A new public comment has been received on **331564**. The comment and contact information are listed below.

### Comment

Preston Telephone Company (Preston) had 100% fiber in place and much of it cut in service at 12/31/2017, but had not had any request for increased bandwidth to 25/3, so the 12/31/2017 form 477 did not reflect all of Preston's service area and associated census blocks as being 25/3 capable and served by fiber. We have attached the June 2019 form 477 data reflecting its study area and associated census blocks are facilitated as 100% served by fiber and 25/3 capable. We have updated the June 2019 Form 477 to include two census blocks missed in the last reporting period. It would not seem prudent for the State of Iowa to award funding when the area is 100% served by fiber and 25/3 capable. Therefore, we believe the Preston study area and associated census blocks are 25/3 capable and we request the State of Iowa award any funds associated with the census blocks located in the Preston Telephone Company service area as requested by Maquoketa Valley Electric Cooperative application
