Broadband Map V5
Final Agency Decision

DOCKET Nos. 057R-417R

A. CHALLENGER INFORMATION

Entity/Community Name	
FRN (Provider Only)	
Address	
City	
State	
Zip	

B. DESIGNATED CONTACT INFORMATION

Contact Name	
Contact Phone Number	
Contact Email	

C. CHALLENGE TYPE

- [x] Resident
- [ ] Community
- [ ] Provider - Self-reporting
- [ ] Provider - Third-party
- [ ] State
- [ ] Location Not on Map

D. EVIDENCE CONSIDERED

With respect to the address locations forming the basis of this Challenge, the Office has reviewed the evidence and information submitted by Challenger related thereto (see Appendix C for original submission), in conjunction with the maps and data sources originally utilized in determining whether and to what extent service was available to a particular address location.

- [x] Challenger submitted an Attestation as part of its Challenge, affirming under penalty of perjury whether and to what extent Broadband service was offered as of August 2, 2022.
- [ ] Challenger submitted additional information in support of its Challenge. This information has been considered by the Office in making its Final Decision.
- [x] Challenged address locations within this Challenge overlap with other Challenge(s) containing one or more of the same address locations. The Office considered evidence submitted in connection with any overlapping Challenge in making its final decision for any overlapping address location.
- [x] The Office sent a Notice to impacted Provider(s) at the challenged address location concerning whether and to what extent reported broadband service was offered as of August 2, 2022. The Office may have received a Response and/or other evidence from impacted Provider(s) in response to such Notices, or in response to the general Notice posted on the website. Refer to Appendix D for a record of these efforts.

To interpret the Challenge Decision, first locate your address in Appendix A.1 Final Decision within this document. Your address may appear multiple times—once for every provider that reported providing service at your address. The Office contacted every provider reporting service at a challenged address to determine the conditions of broadband availability at your location. For each entry with your address, Appendix A.1 Final Decision identifies whether the broadband provider responded to the Office's inquiry or not (see Response Received column). The Final Agency Decision column identifies whether the Office accepted your challenge or declined it based on the Decision Basis listed. Refer to the document titled Procedures for Challenge Evaluation & Decision Bases available at https://ocio.iowa.gov/broadband-availability-map-version-5-challenge-process for more information regarding how the Office evaluates evidence and makes determinations regarding information reflected on the map.

Anytime a decision issued by the Office for a provider at a location is shown as "Accepted" the Office will make a change to the map by adjusting the speed levels reported by the provider or adjust the availability for a provider if the provider confirms it does not offer service at the location. Anytime a decision issued by the Office for a provider at a location is shown as "Declined" the Office will not make a change to the map. All changes to the broadband speeds at your location will be reported on the final version of Broadband Map V5, to be posted online in the coming weeks.

Refer to Appendix E to find the fastest reported speed at your location that will be reflected when the Map is published to reflect Accepted challenges.

E. APPEAL

The Office will post its Final Decisions on its website at ocio.iowa.gov/broadband. If a Challenger wishes to appeal the Decision, the Challenger must notify the Office in writing within thirty (30) days of the posting of the Decision. A request for a contested case must be filed by mailing a written request to:

Office of the Chief Information Officer
c/o Matt Behrens
200 E. Grand Ave.
Des Moines, IA 50309

In so doing, the reason for appealing this Decision must be stated, specifically identifying the particular aspects of the Decision with which Appellant disagrees and the reasons why, whether factual or legal in nature. The request for a contested case proceeding should state the name and address of the requester; identify the specific Office action which is disputed; and, where the requester is represented by a lawyer, identify the provisions of law or precedent requiring or authorizing the holding of a contested case proceeding in the particular circumstances involved, and include a short and plain statement of the issues of material fact in dispute. Iowa Admin. Code r. 129—6.4.

Upon receipt, the appeal will be forwarded to the Department of Inspections and Appeals where an Administrative Law Judge ("ALJ") will perform an independent review. Iowa Admin. Code r. 129—6.6. At that time, an ALJ will schedule a hearing. If Appellant does not exercise its appeal right within thirty (30) days of the posting of this Decision, this Decision shall become final and no longer subject to challenge.

SIGNED	
DATE	December 28, 2022

Matt Behrens
Chief Information Officer
State of Iowa

Date of Issuance: December 28, 2022

Definitions	
Challenged Provider	A provider that has been named in a challenge; the challenge is specific to that provider.
Notice Form	A notice was sent in the form of an Excel workbook to all providers at a challenged address location regardless of whether the challenge named the provider specifically. Multiple Notice Forms may have been sent regarding Map V5.
Unchallenged Provider	A provider that reflects on the Map as serving an address location that is being challenged but the challenge is not specific to that provider.

Basis Number	Decision	Explanation	For Use When:	Result
1	Accepted	The Office accepts the information submitted by the Challenger for this address location because the Office does not possess conflicting information.	(1) A provider confirms they do not serve that address location; (2) The challenged provider did not respond to the Notice Form.	Change to the map
2	Declined	The Office declines the information submitted by the Challenger due to one of the following reasons: (1) the evidence provided by the Challenger is not sufficiently probative; (2) the evidence or explanation given by provider(s) at that location was sufficient to overcome challenger's claim; (3) Challenger's claim was not against this provider, and provider responded to Notice; (4) Location ID is outside of NOFA project area.	(1)The Unchallenged Provider responded to the Notice Form; (2) The address location falls outside the area identified in the evidence; (3) The Challenged Provider responded to the Notice Form with sufficient evidence to rebut the claim.	No change to the map
3	Accepted	The Office accepts the information submitted by the Challenger for this address location despite information having been submitted by impacted provider(s). The Office finds the evidence submitted by the Challenger to be more probative than the information submitted by impacted provider(s).	(1) The Challenged Provider responded without evidence or without sufficient evidence to rebut the claim.	Change to the map
4	Declined	The Office declines the information submitted by the Challenger because there was an insufficient basis for challenge.	(1) No providers reflect at this address location; (2) A provider was noticed for their own submitted challenge and did not respond; (3) Provider claims previous incentive already reflected on the map; (4) Resident claims they are happy with their service and not reporting problems with their provider; (5) Challenged provider is not reflected on the Map for that address location; (6) Map already reflects the stated claim for challenge.	No change to the map

Sent via email only

To whom it may concern:

This is a letter of inquiry concerning your organization's prior reporting to the State of Iowa Office of the Chief Information Officer ("OCIO" or "Office") regarding the availability of Broadband service at certain address location(s). Our Office received a timely-filed Challenge Form challenging information reported on the Broadband Availability Map Version 5 ("V5") of the Statewide Broadband Availability Map ("Map"). The data reflected on V5 of the Map was either: (1) provided by you to the Office's contractor, Connected Nation, during the data collection window of November 1, 2021 through February 11, 2022; (2) gathered from other sources (such as FCC) that collected data from you; or (3) carried forward from prior reporting made to this Office by you under a previous Map version.

Map V5 identifies where Broadband service was offered or facilitated at speeds greater than 25/3 as of August 2, 2022. The Map also reflects a preliminary determination of 'likely eligible' or 'likely ineligible' based on speed, technology type, and previous incentives and is a prospective estimate of potential eligibility under various federal programs. The publication of the Map on August 2, 2022 triggered a formal 30-day challenge window during which time we received challenges citing or implicating your service. The challenge(s) we received claims that the data reflected on V5 of the Map is inaccurate. All timely-filed challenges can be found at https://ocio.iowa.gov/broadband-availability-map-version-5-challenge-process. **To resolve this matter, the Office requests that your organization provide information concerning your service at the affected address locations as further identified and described below by October 24, 2022 at 5:00 CDT.**

Map V5 is designed to facilitate decisions concerning future spending under federally-funded broadband programs. Because Map V5 does not use the tiered structure envisioned by Iowa Code chapter 8B and because future federally-funded grant opportunities made available by the Office in accordance with Map V5 will not conform to Iowa Code chapter 8B, the map challenge process outlined in Iowa Code section 8B.10 does not apply. Similarly, within 30 days after the Office's official publication of the Map, the Office permitted any person or party aggrieved or adversely affected by such determination to challenge the office's finding by submitting a challenge form along with all evidence or information supporting the challenge. The

proffered bases for challenge largely mirror those offered by the FCC in their Broadband Data Collection efforts.

V5 of the Map currently shows that service offered at a particular address location renders that address location either likely eligible or likely ineligible for future federal grant funding. As part of the above-outlined process, OCIO received a formal challenge and supporting evidence from one or more Iowa residents or Communications Service Provider(s), claiming that service your organization reports is insufficient to warrant the likely ineligible status of a particular address location.

At this time, the Office requests your assistance in making an accurate determination as to whether your organization in fact offers the speeds reported at each challenged address location as of August 2, 2022. To that end, the Office requests that you:

1) Complete and return the attached Challenge Notice Form (see Exhibit A, Affirmation tab), by **October 24, 2022 at 5:00 CDT**. Pursuant to this form, OCIO requests that a representative with legal authority to bind your organization:
    a) Confirm that the speeds reported at the challenged address locations are correct as of August 2, 2022.
    b) Fully complete all other aspects of the Form.

2) In addition to the form, please also submit any other evidence or information in your possession to the Office that supports your prior representations to the Office regarding the address locations identified in Exhibit A. Examples of evidence and information the Office would consider particularly probative include: Bills or invoices provided to or received by customers at the applicable address location which identify the specific download and upload speeds provided or received as of August 2, 2022.

Please return the completed form and supporting evidence or information to ociogrants@iowa.gov.

Please note that you are under no legal obligation to respond to this request for information. The Office permits any affected person or party to submit evidence or information to the Office in support of or in opposition to a challenge within 20 days after the challenge has been posted to ocio.iowa.gov/broadband. However, this Office is affirmatively reaching out to notify you of the challenge, of the circumstances surrounding the challenge, and to solicit your feedback and position. If this Office does not receive your response via Exhibit A of the Form by **October 24, 2022 at 5:00 CDT**, the Office will make a final decision based on the evidence and information currently available to it.

Sincerely,

Office of the Chief Information Officer
State of Iowa

C. EXPLANATION

To the extent you believe additional explanation is required to ensure that you are communicating full and accurate information, you may provide narrative to further rebut this challenge. You may consider uploading evidence to substantiate your claims as an attachment to this Affirmation. An Affirmation submitted without sufficient and probative evidence may be inadequate to overcome a challenge.

Address Location 21662 Gunder Road was reported as having fiber service available at speeds up to 1,000/1,000. This was incorrectly identified as having service available at 1,000/1,000 at the time the map submission took place. However, this location was part of OCIO NOFA#004, which is in construction (completing build Oct 2022) - at that time 1,000/1,000 will be available to this address. During our customer visits seeking permission to construct a drop (depending on distance of drop - we may ask the customer to agree to subscribe to service for a period of time). This particular location - the customer declindd the drop.

D. AFFIRMATION

By signing and submitting this form, the authorized representative attests that to the best of the authorized representatives knowledge and

To whom it may concern:

This is a letter of inquiry concerning your organization's prior reporting to the State of Iowa Office of the Chief Information Officer ("OCIO" or "Office") regarding the availability of Broadband service at certain address location(s). Our Office received a timely-filed Challenge Form challenging information reported on the Broadband Availability Map Version 5 ("V5") of the Statewide Broadband Availability Map ("Map"). The data reflected on V5 of the Map was either: (1) provided by you to the Office's contractor, Connected Nation, during the data collection window of November 1, 2021 through February 11, 2022; (2) gathered from other sources (such as FCC) that collected data from you; or (3) carried forward from prior reporting made to this Office by you under a previous Map version.

Map V5 identifies where Broadband service was offered or facilitated at speeds greater than 25/3 as of August 2, 2022. The Map also reflects a preliminary determination of 'likely eligible' or 'likely ineligible' based on speed, technology type, and previous incentives and is a prospective estimate of potential eligibility under various federal programs. The publication of the Map on August 2, 2022 triggered a formal 30-day challenge window during which time we received challenges citing or implicating your service. The challenge(s) we received claims that the data reflected on V5 of the Map is inaccurate. All timely-filed challenges can be found at https://ocio.iowa.gov/broadband-availability-map-version-5-challenge-process. **To resolve this matter, the Office requests that your organization provide information concerning your service at the affected address locations as further identified and described below by October 24, 2022 at 5:00 CDT.**

Map V5 is designed to facilitate decisions concerning future spending under federally-funded broadband programs. Because Map V5 does not use the tiered structure envisioned by Iowa Code chapter 8B and because future federally-funded grant opportunities made available by the Office in accordance with Map V5 will not conform to Iowa Code chapter 8B, the map challenge process outlined in Iowa Code section 8B.10 does not apply. Similarly, within 30 days after the Office's official publication of the Map, the Office permitted any person or party aggrieved or adversely affected by such determination to challenge the office's finding by submitting a challenge form along with all evidence or information supporting the challenge. The

proffered bases for challenge largely mirror those offered by the FCC in their Broadband Data Collection efforts.

V5 of the Map currently shows that service offered at a particular address location renders that address location either likely eligible or likely ineligible for future federal grant funding. As part of the above-outlined process, OCIO received a formal challenge and supporting evidence from one or more Iowa residents or Communications Service Provider(s), claiming that service your organization reports is insufficient to warrant the likely ineligible status of a particular address location.

At this time, the Office requests your assistance in making an accurate determination as to whether your organization in fact offers the speeds reported at each challenged address location as of August 2, 2022. To that end, the Office requests that you:

1) Complete and return the attached Challenge Notice Form (see Exhibit A, Affirmation tab), by **October 24, 2022 at 5:00 CDT**. Pursuant to this form, OCIO requests that a representative with legal authority to bind your organization:
    a) Confirm that the speeds reported at the challenged address locations are correct as of August 2, 2022.
    b) Fully complete all other aspects of the Form.

2) In addition to the form, please also submit any other evidence or information in your possession to the Office that supports your prior representations to the Office regarding the address locations identified in Exhibit A. Examples of evidence and information the Office would consider particularly probative include: Bills or invoices provided to or received by customers at the applicable address location which identify the specific download and upload speeds provided or received as of August 2, 2022.

Please return the completed form and supporting evidence or information to ociogrants@iowa.gov.

Please note that you are under no legal obligation to respond to this request for information. The Office permits any affected person or party to submit evidence or information to the Office in support of or in opposition to a challenge within 20 days after the challenge has been posted to ocio.iowa.gov/broadband. However, this Office is affirmatively reaching out to notify you of the challenge, of the circumstances surrounding the challenge, and to solicit your feedback and position. If this Office does not receive your response via Exhibit A of the Form by **October 24, 2022 at 5:00 CDT**, the Office will make a final decision based on the evidence and information currently available to it.

Sincerely,

Office of the Chief Information Officer
State of Iowa

This is a letter of inquiry concerning your organization's prior reporting to the State of Iowa Office of the Chief Information Officer ("OCIO" or "Office") regarding the availability of Broadband service at certain address location(s). Our Office received a timely-filed Challenge Form challenging information reported on the Broadband Availability Map Version 5 ("V5") of the Statewide Broadband Availability Map ("Map"). The data reflected on V5 of the Map was either: (1) provided by you to the Office's contractor, Connected Nation, during the data collection window of November 1, 2021 through February 11, 2022; (2) gathered from other sources (such as FCC) that collected data from you; or (3) carried forward from prior reporting made to this Office by you under a previous Map version.

Map V5 identifies where Broadband service was offered or facilitated at speeds greater than 25/3 as of August 2, 2022. The Map also reflects a preliminary determination of 'likely eligible' or 'likely ineligible' based on speed, technology type, and previous incentives and is a prospective estimate of potential eligibility under various federal programs. The publication of the Map on August 2, 2022 triggered a formal 30-day challenge window during which time we received challenges citing or implicating your service. The challenge(s) we received claims that the data reflected on V5 of the Map is inaccurate. All timely-filed challenges can be found at https://ocio.iowa.gov/broadband-availability-map-version-5-challenge-process. **To resolve this matter, the Office requests that your organization provide information concerning your service at the affected address locations as further identified and described below by November 26, 2022 at 11:59 p.m. CST.**

Map V5 is designed to facilitate decisions concerning future spending under federally-funded broadband programs. Because Map V5 does not use the tiered structure envisioned by Iowa Code chapter 8B and because future federally-funded grant opportunities made available by the Office in accordance with Map V5 will not conform to Iowa Code chapter 8B, the map challenge process outlined in Iowa Code section 8B.10 does not apply. Similarly, within 30 days after the Office's official publication of the Map, the Office permitted any person or party aggrieved or adversely affected by such determination to challenge the office's finding by submitting a challenge form along with all evidence or information supporting the

challenge. The proffered bases for challenge largely mirror those offered by the FCC in their Broadband Data Collection efforts.

V5 of the Map currently shows that service offered at a particular address location renders that address location either likely eligible or likely ineligible for future federal grant funding. As part of the above-outlined process, OCIO received a formal challenge and supporting evidence from one or more Iowa residents or Communications Service Provider(s), claiming that service your organization reports is insufficient to warrant the likely ineligible status of a particular address location.

At this time, the Office requests your assistance in making an accurate determination as to whether your organization in fact offers the speeds reported at each challenged address location as of August 2, 2022. To that end, the Office requests that you:

1) Complete and return the attached Challenge Notice Form (see Exhibit A, Affirmation tab), by **November 26, 2022 at 11:59 p.m. CST**. Pursuant to this form, OCIO requests that a representative with legal authority to bind your organization:
   a) Confirm that the speeds reported at the challenged address locations are correct as of August 2, 2022.
   b) Fully complete all other aspects of the Form.

2) In addition to the form, please also submit any other evidence or information in your possession to the Office that supports your prior representations to the Office regarding the address locations identified in Exhibit A. Examples of evidence and information the Office would consider particularly probative include: Bills or invoices provided to or received by customers at the applicable address location which identify the specific download and upload speeds provided or received as of August 2, 2022.

Please return the completed form and supporting evidence or information to ociogrants@iowa.gov.

Please note that you are under no legal obligation to respond to this request for information. The Office permits any affected person or party to submit evidence or information to the Office in support of or in opposition to a challenge within 20 days after the challenge has been posted to ocio.iowa.gov/broadband. However, this Office is affirmatively reaching out to notify you of the challenge, of the circumstances surrounding the challenge, and to solicit your feedback and position. If this Office does not receive your response via Exhibit A of the Form by **November 26, 2022 at 11:59 p.m. CST**, the Office will make a final decision based on the evidence and information currently available to it.

Sincerely,

Office of the Chief Information Officer
State of Iowa

Broadband Map V5 Challenge Notice

EXHIBIT A

Affirmation of Service or Lack of Service at Address Locations

Broadband Availability Map Challenge Process Version 5

A. RESPONDENT INFORMATION	
Company Name	AMG Technology Investment Group, LLC dba Nextlink Internet
Address	95 Parker Oaks Ln
City	Hudson Oaks
State	Texas
Zip	76087

B. DESIGNATED CONTACT INFORMATION	
Contact Name	Claude Aiken
Contact Phone Number	202-329-7372

C. EXPLANATION

To the extent you believe additional explanation is required to ensure that you are communicating full and accurate information, you may provide narrative to further rebut this challenge. You may consider uploading evidence to substantiate your claims as an attachment to this Affirmation. An Affirmation submitted without sufficient and probative evidence may be inadequate to overcome a challenge.

All of the locations addresses in the affirmation that indicate service have had 100MB/20MB service since on or before 12/20/2021. All locations are being served by fixed wireless, with 2 (ID#'s 871580 & 1049146) covered by licensed spectrum and 5 (ID#'s 638313, 944395, 220227, 1435412, 147015) covered by unlicensed spectrum. The first 3 addresses (ID#'s 638313, 944395, 220227) in Delmar are within 500' of a current customer with 100MB service. The other two Delmar address are within service, with one (ID#147015) being a CAF II obligation that we have submitted to the USAC HUBB.

D. AFFIRMATION

By signing and submitting this form, the authorized representative attests that to the best of the authorized representatives knowledge and belief, the information submitted through this challenge form is true and accurate, and the form is signed under the pains and penalties of perjury. By typing your name, you are affixing your signature to this form and attesting to the accuracy of the information submitted herein.

The Office did not receive a response to this Notice

To whom it may concern:

This is a letter of inquiry concerning your organization's prior reporting to the State of Iowa Office of the Chief Information Officer ("OCIO" or "Office") regarding the availability of Broadband service at certain address location(s). Our Office received a timely-filed Challenge Form challenging information reported on the Broadband Availability Map Version 5 ("V5") of the Statewide Broadband Availability Map ("Map"). The data reflected on V5 of the Map was either: (1) provided by you to the Office's contractor, Connected Nation, during the data collection window of November 1, 2021 through February 11, 2022; (2) gathered from other sources (such as FCC) that collected data from you; or (3) carried forward from prior reporting made to this Office by you under a previous Map version.

Map V5 identifies where Broadband service was offered or facilitated at speeds greater than 25/3 as of August 2, 2022. The Map also reflects a preliminary determination of 'likely eligible' or 'likely ineligible' based on speed, technology type, and previous incentives and is a prospective estimate of potential eligibility under various federal programs. The publication of the Map on August 2, 2022 triggered a formal 30-day challenge window during which time we received challenges citing or implicating your service. The challenge(s) we received claims that the data reflected on V5 of the Map is inaccurate. All timely-filed challenges can be found at https://ocio.iowa.gov/broadband-availability-map-version-5-challenge-process. **To resolve this matter, the Office requests that your organization provide information concerning your service at the affected address locations as further identified and described below by October 24, 2022 at 5:00 CDT.**

Map V5 is designed to facilitate decisions concerning future spending under federally-funded broadband programs. Because Map V5 does not use the tiered structure envisioned by Iowa Code chapter 8B and because future federally-funded grant opportunities made available by the Office in accordance with Map V5 will not conform to Iowa Code chapter 8B, the map challenge process outlined in Iowa Code section 8B.10 does not apply. Similarly, within 30 days after the Office's official publication of the Map, the Office permitted any person or party aggrieved or adversely affected by such determination to challenge the office's finding by submitting a challenge form along with all evidence or information supporting the challenge. The

proffered bases for challenge largely mirror those offered by the FCC in their Broadband Data Collection efforts.

V5 of the Map currently shows that service offered at a particular address location renders that address location either likely eligible or likely ineligible for future federal grant funding. As part of the above-outlined process, OCIO received a formal challenge and supporting evidence from one or more Iowa residents or Communications Service Provider(s), claiming that service your organization reports is insufficient to warrant the likely ineligible status of a particular address location.

At this time, the Office requests your assistance in making an accurate determination as to whether your organization in fact offers the speeds reported at each challenged address location as of August 2, 2022. To that end, the Office requests that you:

1) Complete and return the attached Challenge Notice Form (see Exhibit A, Affirmation tab), by **October 24, 2022 at 5:00 CDT**. Pursuant to this form, OCIO requests that a representative with legal authority to bind your organization:
    a) Confirm that the speeds reported at the challenged address locations are correct as of August 2, 2022.
    b) Fully complete all other aspects of the Form.

2) In addition to the form, please also submit any other evidence or information in your possession to the Office that supports your prior representations to the Office regarding the address locations identified in Exhibit A. Examples of evidence and information the Office would consider particularly probative include: Bills or invoices provided to or received by customers at the applicable address location which identify the specific download and upload speeds provided or received as of August 2, 2022.

Please return the completed form and supporting evidence or information to ociogrants@iowa.gov.

Please note that you are under no legal obligation to respond to this request for information. The Office permits any affected person or party to submit evidence or information to the Office in support of or in opposition to a challenge within 20 days after the challenge has been posted to ocio.iowa.gov/broadband. However, this Office is affirmatively reaching out to notify you of the challenge, of the circumstances surrounding the challenge, and to solicit your feedback and position. If this Office does not receive your response via Exhibit A of the Form by **October 24, 2022 at 5:00 CDT**, the Office will make a final decision based on the evidence and information currently available to it.

To whom it may concern:

This is a letter of inquiry concerning your organization's prior reporting to the State of Iowa Office of the Chief Information Officer ("OCIO" or "Office") regarding the availability of Broadband service at certain address location(s). Our Office received a timely-filed Challenge Form challenging information reported on the Broadband Availability Map Version 5 ("V5") of the Statewide Broadband Availability Map ("Map"). The data reflected on V5 of the Map was either: (1) provided by you to the Office's contractor, Connected Nation, during the data collection window of November 1, 2021 through February 11, 2022; (2) gathered from other sources (such as FCC) that collected data from you; or (3) carried forward from prior reporting made to this Office by you under a previous Map version.

Map V5 identifies where Broadband service was offered or facilitated at speeds greater than 25/3 as of August 2, 2022. The Map also reflects a preliminary determination of 'likely eligible' or 'likely ineligible' based on speed, technology type, and previous incentives and is a prospective estimate of potential eligibility under various federal programs. The publication of the Map on August 2, 2022 triggered a formal 30-day challenge window during which time we received challenges citing or implicating your service. The challenge(s) we received claims that the data reflected on V5 of the Map is inaccurate. All timely-filed challenges can be found at https://ocio.iowa.gov/broadband-availability-map-version-5-challenge-process. **To resolve this matter, the Office requests that your organization provide information concerning your service at the affected address locations as further identified and described below by November 26, 2022 at 11:59 p.m. CST.**

Map V5 is designed to facilitate decisions concerning future spending under federally-funded broadband programs. Because Map V5 does not use the tiered structure envisioned by Iowa Code chapter 8B and because future federally-funded grant opportunities made available by the Office in accordance with Map V5 will not conform to Iowa Code chapter 8B, the map challenge process outlined in Iowa Code section 8B.10 does not apply. Similarly, within 30 days after the Office's official publication of the Map, the Office permitted any person or party aggrieved or adversely affected by such determination to challenge the office's finding by submitting a challenge form along with all evidence or information supporting the

challenge. The proffered bases for challenge largely mirror those offered by the FCC in their Broadband Data Collection efforts.

V5 of the Map currently shows that service offered at a particular address location renders that address location either likely eligible or likely ineligible for future federal grant funding. As part of the above-outlined process, OCIO received a formal challenge and supporting evidence from one or more Iowa residents or Communications Service Provider(s), claiming that service your organization reports is insufficient to warrant the likely ineligible status of a particular address location.

At this time, the Office requests your assistance in making an accurate determination as to whether your organization in fact offers the speeds reported at each challenged address location as of August 2, 2022. To that end, the Office requests that you:

1) Complete and return the attached Challenge Notice Form (see Exhibit A, Affirmation tab), by **November 26, 2022 at 11:59 p.m. CST**. Pursuant to this form, OCIO requests that a representative with legal authority to bind your organization:

   a) Confirm that the speeds reported at the challenged address locations are correct as of August 2, 2022.

   b) Fully complete all other aspects of the Form.

2) In addition to the form, please also submit any other evidence or information in your possession to the Office that supports your prior representations to the Office regarding the address locations identified in Exhibit A. Examples of evidence and information the Office would consider particularly probative include: Bills or invoices provided to or received by customers at the applicable address location which identify the specific download and upload speeds provided or received as of August 2, 2022.

Please return the completed form and supporting evidence or information to ociogrants@iowa.gov.

Please note that you are under no legal obligation to respond to this request for information. The Office permits any affected person or party to submit evidence or information to the Office in support of or in opposition to a challenge within 20 days after the challenge has been posted to ocio.iowa.gov/broadband. However, this Office is affirmatively reaching out to notify you of the challenge, of the circumstances surrounding the challenge, and to solicit your feedback and position. If this Office does not receive your response via Exhibit A of the Form by **November 26, 2022 at 11:59 p.m. CST**, the Office will make a final decision based on the evidence and information currently available to it.

