V5 identifies where Broadband service was offered or facilitated at speeds greater than 25/3 as of August 2, 2022. The Map also reflects a preliminary determination of 'likely eligible' or 'likely ineligible' based on speed, technology type, and previous incentives and is a prospective estimate of potential eligibility under various federal programs. The publication of the Map on August 2, 2022 triggered a formal 30-day challenge window during which time we received challenges citing or implicating your service. The challenge(s) we received claims that the data reflected on V5 of the Map is inaccurate. All timely-filed challenges can be found at https://ocio.iowa.gov/broadband-availability-map-version-5-challenge-process. **To resolve this matter, the Office requests that your organization provide information concerning your service at the affected address locations as further identified and described below by October 24, 2022 at 5:00 CDT.**

Map V5 is designed to facilitate decisions concerning future spending under federally-funded broadband programs. Because Map V5 does not use the tiered structure envisioned by Iowa Code chapter 8B and because future federally-funded grant opportunities made available by the Office in accordance with Map V5 will not conform to Iowa Code chapter 8B, the map challenge process outlined in Iowa Code section 8B.10 does not apply. Similarly, within 30 days after the Office's official publication of the Map, the Office permitted any person or party aggrieved or adversely affected by such determination to challenge the office's finding by submitting a challenge form along with all evidence or information supporting the challenge. The

proffered bases for challenge largely mirror those offered by the FCC in their Broadband Data Collection efforts.

V5 of the Map currently shows that service offered at a particular address location renders that address location either likely eligible or likely ineligible for future federal grant funding. As part of the above-outlined process, OCIO received a formal challenge and supporting evidence from one or more Iowa residents or Communications Service Provider(s), claiming that service your organization reports is insufficient to warrant the likely ineligible status of a particular address location.

At this time, the Office requests your assistance in making an accurate determination as to whether your organization in fact offers the speeds reported at each challenged address location as of August 2, 2022. To that end, the Office requests that you:

1) Complete and return the attached Challenge Notice Form (see Exhibit A, Affirmation tab), by **October 24, 2022 at 5:00 CDT**. Pursuant to this form, OCIO requests that a representative with legal authority to bind your organization:

   a) Confirm that the speeds reported at the challenged address locations are correct as of August 2, 2022.

   b) Fully complete all other aspects of the Form.

2) In addition to the form, please also submit any other evidence or information in your possession to the Office that supports your prior representations to the Office regarding the address locations identified in Exhibit A. Examples of evidence and information the Office would consider particularly probative include: Bills or invoices provided to or received by customers at the applicable address location which identify the specific download and upload speeds provided or received as of August 2, 2022.

Please return the completed form and supporting evidence or information to ociogrants@iowa.gov.

Please note that you are under no legal obligation to respond to this request for information. The Office permits any affected person or party to submit evidence or information to the Office in support of or in opposition to a challenge within 20 days after the challenge has been posted to ocio.iowa.gov/broadband. However, this Office is affirmatively reaching out to notify you of the challenge, of the circumstances surrounding the challenge, and to solicit your feedback and position. If this Office does not receive your response via Exhibit A of the Form by **October 24, 2022 at 5:00 CDT**, the Office will make a final decision based on the evidence and information currently available to it.

Sincerely,

Office of the Chief Information Officer
State of Iowa

C. EXPLANATION

To the extent you believe additional explanation is required to ensure that you are communicating full and accurate information, you may provide narrative to further rebut this challenge. You may consider uploading evidence to substantiate your claims as an attachment to this Affirmation. An Affirmation submitted without sufficient and probative evidence may be inadequate to overcome a

UScellular attests to facilitating service at the varying speeds listed in the affirmation sheet.* Customers can select different plan options that may impact delivered speeds. All but one of the challengers are non-UScelluar customers. The challengers appear to be unfamiliar with UScellular's service offerings, which is understandable given the recency of these deployments. *Filed pursuant to *Establishing the Digital Opportunity Data Collection*, WC Docket No. 19-195 (March 9, 2022), coverage as of June 30, 2022.

