

Maquoketa Valley Electric Cooperative completed a survey of its membership prior to offering fiber internet services to its membership. Below are several slides from the survey that demonstrate the community need for our services.

Question #9. Interest in FTTH

If a new internet service were made available which provided reliable 24 hour internet access with download speeds typically not available in this area and that are much faster than those currently available from DSL or Cable, with 50 Meg Download (aka Mbps) speeds and 50 Meg Upload speeds allowing for large amounts of bandwidth usage all at a cost of less than \$49.95 dollars per month, would you be; Somewhat interested, Interested, Very Interested, or Not at all interested in receiving such a service?

Question #2c. People without internet

You answered that you "do not" currently have internet access at your [home/business]. If a fast and affordable internet service were available at prices you felt were reasonable, would you be willing to consider it for you and the members of your family [or your employees]? Please rate your interest on a scale of 1 to 5, with 5 being the most interested and 1 being the least interested?