Sincerely,

Office of the Chief Information Officer
State of Iowa

To whom it may concern:

This is a letter of inquiry concerning your organization's prior reporting to the State of Iowa Office of the Chief Information Officer ("OCIO" or "Office") regarding the availability of Broadband service at certain address location(s). Our Office received a timely-filed Challenge Form challenging information reported on the Broadband Availability Map Version 5 ("V5") of the Statewide Broadband Availability Map ("Map"). The data reflected on V5 of the Map was either: (1) provided by you to the Office's contractor, Connected Nation, during the data collection window of November 1, 2021 through February 11, 2022; (2) gathered from other sources (such as FCC) that collected data from you; or (3) carried forward from prior reporting made to this Office by you under a previous Map version.

Map V5 identifies where Broadband service was offered or facilitated at speeds greater than 25/3 as of August 2, 2022. The Map also reflects a preliminary determination of 'likely eligible' or 'likely ineligible' based on speed, technology type, and previous incentives and is a prospective estimate of potential eligibility under various federal programs. The publication of the Map on August 2, 2022 triggered a formal 30-day challenge window during which time we received challenges citing or implicating your service. The challenge(s) we received claims that the data reflected on V5 of the Map is inaccurate. All timely-filed challenges can be found at https://ocio.iowa.gov/broadband-availability-map-version-5-challenge-process. **To resolve this matter, the Office requests that your organization provide information concerning your service at the affected address locations as further identified and described below by October 24, 2022 at 5:00 CDT.**

Map V5 is designed to facilitate decisions concerning future spending under federally-funded broadband programs. Because Map V5 does not use the tiered structure envisioned by Iowa Code chapter 8B and because future federally-funded grant opportunities made available by the Office in accordance with Map V5 will not conform to Iowa Code chapter 8B, the map challenge process outlined in Iowa Code section 8B.10 does not apply. Similarly, within 30 days after the Office's official publication of the Map, the Office permitted any person or party aggrieved or adversely affected by such determination to challenge the office's finding by submitting a challenge form along with all evidence or information supporting the challenge. The

proffered bases for challenge largely mirror those offered by the FCC in their Broadband Data Collection efforts.

V5 of the Map currently shows that service offered at a particular address location renders that address location either likely eligible or likely ineligible for future federal grant funding. As part of the above-outlined process, OCIO received a formal challenge and supporting evidence from one or more Iowa residents or Communications Service Provider(s), claiming that service your organization reports is insufficient to warrant the likely ineligible status of a particular address location.

At this time, the Office requests your assistance in making an accurate determination as to whether your organization in fact offers the speeds reported at each challenged address location as of August 2, 2022. To that end, the Office requests that you:

1) Complete and return the attached Challenge Notice Form (see Exhibit A, Affirmation tab), by **October 24, 2022 at 5:00 CDT**. Pursuant to this form, OCIO requests that a representative with legal authority to bind your organization:
    a) Confirm that the speeds reported at the challenged address locations are correct as of August 2, 2022.
    b) Fully complete all other aspects of the Form.

2) In addition to the form, please also submit any other evidence or information in your possession to the Office that supports your prior representations to the Office regarding the address locations identified in Exhibit A. Examples of evidence and information the Office would consider particularly probative include: Bills or invoices provided to or received by customers at the applicable address location which identify the specific download and upload speeds provided or received as of August 2, 2022.

Please return the completed form and supporting evidence or information to ociogrants@iowa.gov.

Please note that you are under no legal obligation to respond to this request for information. The Office permits any affected person or party to submit evidence or information to the Office in support of or in opposition to a challenge within 20 days after the challenge has been posted to ocio.iowa.gov/broadband. However, this Office is affirmatively reaching out to notify you of the challenge, of the circumstances surrounding the challenge, and to solicit your feedback and position. If this Office does not receive your response via Exhibit A of the Form by **October 24, 2022 at 5:00 CDT**, the Office will make a final decision based on the evidence and information currently available to it.

Sincerely,

Office of the Chief Information Officer
State of Iowa

To whom it may concern:

This is a letter of inquiry concerning your organization's prior reporting to the State of Iowa Office of the Chief Information Officer ("OCIO" or "Office") regarding the availability of Broadband service at certain address location(s). Our Office received a timely-filed Challenge Form challenging information reported on the Broadband Availability Map Version 5 ("V5") of the Statewide Broadband Availability Map ("Map"). The data reflected on V5 of the Map was either: (1) provided by you to the Office's contractor, Connected Nation, during the data collection window of November 1, 2021 through February 11, 2022; (2) gathered from other sources (such as FCC) that collected data from you; or (3) carried forward from prior reporting made to this Office by you under a previous Map version.

Map V5 identifies where Broadband service was offered or facilitated at speeds greater than 25/3 as of August 2, 2022. The Map also reflects a preliminary determination of 'likely eligible' or 'likely ineligible' based on speed, technology type, and previous incentives and is a prospective estimate of potential eligibility under various federal programs. The publication of the Map on August 2, 2022 triggered a formal 30-day challenge window during which time we received challenges citing or implicating your service. The challenge(s) we received claims that the data reflected on V5 of the Map is inaccurate. All timely-filed challenges can be found at https://ocio.iowa.gov/broadband-availability-map-version-5-challenge-process. **To resolve this matter, the Office requests that your organization provide information concerning your service at the affected address locations as further identified and described below by November 26, 2022 at 11:59 p.m. CST.**

Map V5 is designed to facilitate decisions concerning future spending under federally-funded broadband programs. Because Map V5 does not use the tiered structure envisioned by Iowa Code chapter 8B and because future federally-funded grant opportunities made available by the Office in accordance with Map V5 will not conform to Iowa Code chapter 8B, the map challenge process outlined in Iowa Code section 8B.10 does not apply. Similarly, within 30 days after the Office's official publication of the Map, the Office permitted any person or party aggrieved or adversely affected by such determination to challenge the office's finding by submitting a challenge form along with all evidence or information supporting the

challenge. The proffered bases for challenge largely mirror those offered by the FCC in their Broadband Data Collection efforts.

V5 of the Map currently shows that service offered at a particular address location renders that address location either likely eligible or likely ineligible for future federal grant funding. As part of the above-outlined process, OCIO received a formal challenge and supporting evidence from one or more Iowa residents or Communications Service Provider(s), claiming that service your organization reports is insufficient to warrant the likely ineligible status of a particular address location.

At this time, the Office requests your assistance in making an accurate determination as to whether your organization in fact offers the speeds reported at each challenged address location as of August 2, 2022. To that end, the Office requests that you:

1) Complete and return the attached Challenge Notice Form (see Exhibit A, Affirmation tab), by **November 26, 2022 at 11:59 p.m. CST**. Pursuant to this form, OCIO requests that a representative with legal authority to bind your organization:
   a) Confirm that the speeds reported at the challenged address locations are correct as of August 2, 2022.
   b) Fully complete all other aspects of the Form.

2) In addition to the form, please also submit any other evidence or information in your possession to the Office that supports your prior representations to the Office regarding the address locations identified in Exhibit A. Examples of evidence and information the Office would consider particularly probative include: Bills or invoices provided to or received by customers at the applicable address location which identify the specific download and upload speeds provided or received as of August 2, 2022.

Please return the completed form and supporting evidence or information to ociogrants@iowa.gov.

Please note that you are under no legal obligation to respond to this request for information. The Office permits any affected person or party to submit evidence or information to the Office in support of or in opposition to a challenge within 20 days after the challenge has been posted to ocio.iowa.gov/broadband. However, this Office is affirmatively reaching out to notify you of the challenge, of the circumstances surrounding the challenge, and to solicit your feedback and position. If this Office does not receive your response via Exhibit A of the Form by **November 26, 2022 at 11:59 p.m. CST**, the Office will make a final decision based on the evidence and information currently available to it.

Sincerely,

Office of the Chief Information Officer
State of Iowa

Affirmation of Service or Lack of Service at Address Locations

Broadband Availability Map Challenge Process Version 5

A. RESPONDENT INFORMATION

Company Name	CenturyLink
Address	100 CenturyLink Dr
City	Monroe
State	LA
Zip	71203

B. DESIGNATED CONTACT INFORMATION

Contact Name	Jacob Barlow
Contact Phone Number	303-707-7004
Contact Email	Jacob.Barlow@Lumen.com

C. EXPLANATION

To the extent you believe additional explanation is required to ensure that you are communicating full and accurate information, you may provide narrative to further rebut this challenge. You may consider uploading evidence to substantiate your claims as an attachment to this Affirmation. An Affirmation submitted without sufficient and probative evidence may be inadequate to overcome a challenge.

The addresses in the Affirmation tab were cross-referenced with CenturyLink provisioning systems. Which was used to populate the technology and max speeds. Addresses that could not be found in CenturyLink provisioning systems were marked for the technology of 'No Service.'

D. AFFIRMATION

By signing and submitting this form, the authorized representative attests that to the best of the authorized representatives knowledge and belief, the information submitted through this challenge form is true and accurate, and the form is signed under the pains and penalties of perjury. By typing your name, you are affixing your signature to this form and attesting to the accuracy of the information submitted herein.

The Office did not receive a response to this Notice

To whom it may concern:

This is a letter of inquiry concerning your organization's prior reporting to the State of Iowa Office of the Chief Information Officer ("OCIO" or "Office") regarding the availability of Broadband service at certain address location(s). Our Office received a timely-filed Challenge Form challenging information reported on the Broadband Availability Map Version 5 ("V5") of the Statewide Broadband Availability Map ("Map"). The data reflected on V5 of the Map was either: (1) provided by you to the Office's contractor, Connected Nation, during the data collection window of November 1, 2021 through February 11, 2022; (2) gathered from other sources (such as FCC) that collected data from you; or (3) carried forward from prior reporting made to this Office by you under a previous Map version.

Map V5 identifies where Broadband service was offered or facilitated at speeds greater than 25/3 as of August 2, 2022. The Map also reflects a preliminary determination of 'likely eligible' or 'likely ineligible' based on speed, technology type, and previous incentives and is a prospective estimate of potential eligibility under various federal programs. The publication of the Map on August 2, 2022 triggered a formal 30-day challenge window during which time we received challenges citing or implicating your service. The challenge(s) we received claims that the data reflected on V5 of the Map is inaccurate. All timely-filed challenges can be found at https://ocio.iowa.gov/broadband-availability-map-version-5-challenge-process. **To resolve this matter, the Office requests that your organization provide information concerning your service at the affected address locations as further identified and described below by October 24, 2022 at 5:00 CDT.**

Map V5 is designed to facilitate decisions concerning future spending under federally-funded broadband programs. Because Map V5 does not use the tiered structure envisioned by Iowa Code chapter 8B and because future federally-funded grant opportunities made available by the Office in accordance with Map V5 will not conform to Iowa Code chapter 8B, the map challenge process outlined in Iowa Code section 8B.10 does not apply. Similarly, within 30 days after the Office's official publication of the Map, the Office permitted any person or party aggrieved or adversely affected by such determination to challenge the office's finding by submitting a challenge form along with all evidence or information supporting the challenge. The

proffered bases for challenge largely mirror those offered by the FCC in their Broadband Data Collection efforts.

V5 of the Map currently shows that service offered at a particular address location renders that address location either likely eligible or likely ineligible for future federal grant funding. As part of the above-outlined process, OCIO received a formal challenge and supporting evidence from one or more Iowa residents or Communications Service Provider(s), claiming that service your organization reports is insufficient to warrant the likely ineligible status of a particular address location.

At this time, the Office requests your assistance in making an accurate determination as to whether your organization in fact offers the speeds reported at each challenged address location as of August 2, 2022. To that end, the Office requests that you:

1) Complete and return the attached Challenge Notice Form (see Exhibit A, Affirmation tab), by **October 24, 2022 at 5:00 CDT**. Pursuant to this form, OCIO requests that a representative with legal authority to bind your organization:
    a) Confirm that the speeds reported at the challenged address locations are correct as of August 2, 2022.
    b) Fully complete all other aspects of the Form.

2) In addition to the form, please also submit any other evidence or information in your possession to the Office that supports your prior representations to the Office regarding the address locations identified in Exhibit A. Examples of evidence and information the Office would consider particularly probative include: Bills or invoices provided to or received by customers at the applicable address location which identify the specific download and upload speeds provided or received as of August 2, 2022.

Please return the completed form and supporting evidence or information to ociogrants@iowa.gov.

Please note that you are under no legal obligation to respond to this request for information. The Office permits any affected person or party to submit evidence or information to the Office in support of or in opposition to a challenge within 20 days after the challenge has been posted to ocio.iowa.gov/broadband. However, this Office is affirmatively reaching out to notify you of the challenge, of the circumstances surrounding the challenge, and to solicit your feedback and position. If this Office does not receive your response via Exhibit A of the Form by **October 24, 2022 at 5:00 CDT**, the Office will make a final decision based on the evidence and information currently available to it.

This is a letter of inquiry concerning your organization's prior reporting to the State of Iowa Office of the Chief Information Officer ("OCIO" or "Office") regarding the availability of Broadband service at certain address location(s). Our Office received a timely-filed Challenge Form challenging information reported on the Broadband Availability Map Version 5 ("V5") of the Statewide Broadband Availability Map ("Map"). The data reflected on V5 of the Map was either: (1) provided by you to the Office's contractor, Connected Nation, during the data collection window of November 1, 2021 through February 11, 2022; (2) gathered from other sources (such as FCC) that collected data from you; or (3) carried forward from prior reporting made to this Office by you under a previous Map version.

Map V5 identifies where Broadband service was offered or facilitated at speeds greater than 25/3 as of August 2, 2022. The Map also reflects a preliminary determination of 'likely eligible' or 'likely ineligible' based on speed, technology type, and previous incentives and is a prospective estimate of potential eligibility under various federal programs. The publication of the Map on August 2, 2022 triggered a formal 30-day challenge window during which time we received challenges citing or implicating your service. The challenge(s) we received claims that the data reflected on V5 of the Map is inaccurate. All timely-filed challenges can be found at https://ocio.iowa.gov/broadband-availability-map-version-5-challenge-process. **To resolve this matter, the Office requests that your organization provide information concerning your service at the affected address locations as further identified and described below by November 26, 2022 at 11:59 p.m. CST.**

Map V5 is designed to facilitate decisions concerning future spending under federally-funded broadband programs. Because Map V5 does not use the tiered structure envisioned by Iowa Code chapter 8B and because future federally-funded grant opportunities made available by the Office in accordance with Map V5 will not conform to Iowa Code chapter 8B, the map challenge process outlined in Iowa Code section 8B.10 does not apply. Similarly, within 30 days after the Office's official publication of the Map, the Office permitted any person or party aggrieved or adversely affected by such determination to challenge the office's finding by submitting a challenge form along with all evidence or information supporting the

challenge. The proffered bases for challenge largely mirror those offered by the FCC in their Broadband Data Collection efforts.

V5 of the Map currently shows that service offered at a particular address location renders that address location either likely eligible or likely ineligible for future federal grant funding. As part of the above-outlined process, OCIO received a formal challenge and supporting evidence from one or more Iowa residents or Communications Service Provider(s), claiming that service your organization reports is insufficient to warrant the likely ineligible status of a particular address location.

At this time, the Office requests your assistance in making an accurate determination as to whether your organization in fact offers the speeds reported at each challenged address location as of August 2, 2022. To that end, the Office requests that you:

1) Complete and return the attached Challenge Notice Form (see Exhibit A, Affirmation tab), by **November 26, 2022 at 11:59 p.m. CST**. Pursuant to this form, OCIO requests that a representative with legal authority to bind your organization:
   a) Confirm that the speeds reported at the challenged address locations are correct as of August 2, 2022.
   b) Fully complete all other aspects of the Form.

2) In addition to the form, please also submit any other evidence or information in your possession to the Office that supports your prior representations to the Office regarding the address locations identified in Exhibit A. Examples of evidence and information the Office would consider particularly probative include: Bills or invoices provided to or received by customers at the applicable address location which identify the specific download and upload speeds provided or received as of August 2, 2022.

Please return the completed form and supporting evidence or information to ociogrants@iowa.gov.

Please note that you are under no legal obligation to respond to this request for information. The Office permits any affected person or party to submit evidence or information to the Office in support of or in opposition to a challenge within 20 days after the challenge has been posted to ocio.iowa.gov/broadband. However, this Office is affirmatively reaching out to notify you of the challenge, of the circumstances surrounding the challenge, and to solicit your feedback and position. If this Office does not receive your response via Exhibit A of the Form by **November 26, 2022 at 11:59 p.m. CST**, the Office will make a final decision based on the evidence and information currently available to it.

Sincerely,

Office of the Chief Information Officer
State of Iowa

C. EXPLANATION

To the extent you believe additional explanation is required to ensure that you are communicating full and accurate information, you may provide narrative to further rebut this challenge. You may consider uploading evidence to substantiate your claims as an attachment to this Affirmation. An Affirmation submitted without sufficient and probative evidence may be inadequate to overcome a challenge.

D. AFFIRMATION

By signing and submitting this form, the authorized representative attests that to the best of the authorized representatives knowledge and belief, the information submitted through this challenge form is true and accurate, and the form is signed under the pains and penalties of perjury. By typing your name, you are affixing your signature to this form and attesting to the accuracy of the information submitted herein.

To whom it may concern:

This is a letter of inquiry concerning your organization's prior reporting to the State of Iowa Office of the Chief Information Officer ("OCIO" or "Office") regarding the availability of Broadband service at certain address location(s). Our Office received a timely-filed Challenge Form challenging information reported on the Broadband Availability Map Version 5 ("V5") of the Statewide Broadband Availability Map ("Map"). The data reflected on V5 of the Map was either: (1) provided by you to the Office's contractor, Connected Nation, during the data collection window of November 1, 2021 through February 11, 2022; (2) gathered from other sources (such as FCC) that collected data from you; or (3) carried forward from prior reporting made to this Office by you under a previous Map version.

Map V5 identifies where Broadband service was offered or facilitated at speeds greater than 25/3 as of August 2, 2022. The Map also reflects a preliminary determination of 'likely eligible' or 'likely ineligible' based on speed, technology type, and previous incentives and is a prospective estimate of potential eligibility under various federal programs. The publication of the Map on August 2, 2022 triggered a formal 30-day challenge window during which time we received challenges citing or implicating your service. The challenge(s) we received claims that the data reflected on V5 of the Map is inaccurate. All timely-filed challenges can be found at https://ocio.iowa.gov/broadband-availability-map-version-5-challenge-process. **To resolve this matter, the Office requests that your organization provide information concerning your service at the affected address locations as further identified and described below by October 24, 2022 at 5:00 CDT.**

Map V5 is designed to facilitate decisions concerning future spending under federally-funded broadband programs. Because Map V5 does not use the tiered structure envisioned by Iowa Code chapter 8B and because future federally-funded grant opportunities made available by the Office in accordance with Map V5 will not conform to Iowa Code chapter 8B, the map challenge process outlined in Iowa Code section 8B.10 does not apply. Similarly, within 30 days after the Office's official publication of the Map, the Office permitted any person or party aggrieved or adversely affected by such determination to challenge the office's finding by submitting a challenge form along with all evidence or information supporting the challenge. The

proffered bases for challenge largely mirror those offered by the FCC in their Broadband Data Collection efforts.

V5 of the Map currently shows that service offered at a particular address location renders that address location either likely eligible or likely ineligible for future federal grant funding. As part of the above-outlined process, OCIO received a formal challenge and supporting evidence from one or more Iowa residents or Communications Service Provider(s), claiming that service your organization reports is insufficient to warrant the likely ineligible status of a particular address location.

At this time, the Office requests your assistance in making an accurate determination as to whether your organization in fact offers the speeds reported at each challenged address location as of August 2, 2022. To that end, the Office requests that you:

1) Complete and return the attached Challenge Notice Form (see Exhibit A, Affirmation tab), by **October 24, 2022 at 5:00 CDT**. Pursuant to this form, OCIO requests that a representative with legal authority to bind your organization:
    a) Confirm that the speeds reported at the challenged address locations are correct as of August 2, 2022.
    b) Fully complete all other aspects of the Form.

2) In addition to the form, please also submit any other evidence or information in your possession to the Office that supports your prior representations to the Office regarding the address locations identified in Exhibit A. Examples of evidence and information the Office would consider particularly probative include: Bills or invoices provided to or received by customers at the applicable address location which identify the specific download and upload speeds provided or received as of August 2, 2022.

Please return the completed form and supporting evidence or information to ociogrants@iowa.gov.

Please note that you are under no legal obligation to respond to this request for information. The Office permits any affected person or party to submit evidence or information to the Office in support of or in opposition to a challenge within 20 days after the challenge has been posted to ocio.iowa.gov/broadband. However, this Office is affirmatively reaching out to notify you of the challenge, of the circumstances surrounding the challenge, and to solicit your feedback and position. If this Office does not receive your response via Exhibit A of the Form by **October 24, 2022 at 5:00 CDT**, the Office will make a final decision based on the evidence and information currently available to it.

Sincerely,

Office of the Chief Information Officer
State of Iowa

challenge. The proffered bases for challenge largely mirror those offered by the FCC in their Broadband Data Collection efforts.

V5 of the Map currently shows that service offered at a particular address location renders that address location either likely eligible or likely ineligible for future federal grant funding. As part of the above-outlined process, OCIO received a formal challenge and supporting evidence from one or more Iowa residents or Communications Service Provider(s), claiming that service your organization reports is insufficient to warrant the likely ineligible status of a particular address location.

At this time, the Office requests your assistance in making an accurate determination as to whether your organization in fact offers the speeds reported at each challenged address location as of August 2, 2022. To that end, the Office requests that you:

1) Complete and return the attached Challenge Notice Form (see Exhibit A, Affirmation tab), by **November 26, 2022 at 11:59 p.m. CST**. Pursuant to this form, OCIO requests that a representative with legal authority to bind your organization:

   a) Confirm that the speeds reported at the challenged address locations are correct as of August 2, 2022.

   b) Fully complete all other aspects of the Form.

2) In addition to the form, please also submit any other evidence or information in your possession to the Office that supports your prior representations to the Office regarding the address locations identified in Exhibit A. Examples of evidence and information the Office would consider particularly probative include: Bills or invoices provided to or received by customers at the applicable address location which identify the specific download and upload speeds provided or received as of August 2, 2022.

Please return the completed form and supporting evidence or information to ociogrants@iowa.gov.

Please note that you are under no legal obligation to respond to this request for information. The Office permits any affected person or party to submit evidence or information to the Office in support of or in opposition to a challenge within 20 days after the challenge has been posted to ocio.iowa.gov/broadband. However, this Office is affirmatively reaching out to notify you of the challenge, of the circumstances surrounding the challenge, and to solicit your feedback and position. If this Office does not receive your response via Exhibit A of the Form by **November 26, 2022 at 11:59 p.m. CST**, the Office will make a final decision based on the evidence and information currently available to it.

Sincerely,

Office of the Chief Information Officer
State of Iowa

The Office did not receive a response to this Notice.

To whom it may concern:

This is a letter of inquiry concerning your organization's prior reporting to the State of Iowa Office of the Chief Information Officer ("OCIO" or "Office") regarding the availability of Broadband service at certain address location(s). Our Office received a timely-filed Challenge Form challenging information reported on the Broadband Availability Map Version 5 ("V5") of the Statewide Broadband Availability Map ("Map"). The data reflected on V5 of the Map was either: (1) provided by you to the Office's contractor, Connected Nation, during the data collection window of November 1, 2021 through February 11, 2022; (2) gathered from other sources (such as FCC) that collected data from you; or (3) carried forward from prior reporting made to this Office by you under a previous Map version.

Map V5 identifies where Broadband service was offered or facilitated at speeds greater than 25/3 as of August 2, 2022. The Map also reflects a preliminary determination of 'likely eligible' or 'likely ineligible' based on speed, technology type, and previous incentives and is a prospective estimate of potential eligibility under various federal programs. The publication of the Map on August 2, 2022 triggered a formal 30-day challenge window during which time we received challenges citing or implicating your service. The challenge(s) we received claims that the data reflected on V5 of the Map is inaccurate. All timely-filed challenges can be found at https://ocio.iowa.gov/broadband-availability-map-version-5-challenge-process. **To resolve this matter, the Office requests that your organization provide information concerning your service at the affected address locations as further identified and described below by October 24, 2022 at 5:00 CDT.**

Map V5 is designed to facilitate decisions concerning future spending under federally-funded broadband programs. Because Map V5 does not use the tiered structure envisioned by Iowa Code chapter 8B and because future federally-funded grant opportunities made available by the Office in accordance with Map V5 will not conform to Iowa Code chapter 8B, the map challenge process outlined in Iowa Code section 8B.10 does not apply. Similarly, within 30 days after the Office's official publication of the Map, the Office permitted any person or party aggrieved or adversely affected by such determination to challenge the office's finding by submitting a challenge form along with all evidence or information supporting the challenge. The

proffered bases for challenge largely mirror those offered by the FCC in their Broadband Data Collection efforts.

V5 of the Map currently shows that service offered at a particular address location renders that address location either likely eligible or likely ineligible for future federal grant funding. As part of the above-outlined process, OCIO received a formal challenge and supporting evidence from one or more Iowa residents or Communications Service Provider(s), claiming that service your organization reports is insufficient to warrant the likely ineligible status of a particular address location.

At this time, the Office requests your assistance in making an accurate determination as to whether your organization in fact offers the speeds reported at each challenged address location as of August 2, 2022. To that end, the Office requests that you:

1) Complete and return the attached Challenge Notice Form (see Exhibit A, Affirmation tab), by **October 24, 2022 at 5:00 CDT**. Pursuant to this form, OCIO requests that a representative with legal authority to bind your organization:
    a) Confirm that the speeds reported at the challenged address locations are correct as of August 2, 2022.
    b) Fully complete all other aspects of the Form.

2) In addition to the form, please also submit any other evidence or information in your possession to the Office that supports your prior representations to the Office regarding the address locations identified in Exhibit A. Examples of evidence and information the Office would consider particularly probative include: Bills or invoices provided to or received by customers at the applicable address location which identify the specific download and upload speeds provided or received as of August 2, 2022.

Please return the completed form and supporting evidence or information to ociogrants@iowa.gov.

Please note that you are under no legal obligation to respond to this request for information. The Office permits any affected person or party to submit evidence or information to the Office in support of or in opposition to a challenge within 20 days after the challenge has been posted to ocio.iowa.gov/broadband. However, this Office is affirmatively reaching out to notify you of the challenge, of the circumstances surrounding the challenge, and to solicit your feedback and position. If this Office does not receive your response via Exhibit A of the Form by **October 24, 2022 at 5:00 CDT**, the Office will make a final decision based on the evidence and information currently available to it.

Sincerely,

Office of the Chief Information Officer
State of Iowa

To whom it may concern:

This is a letter of inquiry concerning your organization's prior reporting to the State of Iowa Office of the Chief Information Officer ("OCIO" or "Office") regarding the availability of Broadband service at certain address location(s). Our Office received a timely-filed Challenge Form challenging information reported on the Broadband Availability Map Version 5 ("V5") of the Statewide Broadband Availability Map ("Map"). The data reflected on V5 of the Map was either: (1) provided by you to the Office's contractor, Connected Nation, during the data collection window of November 1, 2021 through February 11, 2022; (2) gathered from other sources (such as FCC) that collected data from you; or (3) carried forward from prior reporting made to this Office by you under a previous Map version.

