To Whom It May Concern,

This letter is written in support of Don Long, a businessman in our local community who strives to be on the cutting edge of modern technology and improvements. Over the years, I've been impressed with Don's generosity toward the community, and trying to do anything to improve the communication systems. As in the past, Don has been willing to spend large amounts of money to better our local systems. Because of his willingness to invest in us, we are confident any financial support would certainly be used wisely.

Sincerely,

Roy D. James

Mayor
City of Lynnville