D. AFFIRMATION

By signing and submitting this form, the authorized representative attests that to the best of the authorized representatives knowledge and belief, the information submitted through this challenge form is true and accurate, and the form is signed under the pains and penalties of perjury. By typing your name, you are affixing your signature to this form and attesting to the accuracy of the information submitted herein.

To whom it may concern:

This is a letter of inquiry concerning your organization's prior reporting to the State of Iowa Office of the Chief Information Officer ("OCIO" or "Office") regarding the availability of Broadband service at certain address location(s). Our Office received a timely-filed Challenge Form challenging information reported on the Broadband Availability Map Version 5 ("V5") of the Statewide Broadband Availability Map ("Map"). The data reflected on V5 of the Map was either: (1) provided by you to the Office's contractor, Connected Nation, during the data collection window of November 1, 2021 through February 11, 2022; (2) gathered from other sources (such as FCC) that collected data from you; or (3) carried forward from prior reporting made to this Office by you under a previous Map version.

Map V5 identifies where Broadband service was offered or facilitated at speeds greater than 25/3 as of August 2, 2022. The Map also reflects a preliminary determination of 'likely eligible' or 'likely ineligible' based on speed, technology type, and previous incentives and is a prospective estimate of potential eligibility under various federal programs. The publication of the Map on August 2, 2022 triggered a formal 30-day challenge window during which time we received challenges citing or implicating your service. The challenge(s) we received claims that the data reflected on V5 of the Map is inaccurate. All timely-filed challenges can be found at https://ocio.iowa.gov/broadband-availability-map-version-5-challenge-process. **To resolve this matter, the Office requests that your organization provide information concerning your service at the affected address locations as further identified and described below by November 26, 2022 at 11:59 p.m. CST.**

Map V5 is designed to facilitate decisions concerning future spending under federally-funded broadband programs. Because Map V5 does not use the tiered structure envisioned by Iowa Code chapter 8B and because future federally-funded grant opportunities made available by the Office in accordance with Map V5 will not conform to Iowa Code chapter 8B, the map challenge process outlined in Iowa Code section 8B.10 does not apply. Similarly, within 30 days after the Office's official publication of the Map, the Office permitted any person or party aggrieved or adversely affected by such determination to challenge the office's finding by submitting a challenge form along with all evidence or information supporting the

challenge. The proffered bases for challenge largely mirror those offered by the FCC in their Broadband Data Collection efforts.

V5 of the Map currently shows that service offered at a particular address location renders that address location either likely eligible or likely ineligible for future federal grant funding. As part of the above-outlined process, OCIO received a formal challenge and supporting evidence from one or more Iowa residents or Communications Service Provider(s), claiming that service your organization reports is insufficient to warrant the likely ineligible status of a particular address location.

At this time, the Office requests your assistance in making an accurate determination as to whether your organization in fact offers the speeds reported at each challenged address location as of August 2, 2022. To that end, the Office requests that you:

1) Complete and return the attached Challenge Notice Form (see Exhibit A, Affirmation tab), by **November 26, 2022 at 11:59 p.m. CST**. Pursuant to this form, OCIO requests that a representative with legal authority to bind your organization:

   a) Confirm that the speeds reported at the challenged address locations are correct as of August 2, 2022.

   b) Fully complete all other aspects of the Form.

2) In addition to the form, please also submit any other evidence or information in your possession to the Office that supports your prior representations to the Office regarding the address locations identified in Exhibit A. Examples of evidence and information the Office would consider particularly probative include: Bills or invoices provided to or received by customers at the applicable address location which identify the specific download and upload speeds provided or received as of August 2, 2022.

Please return the completed form and supporting evidence or information to ociogrants@iowa.gov.

Please note that you are under no legal obligation to respond to this request for information. The Office permits any affected person or party to submit evidence or information to the Office in support of or in opposition to a challenge within 20 days after the challenge has been posted to ocio.iowa.gov/broadband. However, this Office is affirmatively reaching out to notify you of the challenge, of the circumstances surrounding the challenge, and to solicit your feedback and position. If this Office does not receive your response via Exhibit A of the Form by **November 26, 2022 at 11:59 p.m. CST**, the Office will make a final decision based on the evidence and information currently available to it.