Map V5 identifies where Broadband service was offered or facilitated at speeds greater than 25/3 as of August 2, 2022. The Map also reflects a preliminary determination of 'likely eligible' or 'likely ineligible' based on speed, technology type, and previous incentives and is a prospective estimate of potential eligibility under various federal programs. The publication of the Map on August 2, 2022 triggered a formal 30-day challenge window during which time we received challenges citing or implicating your service. The challenge(s) we received claims that the data reflected on V5 of the Map is inaccurate. All timely-filed challenges can be found at https://ocio.iowa.gov/broadband-availability-map-version-5-challenge-process. **To resolve this matter, the Office requests that your organization provide information concerning your service at the affected address locations as further identified and described below by October 24, 2022 at 5:00 CDT.**

Map V5 is designed to facilitate decisions concerning future spending under federally-funded broadband programs. Because Map V5 does not use the tiered structure envisioned by Iowa Code chapter 8B and because future federally-funded grant opportunities made available by the Office in accordance with Map V5 will not conform to Iowa Code chapter 8B, the map challenge process outlined in Iowa Code section 8B.10 does not apply. Similarly, within 30 days after the Office's official publication of the Map, the Office permitted any person or party aggrieved or adversely affected by such determination to challenge the office's finding by submitting a challenge form along with all evidence or information supporting the challenge. The

proffered bases for challenge largely mirror those offered by the FCC in their Broadband Data Collection efforts.

V5 of the Map currently shows that service offered at a particular address location renders that address location either likely eligible or likely ineligible for future federal grant funding. As part of the above-outlined process, OCIO received a formal challenge and supporting evidence from one or more Iowa residents or Communications Service Provider(s), claiming that service your organization reports is insufficient to warrant the likely ineligible status of a particular address location.

At this time, the Office requests your assistance in making an accurate determination as to whether your organization in fact offers the speeds reported at each challenged address location as of August 2, 2022. To that end, the Office requests that you:

1) Complete and return the attached Challenge Notice Form (see Exhibit A, Affirmation tab), by **October 24, 2022 at 5:00 CDT**. Pursuant to this form, OCIO requests that a representative with legal authority to bind your organization:
    a) Confirm that the speeds reported at the challenged address locations are correct as of August 2, 2022.
    b) Fully complete all other aspects of the Form.

2) In addition to the form, please also submit any other evidence or information in your possession to the Office that supports your prior representations to the Office regarding the address locations identified in Exhibit A. Examples of evidence and information the Office would consider particularly probative include: Bills or invoices provided to or received by customers at the applicable address location which identify the specific download and upload speeds provided or received as of August 2, 2022.

Please return the completed form and supporting evidence or information to ociogrants@iowa.gov.

Please note that you are under no legal obligation to respond to this request for information. The Office permits any affected person or party to submit evidence or information to the Office in support of or in opposition to a challenge within 20 days after the challenge has been posted to ocio.iowa.gov/broadband. However, this Office is affirmatively reaching out to notify you of the challenge, of the circumstances surrounding the challenge, and to solicit your feedback and position. If this Office does not receive your response via Exhibit A of the Form by **October 24, 2022 at 5:00 CDT**, the Office will make a final decision based on the evidence and information currently available to it.

Sincerely,

Office of the Chief Information Officer
State of Iowa

At this time, the Office requests your assistance in making an accurate determination as to whether your organization in fact offers the speeds reported at each challenged address location as of August 2, 2022. To that end, the Office requests that you:

1) Complete and return the attached Challenge Notice Form (see Exhibit A, Affirmation tab), by **October 24, 2022 at 5:00 CDT**. Pursuant to this form, OCIO requests that a representative with legal authority to bind your organization:
    a) Confirm that the speeds reported at the challenged address locations are correct as of August 2, 2022.
    b) Fully complete all other aspects of the Form.

2) In addition to the form, please also submit any other evidence or information in your possession to the Office that supports your prior representations to the Office regarding the address locations identified in Exhibit A. Examples of evidence and information the Office would consider particularly probative include: Bills or invoices provided to or received by customers at the applicable address location which identify the specific download and upload speeds provided or received as of August 2, 2022.

Please return the completed form and supporting evidence or information to ociogrants@iowa.gov.

Please note that you are under no legal obligation to respond to this request for information. The Office permits any affected person or party to submit evidence or information to the Office in support of or in opposition to a challenge within 20 days after the challenge has been posted to ocio.iowa.gov/broadband. However, this Office is affirmatively reaching out to notify you of the challenge, of the circumstances surrounding the challenge, and to solicit your feedback and position. If this Office does not receive your response via Exhibit A of the Form by **October 24, 2022 at 5:00 CDT**, the Office will make a final decision based on the evidence and information currently available to it.

Sincerely,

Office of the Chief Information Officer
State of Iowa

To whom it may concern:

This is a letter of inquiry concerning your organization's prior reporting to the State of Iowa Office of the Chief Information Officer ("OCIO" or "Office") regarding the availability of Broadband service at certain address location(s). Our Office received a timely-filed Challenge Form challenging information reported on the Broadband Availability Map Version 5 ("V5") of the Statewide Broadband Availability Map ("Map"). The data reflected on V5 of the Map was either: (1) provided by you to the Office's contractor, Connected Nation, during the data collection window of November 1, 2021 through February 11, 2022; (2) gathered from other sources (such as FCC) that collected data from you; or (3) carried forward from prior reporting made to this Office by you under a previous Map version.

Map V5 identifies where Broadband service was offered or facilitated at speeds greater than 25/3 as of August 2, 2022. The Map also reflects a preliminary determination of 'likely eligible' or 'likely ineligible' based on speed, technology type, and previous incentives and is a prospective estimate of potential eligibility under various federal programs. The publication of the Map on August 2, 2022 triggered a formal 30-day challenge window during which time we received challenges citing or implicating your service. The challenge(s) we received claims that the data reflected on V5 of the Map is inaccurate. All timely-filed challenges can be found at https://ocio.iowa.gov/broadband-availability-map-version-5-challenge-process. **To resolve this matter, the Office requests that your organization provide information concerning your service at the affected address locations as further identified and described below by November 26, 2022 at 11:59 p.m. CST.**

Map V5 is designed to facilitate decisions concerning future spending under federally-funded broadband programs. Because Map V5 does not use the tiered structure envisioned by Iowa Code chapter 8B and because future federally-funded grant opportunities made available by the Office in accordance with Map V5 will not conform to Iowa Code chapter 8B, the map challenge process outlined in Iowa Code section 8B.10 does not apply. Similarly, within 30 days after the Office's official publication of the Map, the Office permitted any person or party aggrieved or adversely affected by such determination to challenge the office's finding by submitting a challenge form along with all evidence or information supporting the

challenge. The proffered bases for challenge largely mirror those offered by the FCC in their Broadband Data Collection efforts.

V5 of the Map currently shows that service offered at a particular address location renders that address location either likely eligible or likely ineligible for future federal grant funding. As part of the above-outlined process, OCIO received a formal challenge and supporting evidence from one or more Iowa residents or Communications Service Provider(s), claiming that service your organization reports is insufficient to warrant the likely ineligible status of a particular address location.

At this time, the Office requests your assistance in making an accurate determination as to whether your organization in fact offers the speeds reported at each challenged address location as of August 2, 2022. To that end, the Office requests that you:

1) Complete and return the attached Challenge Notice Form (see Exhibit A, Affirmation tab), by **November 26, 2022 at 11:59 p.m. CST**. Pursuant to this form, OCIO requests that a representative with legal authority to bind your organization:
   a) Confirm that the speeds reported at the challenged address locations are correct as of August 2, 2022.
   b) Fully complete all other aspects of the Form.

2) In addition to the form, please also submit any other evidence or information in your possession to the Office that supports your prior representations to the Office regarding the address locations identified in Exhibit A. Examples of evidence and information the Office would consider particularly probative include: Bills or invoices provided to or received by customers at the applicable address location which identify the specific download and upload speeds provided or received as of August 2, 2022.

Please return the completed form and supporting evidence or information to ociogrants@iowa.gov.

Please note that you are under no legal obligation to respond to this request for information. The Office permits any affected person or party to submit evidence or information to the Office in support of or in opposition to a challenge within 20 days after the challenge has been posted to ocio.iowa.gov/broadband. However, this Office is affirmatively reaching out to notify you of the challenge, of the circumstances surrounding the challenge, and to solicit your feedback and position. If this Office does not receive your response via Exhibit A of the Form by **November 26, 2022 at 11:59 p.m. CST**, the Office will make a final decision based on the evidence and information currently available to it.

Sincerely,

Office of the Chief Information Officer
State of Iowa

To whom it may concern:

This is a letter of inquiry concerning your organization's prior reporting to the State of Iowa Office of the Chief Information Officer ("OCIO" or "Office") regarding the availability of Broadband service at certain address location(s). Our Office received a timely-filed Challenge Form challenging information reported on the Broadband Availability Map Version 5 ("V5") of the Statewide Broadband Availability Map ("Map"). The data reflected on V5 of the Map was either: (1) provided by you to the Office's contractor, Connected Nation, during the data collection window of November 1, 2021 through February 11, 2022; (2) gathered from other sources (such as FCC) that collected data from you; or (3) carried forward from prior reporting made to this Office by you under a previous Map version.

Map V5 identifies where Broadband service was offered or facilitated at speeds greater than 25/3 as of August 2, 2022. The Map also reflects a preliminary determination of 'likely eligible' or 'likely ineligible' based on speed, technology type, and previous incentives and is a prospective estimate of potential eligibility under various federal programs. The publication of the Map on August 2, 2022 triggered a formal 30-day challenge window during which time we received challenges citing or implicating your service. The challenge(s) we received claims that the data reflected on V5 of the Map is inaccurate. All timely-filed challenges can be found at https://ocio.iowa.gov/broadband-availability-map-version-5-challenge-process. **To resolve this matter, the Office requests that your organization provide information concerning your service at the affected address locations as further identified and described below by October 24, 2022 at 5:00 CDT.**

Map V5 is designed to facilitate decisions concerning future spending under federally-funded broadband programs. Because Map V5 does not use the tiered structure envisioned by Iowa Code chapter 8B and because future federally-funded grant opportunities made available by the Office in accordance with Map V5 will not conform to Iowa Code chapter 8B, the map challenge process outlined in Iowa Code section 8B.10 does not apply. Similarly, within 30 days after the Office's official publication of the Map, the Office permitted any person or party aggrieved or adversely affected by such determination to challenge the office's finding by submitting a challenge form along with all evidence or information supporting the challenge. The

proffered bases for challenge largely mirror those offered by the FCC in their Broadband Data Collection efforts.

V5 of the Map currently shows that service offered at a particular address location renders that address location either likely eligible or likely ineligible for future federal grant funding. As part of the above-outlined process, OCIO received a formal challenge and supporting evidence from one or more Iowa residents or Communications Service Provider(s), claiming that service your organization reports is insufficient to warrant the likely ineligible status of a particular address location.

At this time, the Office requests your assistance in making an accurate determination as to whether your organization in fact offers the speeds reported at each challenged address location as of August 2, 2022. To that end, the Office requests that you:

1) Complete and return the attached Challenge Notice Form (see Exhibit A, Affirmation tab), by **October 24, 2022 at 5:00 CDT**. Pursuant to this form, OCIO requests that a representative with legal authority to bind your organization:
    a) Confirm that the speeds reported at the challenged address locations are correct as of August 2, 2022.
    b) Fully complete all other aspects of the Form.

2) In addition to the form, please also submit any other evidence or information in your possession to the Office that supports your prior representations to the Office regarding the address locations identified in Exhibit A. Examples of evidence and information the Office would consider particularly probative include: Bills or invoices provided to or received by customers at the applicable address location which identify the specific download and upload speeds provided or received as of August 2, 2022.

Please return the completed form and supporting evidence or information to ociogrants@iowa.gov.

Please note that you are under no legal obligation to respond to this request for information. The Office permits any affected person or party to submit evidence or information to the Office in support of or in opposition to a challenge within 20 days after the challenge has been posted to ocio.iowa.gov/broadband. However, this Office is affirmatively reaching out to notify you of the challenge, of the circumstances surrounding the challenge, and to solicit your feedback and position. If this Office does not receive your response via Exhibit A of the Form by **October 24, 2022 at 5:00 CDT**, the Office will make a final decision based on the evidence and information currently available to it.

228R	1353217	1153 WHITE AVENUE	HARRIS	IA	51345	Fixed Wireless	35	5	1

Challenger Docket Nos. 339R

1012 Twin Pines Drive, Ida Grove – Never had service or account made under this address

We have two sites that this address would be able to get service from if requested:

Cambium cnHeat 2.0

Radio Frequency Planning, Predictions, and Covered Buildings Analysis for Fixed Wireless
Built upon Cambium Networks' expertise in fixed wireless Radio Frequency (RF) planning, propagation, and modeling as seen in LINKPlanner and integrated with GIS data down to one-meter precision, cnHeat allows the user to generate highly accurate RF predictions and derivative services that accurately represent the reality of the RF world.

Challenger Docket Nos. 240R

6942 130th Street, Harris – Disconnected acct in 2014 – This address has access to fixed wireless services that have been upgraded since he disconnected in 2014. This address has one tower site that will reach it and two other tower sites that would reach it with a pole set at this address.

Cambium cnHeat 2.0

Radio Frequency Planning, Predictions, and Covered Buildings Analysis for Fixed Wireless
Built upon Cambium Networks' expertise in fixed wireless Radio Frequency (RF) planning, propagation, and modeling as seen in LINKPlanner and integrated with GIS data down to one-meter precision, cnHeat allows the user to generate highly accurate RF predictions and derivative services that accurately represent the reality of the RF world.

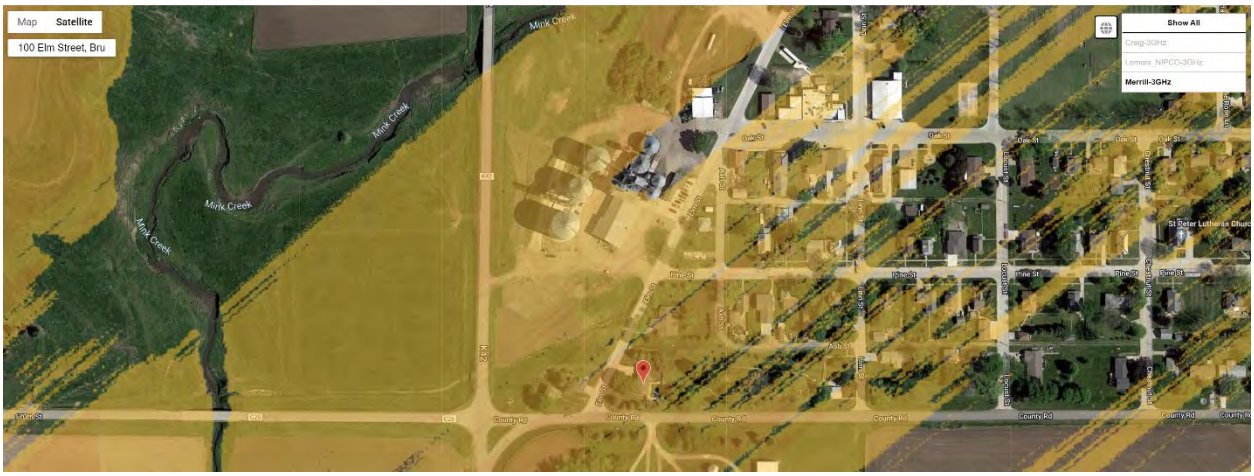
Challenger Docket Nos. 395R

We have never provided service to this address.

Challenger Docket Nos. 244R

100 Elm Street, Brunsville – Never had service or account made under this address.

We have a site that would serve this address.



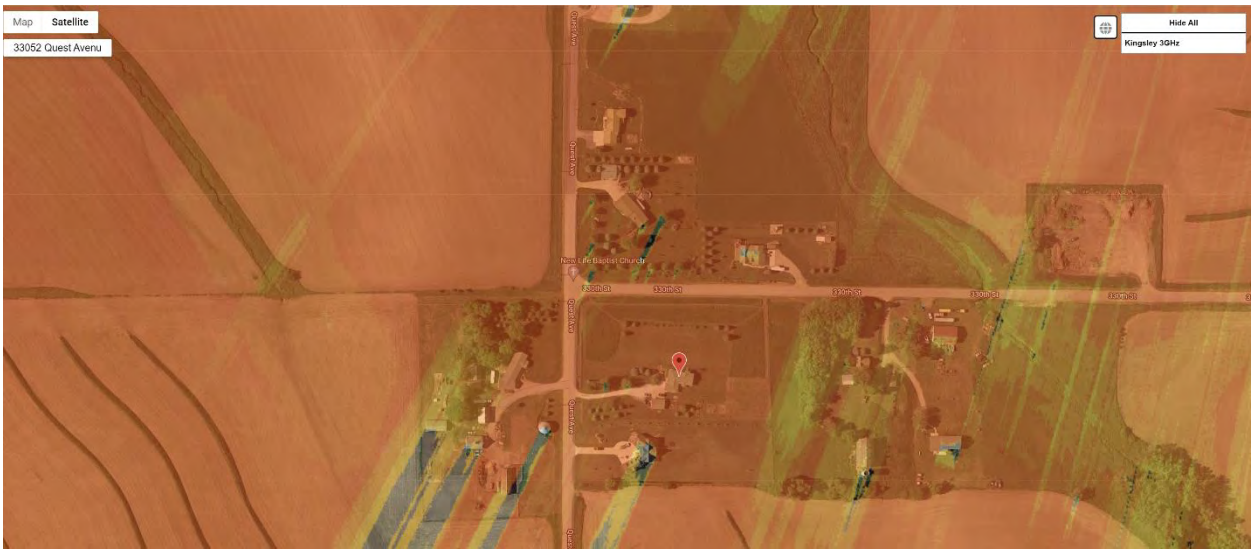
Cambium cnHeat 2.0

Radio Frequency Planning, Predictions, and Covered Buildings Analysis for Fixed Wireless
Built upon Cambium Networks' expertise in fixed wireless Radio Frequency (RF) planning, propagation, and modeling as seen in LINKPlanner and integrated with GIS data down to one-meter precision, cnHeat allows the user to generate highly accurate RF predictions and derivative services that accurately represent the reality of the RF world.

Challenger Docket Nos. 321R

33052 Quest Avenue, Kingsley – Never had service or account made under this address.

We have a site that would serve this address.

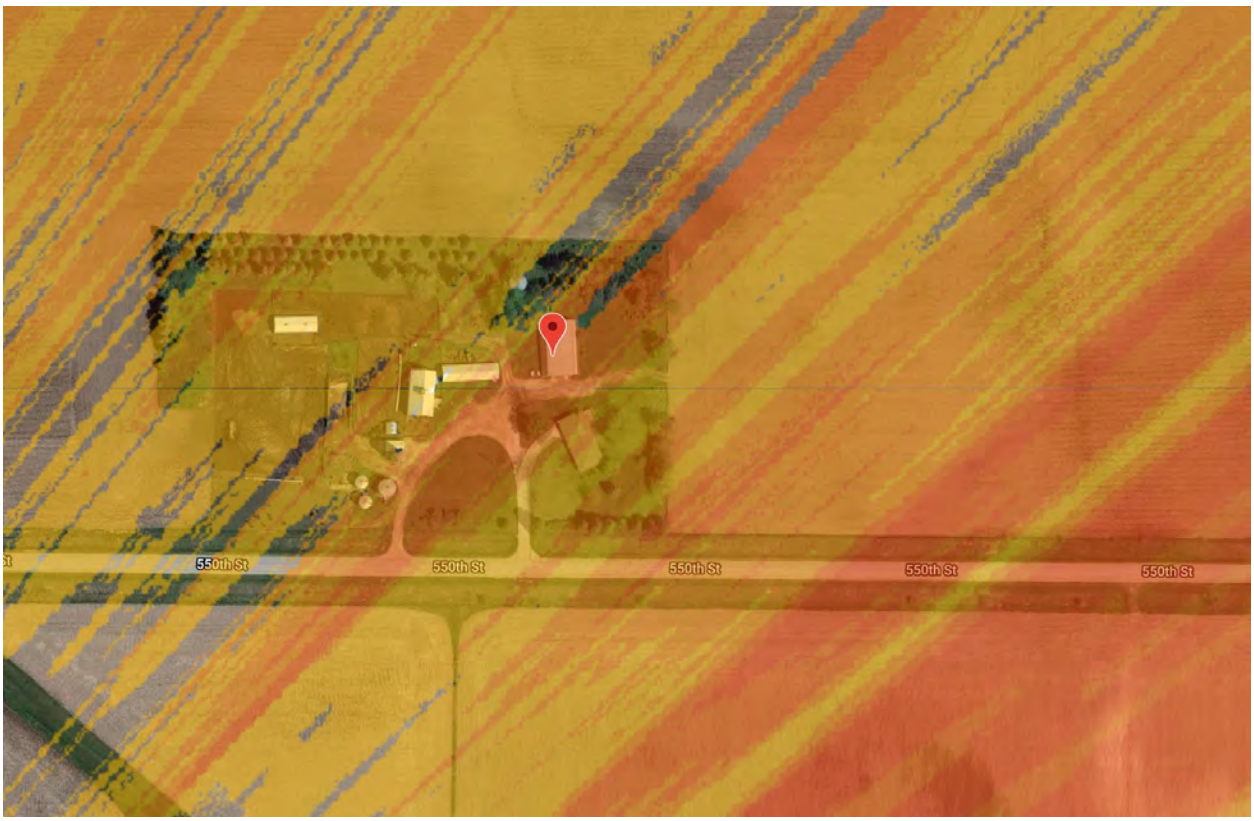


Cambium cnHeat 2.0

Radio Frequency Planning, Predictions, and Covered Buildings Analysis for Fixed Wireless
Built upon Cambium Networks' expertise in fixed wireless Radio Frequency (RF) planning, propagation, and modeling as seen in LINKPlanner and integrated with GIS data down to one-meter precision, cnHeat allows the user to generate highly accurate RF predictions and derivative services that accurately represent the reality of the RF world.

Challenger Docket Nos. 098R

2327 550th Street, Aurelia – Attempted install on 6/22/22, notes from then. “Need to set a pole south of house 35ft on a pole, mark a spot with flag and got map. cc 57 rssi 52. will call us when ready and tell us if we are trenching or not.”

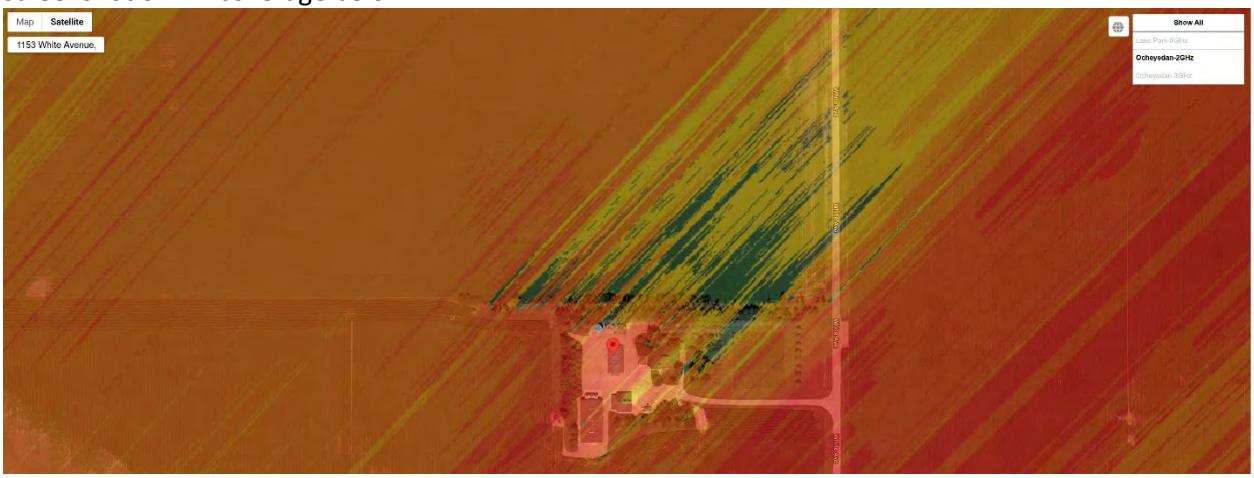


Cambium cnHeat 2.0

Radio Frequency Planning, Predictions, and Covered Buildings Analysis for Fixed Wireless

Built upon Cambium Networks’ expertise in fixed wireless Radio Frequency (RF) planning, propagation, and modeling as seen in LINKPlanner and integrated with GIS data down to one-meter precision, cnHeat allows the user to generate highly accurate RF predictions and derivative services that accurately represent the reality of the RF world.

1153 White Avenue, Harris 51345
We have service at this address currently. They are on Telrad LTE, max speed of 35x5. Attached screenshot of LTE coverage below



Cambium cnHeat 2.0 Radio Frequency Planning, Predictions, and Covered Buildings Analysis for Fixed Wireless Built upon Cambium Networks' expertise in fixed wireless Radio Frequency (RF) planning, propagation, and modeling as seen in LINKPlanner and integrated with GIS data down to one-meter precision, cnHeat allows the user to generate highly accurate RF predictions and derivative services that accurately represent the reality of the RF world

To whom it may concern:

This is a letter of inquiry concerning your organization's prior reporting to the State of Iowa Office of the Chief Information Officer ("OCIO" or "Office") regarding the availability of Broadband service at certain address location(s). Our Office received a timely-filed Challenge Form challenging information reported on the Broadband Availability Map Version 5 ("V5") of the Statewide Broadband Availability Map ("Map"). The data reflected on V5 of the Map was either: (1) provided by you to the Office's contractor, Connected Nation, during the data collection window of November 1, 2021 through February 11, 2022; (2) gathered from other sources (such as FCC) that collected data from you; or (3) carried forward from prior reporting made to this Office by you under a previous Map version.

Map V5 identifies where Broadband service was offered or facilitated at speeds greater than 25/3 as of August 2, 2022. The Map also reflects a preliminary determination of 'likely eligible' or 'likely ineligible' based on speed, technology type, and previous incentives and is a prospective estimate of potential eligibility under various federal programs. The publication of the Map on August 2, 2022 triggered a formal 30-day challenge window during which time we received challenges citing or implicating your service. The challenge(s) we received claims that the data reflected on V5 of the Map is inaccurate. All timely-filed challenges can be found at https://ocio.iowa.gov/broadband-availability-map-version-5-challenge-process. **To resolve this matter, the Office requests that your organization provide information concerning your service at the affected address locations as further identified and described below by October 24, 2022 at 5:00 CDT.**

Map V5 is designed to facilitate decisions concerning future spending under federally-funded broadband programs. Because Map V5 does not use the tiered structure envisioned by Iowa Code chapter 8B and because future federally-funded grant opportunities made available by the Office in accordance with Map V5 will not conform to Iowa Code chapter 8B, the map challenge process outlined in Iowa Code section 8B.10 does not apply. Similarly, within 30 days after the Office's official publication of the Map, the Office permitted any person or party aggrieved or adversely affected by such determination to challenge the office's finding by submitting a challenge form along with all evidence or information supporting the challenge. The

proffered bases for challenge largely mirror those offered by the FCC in their Broadband Data Collection efforts.

V5 of the Map currently shows that service offered at a particular address location renders that address location either likely eligible or likely ineligible for future federal grant funding. As part of the above-outlined process, OCIO received a formal challenge and supporting evidence from one or more Iowa residents or Communications Service Provider(s), claiming that service your organization reports is insufficient to warrant the likely ineligible status of a particular address location.

