Comment

I have reviewed the Windstream proposed fixed wireless buildout in census block 9503 in Jackson County Iowa. This census block borders the Andrew Telephone Company Exchange at Iron Bridge Road in Fairfield township and 100th Street In Jackson Township, Jackson County Iowa. The Andrew Telephone Company has completed fiber to the home in all of Andrew's exchange and is able to provide broadband to all customers along these routes. We have various broadband speeds available to the customers in the Andrew Exchange, based on customer need. Windstream did not specify in the public documents where the tower sites would be located, so I am not able to ascertain if Windstream will be overlapping Andrew's Exchange with a fixed wireless signal. Andrew Telephone Company strongly objects to Windstream overlapping the Andrew Telephone Exchange with fixed wireless.
