DEMONSTRATED EXPERIENCE

Sully Telephone Association, Inc. was incorporated in 1904. We have over 10 years of experience in construction of central office fiber equipment and fiber outside plant communications with five of those years deploying active Ethernet Fiber-to-the-Home technologies!

Sully Telephone provisions, maintains and services with over 1100 active Fiber-to-the-Home customer lines in five rural telephone exchanges. As stated... we have five construction seasons (years) of field experience from 2014 to 2018 with FTTH construction, splicing and cutover work. We continue to evolve our fiber footprint each year in order to reach 100 percent fiber technology to all our customers!

We resolve all customer trouble reports within 24 hours or less and provide new service requests within two days.