At this time, the Office requests your assistance in making an accurate determination as to whether your organization in fact offers the speeds reported at each challenged address location as of August 2, 2022. To that end, the Office requests that you:

1) Complete and return the attached Challenge Notice Form (see Exhibit A, Affirmation tab), by **October 24, 2022 at 5:00 CDT**. Pursuant to this form, OCIO requests that a representative with legal authority to bind your organization:
    a) Confirm that the speeds reported at the challenged address locations are correct as of August 2, 2022.
    b) Fully complete all other aspects of the Form.

2) In addition to the form, please also submit any other evidence or information in your possession to the Office that supports your prior representations to the Office regarding the address locations identified in Exhibit A. Examples of evidence and information the Office would consider particularly probative include: Bills or invoices provided to or received by customers at the applicable address location which identify the specific download and upload speeds provided or received as of August 2, 2022.

Please return the completed form and supporting evidence or information to ociogrants@iowa.gov.

Please note that you are under no legal obligation to respond to this request for information. The Office permits any affected person or party to submit evidence or information to the Office in support of or in opposition to a challenge within 20 days after the challenge has been posted to ocio.iowa.gov/broadband. However, this Office is affirmatively reaching out to notify you of the challenge, of the circumstances surrounding the challenge, and to solicit your feedback and position. If this Office does not receive your response via Exhibit A of the Form by **October 24, 2022 at 5:00 CDT**, the Office will make a final decision based on the evidence and information currently available to it.

Sincerely,

Office of the Chief Information Officer
State of Iowa

Affirmation of Service or Lack of Service at Address Locations

Broadband Availability Map Challenge Process Version 5

A. RESPONDENT INFORMATION	
Company Name	Farmers and Merchants Mutual Telephone Company
Address	210 W Main Street
City	Wayland
State	Iowa
Zip	52654

B. DESIGNATED CONTACT INFORMATION	
Contact Name	Ray Fear
Contact Phone Number	319-256-2736 ext 5213
Contact Email	rayfear@farmtel.com

C. EXPLANATION

To the extent you believe additional explanation is required to ensure that you are communicating full and accurate information, you may provide narrative to further rebut this challenge. You may consider uploading evidence to substantiate your claims as an attachment to this Affirmation. An Affirmation submitted without sufficient and probative evidence may be inadequate to overcome a challenge.

We have researched the challenge in depth. I have noted what customers we can serve with what speed is available. I have also noted 2 customer we currently serve and what speed they are subscribed to. If there is not a tech type selected we can not reach these customers.

D. AFFIRMATION

By signing and submitting this form, the authorized representative attests that to the best of the authorized representatives knowledge and belief, the information submitted through this challenge form is true and accurate, and the form is signed under the pains and penalties of perjury. By typing your name, you are affixing your signature to this form and attesting to the accuracy of the information submitted herein.

To whom it may concern:

This is a letter of inquiry concerning your organization's prior reporting to the State of Iowa Office of the Chief Information Officer ("OCIO" or "Office") regarding the availability of Broadband service at certain address location(s). Our Office received a timely-filed Challenge Form challenging information reported on the Broadband Availability Map Version 5 ("V5") of the Statewide Broadband Availability Map ("Map"). The data reflected on V5 of the Map was either: (1) provided by you to the Office's contractor, Connected Nation, during the data collection window of November 1, 2021 through February 11, 2022; (2) gathered from other sources (such as FCC) that collected data from you; or (3) carried forward from prior reporting made to this Office by you under a previous Map version.

Map V5 identifies where Broadband service was offered or facilitated at speeds greater than 25/3 as of August 2, 2022. The Map also reflects a preliminary determination of 'likely eligible' or 'likely ineligible' based on speed, technology type, and previous incentives and is a prospective estimate of potential eligibility under various federal programs. The publication of the Map on August 2, 2022 triggered a formal 30-day challenge window during which time we received challenges citing or implicating your service. The challenge(s) we received claims that the data reflected on V5 of the Map is inaccurate. All timely-filed challenges can be found at https://ocio.iowa.gov/broadband-availability-map-version-5-challenge-process. **To resolve this matter, the Office requests that your organization provide information concerning your service at the affected address locations as further identified and described below by October 24, 2022 at 5:00 CDT.**

Map V5 is designed to facilitate decisions concerning future spending under federally-funded broadband programs. Because Map V5 does not use the tiered structure envisioned by Iowa Code chapter 8B and because future federally-funded grant opportunities made available by the Office in accordance with Map V5 will not conform to Iowa Code chapter 8B, the map challenge process outlined in Iowa Code section 8B.10 does not apply. Similarly, within 30 days after the Office's official publication of the Map, the Office permitted any person or party aggrieved or adversely affected by such determination to challenge the office's finding by submitting a challenge form along with all evidence or information supporting the challenge. The

proffered bases for challenge largely mirror those offered by the FCC in their Broadband Data Collection efforts.

V5 of the Map currently shows that service offered at a particular address location renders that address location either likely eligible or likely ineligible for future federal grant funding. As part of the above-outlined process, OCIO received a formal challenge and supporting evidence from one or more Iowa residents or Communications Service Provider(s), claiming that service your organization reports is insufficient to warrant the likely ineligible status of a particular address location.

At this time, the Office requests your assistance in making an accurate determination as to whether your organization in fact offers the speeds reported at each challenged address location as of August 2, 2022. To that end, the Office requests that you:

1) Complete and return the attached Challenge Notice Form (see Exhibit A, Affirmation tab), by **October 24, 2022 at 5:00 CDT**. Pursuant to this form, OCIO requests that a representative with legal authority to bind your organization:
    a) Confirm that the speeds reported at the challenged address locations are correct as of August 2, 2022.
    b) Fully complete all other aspects of the Form.

2) In addition to the form, please also submit any other evidence or information in your possession to the Office that supports your prior representations to the Office regarding the address locations identified in Exhibit A. Examples of evidence and information the Office would consider particularly probative include: Bills or invoices provided to or received by customers at the applicable address location which identify the specific download and upload speeds provided or received as of August 2, 2022.

Please return the completed form and supporting evidence or information to ociogrants@iowa.gov.

Please note that you are under no legal obligation to respond to this request for information. The Office permits any affected person or party to submit evidence or information to the Office in support of or in opposition to a challenge within 20 days after the challenge has been posted to ocio.iowa.gov/broadband. However, this Office is affirmatively reaching out to notify you of the challenge, of the circumstances surrounding the challenge, and to solicit your feedback and position. If this Office does not receive your response via Exhibit A of the Form by **October 24, 2022 at 5:00 CDT**, the Office will make a final decision based on the evidence and information currently available to it.

Sincerely,

Office of the Chief Information Officer
State of Iowa

To whom it may concern:

This is a letter of inquiry concerning your organization's prior reporting to the State of Iowa Office of the Chief Information Officer ("OCIO" or "Office") regarding the availability of Broadband service at certain address location(s). Our Office received a timely-filed Challenge Form challenging information reported on the Broadband Availability Map Version 5 ("V5") of the Statewide Broadband Availability Map ("Map"). The data reflected on V5 of the Map was either: (1) provided by you to the Office's contractor, Connected Nation, during the data collection window of November 1, 2021 through February 11, 2022; (2) gathered from other sources (such as FCC) that collected data from you; or (3) carried forward from prior reporting made to this Office by you under a previous Map version.

Map V5 identifies where Broadband service was offered or facilitated at speeds greater than 25/3 as of August 2, 2022. The Map also reflects a preliminary determination of 'likely eligible' or 'likely ineligible' based on speed, technology type, and previous incentives and is a prospective estimate of potential eligibility under various federal programs. The publication of the Map on August 2, 2022 triggered a formal 30-day challenge window during which time we received challenges citing or implicating your service. The challenge(s) we received claims that the data reflected on V5 of the Map is inaccurate. All timely-filed challenges can be found at https://ocio.iowa.gov/broadband-availability-map-version-5-challenge-process. **To resolve this matter, the Office requests that your organization provide information concerning your service at the affected address locations as further identified and described below by October 24, 2022 at 5:00 CDT.**

Map V5 is designed to facilitate decisions concerning future spending under federally-funded broadband programs. Because Map V5 does not use the tiered structure envisioned by Iowa Code chapter 8B and because future federally-funded grant opportunities made available by the Office in accordance with Map V5 will not conform to Iowa Code chapter 8B, the map challenge process outlined in Iowa Code section 8B.10 does not apply. Similarly, within 30 days after the Office's official publication of the Map, the Office permitted any person or party aggrieved or adversely affected by such determination to challenge the office's finding by submitting a challenge form along with all evidence or information supporting the challenge. The

proffered bases for challenge largely mirror those offered by the FCC in their Broadband Data Collection efforts.

V5 of the Map currently shows that service offered at a particular address location renders that address location either likely eligible or likely ineligible for future federal grant funding. As part of the above-outlined process, OCIO received a formal challenge and supporting evidence from one or more Iowa residents or Communications Service Provider(s), claiming that service your organization reports is insufficient to warrant the likely ineligible status of a particular address location.

At this time, the Office requests your assistance in making an accurate determination as to whether your organization in fact offers the speeds reported at each challenged address location as of August 2, 2022. To that end, the Office requests that you:

1) Complete and return the attached Challenge Notice Form (see Exhibit A, Affirmation tab), by **October 24, 2022 at 5:00 CDT**. Pursuant to this form, OCIO requests that a representative with legal authority to bind your organization:
    a) Confirm that the speeds reported at the challenged address locations are correct as of August 2, 2022.
    b) Fully complete all other aspects of the Form.

2) In addition to the form, please also submit any other evidence or information in your possession to the Office that supports your prior representations to the Office regarding the address locations identified in Exhibit A. Examples of evidence and information the Office would consider particularly probative include: Bills or invoices provided to or received by customers at the applicable address location which identify the specific download and upload speeds provided or received as of August 2, 2022.

Please return the completed form and supporting evidence or information to ociogrants@iowa.gov.

Please note that you are under no legal obligation to respond to this request for information. The Office permits any affected person or party to submit evidence or information to the Office in support of or in opposition to a challenge within 20 days after the challenge has been posted to ocio.iowa.gov/broadband. However, this Office is affirmatively reaching out to notify you of the challenge, of the circumstances surrounding the challenge, and to solicit your feedback and position. If this Office does not receive your response via Exhibit A of the Form by **October 24, 2022 at 5:00 CDT**, the Office will make a final decision based on the evidence and information currently available to it.

Sincerely,

Office of the Chief Information Officer
State of Iowa

The Office did not receive a response to this Notice

To whom it may concern:

This is a letter of inquiry concerning your organization's prior reporting to the State of Iowa Office of the Chief Information Officer ("OCIO" or "Office") regarding the availability of Broadband service at certain address location(s). Our Office received a timely-filed Challenge Form challenging information reported on the Broadband Availability Map Version 5 ("V5") of the Statewide Broadband Availability Map ("Map"). The data reflected on V5 of the Map was either: (1) provided by you to the Office's contractor, Connected Nation, during the data collection window of November 1, 2021 through February 11, 2022; (2) gathered from other sources (such as FCC) that collected data from you; or (3) carried forward from prior reporting made to this Office by you under a previous Map version.

Map V5 identifies where Broadband service was offered or facilitated at speeds greater than 25/3 as of August 2, 2022. The Map also reflects a preliminary determination of 'likely eligible' or 'likely ineligible' based on speed, technology type, and previous incentives and is a prospective estimate of potential eligibility under various federal programs. The publication of the Map on August 2, 2022 triggered a formal 30-day challenge window during which time we received challenges citing or implicating your service. The challenge(s) we received claims that the data reflected on V5 of the Map is inaccurate. All timely-filed challenges can be found at https://ocio.iowa.gov/broadband-availability-map-version-5-challenge-process. **To resolve this matter, the Office requests that your organization provide information concerning your service at the affected address locations as further identified and described below by October 24, 2022 at 5:00 CDT.**

Map V5 is designed to facilitate decisions concerning future spending under federally-funded broadband programs. Because Map V5 does not use the tiered structure envisioned by Iowa Code chapter 8B and because future federally-funded grant opportunities made available by the Office in accordance with Map V5 will not conform to Iowa Code chapter 8B, the map challenge process outlined in Iowa Code section 8B.10 does not apply. Similarly, within 30 days after the Office's official publication of the Map, the Office permitted any person or party aggrieved or adversely affected by such determination to challenge the office's finding by submitting a challenge form along with all evidence or information supporting the challenge. The

proffered bases for challenge largely mirror those offered by the FCC in their Broadband Data Collection efforts.

V5 of the Map currently shows that service offered at a particular address location renders that address location either likely eligible or likely ineligible for future federal grant funding. As part of the above-outlined process, OCIO received a formal challenge and supporting evidence from one or more Iowa residents or Communications Service Provider(s), claiming that service your organization reports is insufficient to warrant the likely ineligible status of a particular address location.

At this time, the Office requests your assistance in making an accurate determination as to whether your organization in fact offers the speeds reported at each challenged address location as of August 2, 2022. To that end, the Office requests that you:

1) Complete and return the attached Challenge Notice Form (see Exhibit A, Affirmation tab), by **October 24, 2022 at 5:00 CDT**. Pursuant to this form, OCIO requests that a representative with legal authority to bind your organization:
    a) Confirm that the speeds reported at the challenged address locations are correct as of August 2, 2022.
    b) Fully complete all other aspects of the Form.

2) In addition to the form, please also submit any other evidence or information in your possession to the Office that supports your prior representations to the Office regarding the address locations identified in Exhibit A. Examples of evidence and information the Office would consider particularly probative include: Bills or invoices provided to or received by customers at the applicable address location which identify the specific download and upload speeds provided or received as of August 2, 2022.

Please return the completed form and supporting evidence or information to ociogrants@iowa.gov.

Please note that you are under no legal obligation to respond to this request for information. The Office permits any affected person or party to submit evidence or information to the Office in support of or in opposition to a challenge within 20 days after the challenge has been posted to ocio.iowa.gov/broadband. However, this Office is affirmatively reaching out to notify you of the challenge, of the circumstances surrounding the challenge, and to solicit your feedback and position. If this Office does not receive your response via Exhibit A of the Form by **October 24, 2022 at 5:00 CDT**, the Office will make a final decision based on the evidence and information currently available to it.

Sincerely,

Office of the Chief Information Officer

Frequently Asked Questions

Why am I being charged a Restore Fee?

A restore fee will be charged any time services are temporarily suspended. Services are suspended any time a payment is not made by the final payment date. Any time payment is received after the suspension of services there will be a restore fee of $35.00 charged to your account.

Does my first invoice from ImOn reflect what the rest of my invoices will look like?

The format is the same but you may see some prorated charges depending on the day you were installed. Generally the first invoice received will reflect a month and a half of charges.

Why does my invoice show prorated charges?

Any time a service is changed in the middle of a billing cycle there will be prorated charges reflecting these changes.

How much notice must I give before canceling my services with ImOn?

At least seven (7) days by either calling ImOn Customer Care or mailing written notice to ImOn Customer Care at 101 3rd Avenue SW, Suite 200, Cedar Rapids, IA 52404.

ImOn Bill Payment Options

Online Bill Pay: You can view and make payments online by registering your account through the ImOn Customer Portal on www.MyImOn.com. You will need your ImOn Account Number and existing Account Password created at time of sale. Follow the instructions in the FAQ section in the upper right-hand corner of the login browser page.

AutoPay: ImOn's easy AutoPay program allows your monthly payment to be automatically deducted from your checking or savings account. Complete the form on the second page of your bill and return to ImOn with a copy of a voided check, or a deposit slip. Your bill will automatically be paid from your account each month.

Mail: Payments made by mail should be sent to the address specified on your bill.

Drop Off: Payments can be made at ImOn's headquarters located in Downtown Cedar Rapids in the old People's Bank Building - 101 3rd Avenue SW, 2nd Floor, 9:00am - 5:00pm Monday-Friday and 9:00am - Noon on Saturday. There is also an after-hours payment drop box located outside the main entrance of the building.

Additionally, check or money order payments (no cash) can be made at the Downtown Cedar Rapids Bank and Trust location during normal bank hours or after hours in the night deposit box in the bank's drive through.

Credit Card: Payments can be made by credit card by logging in to the online bill pay site, which can be accessed through the "Manage My Account" link on MyImOn.com. After logging on, select Pay Now from the main menu and then select pay by credit card. You may also make a credit card payment by calling ImOn Customer Care at 319-298-6484 between 8:00am-6:00pm Monday-Friday. You will need your ImOn account number when making the payment. A convenience fee applies for all credit card payments.

Account Password Requirement

To protect your personal information and to be compliant with Customer Proprietary Network Information (CPNI) rules, please be prepared to provide your account password to your ImOn Customer Care representative when calling in for assistance regarding your account.

You can also stay connected with ImOn through our Facebook, Twitter, and YouTube pages.

ImOn Customer Proprietary Network Information Notice (CPNI)

ImOn Communications, LLC ("ImOn") values your continued business and as a result we may periodically contact you and recommend additional products and services that we believe may improve your service and save you money. From time-to-time, we review your current services you buy from us in order to make these recommendations to you. Use of your service-related information for this purpose may enhance ImOn's ability to make you aware of new or alternate products and services that are tailored to your needs. ImOn may use or share CPNI with its affiliates or agents to assist or to conduct such efforts.

You have a right and we are required to protect your confidential telecommunications service information, which includes things like the services you currently buy from ImOn and the related billing for these services. No further action is necessary for you to allow ImOn to use this information as previously described to periodically contact you. If you want to restrict ImOn from using this information, please notify ImOn by calling Customer Care at 319-298-6484. Restricting our use will not affect your service from ImOn. Your decision remains valid until you tell us otherwise.

Mail: Payments made by mail should be sent to the address specified on your bill.

Drop Off: Payments can be made at ImOn's headquarters located in Downtown Cedar Rapids in the old People's Bank Building - 101 3rd Avenue SW, 2nd Floor, 9:00am - 5:00pm Monday-Friday and 9:00am - Noon on Saturday. There is also an after-hours payment drop box located outside the main entrance of the building.

Additionally, check or money order payments (no cash) can be made at the Downtown Cedar Rapids Bank and Trust location during normal bank hours or after hours in the night deposit box in the bank's drive through.

Credit Card: Payments can be made by credit card by logging in to the online bill pay site, which can be accessed through the "Manage My Account" link on MyImOn.com. After logging on, select Pay Now from the main menu and then select pay by credit card. You may also make a credit card payment by calling ImOn Customer Care at 319-298-6484 between 8:00am-6:00pm Monday-Friday. You will need your ImOn account number when making the payment. A convenience fee applies for all credit card payments.

Account Password Requirement

To protect your personal information and to be compliant with Customer Proprietary Network Information (CPNI) rules, please be prepared to provide your account password to your ImOn Customer Care representative when calling in for assistance regarding your account.

Since ImOn doesn't have a current customer/bill for this address. We have done the look-up in the address finder at ImOn.net to evidence that service is available for this address.

To whom it may concern:

This is a letter of inquiry concerning your organization's prior reporting to the State of Iowa Office of the Chief Information Officer ("OCIO" or "Office") regarding the availability of Broadband service at certain address location(s). Our Office received a timely-filed Challenge Form challenging information reported on the Broadband Availability Map Version 5 ("V5") of the Statewide Broadband Availability Map ("Map"). The data reflected on V5 of the Map was either: (1) provided by you to the Office's contractor, Connected Nation, during the data collection window of November 1, 2021 through February 11, 2022; (2) gathered from other sources (such as FCC) that collected data from you; or (3) carried forward from prior reporting made to this Office by you under a previous Map version.

Map V5 identifies where Broadband service was offered or facilitated at speeds greater than 25/3 as of August 2, 2022. The Map also reflects a preliminary determination of 'likely eligible' or 'likely ineligible' based on speed, technology type, and previous incentives and is a prospective estimate of potential eligibility under various federal programs. The publication of the Map on August 2, 2022 triggered a formal 30-day challenge window during which time we received challenges citing or implicating your service. The challenge(s) we received claims that the data reflected on V5 of the Map is inaccurate. All timely-filed challenges can be found at https://ocio.iowa.gov/broadband-availability-map-version-5-challenge-process. **To resolve this matter, the Office requests that your organization provide information concerning your service at the affected address locations as further identified and described below by October 24, 2022 at 5:00 CDT.**

Map V5 is designed to facilitate decisions concerning future spending under federally-funded broadband programs. Because Map V5 does not use the tiered structure envisioned by Iowa Code chapter 8B and because future federally-funded grant opportunities made available by the Office in accordance with Map V5 will not conform to Iowa Code chapter 8B, the map challenge process outlined in Iowa Code section 8B.10 does not apply. Similarly, within 30 days after the Office's official publication of the Map, the Office permitted any person or party aggrieved or adversely affected by such determination to challenge the office's finding by submitting a challenge form along with all evidence or information supporting the challenge. The

proffered bases for challenge largely mirror those offered by the FCC in their Broadband Data Collection efforts.

V5 of the Map currently shows that service offered at a particular address location renders that address location either likely eligible or likely ineligible for future federal grant funding. As part of the above-outlined process, OCIO received a formal challenge and supporting evidence from one or more Iowa residents or Communications Service Provider(s), claiming that service your organization reports is insufficient to warrant the likely ineligible status of a particular address location.

At this time, the Office requests your assistance in making an accurate determination as to whether your organization in fact offers the speeds reported at each challenged address location as of August 2, 2022. To that end, the Office requests that you:

1) Complete and return the attached Challenge Notice Form (see Exhibit A, Affirmation tab), by **October 24, 2022 at 5:00 CDT**. Pursuant to this form, OCIO requests that a representative with legal authority to bind your organization:
    a) Confirm that the speeds reported at the challenged address locations are correct as of August 2, 2022.
    b) Fully complete all other aspects of the Form.

2) In addition to the form, please also submit any other evidence or information in your possession to the Office that supports your prior representations to the Office regarding the address locations identified in Exhibit A. Examples of evidence and information the Office would consider particularly probative include: Bills or invoices provided to or received by customers at the applicable address location which identify the specific download and upload speeds provided or received as of August 2, 2022.

Please return the completed form and supporting evidence or information to ociogrants@iowa.gov.

Please note that you are under no legal obligation to respond to this request for information. The Office permits any affected person or party to submit evidence or information to the Office in support of or in opposition to a challenge within 20 days after the challenge has been posted to ocio.iowa.gov/broadband. However, this Office is affirmatively reaching out to notify you of the challenge, of the circumstances surrounding the challenge, and to solicit your feedback and position. If this Office does not receive your response via Exhibit A of the Form by **October 24, 2022 at 5:00 CDT**, the Office will make a final decision based on the evidence and information currently available to it.

Sincerely,

Office of the Chief Information Officer
State of Iowa

To whom it may concern:

This is a letter of inquiry concerning your organization's prior reporting to the State of Iowa Office of the Chief Information Officer ("OCIO" or "Office") regarding the availability of Broadband service at certain address location(s). Our Office received a timely-filed Challenge Form challenging information reported on the Broadband Availability Map Version 5 ("V5") of the Statewide Broadband Availability Map ("Map"). The data reflected on V5 of the Map was either: (1) provided by you to the Office's contractor, Connected Nation, during the data collection window of November 1, 2021 through February 11, 2022; (2) gathered from other sources (such as FCC) that collected data from you; or (3) carried forward from prior reporting made to this Office by you under a previous Map version.

Map V5 identifies where Broadband service was offered or facilitated at speeds greater than 25/3 as of August 2, 2022. The Map also reflects a preliminary determination of 'likely eligible' or 'likely ineligible' based on speed, technology type, and previous incentives and is a prospective estimate of potential eligibility under various federal programs. The publication of the Map on August 2, 2022 triggered a formal 30-day challenge window during which time we received challenges citing or implicating your service. The challenge(s) we received claims that the data reflected on V5 of the Map is inaccurate. All timely-filed challenges can be found at https://ocio.iowa.gov/broadband-availability-map-version-5-challenge-process. **To resolve this matter, the Office requests that your organization provide information concerning your service at the affected address locations as further identified and described below by November 26, 2022 at 11:59 p.m. CST.**

Map V5 is designed to facilitate decisions concerning future spending under federally-funded broadband programs. Because Map V5 does not use the tiered structure envisioned by Iowa Code chapter 8B and because future federally-funded grant opportunities made available by the Office in accordance with Map V5 will not conform to Iowa Code chapter 8B, the map challenge process outlined in Iowa Code section 8B.10 does not apply. Similarly, within 30 days after the Office's official publication of the Map, the Office permitted any person or party aggrieved or adversely affected by such determination to challenge the office's finding by submitting a challenge form along with all evidence or information supporting the

challenge. The proffered bases for challenge largely mirror those offered by the FCC in their Broadband Data Collection efforts.

V5 of the Map currently shows that service offered at a particular address location renders that address location either likely eligible or likely ineligible for future federal grant funding. As part of the above-outlined process, OCIO received a formal challenge and supporting evidence from one or more Iowa residents or Communications Service Provider(s), claiming that service your organization reports is insufficient to warrant the likely ineligible status of a particular address location.

At this time, the Office requests your assistance in making an accurate determination as to whether your organization in fact offers the speeds reported at each challenged address location as of August 2, 2022. To that end, the Office requests that you:

1) Complete and return the attached Challenge Notice Form (see Exhibit A, Affirmation tab), by **November 26, 2022 at 11:59 p.m. CST**. Pursuant to this form, OCIO requests that a representative with legal authority to bind your organization:
   a) Confirm that the speeds reported at the challenged address locations are correct as of August 2, 2022.
   b) Fully complete all other aspects of the Form.

2) In addition to the form, please also submit any other evidence or information in your possession to the Office that supports your prior representations to the Office regarding the address locations identified in Exhibit A. Examples of evidence and information the Office would consider particularly probative include: Bills or invoices provided to or received by customers at the applicable address location which identify the specific download and upload speeds provided or received as of August 2, 2022.

Please return the completed form and supporting evidence or information to ociogrants@iowa.gov.

Please note that you are under no legal obligation to respond to this request for information. The Office permits any affected person or party to submit evidence or information to the Office in support of or in opposition to a challenge within 20 days after the challenge has been posted to ocio.iowa.gov/broadband. However, this Office is affirmatively reaching out to notify you of the challenge, of the circumstances surrounding the challenge, and to solicit your feedback and position. If this Office does not receive your response via Exhibit A of the Form by **November 26, 2022 at 11:59 p.m. CST**, the Office will make a final decision based on the evidence and information currently available to it.

Sincerely,

Office of the Chief Information Officer

To whom it may concern:

This is a letter of inquiry concerning your organization's prior reporting to the State of Iowa Office of the Chief Information Officer ("OCIO" or "Office") regarding the availability of Broadband service at certain address location(s). Our Office received a timely-filed Challenge Form challenging information reported on the Broadband Availability Map Version 5 ("V5") of the Statewide Broadband Availability Map ("Map"). The data reflected on V5 of the Map was either: (1) provided by you to the Office's contractor, Connected Nation, during the data collection window of November 1, 2021 through February 11, 2022; (2) gathered from other sources (such as FCC) that collected data from you; or (3) carried forward from prior reporting made to this Office by you under a previous Map version.