Sincerely,

Office of the Chief Information Officer
State of Iowa

Broadband Map V5 Challenge Notice

EXHIBIT A

Affirmation of Service or Lack of Service at Address Locations

Broadband Availability Map Challenge Process Version 5

A. RESPONDENT INFORMATION	
Company Name	United States Cellular Corporation
Address	8410 W. Bryn Mawr
City	Chicago
State	Illinois
Zip	60631

B. DESIGNATED CONTACT INFORMATION	
Contact Name	Stephanie Cassioppi
Contact Phone Number	630-201-3501
Contact Email	stephanie.cassioppi@uscellular.com

C. EXPLANATION

To the extent you believe additional explanation is required to ensure that you are communicating full and accurate information, you may provide narrative to further rebut this challenge. You may consider uploading evidence to substantiate your claims as an attachment to this Affirmation. An Affirmation submitted without sufficient and probative evidence may be inadequate to overcome a

UScellular attests to facilitating service at the varying speeds listed in the affirmation sheet.* Customers can select different plan options that may impact delivered speeds. All but one of the challengers are non-UScelluar customers. The challengers appear to be unfamiliar with UScellular's service offerings, which is understandable given the recency of these deployments. *Filed pursuant to *Establishing the Digital Opportunity Data Collection*, WC Docket No. 19-195 (March 9, 2022), coverage as of June 30, 2022.

D. AFFIRMATION

By signing and submitting this form, the authorized representative attests that to the best of the authorized representatives knowledge and belief, the information submitted through this challenge form is true and accurate, and the form is signed under the pains and penalties of perjury. By typing your name, you are affixing your signature to this form and attesting to the accuracy of the information submitted herein.

This is a letter of inquiry concerning your organization's prior reporting to the State of Iowa Office of the Chief Information Officer ("OCIO" or "Office") regarding the availability of Broadband service at certain address location(s). Our Office received a timely-filed Challenge Form challenging information reported on the Broadband Availability Map Version 5 ("V5") of the Statewide Broadband Availability Map ("Map"). The data reflected on V5 of the Map was either: (1) provided by you to the Office's contractor, Connected Nation, during the data collection window of November 1, 2021 through February 11, 2022; (2) gathered from other sources (such as FCC) that collected data from you; or (3) carried forward from prior reporting made to this Office by you under a previous Map version.

Map V5 identifies where Broadband service was offered or facilitated at speeds greater than 25/3 as of August 2, 2022. The Map also reflects a preliminary determination of 'likely eligible' or 'likely ineligible' based on speed, technology type, and previous incentives and is a prospective estimate of potential eligibility under various federal programs. The publication of the Map on August 2, 2022 triggered a formal 30-day challenge window during which time we received challenges citing or implicating your service. The challenge(s) we received claims that the data reflected on V5 of the Map is inaccurate. All timely-filed challenges can be found at https://ocio.iowa.gov/broadband-availability-map-version-5-challenge-process. **To resolve this matter, the Office requests that your organization provide information concerning your service at the affected address locations as further identified and described below by October 24, 2022 at 5:00 CDT.**

Map V5 is designed to facilitate decisions concerning future spending under federally-funded broadband programs. Because Map V5 does not use the tiered structure envisioned by Iowa Code chapter 8B and because future federally-funded grant opportunities made available by the Office in accordance with Map V5 will not conform to Iowa Code chapter 8B, the map challenge process outlined in Iowa Code section 8B.10 does not apply. Similarly, within 30 days after the Office's official publication of the Map, the Office permitted any person or party aggrieved or adversely affected by such determination to challenge the office's finding by submitting a challenge form along with all evidence or information supporting the challenge. The

proffered bases for challenge largely mirror those offered by the FCC in their Broadband Data Collection efforts.

V5 of the Map currently shows that service offered at a particular address location renders that address location either likely eligible or likely ineligible for future federal grant funding. As part of the above-outlined process, OCIO received a formal challenge and supporting evidence from one or more Iowa residents or Communications Service Provider(s), claiming that service your organization reports is insufficient to warrant the likely ineligible status of a particular address location.