Map V5 identifies where Broadband service was offered or facilitated at speeds greater than 25/3 as of August 2, 2022. The Map also reflects a preliminary determination of 'likely eligible' or 'likely ineligible' based on speed, technology type, and previous incentives and is a prospective estimate of potential eligibility under various federal programs. The publication of the Map on August 2, 2022 triggered a formal 30-day challenge window during which time we received challenges citing or implicating your service. The challenge(s) we received claims that the data reflected on V5 of the Map is inaccurate. All timely-filed challenges can be found at https://ocio.iowa.gov/broadband-availability-map-version-5-challenge-process. **To resolve this matter, the Office requests that your organization provide information concerning your service at the affected address locations as further identified and described below by October 24, 2022 at 5:00 CDT.**

Map V5 is designed to facilitate decisions concerning future spending under federally-funded broadband programs. Because Map V5 does not use the tiered structure envisioned by Iowa Code chapter 8B and because future federally-funded grant opportunities made available by the Office in accordance with Map V5 will not conform to Iowa Code chapter 8B, the map challenge process outlined in Iowa Code section 8B.10 does not apply. Similarly, within 30 days after the Office's official publication of the Map, the Office permitted any person or party aggrieved or adversely affected by such determination to challenge the office's finding by submitting a challenge form along with all evidence or information supporting the challenge. The

proffered bases for challenge largely mirror those offered by the FCC in their Broadband Data Collection efforts.

V5 of the Map currently shows that service offered at a particular address location renders that address location either likely eligible or likely ineligible for future federal grant funding. As part of the above-outlined process, OCIO received a formal challenge and supporting evidence from one or more Iowa residents or Communications Service Provider(s), claiming that service your organization reports is insufficient to warrant the likely ineligible status of a particular address location.

At this time, the Office requests your assistance in making an accurate determination as to whether your organization in fact offers the speeds reported at each challenged address location as of August 2, 2022. To that end, the Office requests that you:

1) Complete and return the attached Challenge Notice Form (see Exhibit A, Affirmation tab), by **October 24, 2022 at 5:00 CDT**. Pursuant to this form, OCIO requests that a representative with legal authority to bind your organization:
    a) Confirm that the speeds reported at the challenged address locations are correct as of August 2, 2022.
    b) Fully complete all other aspects of the Form.

2) In addition to the form, please also submit any other evidence or information in your possession to the Office that supports your prior representations to the Office regarding the address locations identified in Exhibit A. Examples of evidence and information the Office would consider particularly probative include: Bills or invoices provided to or received by customers at the applicable address location which identify the specific download and upload speeds provided or received as of August 2, 2022.

Please return the completed form and supporting evidence or information to ociogrants@iowa.gov.

Please note that you are under no legal obligation to respond to this request for information. The Office permits any affected person or party to submit evidence or information to the Office in support of or in opposition to a challenge within 20 days after the challenge has been posted to ocio.iowa.gov/broadband. However, this Office is affirmatively reaching out to notify you of the challenge, of the circumstances surrounding the challenge, and to solicit your feedback and position. If this Office does not receive your response via Exhibit A of the Form by **October 24, 2022 at 5:00 CDT**, the Office will make a final decision based on the evidence and information currently available to it.

Sincerely,

Office of the Chief Information Officer
State of Iowa

To whom it may concern:

This is a letter of inquiry concerning your organization's prior reporting to the State of Iowa Office of the Chief Information Officer ("OCIO" or "Office") regarding the availability of Broadband service at certain address location(s). Our Office received a timely-filed Challenge Form challenging information reported on the Broadband Availability Map Version 5 ("V5") of the Statewide Broadband Availability Map ("Map"). The data reflected on V5 of the Map was either: (1) provided by you to the Office's contractor, Connected Nation, during the data collection window of November 1, 2021 through February 11, 2022; (2) gathered from other sources (such as FCC) that collected data from you; or (3) carried forward from prior reporting made to this Office by you under a previous Map version.

Map V5 identifies where Broadband service was offered or facilitated at speeds greater than 25/3 as of August 2, 2022. The Map also reflects a preliminary determination of 'likely eligible' or 'likely ineligible' based on speed, technology type, and previous incentives and is a prospective estimate of potential eligibility under various federal programs. The publication of the Map on August 2, 2022 triggered a formal 30-day challenge window during which time we received challenges citing or implicating your service. The challenge(s) we received claims that the data reflected on V5 of the Map is inaccurate. All timely-filed challenges can be found at https://ocio.iowa.gov/broadband-availability-map-version-5-challenge-process. **To resolve this matter, the Office requests that your organization provide information concerning your service at the affected address locations as further identified and described below by November 28, 2022 at 5:00 p.m. CST.**

Map V5 is designed to facilitate decisions concerning future spending under federally-funded broadband programs. Because Map V5 does not use the tiered structure envisioned by Iowa Code chapter 8B and because future federally-funded grant opportunities made available by the Office in accordance with Map V5 will not conform to Iowa Code chapter 8B, the map challenge process outlined in Iowa Code section 8B.10 does not apply. Similarly, within 30 days after the Office's official publication of the Map, the Office permitted any person or party aggrieved or adversely affected by such determination to challenge the office's finding by submitting a challenge form along with all evidence or information supporting the

challenge. The proffered bases for challenge largely mirror those offered by the FCC in their Broadband Data Collection efforts.

V5 of the Map currently shows that service offered at a particular address location renders that address location either likely eligible or likely ineligible for future federal grant funding. As part of the above-outlined process, OCIO received a formal challenge and supporting evidence from one or more Iowa residents or Communications Service Provider(s), claiming that service your organization reports is insufficient to warrant the likely ineligible status of a particular address location.

At this time, the Office requests your assistance in making an accurate determination as to whether your organization in fact offers the speeds reported at each challenged address location as of August 2, 2022. To that end, the Office requests that you:

1) Complete and return the attached Challenge Notice Form (see Exhibit A, Affirmation tab), by **November 28, 2022 at 5:00 p.m. CST**. Pursuant to this form, OCIO requests that a representative with legal authority to bind your organization:

   a) Confirm that the speeds reported at the challenged address locations are correct as of August 2, 2022.

   b) Fully complete all other aspects of the Form.

2) In addition to the form, please also submit any other evidence or information in your possession to the Office that supports your prior representations to the Office regarding the address locations identified in Exhibit A. Examples of evidence and information the Office would consider particularly probative include: Bills or invoices provided to or received by customers at the applicable address location which identify the specific download and upload speeds provided or received as of August 2, 2022.

Please return the completed form and supporting evidence or information to ociogrants@iowa.gov.

Please note that you are under no legal obligation to respond to this request for information. The Office permits any affected person or party to submit evidence or information to the Office in support of or in opposition to a challenge within 20 days after the challenge has been posted to ocio.iowa.gov/broadband. However, this Office is affirmatively reaching out to notify you of the challenge, of the circumstances surrounding the challenge, and to solicit your feedback and position. If this Office does not receive your response via Exhibit A of the Form by **November 28, 2022 at 5:00 p.m. CST**, the Office will make a final decision based on the evidence and information currently available to it.

Sincerely,

Office of the Chief Information Officer
State of Iowa

C. EXPLANATION

To the extent you believe additional explanation is required to ensure that you are communicating full and accurate information, you may provide narrative to further rebut this challenge. You may consider uploading evidence to substantiate your claims as an attachment to this Affirmation. An Affirmation submitted without sufficient and probative evidence may be inadequate to overcome a challenge.

D. AFFIRMATION

By signing and submitting this form, the authorized representative attests that to the best of the authorized representatives knowledge and belief, the information submitted through this challenge form is true and accurate, and the form is signed under the pains and penalties of perjury. By typing your name, you are affixing your signature to this form and attesting to the accuracy of the information submitted herein.

To whom it may concern:

This is a letter of inquiry concerning your organization's prior reporting to the State of Iowa Office of the Chief Information Officer ("OCIO" or "Office") regarding the availability of Broadband service at certain address location(s). Our Office received a timely-filed Challenge Form challenging information reported on the Broadband Availability Map Version 5 ("V5") of the Statewide Broadband Availability Map ("Map"). The data reflected on V5 of the Map was either: (1) provided by you to the Office's contractor, Connected Nation, during the data collection window of November 1, 2021 through February 11, 2022; (2) gathered from other sources (such as FCC) that collected data from you; or (3) carried forward from prior reporting made to this Office by you under a previous Map version.

Map V5 identifies where Broadband service was offered or facilitated at speeds greater than 25/3 as of August 2, 2022. The Map also reflects a preliminary determination of 'likely eligible' or 'likely ineligible' based on speed, technology type, and previous incentives and is a prospective estimate of potential eligibility under various federal programs. The publication of the Map on August 2, 2022 triggered a formal 30-day challenge window during which time we received challenges citing or implicating your service. The challenge(s) we received claims that the data reflected on V5 of the Map is inaccurate. All timely-filed challenges can be found at https://ocio.iowa.gov/broadband-availability-map-version-5-challenge-process. **To resolve this matter, the Office requests that your organization provide information concerning your service at the affected address locations as further identified and described below by October 24, 2022 at 5:00 CDT.**

Map V5 is designed to facilitate decisions concerning future spending under federally-funded broadband programs. Because Map V5 does not use the tiered structure envisioned by Iowa Code chapter 8B and because future federally-funded grant opportunities made available by the Office in accordance with Map V5 will not conform to Iowa Code chapter 8B, the map challenge process outlined in Iowa Code section 8B.10 does not apply. Similarly, within 30 days after the Office's official publication of the Map, the Office permitted any person or party aggrieved or adversely affected by such determination to challenge the office's finding by submitting a challenge form along with all evidence or information supporting the challenge. The

proffered bases for challenge largely mirror those offered by the FCC in their Broadband Data Collection efforts.

V5 of the Map currently shows that service offered at a particular address location renders that address location either likely eligible or likely ineligible for future federal grant funding. As part of the above-outlined process, OCIO received a formal challenge and supporting evidence from one or more Iowa residents or Communications Service Provider(s), claiming that service your organization reports is insufficient to warrant the likely ineligible status of a particular address location.

At this time, the Office requests your assistance in making an accurate determination as to whether your organization in fact offers the speeds reported at each challenged address location as of August 2, 2022. To that end, the Office requests that you:

1) Complete and return the attached Challenge Notice Form (see Exhibit A, Affirmation tab), by **October 24, 2022 at 5:00 CDT**. Pursuant to this form, OCIO requests that a representative with legal authority to bind your organization:
    a) Confirm that the speeds reported at the challenged address locations are correct as of August 2, 2022.
    b) Fully complete all other aspects of the Form.

2) In addition to the form, please also submit any other evidence or information in your possession to the Office that supports your prior representations to the Office regarding the address locations identified in Exhibit A. Examples of evidence and information the Office would consider particularly probative include: Bills or invoices provided to or received by customers at the applicable address location which identify the specific download and upload speeds provided or received as of August 2, 2022.

Please return the completed form and supporting evidence or information to ociogrants@iowa.gov.

Please note that you are under no legal obligation to respond to this request for information. The Office permits any affected person or party to submit evidence or information to the Office in support of or in opposition to a challenge within 20 days after the challenge has been posted to ocio.iowa.gov/broadband. However, this Office is affirmatively reaching out to notify you of the challenge, of the circumstances surrounding the challenge, and to solicit your feedback and position. If this Office does not receive your response via Exhibit A of the Form by **October 24, 2022 at 5:00 CDT**, the Office will make a final decision based on the evidence and information currently available to it.

Sincerely,

Office of the Chief Information Officer
State of Iowa

C. EXPLANATION

To the extent you believe additional explanation is required to ensure that you are communicating full and accurate information, you may provide narrative to further rebut this challenge. You may consider uploading evidence to substantiate your claims as an attachment to this Affirmation. An Affirmation submitted without sufficient and probative evidence may be inadequate to overcome a challenge.

For each address we have coverage we have included either an invoice from the current customer, evidence from the FCC's Broadband Data Collection System showing the location and broadband data or a screenshot of site lines from the location to our nearest tower. Our BDC data was generated by doing conservative RF propagation analysis to determine reachability and speeds.

D. AFFIRMATION

Affirmation of Service or Lack of Service at Address Locations

Broadband Availability Map Challenge Process Version 5

A. RESPONDENT INFORMATION

Company Name	LTD Broadband LLC
Address	78053 MN 251
City	Clarks Grove
State	MN
Zip	56016

B. DESIGNATED CONTACT INFORMATION

Contact Name	Corey Hauer
Contact Phone Number	507-318-0143
Contact Email	coreyhauer@ltdbroadband.com

C. EXPLANATION

To the extent you believe additional explanation is required to ensure that you are communicating full and accurate information, you may provide narrative to further rebut this challenge. You may consider uploading evidence to substantiate your claims as an attachment to this Affirmation. An Affirmation submitted without sufficient and probative evidence may be inadequate to overcome a

For each address we have coverage we have included either an invoice from the current customer, evidence from the FCC's Broadband Data Collection System showing the location and broadband data or a screenshot of site lines from the location to our nearest tower. Our BDC data was generated by doing conservative RF propagation analysis to determine reachability and speeds.

D. AFFIRMATION

By signing and submitting this form, the authorized representative attests that to the best of the authorized representatives knowledge and belief, the information submitted through this challenge form is true and accurate, and the form is signed under the pains and penalties of perjury. By typing your name, you are affixing your signature to this form and attesting to the accuracy of the information submitted herein.

The Office did not receive a response to this Notice

To whom it may concern:

This is a letter of inquiry concerning your organization's prior reporting to the State of Iowa Office of the Chief Information Officer ("OCIO" or "Office") regarding the availability of Broadband service at certain address location(s). Our Office received a timely-filed Challenge Form challenging information reported on the Broadband Availability Map Version 5 ("V5") of the Statewide Broadband Availability Map ("Map"). The data reflected on V5 of the Map was either: (1) provided by you to the Office's contractor, Connected Nation, during the data collection window of November 1, 2021 through February 11, 2022; (2) gathered from other sources (such as FCC) that collected data from you; or (3) carried forward from prior reporting made to this Office by you under a previous Map version.

Map V5 identifies where Broadband service was offered or facilitated at speeds greater than 25/3 as of August 2, 2022. The Map also reflects a preliminary determination of 'likely eligible' or 'likely ineligible' based on speed, technology type, and previous incentives and is a prospective estimate of potential eligibility under various federal programs. The publication of the Map on August 2, 2022 triggered a formal 30-day challenge window during which time we received challenges citing or implicating your service. The challenge(s) we received claims that the data reflected on V5 of the Map is inaccurate. All timely-filed challenges can be found at https://ocio.iowa.gov/broadband-availability-map-version-5-challenge-process. **To resolve this matter, the Office requests that your organization provide information concerning your service at the affected address locations as further identified and described below by October 24, 2022 at 5:00 CDT.**

Map V5 is designed to facilitate decisions concerning future spending under federally-funded broadband programs. Because Map V5 does not use the tiered structure envisioned by Iowa Code chapter 8B and because future federally-funded grant opportunities made available by the Office in accordance with Map V5 will not conform to Iowa Code chapter 8B, the map challenge process outlined in Iowa Code section 8B.10 does not apply. Similarly, within 30 days after the Office's official publication of the Map, the Office permitted any person or party aggrieved or adversely affected by such determination to challenge the office's finding by submitting a challenge form along with all evidence or information supporting the challenge. The

proffered bases for challenge largely mirror those offered by the FCC in their Broadband Data Collection efforts.

V5 of the Map currently shows that service offered at a particular address location renders that address location either likely eligible or likely ineligible for future federal grant funding. As part of the above-outlined process, OCIO received a formal challenge and supporting evidence from one or more Iowa residents or Communications Service Provider(s), claiming that service your organization reports is insufficient to warrant the likely ineligible status of a particular address location.

At this time, the Office requests your assistance in making an accurate determination as to whether your organization in fact offers the speeds reported at each challenged address location as of August 2, 2022. To that end, the Office requests that you:

1) Complete and return the attached Challenge Notice Form (see Exhibit A, Affirmation tab), by **October 24, 2022 at 5:00 CDT**. Pursuant to this form, OCIO requests that a representative with legal authority to bind your organization:
    a) Confirm that the speeds reported at the challenged address locations are correct as of August 2, 2022.
    b) Fully complete all other aspects of the Form.

2) In addition to the form, please also submit any other evidence or information in your possession to the Office that supports your prior representations to the Office regarding the address locations identified in Exhibit A. Examples of evidence and information the Office would consider particularly probative include: Bills or invoices provided to or received by customers at the applicable address location which identify the specific download and upload speeds provided or received as of August 2, 2022.

Please return the completed form and supporting evidence or information to ociogrants@iowa.gov.

Please note that you are under no legal obligation to respond to this request for information. The Office permits any affected person or party to submit evidence or information to the Office in support of or in opposition to a challenge within 20 days after the challenge has been posted to ocio.iowa.gov/broadband. However, this Office is affirmatively reaching out to notify you of the challenge, of the circumstances surrounding the challenge, and to solicit your feedback and position. If this Office does not receive your response via Exhibit A of the Form by **October 24, 2022 at 5:00 CDT**, the Office will make a final decision based on the evidence and information currently available to it.

Sincerely,

Office of the Chief Information Officer
State of Iowa

C. EXPLANATION

To the extent you believe additional explanation is required to ensure that you are communicating full and accurate information, you may provide narrative to further rebut this challenge. You may consider uploading evidence to substantiate your claims as an attachment to this Affirmation. An Affirmation submitted without sufficient and probative evidence may be inadequate to overcome a challenge.

D. AFFIRMATION

By signing and submitting this form, the authorized representative attests that to the best of the authorized representatives knowledge and belief, the information submitted through this challenge form is true and accurate, and the form is signed under the pains and penalties of perjury. By typing your name, you are affixing your signature to this form and attesting to the accuracy of the information submitted herein.

To whom it may concern:

This is a letter of inquiry concerning your organization's prior reporting to the State of Iowa Office of the Chief Information Officer ("OCIO" or "Office") regarding the availability of Broadband service at certain address location(s). Our Office received a timely-filed Challenge Form challenging information reported on the Broadband Availability Map Version 5 ("V5") of the Statewide Broadband Availability Map ("Map"). The data reflected on V5 of the Map was either: (1) provided by you to the Office's contractor, Connected Nation, during the data collection window of November 1, 2021 through February 11, 2022; (2) gathered from other sources (such as FCC) that collected data from you; or (3) carried forward from prior reporting made to this Office by you under a previous Map version.

Map V5 identifies where Broadband service was offered or facilitated at speeds greater than 25/3 as of August 2, 2022. The Map also reflects a preliminary determination of 'likely eligible' or 'likely ineligible' based on speed, technology type, and previous incentives and is a prospective estimate of potential eligibility under various federal programs. The publication of the Map on August 2, 2022 triggered a formal 30-day challenge window during which time we received challenges citing or implicating your service. The challenge(s) we received claims that the data reflected on V5 of the Map is inaccurate. All timely-filed challenges can be found at https://ocio.iowa.gov/broadband-availability-map-version-5-challenge-process. **To resolve this matter, the Office requests that your organization provide information concerning your service at the affected address locations as further identified and described below by October 24, 2022 at 5:00 CDT.**

Map V5 is designed to facilitate decisions concerning future spending under federally-funded broadband programs. Because Map V5 does not use the tiered structure envisioned by Iowa Code chapter 8B and because future federally-funded grant opportunities made available by the Office in accordance with Map V5 will not conform to Iowa Code chapter 8B, the map challenge process outlined in Iowa Code section 8B.10 does not apply. Similarly, within 30 days after the Office's official publication of the Map, the Office permitted any person or party aggrieved or adversely affected by such determination to challenge the office's finding by submitting a challenge form along with all evidence or information supporting the challenge. The

proffered bases for challenge largely mirror those offered by the FCC in their Broadband Data Collection efforts.

V5 of the Map currently shows that service offered at a particular address location renders that address location either likely eligible or likely ineligible for future federal grant funding. As part of the above-outlined process, OCIO received a formal challenge and supporting evidence from one or more Iowa residents or Communications Service Provider(s), claiming that service your organization reports is insufficient to warrant the likely ineligible status of a particular address location.

At this time, the Office requests your assistance in making an accurate determination as to whether your organization in fact offers the speeds reported at each challenged address location as of August 2, 2022. To that end, the Office requests that you:

1) Complete and return the attached Challenge Notice Form (see Exhibit A, Affirmation tab), by **October 24, 2022 at 5:00 CDT**. Pursuant to this form, OCIO requests that a representative with legal authority to bind your organization:
    a) Confirm that the speeds reported at the challenged address locations are correct as of August 2, 2022.
    b) Fully complete all other aspects of the Form.

2) In addition to the form, please also submit any other evidence or information in your possession to the Office that supports your prior representations to the Office regarding the address locations identified in Exhibit A. Examples of evidence and information the Office would consider particularly probative include: Bills or invoices provided to or received by customers at the applicable address location which identify the specific download and upload speeds provided or received as of August 2, 2022.

Please return the completed form and supporting evidence or information to ociogrants@iowa.gov.

Please note that you are under no legal obligation to respond to this request for information. The Office permits any affected person or party to submit evidence or information to the Office in support of or in opposition to a challenge within 20 days after the challenge has been posted to ocio.iowa.gov/broadband. However, this Office is affirmatively reaching out to notify you of the challenge, of the circumstances surrounding the challenge, and to solicit your feedback and position. If this Office does not receive your response via Exhibit A of the Form by **October 24, 2022 at 5:00 CDT**, the Office will make a final decision based on the evidence and information currently available to it.

Sincerely,

Office of the Chief Information Officer
State of Iowa

To whom it may concern:

This is a letter of inquiry concerning your organization's prior reporting to the State of Iowa Office of the Chief Information Officer ("OCIO" or "Office") regarding the availability of Broadband service at certain address location(s). Our Office received a timely-filed Challenge Form challenging information reported on the Broadband Availability Map Version 5 ("V5") of the Statewide Broadband Availability Map ("Map"). The data reflected on V5 of the Map was either: (1) provided by you to the Office's contractor, Connected Nation, during the data collection window of November 1, 2021 through February 11, 2022; (2) gathered from other sources (such as FCC) that collected data from you; or (3) carried forward from prior reporting made to this Office by you under a previous Map version.

Map V5 identifies where Broadband service was offered or facilitated at speeds greater than 25/3 as of August 2, 2022. The Map also reflects a preliminary determination of 'likely eligible' or 'likely ineligible' based on speed, technology type, and previous incentives and is a prospective estimate of potential eligibility under various federal programs. The publication of the Map on August 2, 2022 triggered a formal 30-day challenge window during which time we received challenges citing or implicating your service. The challenge(s) we received claims that the data reflected on V5 of the Map is inaccurate. All timely-filed challenges can be found at https://ocio.iowa.gov/broadband-availability-map-version-5-challenge-process. **To resolve this matter, the Office requests that your organization provide information concerning your service at the affected address locations as further identified and described below by November 26, 2022 at 11:59 p.m. CST.**

Map V5 is designed to facilitate decisions concerning future spending under federally-funded broadband programs. Because Map V5 does not use the tiered structure envisioned by Iowa Code chapter 8B and because future federally-funded grant opportunities made available by the Office in accordance with Map V5 will not conform to Iowa Code chapter 8B, the map challenge process outlined in Iowa Code section 8B.10 does not apply. Similarly, within 30 days after the Office's official publication of the Map, the Office permitted any person or party aggrieved or adversely affected by such determination to challenge the office's finding by submitting a challenge form along with all evidence or information supporting the

challenge. The proffered bases for challenge largely mirror those offered by the FCC in their Broadband Data Collection efforts.

V5 of the Map currently shows that service offered at a particular address location renders that address location either likely eligible or likely ineligible for future federal grant funding. As part of the above-outlined process, OCIO received a formal challenge and supporting evidence from one or more Iowa residents or Communications Service Provider(s), claiming that service your organization reports is insufficient to warrant the likely ineligible status of a particular address location.

At this time, the Office requests your assistance in making an accurate determination as to whether your organization in fact offers the speeds reported at each challenged address location as of August 2, 2022. To that end, the Office requests that you:

1) Complete and return the attached Challenge Notice Form (see Exhibit A, Affirmation tab), by **November 26, 2022 at 11:59 p.m. CST**. Pursuant to this form, OCIO requests that a representative with legal authority to bind your organization:

   a) Confirm that the speeds reported at the challenged address locations are correct as of August 2, 2022.

   b) Fully complete all other aspects of the Form.

2) In addition to the form, please also submit any other evidence or information in your possession to the Office that supports your prior representations to the Office regarding the address locations identified in Exhibit A. Examples of evidence and information the Office would consider particularly probative include: Bills or invoices provided to or received by customers at the applicable address location which identify the specific download and upload speeds provided or received as of August 2, 2022.

Please return the completed form and supporting evidence or information to ociogrants@iowa.gov.

Please note that you are under no legal obligation to respond to this request for information. The Office permits any affected person or party to submit evidence or information to the Office in support of or in opposition to a challenge within 20 days after the challenge has been posted to ocio.iowa.gov/broadband. However, this Office is affirmatively reaching out to notify you of the challenge, of the circumstances surrounding the challenge, and to solicit your feedback and position. If this Office does not receive your response via Exhibit A of the Form by **November 26, 2022 at 11:59 p.m. CST**, the Office will make a final decision based on the evidence and information currently available to it.

Sincerely,

Office of the Chief Information Officer
State of Iowa

Broadband Map V5 Challenge Notice

EXHIBIT A

Affirmation of Service or Lack of Service at Address Locations

Broadband Availability Map Challenge Process Version 5

A. RESPONDENT INFORMATION

Company Name	Mediacom LLC
Address	1 Mediacom Way
City	Mediacom Park
State	New York
Zip	10918

Mediacom understands that fast, reliable Internet is more important than ever as our customers' online use increases and homes become smarter every year. Because of this, Mediacom is continuing to enhance our 100% gigabit technology network and will also change your Internet 200 service to Internet 300 service, increase your Download speed from up to 200 Mbps to up to 300 Mbps, increase your Upload speed from up to 10 Mbps to up to 20 Mbps, and the Monthly Data Usage Allowance from 1,000 GB to 1,500 GB. However, due to cost increases, effective November 15, 2022, the standard monthly rate card price for Internet 100 will increase by $10.00.

FOR COMPLAINTS REGARDING YOUR TELEPHONE SERVICE, YOU MAY REQUEST ASSISTANCE FROM THE IOWA UTILITIES BOARD BY WRITING 1375 E COURT AVENUE, ROOM 69, DES MOINES, IOWA 50319-0069, BY CALLING 515-725-7321 OR TOLL FREE 1-877-565-4450 OR EMAIL CUSTOMER@IUB.IOWA.GOV FCC COMMUNITY ID: IA0032

The wholesale cost of television channels is Mediacom's largest expense and in the past year, rates from the national networks, broadcast stations, and sports channels, have skyrocketed. Despite our efforts to keep costs down, these increases along with other operating expenses make it necessary for us to adjust our rates effective with this bill. The Local Broadcast Station Surcharge has increased by $0.79 and the Regional Sports Surcharge will increased by $0.23.

The Office did not receive a response to this Notice

Metro FiberNet Inc.
Bob Humphrey
bob.humphrey@metronetinc.com
Sent via email only

To whom it may concern:

This is a letter of inquiry concerning your organization's prior reporting to the State of Iowa Office of the Chief Information Officer ("OCIO" or "Office") regarding the availability of Broadband service at certain address location(s). Our Office received a timely-filed Challenge Form challenging information reported on the Broadband Availability Map Version 5 ("V5") of the Statewide Broadband Availability Map ("Map"). The data reflected on V5 of the Map was either: (1) provided by you to the Office's contractor, Connected Nation, during the data collection window of November 1, 2021 through February 11, 2022; (2) gathered from other sources (such as FCC) that collected data from you; or (3) carried forward from prior reporting made to this Office by you under a previous Map version.

Map V5 identifies where Broadband service was offered or facilitated at speeds greater than 25/3 as of August 2, 2022. The Map also reflects a preliminary determination of 'likely eligible' or 'likely ineligible' based on speed, technology type, and previous incentives and is a prospective estimate of potential eligibility under various federal programs. The publication of the Map on August 2, 2022 triggered a formal 30-day challenge window during which time we received challenges citing or implicating your service. The challenge(s) we received claims that the data reflected on V5 of the Map is inaccurate. All timely-filed challenges can be found at https://ocio.iowa.gov/broadband-availability-map-version-5-challenge-process. **To resolve this matter, the Office requests that your organization provide information concerning your service at the affected address locations as further identified and described below by October 24, 2022 at 5:00 CDT.**

Map V5 is designed to facilitate decisions concerning future spending under federally-funded broadband programs. Because Map V5 does not use the tiered structure envisioned by Iowa Code chapter 8B and because future federally-funded grant opportunities made available by the Office in accordance with Map V5 will not conform to Iowa Code chapter 8B, the map challenge process outlined in Iowa Code section 8B.10 does not apply. Similarly, within 30 days after the Office's official publication of the Map, the Office permitted any person or party aggrieved or adversely affected by such determination to challenge the office's finding by submitting a challenge form along with all evidence or information supporting the challenge. The

proffered bases for challenge largely mirror those offered by the FCC in their Broadband Data Collection efforts.

V5 of the Map currently shows that service offered at a particular address location renders that address location either likely eligible or likely ineligible for future federal grant funding. As part of the above-outlined process, OCIO received a formal challenge and supporting evidence from one or more Iowa residents or Communications Service Provider(s), claiming that service your organization reports is insufficient to warrant the likely ineligible status of a particular address location.

At this time, the Office requests your assistance in making an accurate determination as to whether your organization in fact offers the speeds reported at each challenged address location as of August 2, 2022. To that end, the Office requests that you:

1) Complete and return the attached Challenge Notice Form (see Exhibit A, Affirmation tab), by **October 24, 2022 at 5:00 CDT**. Pursuant to this form, OCIO requests that a representative with legal authority to bind your organization:
    a) Confirm that the speeds reported at the challenged address locations are correct as of August 2, 2022.
    b) Fully complete all other aspects of the Form.

2) In addition to the form, please also submit any other evidence or information in your possession to the Office that supports your prior representations to the Office regarding the address locations identified in Exhibit A. Examples of evidence and information the Office would consider particularly probative include: Bills or invoices provided to or received by customers at the applicable address location which identify the specific download and upload speeds provided or received as of August 2, 2022.

Please return the completed form and supporting evidence or information to ociogrants@iowa.gov.

Please note that you are under no legal obligation to respond to this request for information. The Office permits any affected person or party to submit evidence or information to the Office in support of or in opposition to a challenge within 20 days after the challenge has been posted to ocio.iowa.gov/broadband. However, this Office is affirmatively reaching out to notify you of the challenge, of the circumstances surrounding the challenge, and to solicit your feedback and position. If this Office does not receive your response via Exhibit A of the Form by **October 24, 2022 at 5:00 CDT**, the Office will make a final decision based on the evidence and information currently available to it.

Sincerely,

Office of the Chief Information Officer
State of Iowa

To whom it may concern:

This is a letter of inquiry concerning your organization's prior reporting to the State of Iowa Office of the Chief Information Officer ("OCIO" or "Office") regarding the availability of Broadband service at certain address location(s). Our Office received a timely-filed Challenge Form challenging information reported on the Broadband Availability Map Version 5 ("V5") of the Statewide Broadband Availability Map ("Map"). The data reflected on V5 of the Map was either: (1) provided by you to the Office's contractor, Connected Nation, during the data collection window of November 1, 2021 through February 11, 2022; (2) gathered from other sources (such as FCC) that collected data from you; or (3) carried forward from prior reporting made to this Office by you under a previous Map version.

Map V5 identifies where Broadband service was offered or facilitated at speeds greater than 25/3 as of August 2, 2022. The Map also reflects a preliminary determination of 'likely eligible' or 'likely ineligible' based on speed, technology type, and previous incentives and is a prospective estimate of potential eligibility under various federal programs. The publication of the Map on August 2, 2022 triggered a formal 30-day challenge window during which time we received challenges citing or implicating your service. The challenge(s) we received claims that the data reflected on V5 of the Map is inaccurate. All timely-filed challenges can be found at https://ocio.iowa.gov/broadband-availability-map-version-5-challenge-process. **To resolve this matter, the Office requests that your organization provide information concerning your service at the affected address locations as further identified and described below by November 26, 2022 at 11:59 p.m. CST.**

Map V5 is designed to facilitate decisions concerning future spending under federally-funded broadband programs. Because Map V5 does not use the tiered structure envisioned by Iowa Code chapter 8B and because future federally-funded grant opportunities made available by the Office in accordance with Map V5 will not conform to Iowa Code chapter 8B, the map challenge process outlined in Iowa Code section 8B.10 does not apply. Similarly, within 30 days after the Office's official publication of the Map, the Office permitted any person or party aggrieved or adversely affected by such determination to challenge the office's finding by submitting a challenge form along with all evidence or information supporting the

challenge. The proffered bases for challenge largely mirror those offered by the FCC in their Broadband Data Collection efforts.

V5 of the Map currently shows that service offered at a particular address location renders that address location either likely eligible or likely ineligible for future federal grant funding. As part of the above-outlined process, OCIO received a formal challenge and supporting evidence from one or more Iowa residents or Communications Service Provider(s), claiming that service your organization reports is insufficient to warrant the likely ineligible status of a particular address location.

At this time, the Office requests your assistance in making an accurate determination as to whether your organization in fact offers the speeds reported at each challenged address location as of August 2, 2022. To that end, the Office requests that you:

1) Complete and return the attached Challenge Notice Form (see Exhibit A, Affirmation tab), by **November 26, 2022 at 11:59 p.m. CST**. Pursuant to this form, OCIO requests that a representative with legal authority to bind your organization:

   a) Confirm that the speeds reported at the challenged address locations are correct as of August 2, 2022.

   b) Fully complete all other aspects of the Form.

2) In addition to the form, please also submit any other evidence or information in your possession to the Office that supports your prior representations to the Office regarding the address locations identified in Exhibit A. Examples of evidence and information the Office would consider particularly probative include: Bills or invoices provided to or received by customers at the applicable address location which identify the specific download and upload speeds provided or received as of August 2, 2022.

Please return the completed form and supporting evidence or information to ociogrants@iowa.gov.

The Office permits any affected person or party to submit evidence or information to the Office in support of or in opposition to a challenge within 20 days after the challenge has been posted to ocio.iowa.gov/broadband. However, this Office is affirmatively reaching out to notify you of the challenge, of the circumstances surrounding the challenge, and to solicit your feedback and position. If this Office does not receive your response via Exhibit A of the Form by **November 26, 2022 at 11:59 p.m. CST**, the Office will make a final decision based on the evidence and information currently available to it.

Sincerely,

Office of the Chief Information Officer
State of Iowa

The Office did not receive a response to this Notice

To whom it may concern:

This is a letter of inquiry concerning your organization's prior reporting to the State of Iowa Office of the Chief Information Officer ("OCIO" or "Office") regarding the availability of Broadband service at certain address location(s). Our Office received a timely-filed Challenge Form challenging information reported on the Broadband Availability Map Version 5 ("V5") of the Statewide Broadband Availability Map ("Map"). The data reflected on V5 of the Map was either: (1) provided by you to the Office's contractor, Connected Nation, during the data collection window of November 1, 2021 through February 11, 2022; (2) gathered from other sources (such as FCC) that collected data from you; or (3) carried forward from prior reporting made to this Office by you under a previous Map version.

Map V5 identifies where Broadband service was offered or facilitated at speeds greater than 25/3 as of August 2, 2022. The Map also reflects a preliminary determination of 'likely eligible' or 'likely ineligible' based on speed, technology type, and previous incentives and is a prospective estimate of potential eligibility under various federal programs. The publication of the Map on August 2, 2022 triggered a formal 30-day challenge window during which time we received challenges citing or implicating your service. The challenge(s) we received claims that the data reflected on V5 of the Map is inaccurate. All timely-filed challenges can be found at https://ocio.iowa.gov/broadband-availability-map-version-5-challenge-process. **To resolve this matter, the Office requests that your organization provide information concerning your service at the affected address locations as further identified and described below by October 24, 2022 at 5:00 CDT.**

Map V5 is designed to facilitate decisions concerning future spending under federally-funded broadband programs. Because Map V5 does not use the tiered structure envisioned by Iowa Code chapter 8B and because future federally-funded grant opportunities made available by the Office in accordance with Map V5 will not conform to Iowa Code chapter 8B, the map challenge process outlined in Iowa Code section 8B.10 does not apply. Similarly, within 30 days after the Office's official publication of the Map, the Office permitted any person or party aggrieved or adversely affected by such determination to challenge the office's finding by submitting a challenge form along with all evidence or information supporting the challenge. The

proffered bases for challenge largely mirror those offered by the FCC in their Broadband Data Collection efforts.

V5 of the Map currently shows that service offered at a particular address location renders that address location either likely eligible or likely ineligible for future federal grant funding. As part of the above-outlined process, OCIO received a formal challenge and supporting evidence from one or more Iowa residents or Communications Service Provider(s), claiming that service your organization reports is insufficient to warrant the likely ineligible status of a particular address location.

At this time, the Office requests your assistance in making an accurate determination as to whether your organization in fact offers the speeds reported at each challenged address location as of August 2, 2022. To that end, the Office requests that you:

1) Complete and return the attached Challenge Notice Form (see Exhibit A, Affirmation tab), by **October 24, 2022 at 5:00 CDT**. Pursuant to this form, OCIO requests that a representative with legal authority to bind your organization:
    a) Confirm that the speeds reported at the challenged address locations are correct as of August 2, 2022.
    b) Fully complete all other aspects of the Form.

2) In addition to the form, please also submit any other evidence or information in your possession to the Office that supports your prior representations to the Office regarding the address locations identified in Exhibit A. Examples of evidence and information the Office would consider particularly probative include: Bills or invoices provided to or received by customers at the applicable address location which identify the specific download and upload speeds provided or received as of August 2, 2022.

Please return the completed form and supporting evidence or information to ociogrants@iowa.gov.

Please note that you are under no legal obligation to respond to this request for information. The Office permits any affected person or party to submit evidence or information to the Office in support of or in opposition to a challenge within 20 days after the challenge has been posted to ocio.iowa.gov/broadband. However, this Office is affirmatively reaching out to notify you of the challenge, of the circumstances surrounding the challenge, and to solicit your feedback and position. If this Office does not receive your response via Exhibit A of the Form by **October 24, 2022 at 5:00 CDT**, the Office will make a final decision based on the evidence and information currently available to it.

Sincerely,

Office of the Chief Information Officer

To whom it may concern:

This is a letter of inquiry concerning your organization's prior reporting to the State of Iowa Office of the Chief Information Officer ("OCIO" or "Office") regarding the availability of Broadband service at certain address location(s). Our Office received a timely-filed Challenge Form challenging information reported on the Broadband Availability Map Version 5 ("V5") of the Statewide Broadband Availability Map ("Map"). The data reflected on V5 of the Map was either: (1) provided by you to the Office's contractor, Connected Nation, during the data collection window of November 1, 2021 through February 11, 2022; (2) gathered from other sources (such as FCC) that collected data from you; or (3) carried forward from prior reporting made to this Office by you under a previous Map version.

Map V5 identifies where Broadband service was offered or facilitated at speeds greater than 25/3 as of August 2, 2022. The Map also reflects a preliminary determination of 'likely eligible' or 'likely ineligible' based on speed, technology type, and previous incentives and is a prospective estimate of potential eligibility under various federal programs. The publication of the Map on August 2, 2022 triggered a formal 30-day challenge window during which time we received challenges citing or implicating your service. The challenge(s) we received claims that the data reflected on V5 of the Map is inaccurate. All timely-filed challenges can be found at https://ocio.iowa.gov/broadband-availability-map-version-5-challenge-process. **To resolve this matter, the Office requests that your organization provide information concerning your service at the affected address locations as further identified and described below by October 24, 2022 at 5:00 CDT.**

Map V5 is designed to facilitate decisions concerning future spending under federally-funded broadband programs. Because Map V5 does not use the tiered structure envisioned by Iowa Code chapter 8B and because future federally-funded grant opportunities made available by the Office in accordance with Map V5 will not conform to Iowa Code chapter 8B, the map challenge process outlined in Iowa Code section 8B.10 does not apply. Similarly, within 30 days after the Office's official publication of the Map, the Office permitted any person or party aggrieved or adversely affected by such determination to challenge the office's finding by submitting a challenge form along with all evidence or information supporting the challenge. The

proffered bases for challenge largely mirror those offered by the FCC in their Broadband Data Collection efforts.

V5 of the Map currently shows that service offered at a particular address location renders that address location either likely eligible or likely ineligible for future federal grant funding. As part of the above-outlined process, OCIO received a formal challenge and supporting evidence from one or more Iowa residents or Communications Service Provider(s), claiming that service your organization reports is insufficient to warrant the likely ineligible status of a particular address location.

At this time, the Office requests your assistance in making an accurate determination as to whether your organization in fact offers the speeds reported at each challenged address location as of August 2, 2022. To that end, the Office requests that you:

1) Complete and return the attached Challenge Notice Form (see Exhibit A, Affirmation tab), by **October 24, 2022 at 5:00 CDT**. Pursuant to this form, OCIO requests that a representative with legal authority to bind your organization:
    a) Confirm that the speeds reported at the challenged address locations are correct as of August 2, 2022.
    b) Fully complete all other aspects of the Form.

2) In addition to the form, please also submit any other evidence or information in your possession to the Office that supports your prior representations to the Office regarding the address locations identified in Exhibit A. Examples of evidence and information the Office would consider particularly probative include: Bills or invoices provided to or received by customers at the applicable address location which identify the specific download and upload speeds provided or received as of August 2, 2022.

Please return the completed form and supporting evidence or information to ociogrants@iowa.gov.

Please note that you are under no legal obligation to respond to this request for information. The Office permits any affected person or party to submit evidence or information to the Office in support of or in opposition to a challenge within 20 days after the challenge has been posted to ocio.iowa.gov/broadband. However, this Office is affirmatively reaching out to notify you of the challenge, of the circumstances surrounding the challenge, and to solicit your feedback and position. If this Office does not receive your response via Exhibit A of the Form by **October 24, 2022 at 5:00 CDT**, the Office will make a final decision based on the evidence and information currently available to it.

Sincerely,

Office of the Chief Information Officer
State of Iowa

Contacted Jason.

They're a small WISP and not intending to apply for grant funding.

He does not plan to reply to the challenge, given it is two addresses and is ok with them being flipped if that is the result.

To whom it may concern:

This is a letter of inquiry concerning your organization's prior reporting to the State of Iowa Office of the Chief Information Officer ("OCIO" or "Office") regarding the availability of Broadband service at certain address location(s). Our Office received a timely-filed Challenge Form challenging information reported on the Broadband Availability Map Version 5 ("V5") of the Statewide Broadband Availability Map ("Map"). The data reflected on V5 of the Map was either: (1) provided by you to the Office's contractor, Connected Nation, during the data collection window of November 1, 2021 through February 11, 2022; (2) gathered from other sources (such as FCC) that collected data from you; or (3) carried forward from prior reporting made to this Office by you under a previous Map version.

Map V5 identifies where Broadband service was offered or facilitated at speeds greater than 25/3 as of August 2, 2022. The Map also reflects a preliminary determination of 'likely eligible' or 'likely ineligible' based on speed, technology type, and previous incentives and is a prospective estimate of potential eligibility under various federal programs. The publication of the Map on August 2, 2022 triggered a formal 30-day challenge window during which time we received challenges citing or implicating your service. The challenge(s) we received claims that the data reflected on V5 of the Map is inaccurate. All timely-filed challenges can be found at https://ocio.iowa.gov/broadband-availability-map-version-5-challenge-process. **To resolve this matter, the Office requests that your organization provide information concerning your service at the affected address locations as further identified and described below by November 26, 2022 at 11:59 p.m. CST.**

Map V5 is designed to facilitate decisions concerning future spending under federally-funded broadband programs. Because Map V5 does not use the tiered structure envisioned by Iowa Code chapter 8B and because future federally-funded grant opportunities made available by the Office in accordance with Map V5 will not conform to Iowa Code chapter 8B, the map challenge process outlined in Iowa Code section 8B.10 does not apply. Similarly, within 30 days after the Office's official publication of the Map, the Office permitted any person or party aggrieved or adversely affected by such determination to challenge the office's finding by submitting a challenge form along with all evidence or information supporting the

challenge. The proffered bases for challenge largely mirror those offered by the FCC in their Broadband Data Collection efforts.

V5 of the Map currently shows that service offered at a particular address location renders that address location either likely eligible or likely ineligible for future federal grant funding. As part of the above-outlined process, OCIO received a formal challenge and supporting evidence from one or more Iowa residents or Communications Service Provider(s), claiming that service your organization reports is insufficient to warrant the likely ineligible status of a particular address location.

At this time, the Office requests your assistance in making an accurate determination as to whether your organization in fact offers the speeds reported at each challenged address location as of August 2, 2022. To that end, the Office requests that you:

1) Complete and return the attached Challenge Notice Form (see Exhibit A, Affirmation tab), by **November 26, 2022 at 11:59 p.m. CST**. Pursuant to this form, OCIO requests that a representative with legal authority to bind your organization:
   a) Confirm that the speeds reported at the challenged address locations are correct as of August 2, 2022.
   b) Fully complete all other aspects of the Form.

2) In addition to the form, please also submit any other evidence or information in your possession to the Office that supports your prior representations to the Office regarding the address locations identified in Exhibit A. Examples of evidence and information the Office would consider particularly probative include: Bills or invoices provided to or received by customers at the applicable address location which identify the specific download and upload speeds provided or received as of August 2, 2022.

Please return the completed form and supporting evidence or information to ociogrants@iowa.gov.

Please note that you are under no legal obligation to respond to this request for information. The Office permits any affected person or party to submit evidence or information to the Office in support of or in opposition to a challenge within 20 days after the challenge has been posted to ocio.iowa.gov/broadband. However, this Office is affirmatively reaching out to notify you of the challenge, of the circumstances surrounding the challenge, and to solicit your feedback and position. If this Office does not receive your response via Exhibit A of the Form by **November 26, 2022 at 11:59 p.m. CST**, the Office will make a final decision based on the evidence and information currently available to it.

Sincerely,

Office of the Chief Information Officer

To whom it may concern:

This is a letter of inquiry concerning your organization's prior reporting to the State of Iowa Office of the Chief Information Officer ("OCIO" or "Office") regarding the availability of Broadband service at certain address location(s). Our Office received a timely-filed Challenge Form challenging information reported on the Broadband Availability Map Version 5 ("V5") of the Statewide Broadband Availability Map ("Map"). The data reflected on V5 of the Map was either: (1) provided by you to the Office's contractor, Connected Nation, during the data collection window of November 1, 2021 through February 11, 2022; (2) gathered from other sources (such as FCC) that collected data from you; or (3) carried forward from prior reporting made to this Office by you under a previous Map version.

Map V5 identifies where Broadband service was offered or facilitated at speeds greater than 25/3 as of August 2, 2022. The Map also reflects a preliminary determination of 'likely eligible' or 'likely ineligible' based on speed, technology type, and previous incentives and is a prospective estimate of potential eligibility under various federal programs. The publication of the Map on August 2, 2022 triggered a formal 30-day challenge window during which time we received challenges citing or implicating your service. The challenge(s) we received claims that the data reflected on V5 of the Map is inaccurate. All timely-filed challenges can be found at https://ocio.iowa.gov/broadband-availability-map-version-5-challenge-process. **To resolve this matter, the Office requests that your organization provide information concerning your service at the affected address locations as further identified and described below by October 24, 2022 at 5:00 CDT.**

Map V5 is designed to facilitate decisions concerning future spending under federally-funded broadband programs. Because Map V5 does not use the tiered structure envisioned by Iowa Code chapter 8B and because future federally-funded grant opportunities made available by the Office in accordance with Map V5 will not conform to Iowa Code chapter 8B, the map challenge process outlined in Iowa Code section 8B.10 does not apply. Similarly, within 30 days after the Office's official publication of the Map, the Office permitted any person or party aggrieved or adversely affected by such determination to challenge the office's finding by submitting a challenge form along with all evidence or information supporting the challenge. The

proffered bases for challenge largely mirror those offered by the FCC in their Broadband Data Collection efforts.

V5 of the Map currently shows that service offered at a particular address location renders that address location either likely eligible or likely ineligible for future federal grant funding. As part of the above-outlined process, OCIO received a formal challenge and supporting evidence from one or more Iowa residents or Communications Service Provider(s), claiming that service your organization reports is insufficient to warrant the likely ineligible status of a particular address location.

At this time, the Office requests your assistance in making an accurate determination as to whether your organization in fact offers the speeds reported at each challenged address location as of August 2, 2022. To that end, the Office requests that you:

1) Complete and return the attached Challenge Notice Form (see Exhibit A, Affirmation tab), by **October 24, 2022 at 5:00 CDT**. Pursuant to this form, OCIO requests that a representative with legal authority to bind your organization:
    a) Confirm that the speeds reported at the challenged address locations are correct as of August 2, 2022.
    b) Fully complete all other aspects of the Form.

2) In addition to the form, please also submit any other evidence or information in your possession to the Office that supports your prior representations to the Office regarding the address locations identified in Exhibit A. Examples of evidence and information the Office would consider particularly probative include: Bills or invoices provided to or received by customers at the applicable address location which identify the specific download and upload speeds provided or received as of August 2, 2022.

Please return the completed form and supporting evidence or information to ociogrants@iowa.gov.

Please note that you are under no legal obligation to respond to this request for information. The Office permits any affected person or party to submit evidence or information to the Office in support of or in opposition to a challenge within 20 days after the challenge has been posted to ocio.iowa.gov/broadband. However, this Office is affirmatively reaching out to notify you of the challenge, of the circumstances surrounding the challenge, and to solicit your feedback and position. If this Office does not receive your response via Exhibit A of the Form by **October 24, 2022 at 5:00 CDT**, the Office will make a final decision based on the evidence and information currently available to it.

Sincerely,

Office of the Chief Information Officer

To whom it may concern:

This is a letter of inquiry concerning your organization's prior reporting to the State of Iowa Office of the Chief Information Officer ("OCIO" or "Office") regarding the availability of Broadband service at certain address location(s). Our Office received a timely-filed Challenge Form challenging information reported on the Broadband Availability Map Version 5 ("V5") of the Statewide Broadband Availability Map ("Map"). The data reflected on V5 of the Map was either: (1) provided by you to the Office's contractor, Connected Nation, during the data collection window of November 1, 2021 through February 11, 2022; (2) gathered from other sources (such as FCC) that collected data from you; or (3) carried forward from prior reporting made to this Office by you under a previous Map version.

Map V5 identifies where Broadband service was offered or facilitated at speeds greater than 25/3 as of August 2, 2022. The Map also reflects a preliminary determination of 'likely eligible' or 'likely ineligible' based on speed, technology type, and previous incentives and is a prospective estimate of potential eligibility under various federal programs. The publication of the Map on August 2, 2022 triggered a formal 30-day challenge window during which time we received challenges citing or implicating your service. The challenge(s) we received claims that the data reflected on V5 of the Map is inaccurate. All timely-filed challenges can be found at https://ocio.iowa.gov/broadband-availability-map-version-5-challenge-process. **To resolve this matter, the Office requests that your organization provide information concerning your service at the affected address locations as further identified and described below by November 26, 2022 at 11:59 p.m. CST.**

Map V5 is designed to facilitate decisions concerning future spending under federally-funded broadband programs. Because Map V5 does not use the tiered structure envisioned by Iowa Code chapter 8B and because future federally-funded grant opportunities made available by the Office in accordance with Map V5 will not conform to Iowa Code chapter 8B, the map challenge process outlined in Iowa Code section 8B.10 does not apply. Similarly, within 30 days after the Office's official publication of the Map, the Office permitted any person or party aggrieved or adversely affected by such determination to challenge the office's finding by submitting a challenge form along with all evidence or information supporting the

challenge. The proffered bases for challenge largely mirror those offered by the FCC in their Broadband Data Collection efforts.

V5 of the Map currently shows that service offered at a particular address location renders that address location either likely eligible or likely ineligible for future federal grant funding. As part of the above-outlined process, OCIO received a formal challenge and supporting evidence from one or more Iowa residents or Communications Service Provider(s), claiming that service your organization reports is insufficient to warrant the likely ineligible status of a particular address location.

At this time, the Office requests your assistance in making an accurate determination as to whether your organization in fact offers the speeds reported at each challenged address location as of August 2, 2022. To that end, the Office requests that you:

1) Complete and return the attached Challenge Notice Form (see Exhibit A, Affirmation tab), by **November 26, 2022 at 11:59 p.m. CST**. Pursuant to this form, OCIO requests that a representative with legal authority to bind your organization:
   a) Confirm that the speeds reported at the challenged address locations are correct as of August 2, 2022.
   b) Fully complete all other aspects of the Form.

2) In addition to the form, please also submit any other evidence or information in your possession to the Office that supports your prior representations to the Office regarding the address locations identified in Exhibit A. Examples of evidence and information the Office would consider particularly probative include: Bills or invoices provided to or received by customers at the applicable address location which identify the specific download and upload speeds provided or received as of August 2, 2022.

Please return the completed form and supporting evidence or information to ociogrants@iowa.gov.

Please note that you are under no legal obligation to respond to this request for information. The Office permits any affected person or party to submit evidence or information to the Office in support of or in opposition to a challenge within 20 days after the challenge has been posted to ocio.iowa.gov/broadband. However, this Office is affirmatively reaching out to notify you of the challenge, of the circumstances surrounding the challenge, and to solicit your feedback and position. If this Office does not receive your response via Exhibit A of the Form by **November 26, 2022 at 11:59 p.m. CST**, the Office will make a final decision based on the evidence and information currently available to it.

Sincerely,

Office of the Chief Information Officer
State of Iowa

Our Office received a timely-filed Challenge Form challenging information reported on the Broadband Availability Map Version 5 ("V5") of the Statewide Broadband Availability Map ("Map"). The data reflected on V5 of the Map was either: (1) provided by you to the Office's contractor, Connected Nation, during the data collection window of November 1, 2021 through February 11, 2022; (2) gathered from other sources (such as FCC) that collected data from you; or (3) carried forward from prior reporting made to this Office by you under a previous Map version.

Map V5 identifies where Broadband service was offered or facilitated at speeds greater than 25/3 as of August 2, 2022. The Map also reflects a preliminary determination of 'likely eligible' or 'likely ineligible' based on speed, technology type, and previous incentives and is a prospective estimate of potential eligibility under various federal programs. The publication of the Map on August 2, 2022 triggered a formal 30-day challenge window during which time we received challenges citing or implicating your service. The challenge(s) we received claims that the data reflected on V5 of the Map is inaccurate. All timely-filed challenges can be found at https://ocio.iowa.gov/broadband-availability-map-version-5-challenge-process. **To resolve this matter, the Office requests that your organization provide information concerning your service at the affected address locations as further identified and described below by October 24, 2022 at 5:00 CDT.**

Map V5 is designed to facilitate decisions concerning future spending under federally-funded broadband programs. Because Map V5 does not use the tiered structure envisioned by Iowa Code chapter 8B and because future federally-funded grant opportunities made available by the Office in accordance with Map V5 will not conform to Iowa Code chapter 8B, the map challenge process outlined in Iowa Code section 8B.10 does not apply. Similarly, within 30 days after the Office's official publication of the Map, the Office permitted any person or party aggrieved or adversely affected by such determination to challenge the office's finding by submitting a challenge form along with all evidence or information supporting the challenge. The

proffered bases for challenge largely mirror those offered by the FCC in their Broadband Data Collection efforts.