At this time, the Office requests your assistance in making an accurate determination as to whether your organization in fact offers the speeds reported at each challenged address location as of August 2, 2022. To that end, the Office requests that you:

1) Complete and return the attached Challenge Notice Form (see Exhibit A, Affirmation tab), by **October 24, 2022 at 5:00 CDT**. Pursuant to this form, OCIO requests that a representative with legal authority to bind your organization:

   a) Confirm that the speeds reported at the challenged address locations are correct as of August 2, 2022.

   b) Fully complete all other aspects of the Form.

2) In addition to the form, please also submit any other evidence or information in your possession to the Office that supports your prior representations to the Office regarding the address locations identified in Exhibit A. Examples of evidence and information the Office would consider particularly probative include: Bills or invoices provided to or received by customers at the applicable address location which identify the specific download and upload speeds provided or received as of August 2, 2022.

Please return the completed form and supporting evidence or information to ociogrants@iowa.gov.

Please note that you are under no legal obligation to respond to this request for information. The Office permits any affected person or party to submit evidence or information to the Office in support of or in opposition to a challenge within 20 days after the challenge has been posted to ocio.iowa.gov/broadband. However, this Office is affirmatively reaching out to notify you of the challenge, of the circumstances surrounding the challenge, and to solicit your feedback and position. If this Office does not receive your response via Exhibit A of the Form by **October 24, 2022 at 5:00 CDT**, the Office will make a final decision based on the evidence and information currently available to it.

Sincerely,

Office of the Chief Information Officer
State of Iowa

Broadband Map V5 Challenge Notice

EXHIBIT A

Affirmation of Service or Lack of Service at Address Locations

Broadband Availability Map Challenge Process Version 5

A. RESPONDENT INFORMATION	
Company Name	Windstream Services, LLC
Address	4001 North Rodney Parham Road
City	Little Rock
State	AR
Zip	72212

B. DESIGNATED CONTACT INFORMATION	
Contact Name	David Avery VP-Government Affairs
Contact Phone Number	501-748-5876
Contact Email	david.avery@windstream.com

C. EXPLANATION

To the extent you believe additional explanation is required to ensure that you are communicating full and accurate information, you may provide narrative to further rebut this challenge. You may consider uploading evidence to substantiate your claims as an attachment to this Affirmation. An Affirmation submitted without sufficient and probative evidence may be inadequate to overcome a challenge.

Windstream response provided on affirmation tab of this workbook.

D. AFFIRMATION

By signing and submitting this form, the authorized representative attests that to the best of the authorized representatives knowledge and belief, the information submitted through this challenge form is true and accurate, and the form is signed under the pains and penalties of perjury. By typing your name, you are affixing your signature to this form and attesting to the accuracy of the information submitted herein.

Kinetic's Internal Qualification Process

Kinetic utilizes a process known as "UQUAL" in order to determine the maximum download and upload speed that a location should be capable of receiving from Kinetic broadband service. At its essence, the process identifies the latitude and longitude of a given location and uses those coordinates to determine the proximity of the location to existing Kinetic infrastructure. That proximity is then used to determine the maximum level of service that the location should be capable of receiving.

The exact mechanism in which UQUAL operates varies by technology type:

Fiber: When a fiber build is designed, Kinetic planning engineers create polygons encompassing all of the addresses that the build is intended to serve. Upon completion of the build, all locations within the polygon qualify for fiber services delivering a minimum of 1 Gbps symmetrical download and upload. UQUAL identifies whether or not the location falls within a completed polygon and assigns it the appropriate 1G qualification to the location if so.

Cable: UQUAL references the location's address against a specific list of addresses that fall within Kinetic's cable design areas and assigns a cable qualification if a match is found. These addresses are qualified for download speeds of 1 Gbps, although Kinetic cable service does not offer symmetrical download and upload speeds.

Copper/DSL: To determine qualification of a location via DSL service, UQUAL uses the location's coordinates to calculate the distance from the location along the available copper path to the nearest serving terminal. This distance is known as the loop length. Qualification is then calculated based upon what the serving device is capable of providing over that loop length.