V5 of the Map currently shows that service offered at a particular address location renders that address location either likely eligible or likely ineligible for future federal grant funding. As part of the above-outlined process, OCIO received a formal challenge and supporting evidence from one or more Iowa residents or Communications Service Provider(s), claiming that service your organization reports is insufficient to warrant the likely ineligible status of a particular address location.

At this time, the Office requests your assistance in making an accurate determination as to whether your organization in fact offers the speeds reported at each challenged address location as of August 2, 2022. To that end, the Office requests that you:

1) Complete and return the attached Challenge Notice Form (see Exhibit A, Affirmation tab), by **October 24, 2022 at 5:00 CDT**. Pursuant to this form, OCIO requests that a representative with legal authority to bind your organization:
    a) Confirm that the speeds reported at the challenged address locations are correct as of August 2, 2022.
    b) Fully complete all other aspects of the Form.

2) In addition to the form, please also submit any other evidence or information in your possession to the Office that supports your prior representations to the Office regarding the address locations identified in Exhibit A. Examples of evidence and information the Office would consider particularly probative include: Bills or invoices provided to or received by customers at the applicable address location which identify the specific download and upload speeds provided or received as of August 2, 2022.

Please return the completed form and supporting evidence or information to ociogrants@iowa.gov.

Please note that you are under no legal obligation to respond to this request for information. The Office permits any affected person or party to submit evidence or information to the Office in support of or in opposition to a challenge within 20 days after the challenge has been posted to ocio.iowa.gov/broadband. However, this Office is affirmatively reaching out to notify you of the challenge, of the circumstances surrounding the challenge, and to solicit your feedback and position. If this Office does not receive your response via Exhibit A of the Form by **October 24, 2022 at 5:00 CDT**, the Office will make a final decision based on the evidence and information currently available to it.

Sincerely,

Office of the Chief Information Officer
State of Iowa

To whom it may concern:

This is a letter of inquiry concerning your organization's prior reporting to the State of Iowa Office of the Chief Information Officer ("OCIO" or "Office") regarding the availability of Broadband service at certain address location(s). Our Office received a timely-filed Challenge Form challenging information reported on the Broadband Availability Map Version 5 ("V5") of the Statewide Broadband Availability Map ("Map"). The data reflected on V5 of the Map was either: (1) provided by you to the Office's contractor, Connected Nation, during the data collection window of November 1, 2021 through February 11, 2022; (2) gathered from other sources (such as FCC) that collected data from you; or (3) carried forward from prior reporting made to this Office by you under a previous Map version.

Map V5 identifies where Broadband service was offered or facilitated at speeds greater than 25/3 as of August 2, 2022. The Map also reflects a preliminary determination of 'likely eligible' or 'likely ineligible' based on speed, technology type, and previous incentives and is a prospective estimate of potential eligibility under various federal programs. The publication of the Map on August 2, 2022 triggered a formal 30-day challenge window during which time we received challenges citing or implicating your service. The challenge(s) we received claims that the data reflected on V5 of the Map is inaccurate. All timely-filed challenges can be found at https://ocio.iowa.gov/broadband-availability-map-version-5-challenge-process. **To resolve this matter, the Office requests that your organization provide information concerning your service at the affected address locations as further identified and described below by October 24, 2022 at 5:00 CDT.**

Map V5 is designed to facilitate decisions concerning future spending under federally-funded broadband programs. Because Map V5 does not use the tiered structure envisioned by Iowa Code chapter 8B and because future federally-funded grant opportunities made available by the Office in accordance with Map V5 will not conform to Iowa Code chapter 8B, the map challenge process outlined in Iowa Code section 8B.10 does not apply. Similarly, within 30 days after the Office's official publication of the Map, the Office permitted any person or party aggrieved or adversely affected by such determination to challenge the office's finding by submitting a challenge form along with all evidence or information supporting the challenge. The

proffered bases for challenge largely mirror those offered by the FCC in their Broadband Data Collection efforts.

V5 of the Map currently shows that service offered at a particular address location renders that address location either likely eligible or likely ineligible for future federal grant funding. As part of the above-outlined process, OCIO received a formal challenge and supporting evidence from one or more Iowa residents or Communications Service Provider(s), claiming that service your organization reports is insufficient to warrant the likely ineligible status of a particular address location.

At this time, the Office requests your assistance in making an accurate determination as to whether your organization in fact offers the speeds reported at each challenged address location as of August 2, 2022. To that end, the Office requests that you:

1) Complete and return the attached Challenge Notice Form (see Exhibit A, Affirmation tab), by **October 24, 2022 at 5:00 CDT**. Pursuant to this form, OCIO requests that a representative with legal authority to bind your organization:
    a) Confirm that the speeds reported at the challenged address locations are correct as of August 2, 2022.
    b) Fully complete all other aspects of the Form.

2) In addition to the form, please also submit any other evidence or information in your possession to the Office that supports your prior representations to the Office regarding the address locations identified in Exhibit A. Examples of evidence and information the Office would consider particularly probative include: Bills or invoices provided to or received by customers at the applicable address location which identify the specific download and upload speeds provided or received as of August 2, 2022.

Please return the completed form and supporting evidence or information to ociogrants@iowa.gov.

Please note that you are under no legal obligation to respond to this request for information. The Office permits any affected person or party to submit evidence or information to the Office in support of or in opposition to a challenge within 20 days after the challenge has been posted to ocio.iowa.gov/broadband. However, this Office is affirmatively reaching out to notify you of the challenge, of the circumstances surrounding the challenge, and to solicit your feedback and position. If this Office does not receive your response via Exhibit A of the Form by **October 24, 2022 at 5:00 CDT**, the Office will make a final decision based on the evidence and information currently available to it.

Sincerely,

Office of the Chief Information Officer

To whom it may concern:

This is a letter of inquiry concerning your organization's prior reporting to the State of Iowa Office of the Chief Information Officer ("OCIO" or "Office") regarding the availability of Broadband service at certain address location(s). Our Office received a timely-filed Challenge Form challenging information reported on the Broadband Availability Map Version 5 ("V5") of the Statewide Broadband Availability Map ("Map"). The data reflected on V5 of the Map was either: (1) provided by you to the Office's contractor, Connected Nation, during the data collection window of November 1, 2021 through February 11, 2022; (2) gathered from other sources (such as FCC) that collected data from you; or (3) carried forward from prior reporting made to this Office by you under a previous Map version.

Map V5 identifies where Broadband service was offered or facilitated at speeds greater than 25/3 as of August 2, 2022. The Map also reflects a preliminary determination of 'likely eligible' or 'likely ineligible' based on speed, technology type, and previous incentives and is a prospective estimate of potential eligibility under various federal programs. The publication of the Map on August 2, 2022 triggered a formal 30-day challenge window during which time we received challenges citing or implicating your service. The challenge(s) we received claims that the data reflected on V5 of the Map is inaccurate. All timely-filed challenges can be found at https://ocio.iowa.gov/broadband-availability-map-version-5-challenge-process. **To resolve this matter, the Office requests that your organization provide information concerning your service at the affected address locations as further identified and described below by October 24, 2022 at 5:00 CDT.**

Map V5 is designed to facilitate decisions concerning future spending under federally-funded broadband programs. Because Map V5 does not use the tiered structure envisioned by Iowa Code chapter 8B and because future federally-funded grant opportunities made available by the Office in accordance with Map V5 will not conform to Iowa Code chapter 8B, the map challenge process outlined in Iowa Code section 8B.10 does not apply. Similarly, within 30 days after the Office's official publication of the Map, the Office permitted any person or party aggrieved or adversely affected by such determination to challenge the office's finding by submitting a challenge form along with all evidence or information supporting the challenge. The

proffered bases for challenge largely mirror those offered by the FCC in their Broadband Data Collection efforts.

V5 of the Map currently shows that service offered at a particular address location renders that address location either likely eligible or likely ineligible for future federal grant funding. As part of the above-outlined process, OCIO received a formal challenge and supporting evidence from one or more Iowa residents or Communications Service Provider(s), claiming that service your organization reports is insufficient to warrant the likely ineligible status of a particular address location.

At this time, the Office requests your assistance in making an accurate determination as to whether your organization in fact offers the speeds reported at each challenged address location as of August 2, 2022. To that end, the Office requests that you:

1) Complete and return the attached Challenge Notice Form (see Exhibit A, Affirmation tab), by **October 24, 2022 at 5:00 CDT**. Pursuant to this form, OCIO requests that a representative with legal authority to bind your organization:
    a) Confirm that the speeds reported at the challenged address locations are correct as of August 2, 2022.
    b) Fully complete all other aspects of the Form.

2) In addition to the form, please also submit any other evidence or information in your possession to the Office that supports your prior representations to the Office regarding the address locations identified in Exhibit A. Examples of evidence and information the Office would consider particularly probative include: Bills or invoices provided to or received by customers at the applicable address location which identify the specific download and upload speeds provided or received as of August 2, 2022.

Please return the completed form and supporting evidence or information to ociogrants@iowa.gov.

Please note that you are under no legal obligation to respond to this request for information. The Office permits any affected person or party to submit evidence or information to the Office in support of or in opposition to a challenge within 20 days after the challenge has been posted to ocio.iowa.gov/broadband. However, this Office is affirmatively reaching out to notify you of the challenge, of the circumstances surrounding the challenge, and to solicit your feedback and position. If this Office does not receive your response via Exhibit A of the Form by **October 24, 2022 at 5:00 CDT**, the Office will make a final decision based on the evidence and information currently available to it.

Sincerely,

Office of the Chief Information Officer
State of Iowa

Challenger Docket Nos.	IA Location ID	Street Address	City	State	ZIP Code	Technology Type	Download Speed	Upload Speed	Evidence page number
270R	518792	3662 GARBER AVENUE	LAKE CITY	IA	51449	Fixed Wireless	100	20	1
098R	498830	2327 550TH STREET	AURELIA	IA	51005	Fixed Wireless	100	20	1
265R	522257	1306 150TH STREET	LU VERNE	IA	50560	Fixed Wireless	100	20	1

1. 270R at 3662 Garber Avenue, Lake City, IA 51449 is Cambium Medusa on licensed CBRS. They are currently paying for the base plan. They have more options available to them if they choose. Our Cambium Medusa is capable of 100 meg. Speed tests are showing results of the plan they have chosen and shown in the billing records attached.

   Interesting that we show they submitted an app for service on 08-26-2022. Was this our customer at the time of the submission? It doesn't appear so and we are not listed as the current provider on the survey dat on the OCIO website that we can see.

2. 265R at 1306 150th Street, LuVerne, IA 50560 is also paying for the base rate. Below we can see their locaiton attainable rates available at 100+. The survey speed test reports what their plan is currently and they stated it is different than the map which makes sense as the map is showing highest advertised speeds.

3. 
4. 098R locaiton address 2327 550th Str, Aureila, IA 51005 does not show as our subsciber however is less than one mile from our tower and 50/100 meg plan options.

We can only assume the customers are not aware of their upgrade options as we can see their usage is peaking at the plan set speeds.

Thank you,

Chase Cox

Nuvera
Monty Morrow
montymorrow@nuvera.net
Sent via email only

To whom it may concern:

This is a letter of inquiry concerning your organization's prior reporting to the State of Iowa Office of the Chief Information Officer ("OCIO" or "Office") regarding the availability of Broadband service at certain address location(s). Our Office received a timely-filed Challenge Form challenging information reported on the Broadband Availability Map Version 5 ("V5") of the Statewide Broadband Availability Map ("Map"). The data reflected on V5 of the Map was either: (1) provided by you to the Office's contractor, Connected Nation, during the data collection window of November 1, 2021 through February 11, 2022; (2) gathered from other sources (such as FCC) that collected data from you; or (3) carried forward from prior reporting made to this Office by you under a previous Map version.

Map V5 identifies where Broadband service was offered or facilitated at speeds greater than 25/3 as of August 2, 2022. The Map also reflects a preliminary determination of 'likely eligible' or 'likely ineligible' based on speed, technology type, and previous incentives and is a prospective estimate of potential eligibility under various federal programs. The publication of the Map on August 2, 2022 triggered a formal 30-day challenge window during which time we received challenges citing or implicating your service. The challenge(s) we received claims that the data reflected on V5 of the Map is inaccurate. All timely-filed challenges can be found at https://ocio.iowa.gov/broadband-availability-map-version-5-challenge-process. **To resolve this matter, the Office requests that your organization provide information concerning your service at the affected address locations as further identified and described below by October 24, 2022 at 5:00 CDT.**

Map V5 is designed to facilitate decisions concerning future spending under federally-funded broadband programs. Because Map V5 does not use the tiered structure envisioned by Iowa Code chapter 8B and because future federally-funded grant opportunities made available by the Office in accordance with Map V5 will not conform to Iowa Code chapter 8B, the map challenge process outlined in Iowa Code section 8B.10 does not apply. Similarly, within 30 days after the Office's official publication of the Map, the Office permitted any person or party aggrieved or adversely affected by such determination to challenge the office's finding by submitting a challenge form along with all evidence or information supporting the challenge. The

proffered bases for challenge largely mirror those offered by the FCC in their Broadband Data Collection efforts.

V5 of the Map currently shows that service offered at a particular address location renders that address location either likely eligible or likely ineligible for future federal grant funding. As part of the above-outlined process, OCIO received a formal challenge and supporting evidence from one or more Iowa residents or Communications Service Provider(s), claiming that service your organization reports is insufficient to warrant the likely ineligible status of a particular address location.

At this time, the Office requests your assistance in making an accurate determination as to whether your organization in fact offers the speeds reported at each challenged address location as of August 2, 2022. To that end, the Office requests that you:

1) Complete and return the attached Challenge Notice Form (see Exhibit A, Affirmation tab), by **October 24, 2022 at 5:00 CDT**. Pursuant to this form, OCIO requests that a representative with legal authority to bind your organization:
    a) Confirm that the speeds reported at the challenged address locations are correct as of August 2, 2022.
    b) Fully complete all other aspects of the Form.

2) In addition to the form, please also submit any other evidence or information in your possession to the Office that supports your prior representations to the Office regarding the address locations identified in Exhibit A. Examples of evidence and information the Office would consider particularly probative include: Bills or invoices provided to or received by customers at the applicable address location which identify the specific download and upload speeds provided or received as of August 2, 2022.

Please return the completed form and supporting evidence or information to ociogrants@iowa.gov.

Please note that you are under no legal obligation to respond to this request for information. The Office permits any affected person or party to submit evidence or information to the Office in support of or in opposition to a challenge within 20 days after the challenge has been posted to ocio.iowa.gov/broadband. However, this Office is affirmatively reaching out to notify you of the challenge, of the circumstances surrounding the challenge, and to solicit your feedback and position. If this Office does not receive your response via Exhibit A of the Form by **October 24, 2022 at 5:00 CDT**, the Office will make a final decision based on the evidence and information currently available to it.

Sincerely,

Office of the Chief Information Officer
State of Iowa

C. EXPLANATION

To the extent you believe additional explanation is required to ensure that you are communicating full and accurate information, you may provide narrative to further rebut this challenge. You may consider uploading evidence to substantiate your claims as an attachment to this Affirmation. An Affirmation submitted without sufficient and probative evidence may be inadequate to overcome a challenge.

Regarding Docet 098R: Nuvera per attached for residence located at 23227 55th St, Aurelia Nuvera performed a speed capability test and has a max bandwidth of 20/1 over a single loop. We also investigated a pair bonding option hoping to increase speed and found no additional pairs available at this address and are unable to increase speed at this time via copper DSL. See attached.

By signing and submitting this form, the authorized representative attests that to the best of the authorized representatives knowledge and belief, the information submitted through this challenge form is true and accurate, and the form is signed under the pains and penalties of perjury. By typing your name, you are affixing your signature to this form and attesting to the accuracy of the information submitted herein.

To whom it may concern:

This is a letter of inquiry concerning your organization's prior reporting to the State of Iowa Office of the Chief Information Officer ("OCIO" or "Office") regarding the availability of Broadband service at certain address location(s). Our Office received a timely-filed Challenge Form challenging information reported on the Broadband Availability Map Version 5 ("V5") of the Statewide Broadband Availability Map ("Map"). The data reflected on V5 of the Map was either: (1) provided by you to the Office's contractor, Connected Nation, during the data collection window of November 1, 2021 through February 11, 2022; (2) gathered from other sources (such as FCC) that collected data from you; or (3) carried forward from prior reporting made to this Office by you under a previous Map version.

Map V5 identifies where Broadband service was offered or facilitated at speeds greater than 25/3 as of August 2, 2022. The Map also reflects a preliminary determination of 'likely eligible' or 'likely ineligible' based on speed, technology type, and previous incentives and is a prospective estimate of potential eligibility under various federal programs. The publication of the Map on August 2, 2022 triggered a formal 30-day challenge window during which time we received challenges citing or implicating your service. The challenge(s) we received claims that the data reflected on V5 of the Map is inaccurate. All timely-filed challenges can be found at https://ocio.iowa.gov/broadband-availability-map-version-5-challenge-process. **To resolve this matter, the Office requests that your organization provide information concerning your service at the affected address locations as further identified and described below by October 24, 2022 at 5:00 CDT.**

Map V5 is designed to facilitate decisions concerning future spending under federally-funded broadband programs. Because Map V5 does not use the tiered structure envisioned by Iowa Code chapter 8B and because future federally-funded grant opportunities made available by the Office in accordance with Map V5 will not conform to Iowa Code chapter 8B, the map challenge process outlined in Iowa Code section 8B.10 does not apply. Similarly, within 30 days after the Office's official publication of the Map, the Office permitted any person or party aggrieved or adversely affected by such determination to challenge the office's finding by submitting a challenge form along with all evidence or information supporting the challenge. The

proffered bases for challenge largely mirror those offered by the FCC in their Broadband Data Collection efforts.

V5 of the Map currently shows that service offered at a particular address location renders that address location either likely eligible or likely ineligible for future federal grant funding. As part of the above-outlined process, OCIO received a formal challenge and supporting evidence from one or more Iowa residents or Communications Service Provider(s), claiming that service your organization reports is insufficient to warrant the likely ineligible status of a particular address location.

At this time, the Office requests your assistance in making an accurate determination as to whether your organization in fact offers the speeds reported at each challenged address location as of August 2, 2022. To that end, the Office requests that you:

1) Complete and return the attached Challenge Notice Form (see Exhibit A, Affirmation tab), by **October 24, 2022 at 5:00 CDT**. Pursuant to this form, OCIO requests that a representative with legal authority to bind your organization:
    a) Confirm that the speeds reported at the challenged address locations are correct as of August 2, 2022.
    b) Fully complete all other aspects of the Form.

2) In addition to the form, please also submit any other evidence or information in your possession to the Office that supports your prior representations to the Office regarding the address locations identified in Exhibit A. Examples of evidence and information the Office would consider particularly probative include: Bills or invoices provided to or received by customers at the applicable address location which identify the specific download and upload speeds provided or received as of August 2, 2022.

Please return the completed form and supporting evidence or information to ociogrants@iowa.gov.

Please note that you are under no legal obligation to respond to this request for information. The Office permits any affected person or party to submit evidence or information to the Office in support of or in opposition to a challenge within 20 days after the challenge has been posted to ocio.iowa.gov/broadband. However, this Office is affirmatively reaching out to notify you of the challenge, of the circumstances surrounding the challenge, and to solicit your feedback and position. If this Office does not receive your response via Exhibit A of the Form by **October 24, 2022 at 5:00 CDT**, the Office will make a final decision based on the evidence and information currently available to it.

Sincerely,

Office of the Chief Information Officer
State of Iowa

To whom it may concern:

This is a letter of inquiry concerning your organization's prior reporting to the State of Iowa Office of the Chief Information Officer ("OCIO" or "Office") regarding the availability of Broadband service at certain address location(s). Our Office received a timely-filed Challenge Form challenging information reported on the Broadband Availability Map Version 5 ("V5") of the Statewide Broadband Availability Map ("Map"). The data reflected on V5 of the Map was either: (1) provided by you to the Office's contractor, Connected Nation, during the data collection window of November 1, 2021 through February 11, 2022; (2) gathered from other sources (such as FCC) that collected data from you; or (3) carried forward from prior reporting made to this Office by you under a previous Map version.

Map V5 identifies where Broadband service was offered or facilitated at speeds greater than 25/3 as of August 2, 2022. The Map also reflects a preliminary determination of 'likely eligible' or 'likely ineligible' based on speed, technology type, and previous incentives and is a prospective estimate of potential eligibility under various federal programs. The publication of the Map on August 2, 2022 triggered a formal 30-day challenge window during which time we received challenges citing or implicating your service. The challenge(s) we received claims that the data reflected on V5 of the Map is inaccurate. All timely-filed challenges can be found at https://ocio.iowa.gov/broadband-availability-map-version-5-challenge-process. **To resolve this matter, the Office requests that your organization provide information concerning your service at the affected address locations as further identified and described below by October 24, 2022 at 5:00 CDT.**

Map V5 is designed to facilitate decisions concerning future spending under federally-funded broadband programs. Because Map V5 does not use the tiered structure envisioned by Iowa Code chapter 8B and because future federally-funded grant opportunities made available by the Office in accordance with Map V5 will not conform to Iowa Code chapter 8B, the map challenge process outlined in Iowa Code section 8B.10 does not apply. Similarly, within 30 days after the Office's official publication of the Map, the Office permitted any person or party aggrieved or adversely affected by such determination to challenge the office's finding by submitting a challenge form along with all evidence or information supporting the challenge. The

proffered bases for challenge largely mirror those offered by the FCC in their Broadband Data Collection efforts.

V5 of the Map currently shows that service offered at a particular address location renders that address location either likely eligible or likely ineligible for future federal grant funding. As part of the above-outlined process, OCIO received a formal challenge and supporting evidence from one or more Iowa residents or Communications Service Provider(s), claiming that service your organization reports is insufficient to warrant the likely ineligible status of a particular address location.

At this time, the Office requests your assistance in making an accurate determination as to whether your organization in fact offers the speeds reported at each challenged address location as of August 2, 2022. To that end, the Office requests that you:

1) Complete and return the attached Challenge Notice Form (see Exhibit A, Affirmation tab), by **October 24, 2022 at 5:00 CDT**. Pursuant to this form, OCIO requests that a representative with legal authority to bind your organization:
    a) Confirm that the speeds reported at the challenged address locations are correct as of August 2, 2022.
    b) Fully complete all other aspects of the Form.

2) In addition to the form, please also submit any other evidence or information in your possession to the Office that supports your prior representations to the Office regarding the address locations identified in Exhibit A. Examples of evidence and information the Office would consider particularly probative include: Bills or invoices provided to or received by customers at the applicable address location which identify the specific download and upload speeds provided or received as of August 2, 2022.

Please return the completed form and supporting evidence or information to ociogrants@iowa.gov.

Please note that you are under no legal obligation to respond to this request for information. The Office permits any affected person or party to submit evidence or information to the Office in support of or in opposition to a challenge within 20 days after the challenge has been posted to ocio.iowa.gov/broadband. However, this Office is affirmatively reaching out to notify you of the challenge, of the circumstances surrounding the challenge, and to solicit your feedback and position. If this Office does not receive your response via Exhibit A of the Form by **October 24, 2022 at 5:00 CDT**, the Office will make a final decision based on the evidence and information currently available to it.

Sincerely,

Office of the Chief Information Officer
State of Iowa

To whom it may concern:

This is a letter of inquiry concerning your organization's prior reporting to the State of Iowa Office of the Chief Information Officer ("OCIO" or "Office") regarding the availability of Broadband service at certain address location(s). Our Office received a timely-filed Challenge Form challenging information reported on the Broadband Availability Map Version 5 ("V5") of the Statewide Broadband Availability Map ("Map"). The data reflected on V5 of the Map was either: (1) provided by you to the Office's contractor, Connected Nation, during the data collection window of November 1, 2021 through February 11, 2022; (2) gathered from other sources (such as FCC) that collected data from you; or (3) carried forward from prior reporting made to this Office by you under a previous Map version.

Map V5 identifies where Broadband service was offered or facilitated at speeds greater than 25/3 as of August 2, 2022. The Map also reflects a preliminary determination of 'likely eligible' or 'likely ineligible' based on speed, technology type, and previous incentives and is a prospective estimate of potential eligibility under various federal programs. The publication of the Map on August 2, 2022 triggered a formal 30-day challenge window during which time we received challenges citing or implicating your service. The challenge(s) we received claims that the data reflected on V5 of the Map is inaccurate. All timely-filed challenges can be found at https://ocio.iowa.gov/broadband-availability-map-version-5-challenge-process. **To resolve this matter, the Office requests that your organization provide information concerning your service at the affected address locations as further identified and described below by October 24, 2022 at 5:00 CDT.**

Map V5 is designed to facilitate decisions concerning future spending under federally-funded broadband programs. Because Map V5 does not use the tiered structure envisioned by Iowa Code chapter 8B and because future federally-funded grant opportunities made available by the Office in accordance with Map V5 will not conform to Iowa Code chapter 8B, the map challenge process outlined in Iowa Code section 8B.10 does not apply. Similarly, within 30 days after the Office's official publication of the Map, the Office permitted any person or party aggrieved or adversely affected by such determination to challenge the office's finding by submitting a challenge form along with all evidence or information supporting the challenge. The

proffered bases for challenge largely mirror those offered by the FCC in their Broadband Data Collection efforts.

V5 of the Map currently shows that service offered at a particular address location renders that address location either likely eligible or likely ineligible for future federal grant funding. As part of the above-outlined process, OCIO received a formal challenge and supporting evidence from one or more Iowa residents or Communications Service Provider(s), claiming that service your organization reports is insufficient to warrant the likely ineligible status of a particular address location.

At this time, the Office requests your assistance in making an accurate determination as to whether your organization in fact offers the speeds reported at each challenged address location as of August 2, 2022. To that end, the Office requests that you:

1) Complete and return the attached Challenge Notice Form (see Exhibit A, Affirmation tab), by **October 24, 2022 at 5:00 CDT**. Pursuant to this form, OCIO requests that a representative with legal authority to bind your organization:
    a) Confirm that the speeds reported at the challenged address locations are correct as of August 2, 2022.
    b) Fully complete all other aspects of the Form.

2) In addition to the form, please also submit any other evidence or information in your possession to the Office that supports your prior representations to the Office regarding the address locations identified in Exhibit A. Examples of evidence and information the Office would consider particularly probative include: Bills or invoices provided to or received by customers at the applicable address location which identify the specific download and upload speeds provided or received as of August 2, 2022.

Please return the completed form and supporting evidence or information to ociogrants@iowa.gov.

Please note that you are under no legal obligation to respond to this request for information. The Office permits any affected person or party to submit evidence or information to the Office in support of or in opposition to a challenge within 20 days after the challenge has been posted to ocio.iowa.gov/broadband. However, this Office is affirmatively reaching out to notify you of the challenge, of the circumstances surrounding the challenge, and to solicit your feedback and position. If this Office does not receive your response via Exhibit A of the Form by **October 24, 2022 at 5:00 CDT**, the Office will make a final decision based on the evidence and information currently available to it.