Fixed Wireless: UQUAL plots the location onto a propagation map that indicates the coverage of Kinetic's fixed wireless network. If the location is determined to be within line of sight and serving range of a Kinetic tower, UQUAL translate the signal strength indicated by the propagation map into a qualification for the location.

It is possible that a location may qualify for service via multiple technology types. In this event, UQUAL will assign the technology type offering the greatest speed.

To whom it may concern:

This is a letter of inquiry concerning your organization's prior reporting to the State of Iowa Office of the Chief Information Officer ("OCIO" or "Office") regarding the availability of Broadband service at certain address location(s). Our Office received a timely-filed Challenge Form challenging information reported on the Broadband Availability Map Version 5 ("V5") of the Statewide Broadband Availability Map ("Map"). The data reflected on V5 of the Map was either: (1) provided by you to the Office's contractor, Connected Nation, during the data collection window of November 1, 2021 through February 11, 2022; (2) gathered from other sources (such as FCC) that collected data from you; or (3) carried forward from prior reporting made to this Office by you under a previous Map version.

Map V5 identifies where Broadband service was offered or facilitated at speeds greater than 25/3 as of August 2, 2022. The Map also reflects a preliminary determination of 'likely eligible' or 'likely ineligible' based on speed, technology type, and previous incentives and is a prospective estimate of potential eligibility under various federal programs. The publication of the Map on August 2, 2022 triggered a formal 30-day challenge window during which time we received challenges citing or implicating your service. The challenge(s) we received claims that the data reflected on V5 of the Map is inaccurate. All timely-filed challenges can be found at https://ocio.iowa.gov/broadband-availability-map-version-5-challenge-process. **To resolve this matter, the Office requests that your organization provide information concerning your service at the affected address locations as further identified and described below by November 26, 2022 at 11:59 p.m. CST.**

Map V5 is designed to facilitate decisions concerning future spending under federally-funded broadband programs. Because Map V5 does not use the tiered structure envisioned by Iowa Code chapter 8B and because future federally-funded grant opportunities made available by the Office in accordance with Map V5 will not conform to Iowa Code chapter 8B, the map challenge process outlined in Iowa Code section 8B.10 does not apply. Similarly, within 30 days after the Office's official publication of the Map, the Office permitted any person or party aggrieved or adversely affected by such determination to challenge the office's finding by submitting a challenge form along with all evidence or information supporting the

challenge. The proffered bases for challenge largely mirror those offered by the FCC in their Broadband Data Collection efforts.

V5 of the Map currently shows that service offered at a particular address location renders that address location either likely eligible or likely ineligible for future federal grant funding. As part of the above-outlined process, OCIO received a formal challenge and supporting evidence from one or more Iowa residents or Communications Service Provider(s), claiming that service your organization reports is insufficient to warrant the likely ineligible status of a particular address location.

At this time, the Office requests your assistance in making an accurate determination as to whether your organization in fact offers the speeds reported at each challenged address location as of August 2, 2022. To that end, the Office requests that you:

1) Complete and return the attached Challenge Notice Form (see Exhibit A, Affirmation tab), by **November 26, 2022 at 11:59 p.m. CST**. Pursuant to this form, OCIO requests that a representative with legal authority to bind your organization:

   a) Confirm that the speeds reported at the challenged address locations are correct as of August 2, 2022.

   b) Fully complete all other aspects of the Form.

2) In addition to the form, please also submit any other evidence or information in your possession to the Office that supports your prior representations to the Office regarding the address locations identified in Exhibit A. Examples of evidence and information the Office would consider particularly probative include: Bills or invoices provided to or received by customers at the applicable address location which identify the specific download and upload speeds provided or received as of August 2, 2022.

Please return the completed form and supporting evidence or information to ociogrants@iowa.gov.

Please note that you are under no legal obligation to respond to this request for information. The Office permits any affected person or party to submit evidence or information to the Office in support of or in opposition to a challenge within 20 days after the challenge has been posted to ocio.iowa.gov/broadband. However, this Office is affirmatively reaching out to notify you of the challenge, of the circumstances surrounding the challenge, and to solicit your feedback and position. If this Office does not receive your response via Exhibit A of the Form by **November 26, 2022 at 11:59 p.m. CST**, the Office will make a final decision based on the evidence and information currently available to it.

Sincerely,

Office of the Chief Information Officer
State of Iowa

Kinetic's Internal Qualification Process

Kinetic utilizes a process known as "UQUAL" in order to determine the maximum download and upload speed that a location should be capable of receiving from Kinetic broadband service. At its essence, the process identifies the latitude and longitude of a given location and uses those coordinates to determine the proximity of the location to existing Kinetic infrastructure. That proximity is then used to determine the maximum level of service that the location should be capable of receiving.

The exact mechanism in which UQUAL operates varies by technology type:

Fiber: When a fiber build is designed, Kinetic planning engineers create polygons encompassing all of the addresses that the build is intended to serve. Upon completion of the build, all locations within the polygon qualify for fiber services delivering a minimum of 1 Gbps symmetrical download and upload. UQUAL identifies whether or not the location falls within a completed polygon and assigns it the appropriate 1G qualification to the location if so.

Cable: UQUAL references the location's address against a specific list of addresses that fall within Kinetic's cable design areas and assigns a cable qualification if a match is found. These addresses are qualified for download speeds of 1 Gbps, although Kinetic cable service does not offer symmetrical download and upload speeds.

Copper/DSL: To determine qualification of a location via DSL service, UQUAL uses the location's coordinates to calculate the distance from the location along the available copper path to the nearest serving terminal. This distance is known as the loop length. Qualification is then calculated based upon what the serving device is capable of providing over that loop length.

Fixed Wireless: UQUAL plots the location onto a propagation map that indicates the coverage of Kinetic's fixed wireless network. If the location is determined to be within line of sight and serving range of a Kinetic tower, UQUAL translate the signal strength indicated by the propagation map into a qualification for the location.

It is possible that a location may qualify for service via multiple technology types. In this event, UQUAL will assign the technology type offering the greatest speed.

Re: V5 State DSL Challenge

Dear Windstream,

On August 2, 2022, the Iowa Office of the Chief Information Officer (OCIO) posted the final version of Broadband Availability Map v5 and opened a 30-calendar-day challenge window wherein anyone aggrieved or adversely affected by mapping determinations may challenge the Office's final determination of whether service at a particular address location is accurately reflected and/or whether an address location is geographically located on Map v5. The Office also reserved the right to challenge provider-reported data to the extent that any provider-reported data appeared faulty.

As part of the map challenge process, OCIO has filed a challenge to Windstream's reported DSL service speeds. Inaccurate reporting may limit the State's opportunity to receive federal funds for future broadband grants. It is in the best interest of the State and the residents of Iowa to have an accurate broadband map so that the State will be in the best possible position to receive maximum funds for future grant rounds.

To this end, OCIO is requesting additional information regarding the service speeds delivered at the address locations listed in the Notice Form. The Notice Form must be received by this Office no later than **October 17, 2022**. It is the understanding of the OCIO that DSL as a broadband internet technology has a number of limitations, especially with regard to serving rural locations that may be some distance from a provider's central office or other hub distribution point. The address locations indicated in the Notice Form indicate download and upload speeds in excess of the traditional DSL capabilities. These speeds are as reported by your organization.

In the Notice Form, please address the following:

1. Define what method you are using to reach speeds higher than typically available through DSL as described in the map data:
    a. Do you deploy remote DSLAMs with fiber feeds? If not, what is the average distance from a customer to the DSLAM on copper?
    b. Do you bond copper pairs?
    c. How are you overcoming the distance limitations in your vendor's DSL technology?

2. Provide the formula or calculation used to calculate the provided speed.

3. Indicate the technology type at the address location. If the technology type is in fact DSL, indicate which **type of DSL** you are providing.

4. Confirm that the speeds indicated on Broadband Map v5 for said locations are correct, and that Windstream can facilitate speeds consistent with the map data for that location using the specified DSL technology type indicated in the Notice Form. In the alternative, enter the actual download and upload speeds able to be facilitated at that address location.

OCIO must receive your response no later than **October 17, 2022**. Please let us know if you have any questions or require additional information to respond to this request.

Regards,

Office of the Chief Information Officer
State of Iowa