Sincerely,

Office of the Chief Information Officer
State of Iowa

To whom it may concern:

This is a letter of inquiry concerning your organization's prior reporting to the State of Iowa Office of the Chief Information Officer ("OCIO" or "Office") regarding the availability of Broadband service at certain address location(s). Our Office received a timely-filed Challenge Form challenging information reported on the Broadband Availability Map Version 5 ("V5") of the Statewide Broadband Availability Map ("Map"). The data reflected on V5 of the Map was either: (1) provided by you to the Office's contractor, Connected Nation, during the data collection window of November 1, 2021 through February 11, 2022; (2) gathered from other sources (such as FCC) that collected data from you; or (3) carried forward from prior reporting made to this Office by you under a previous Map version.

Map V5 identifies where Broadband service was offered or facilitated at speeds greater than 25/3 as of August 2, 2022. The Map also reflects a preliminary determination of 'likely eligible' or 'likely ineligible' based on speed, technology type, and previous incentives and is a prospective estimate of potential eligibility under various federal programs. The publication of the Map on August 2, 2022 triggered a formal 30-day challenge window during which time we received challenges citing or implicating your service. The challenge(s) we received claims that the data reflected on V5 of the Map is inaccurate. All timely-filed challenges can be found at https://ocio.iowa.gov/broadband-availability-map-version-5-challenge-process. **To resolve this matter, the Office requests that your organization provide information concerning your service at the affected address locations as further identified and described below by November 26, 2022 at 11:59 p.m. CST.**

Map V5 is designed to facilitate decisions concerning future spending under federally-funded broadband programs. Because Map V5 does not use the tiered structure envisioned by Iowa Code chapter 8B and because future federally-funded grant opportunities made available by the Office in accordance with Map V5 will not conform to Iowa Code chapter 8B, the map challenge process outlined in Iowa Code section 8B.10 does not apply. Similarly, within 30 days after the Office's official publication of the Map, the Office permitted any person or party aggrieved or adversely affected by such determination to challenge the office's finding by submitting a challenge form along with all evidence or information supporting the

challenge. The proffered bases for challenge largely mirror those offered by the FCC in their Broadband Data Collection efforts.

V5 of the Map currently shows that service offered at a particular address location renders that address location either likely eligible or likely ineligible for future federal grant funding. As part of the above-outlined process, OCIO received a formal challenge and supporting evidence from one or more Iowa residents or Communications Service Provider(s), claiming that service your organization reports is insufficient to warrant the likely ineligible status of a particular address location.

At this time, the Office requests your assistance in making an accurate determination as to whether your organization in fact offers the speeds reported at each challenged address location as of August 2, 2022. To that end, the Office requests that you:

1) Complete and return the attached Challenge Notice Form (see Exhibit A, Affirmation tab), by **November 26, 2022 at 11:59 p.m. CST**. Pursuant to this form, OCIO requests that a representative with legal authority to bind your organization:

   a) Confirm that the speeds reported at the challenged address locations are correct as of August 2, 2022.

   b) Fully complete all other aspects of the Form.

2) In addition to the form, please also submit any other evidence or information in your possession to the Office that supports your prior representations to the Office regarding the address locations identified in Exhibit A. Examples of evidence and information the Office would consider particularly probative include: Bills or invoices provided to or received by customers at the applicable address location which identify the specific download and upload speeds provided or received as of August 2, 2022.

Please return the completed form and supporting evidence or information to ociogrants@iowa.gov.

Please note that you are under no legal obligation to respond to this request for information. The Office permits any affected person or party to submit evidence or information to the Office in support of or in opposition to a challenge within 20 days after the challenge has been posted to ocio.iowa.gov/broadband. However, this Office is affirmatively reaching out to notify you of the challenge, of the circumstances surrounding the challenge, and to solicit your feedback and position. If this Office does not receive your response via Exhibit A of the Form by **November 26, 2022 at 11:59 p.m. CST**, the Office will make a final decision based on the evidence and information currently available to it.

Sincerely,

Office of the Chief Information Officer
State of Iowa

To whom it may concern:

This is a letter of inquiry concerning your organization's prior reporting to the State of Iowa Office of the Chief Information Officer ("OCIO" or "Office") regarding the availability of Broadband service at certain address location(s). Our Office received a timely-filed Challenge Form challenging information reported on the Broadband Availability Map Version 5 ("V5") of the Statewide Broadband Availability Map ("Map"). The data reflected on V5 of the Map was either: (1) provided by you to the Office's contractor, Connected Nation, during the data collection window of November 1, 2021 through February 11, 2022; (2) gathered from other sources (such as FCC) that collected data from you; or (3) carried forward from prior reporting made to this Office by you under a previous Map version.

Map V5 identifies where Broadband service was offered or facilitated at speeds greater than 25/3 as of August 2, 2022. The Map also reflects a preliminary determination of 'likely eligible' or 'likely ineligible' based on speed, technology type, and previous incentives and is a prospective estimate of potential eligibility under various federal programs. The publication of the Map on August 2, 2022 triggered a formal 30-day challenge window during which time we received challenges citing or implicating your service. The challenge(s) we received claims that the data reflected on V5 of the Map is inaccurate. All timely-filed challenges can be found at https://ocio.iowa.gov/broadband-availability-map-version-5-challenge-process. **To resolve this matter, the Office requests that your organization provide information concerning your service at the affected address locations as further identified and described below by November 26, 2022 at 11:59 p.m. CST.**

Map V5 is designed to facilitate decisions concerning future spending under federally-funded broadband programs. Because Map V5 does not use the tiered structure envisioned by Iowa Code chapter 8B and because future federally-funded grant opportunities made available by the Office in accordance with Map V5 will not conform to Iowa Code chapter 8B, the map challenge process outlined in Iowa Code section 8B.10 does not apply. Similarly, within 30 days after the Office's official publication of the Map, the Office permitted any person or party aggrieved or adversely affected by such determination to challenge the office's finding by submitting a challenge form along with all evidence or information supporting the

challenge. The proffered bases for challenge largely mirror those offered by the FCC in their Broadband Data Collection efforts.

V5 of the Map currently shows that service offered at a particular address location renders that address location either likely eligible or likely ineligible for future federal grant funding. As part of the above-outlined process, OCIO received a formal challenge and supporting evidence from one or more Iowa residents or Communications Service Provider(s), claiming that service your organization reports is insufficient to warrant the likely ineligible status of a particular address location.

At this time, the Office requests your assistance in making an accurate determination as to whether your organization in fact offers the speeds reported at each challenged address location as of August 2, 2022. To that end, the Office requests that you:

1) Complete and return the attached Challenge Notice Form (see Exhibit A, Affirmation tab), by **November 26, 2022 at 11:59 p.m. CST**. Pursuant to this form, OCIO requests that a representative with legal authority to bind your organization:
   a) Confirm that the speeds reported at the challenged address locations are correct as of August 2, 2022.
   b) Fully complete all other aspects of the Form.

2) In addition to the form, please also submit any other evidence or information in your possession to the Office that supports your prior representations to the Office regarding the address locations identified in Exhibit A. Examples of evidence and information the Office would consider particularly probative include: Bills or invoices provided to or received by customers at the applicable address location which identify the specific download and upload speeds provided or received as of August 2, 2022.

Please return the completed form and supporting evidence or information to ociogrants@iowa.gov.

Please note that you are under no legal obligation to respond to this request for information. The Office permits any affected person or party to submit evidence or information to the Office in support of or in opposition to a challenge within 20 days after the challenge has been posted to ocio.iowa.gov/broadband. However, this Office is affirmatively reaching out to notify you of the challenge, of the circumstances surrounding the challenge, and to solicit your feedback and position. If this Office does not receive your response via Exhibit A of the Form by **November 26, 2022 at 11:59 p.m. CST**, the Office will make a final decision based on the evidence and information currently available to it.

To whom it may concern:

This is a letter of inquiry concerning your organization's prior reporting to the State of Iowa Office of the Chief Information Officer ("OCIO" or "Office") regarding the availability of Broadband service at certain address location(s). Our Office received a timely-filed Challenge Form challenging information reported on the Broadband Availability Map Version 5 ("V5") of the Statewide Broadband Availability Map ("Map"). The data reflected on V5 of the Map was either: (1) provided by you to the Office's contractor, Connected Nation, during the data collection window of November 1, 2021 through February 11, 2022; (2) gathered from other sources (such as FCC) that collected data from you; or (3) carried forward from prior reporting made to this Office by you under a previous Map version.

Map V5 identifies where Broadband service was offered or facilitated at speeds greater than 25/3 as of August 2, 2022. The Map also reflects a preliminary determination of 'likely eligible' or 'likely ineligible' based on speed, technology type, and previous incentives and is a prospective estimate of potential eligibility under various federal programs. The publication of the Map on August 2, 2022 triggered a formal 30-day challenge window during which time we received challenges citing or implicating your service. The challenge(s) we received claims that the data reflected on V5 of the Map is inaccurate. All timely-filed challenges can be found at https://ocio.iowa.gov/broadband-availability-map-version-5-challenge-process. **To resolve this matter, the Office requests that your organization provide information concerning your service at the affected address locations as further identified and described below by October 24, 2022 at 5:00 CDT.**

Map V5 is designed to facilitate decisions concerning future spending under federally-funded broadband programs. Because Map V5 does not use the tiered structure envisioned by Iowa Code chapter 8B and because future federally-funded grant opportunities made available by the Office in accordance with Map V5 will not conform to Iowa Code chapter 8B, the map challenge process outlined in Iowa Code section 8B.10 does not apply. Similarly, within 30 days after the Office's official publication of the Map, the Office permitted any person or party aggrieved or adversely affected by such determination to challenge the office's finding by submitting a challenge form along with all evidence or information supporting the challenge. The

proffered bases for challenge largely mirror those offered by the FCC in their Broadband Data Collection efforts.

V5 of the Map currently shows that service offered at a particular address location renders that address location either likely eligible or likely ineligible for future federal grant funding. As part of the above-outlined process, OCIO received a formal challenge and supporting evidence from one or more Iowa residents or Communications Service Provider(s), claiming that service your organization reports is insufficient to warrant the likely ineligible status of a particular address location.

At this time, the Office requests your assistance in making an accurate determination as to whether your organization in fact offers the speeds reported at each challenged address location as of August 2, 2022. To that end, the Office requests that you:

1) Complete and return the attached Challenge Notice Form (see Exhibit A, Affirmation tab), by **October 24, 2022 at 5:00 CDT**. Pursuant to this form, OCIO requests that a representative with legal authority to bind your organization:
    a) Confirm that the speeds reported at the challenged address locations are correct as of August 2, 2022.
    b) Fully complete all other aspects of the Form.

2) In addition to the form, please also submit any other evidence or information in your possession to the Office that supports your prior representations to the Office regarding the address locations identified in Exhibit A. Examples of evidence and information the Office would consider particularly probative include: Bills or invoices provided to or received by customers at the applicable address location which identify the specific download and upload speeds provided or received as of August 2, 2022.

Please return the completed form and supporting evidence or information to ociogrants@iowa.gov.

Please note that you are under no legal obligation to respond to this request for information. The Office permits any affected person or party to submit evidence or information to the Office in support of or in opposition to a challenge within 20 days after the challenge has been posted to ocio.iowa.gov/broadband. However, this Office is affirmatively reaching out to notify you of the challenge, of the circumstances surrounding the challenge, and to solicit your feedback and position. If this Office does not receive your response via Exhibit A of the Form by **October 24, 2022 at 5:00 CDT**, the Office will make a final decision based on the evidence and information currently available to it.

Sincerely,

Office of the Chief Information Officer
State of Iowa

C. EXPLANATION

To the extent you believe additional explanation is required to ensure that you are communicating full and accurate information, you may provide narrative to further rebut this challenge. You may consider uploading evidence to substantiate your claims as an attachment to this Affirmation. An Affirmation submitted without sufficient and probative evidence may be inadequate to overcome a challenge.

The location in question is served by our DSL network supporting 20/1 and not meeting the 25/3 threshold. Fiber access is avaialble in this area but not to this current address. We will correct this on our maps moving forward and will update them once fiber has been made available to this address.

D. AFFIRMATION

By signing and submitting this form, the authorized representative attests that to the best of the authorized representatives knowledge and belief, the information submitted through this challenge form is true and accurate, and the form is signed under the pains and penalties of perjury. By typing your name, you are affixing your signature to this form and attesting to the accuracy of the information submitted herein.

The Office did not receive a response to this Notice

To whom it may concern:

This is a letter of inquiry concerning your organization's prior reporting to the State of Iowa Office of the Chief Information Officer ("OCIO" or "Office") regarding the availability of Broadband service at certain address location(s). Our Office received a timely-filed Challenge Form challenging information reported on the Broadband Availability Map Version 5 ("V5") of the Statewide Broadband Availability Map ("Map"). The data reflected on V5 of the Map was either: (1) provided by you to the Office's contractor, Connected Nation, during the data collection window of November 1, 2021 through February 11, 2022; (2) gathered from other sources (such as FCC) that collected data from you; or (3) carried forward from prior reporting made to this Office by you under a previous Map version.

Map V5 identifies where Broadband service was offered or facilitated at speeds greater than 25/3 as of August 2, 2022. The Map also reflects a preliminary determination of 'likely eligible' or 'likely ineligible' based on speed, technology type, and previous incentives and is a prospective estimate of potential eligibility under various federal programs. The publication of the Map on August 2, 2022 triggered a formal 30-day challenge window during which time we received challenges citing or implicating your service. The challenge(s) we received claims that the data reflected on V5 of the Map is inaccurate. All timely-filed challenges can be found at https://ocio.iowa.gov/broadband-availability-map-version-5-challenge-process. **To resolve this matter, the Office requests that your organization provide information concerning your service at the affected address locations as further identified and described below by October 24, 2022 at 5:00 CDT.**

Map V5 is designed to facilitate decisions concerning future spending under federally-funded broadband programs. Because Map V5 does not use the tiered structure envisioned by Iowa Code chapter 8B and because future federally-funded grant opportunities made available by the Office in accordance with Map V5 will not conform to Iowa Code chapter 8B, the map challenge process outlined in Iowa Code section 8B.10 does not apply. Similarly, within 30 days after the Office's official publication of the Map, the Office permitted any person or party aggrieved or adversely affected by such determination to challenge the office's finding by submitting a challenge form along with all evidence or information supporting the challenge. The

proffered bases for challenge largely mirror those offered by the FCC in their Broadband Data Collection efforts.

V5 of the Map currently shows that service offered at a particular address location renders that address location either likely eligible or likely ineligible for future federal grant funding. As part of the above-outlined process, OCIO received a formal challenge and supporting evidence from one or more Iowa residents or Communications Service Provider(s), claiming that service your organization reports is insufficient to warrant the likely ineligible status of a particular address location.

At this time, the Office requests your assistance in making an accurate determination as to whether your organization in fact offers the speeds reported at each challenged address location as of August 2, 2022. To that end, the Office requests that you:

1) Complete and return the attached Challenge Notice Form (see Exhibit A, Affirmation tab), by **October 24, 2022 at 5:00 CDT**. Pursuant to this form, OCIO requests that a representative with legal authority to bind your organization:
    a) Confirm that the speeds reported at the challenged address locations are correct as of August 2, 2022.
    b) Fully complete all other aspects of the Form.

2) In addition to the form, please also submit any other evidence or information in your possession to the Office that supports your prior representations to the Office regarding the address locations identified in Exhibit A. Examples of evidence and information the Office would consider particularly probative include: Bills or invoices provided to or received by customers at the applicable address location which identify the specific download and upload speeds provided or received as of August 2, 2022.

Please return the completed form and supporting evidence or information to ociogrants@iowa.gov.

Please note that you are under no legal obligation to respond to this request for information. The Office permits any affected person or party to submit evidence or information to the Office in support of or in opposition to a challenge within 20 days after the challenge has been posted to ocio.iowa.gov/broadband. However, this Office is affirmatively reaching out to notify you of the challenge, of the circumstances surrounding the challenge, and to solicit your feedback and position. If this Office does not receive your response via Exhibit A of the Form by **October 24, 2022 at 5:00 CDT**, the Office will make a final decision based on the evidence and information currently available to it.

Sincerely,

Office of the Chief Information Officer
State of Iowa

To whom it may concern:

This is a letter of inquiry concerning your organization's prior reporting to the State of Iowa Office of the Chief Information Officer ("OCIO" or "Office") regarding the availability of Broadband service at certain address location(s). Our Office received a timely-filed Challenge Form challenging information reported on the Broadband Availability Map Version 5 ("V5") of the Statewide Broadband Availability Map ("Map"). The data reflected on V5 of the Map was either: (1) provided by you to the Office's contractor, Connected Nation, during the data collection window of November 1, 2021 through February 11, 2022; (2) gathered from other sources (such as FCC) that collected data from you; or (3) carried forward from prior reporting made to this Office by you under a previous Map version.

Map V5 identifies where Broadband service was offered or facilitated at speeds greater than 25/3 as of August 2, 2022. The Map also reflects a preliminary determination of 'likely eligible' or 'likely ineligible' based on speed, technology type, and previous incentives and is a prospective estimate of potential eligibility under various federal programs. The publication of the Map on August 2, 2022 triggered a formal 30-day challenge window during which time we received challenges citing or implicating your service. The challenge(s) we received claims that the data reflected on V5 of the Map is inaccurate. All timely-filed challenges can be found at https://ocio.iowa.gov/broadband-availability-map-version-5-challenge-process. **To resolve this matter, the Office requests that your organization provide information concerning your service at the affected address locations as further identified and described below by November 26, 2022 at 11:59 p.m. CST.**

Map V5 is designed to facilitate decisions concerning future spending under federally-funded broadband programs. Because Map V5 does not use the tiered structure envisioned by Iowa Code chapter 8B and because future federally-funded grant opportunities made available by the Office in accordance with Map V5 will not conform to Iowa Code chapter 8B, the map challenge process outlined in Iowa Code section 8B.10 does not apply. Similarly, within 30 days after the Office's official publication of the Map, the Office permitted any person or party aggrieved or adversely affected by such determination to challenge the office's finding by submitting a challenge form along with all evidence or information supporting the

challenge. The proffered bases for challenge largely mirror those offered by the FCC in their Broadband Data Collection efforts.

V5 of the Map currently shows that service offered at a particular address location renders that address location either likely eligible or likely ineligible for future federal grant funding. As part of the above-outlined process, OCIO received a formal challenge and supporting evidence from one or more Iowa residents or Communications Service Provider(s), claiming that service your organization reports is insufficient to warrant the likely ineligible status of a particular address location.

At this time, the Office requests your assistance in making an accurate determination as to whether your organization in fact offers the speeds reported at each challenged address location as of August 2, 2022. To that end, the Office requests that you:

1) Complete and return the attached Challenge Notice Form (see Exhibit A, Affirmation tab), by **November 26, 2022 at 11:59 p.m. CST**. Pursuant to this form, OCIO requests that a representative with legal authority to bind your organization:
   a) Confirm that the speeds reported at the challenged address locations are correct as of August 2, 2022.
   b) Fully complete all other aspects of the Form.

2) In addition to the form, please also submit any other evidence or information in your possession to the Office that supports your prior representations to the Office regarding the address locations identified in Exhibit A. Examples of evidence and information the Office would consider particularly probative include: Bills or invoices provided to or received by customers at the applicable address location which identify the specific download and upload speeds provided or received as of August 2, 2022.

Please return the completed form and supporting evidence or information to ociogrants@iowa.gov.

Please note that you are under no legal obligation to respond to this request for information. The Office permits any affected person or party to submit evidence or information to the Office in support of or in opposition to a challenge within 20 days after the challenge has been posted to ocio.iowa.gov/broadband. However, this Office is affirmatively reaching out to notify you of the challenge, of the circumstances surrounding the challenge, and to solicit your feedback and position. If this Office does not receive your response via Exhibit A of the Form by **November 26, 2022 at 11:59 p.m. CST**, the Office will make a final decision based on the evidence and information currently available to it.

Sincerely,

Office of the Chief Information Officer

The Office did not receive a response to this Notice

To whom it may concern:

This is a letter of inquiry concerning your organization's prior reporting to the State of Iowa Office of the Chief Information Officer ("OCIO" or "Office") regarding the availability of Broadband service at certain address location(s). Our Office received a timely-filed Challenge Form challenging information reported on the Broadband Availability Map Version 5 ("V5") of the Statewide Broadband Availability Map ("Map"). The data reflected on V5 of the Map was either: (1) provided by you to the Office's contractor, Connected Nation, during the data collection window of November 1, 2021 through February 11, 2022; (2) gathered from other sources (such as FCC) that collected data from you; or (3) carried forward from prior reporting made to this Office by you under a previous Map version.

Map V5 identifies where Broadband service was offered or facilitated at speeds greater than 25/3 as of August 2, 2022. The Map also reflects a preliminary determination of 'likely eligible' or 'likely ineligible' based on speed, technology type, and previous incentives and is a prospective estimate of potential eligibility under various federal programs. The publication of the Map on August 2, 2022 triggered a formal 30-day challenge window during which time we received challenges citing or implicating your service. The challenge(s) we received claims that the data reflected on V5 of the Map is inaccurate. All timely-filed challenges can be found at https://ocio.iowa.gov/broadband-availability-map-version-5-challenge-process. **To resolve this matter, the Office requests that your organization provide information concerning your service at the affected address locations as further identified and described below by October 24, 2022 at 5:00 CDT.**

Map V5 is designed to facilitate decisions concerning future spending under federally-funded broadband programs. Because Map V5 does not use the tiered structure envisioned by Iowa Code chapter 8B and because future federally-funded grant opportunities made available by the Office in accordance with Map V5 will not conform to Iowa Code chapter 8B, the map challenge process outlined in Iowa Code section 8B.10 does not apply. Similarly, within 30 days after the Office's official publication of the Map, the Office permitted any person or party aggrieved or adversely affected by such determination to challenge the office's finding by submitting a challenge form along with all evidence or information supporting the challenge. The

proffered bases for challenge largely mirror those offered by the FCC in their Broadband Data Collection efforts.

V5 of the Map currently shows that service offered at a particular address location renders that address location either likely eligible or likely ineligible for future federal grant funding. As part of the above-outlined process, OCIO received a formal challenge and supporting evidence from one or more Iowa residents or Communications Service Provider(s), claiming that service your organization reports is insufficient to warrant the likely ineligible status of a particular address location.

At this time, the Office requests your assistance in making an accurate determination as to whether your organization in fact offers the speeds reported at each challenged address location as of August 2, 2022. To that end, the Office requests that you:

1) Complete and return the attached Challenge Notice Form (see Exhibit A, Affirmation tab), by **October 24, 2022 at 5:00 CDT**. Pursuant to this form, OCIO requests that a representative with legal authority to bind your organization:
    a) Confirm that the speeds reported at the challenged address locations are correct as of August 2, 2022.
    b) Fully complete all other aspects of the Form.

2) In addition to the form, please also submit any other evidence or information in your possession to the Office that supports your prior representations to the Office regarding the address locations identified in Exhibit A. Examples of evidence and information the Office would consider particularly probative include: Bills or invoices provided to or received by customers at the applicable address location which identify the specific download and upload speeds provided or received as of August 2, 2022.

Please return the completed form and supporting evidence or information to ociogrants@iowa.gov.

Please note that you are under no legal obligation to respond to this request for information. The Office permits any affected person or party to submit evidence or information to the Office in support of or in opposition to a challenge within 20 days after the challenge has been posted to ocio.iowa.gov/broadband. However, this Office is affirmatively reaching out to notify you of the challenge, of the circumstances surrounding the challenge, and to solicit your feedback and position. If this Office does not receive your response via Exhibit A of the Form by **October 24, 2022 at 5:00 CDT**, the Office will make a final decision based on the evidence and information currently available to it.

Sincerely,

Office of the Chief Information Officer
State of Iowa

C. EXPLANATION

To the extent you believe additional explanation is required to ensure that you are communicating full and accurate information, you may provide narrative to further rebut this challenge. You may consider uploading evidence to substantiate your claims as an attachment to this Affirmation. An Affirmation submitted without sufficient and probative evidence may be inadequate to overcome a challenge.

D. AFFIRMATION

By signing and submitting this form, the authorized representative attests that to the best of the authorized representatives knowledge and belief, the information submitted through this challenge form is true and accurate, and the form is signed under the pains and penalties of perjury. By typing your name, you are affixing your signature to this form and attesting to the accuracy of the information submitted herein.

To whom it may concern:

This is a letter of inquiry concerning your organization's prior reporting to the State of Iowa Office of the Chief Information Officer ("OCIO" or "Office") regarding the availability of Broadband service at certain address location(s). Our Office received a timely-filed Challenge Form challenging information reported on the Broadband Availability Map Version 5 ("V5") of the Statewide Broadband Availability Map ("Map"). The data reflected on V5 of the Map was either: (1) provided by you to the Office's contractor, Connected Nation, during the data collection window of November 1, 2021 through February 11, 2022; (2) gathered from other sources (such as FCC) that collected data from you; or (3) carried forward from prior reporting made to this Office by you under a previous Map version.

Map V5 identifies where Broadband service was offered or facilitated at speeds greater than 25/3 as of August 2, 2022. The Map also reflects a preliminary determination of 'likely eligible' or 'likely ineligible' based on speed, technology type, and previous incentives and is a prospective estimate of potential eligibility under various federal programs. The publication of the Map on August 2, 2022 triggered a formal 30-day challenge window during which time we received challenges citing or implicating your service. The challenge(s) we received claims that the data reflected on V5 of the Map is inaccurate. All timely-filed challenges can be found at https://ocio.iowa.gov/broadband-availability-map-version-5-challenge-process. **To resolve this matter, the Office requests that your organization provide information concerning your service at the affected address locations as further identified and described below by November 26, 2022 at 11:59 p.m. CST.**

Map V5 is designed to facilitate decisions concerning future spending under federally-funded broadband programs. Because Map V5 does not use the tiered structure envisioned by Iowa Code chapter 8B and because future federally-funded grant opportunities made available by the Office in accordance with Map V5 will not conform to Iowa Code chapter 8B, the map challenge process outlined in Iowa Code section 8B.10 does not apply. Similarly, within 30 days after the Office's official publication of the Map, the Office permitted any person or party aggrieved or adversely affected by such determination to challenge the office's finding by submitting a challenge form along with all evidence or information supporting the

challenge. The proffered bases for challenge largely mirror those offered by the FCC in their Broadband Data Collection efforts.

V5 of the Map currently shows that service offered at a particular address location renders that address location either likely eligible or likely ineligible for future federal grant funding. As part of the above-outlined process, OCIO received a formal challenge and supporting evidence from one or more Iowa residents or Communications Service Provider(s), claiming that service your organization reports is insufficient to warrant the likely ineligible status of a particular address location.

At this time, the Office requests your assistance in making an accurate determination as to whether your organization in fact offers the speeds reported at each challenged address location as of August 2, 2022. To that end, the Office requests that you:

1) Complete and return the attached Challenge Notice Form (see Exhibit A, Affirmation tab), by **November 26, 2022 at 11:59 p.m. CST**. Pursuant to this form, OCIO requests that a representative with legal authority to bind your organization:
   a) Confirm that the speeds reported at the challenged address locations are correct as of August 2, 2022.
   b) Fully complete all other aspects of the Form.

2) In addition to the form, please also submit any other evidence or information in your possession to the Office that supports your prior representations to the Office regarding the address locations identified in Exhibit A. Examples of evidence and information the Office would consider particularly probative include: Bills or invoices provided to or received by customers at the applicable address location which identify the specific download and upload speeds provided or received as of August 2, 2022.

Please return the completed form and supporting evidence or information to ociogrants@iowa.gov.

Please note that you are under no legal obligation to respond to this request for information. The Office permits any affected person or party to submit evidence or information to the Office in support of or in opposition to a challenge within 20 days after the challenge has been posted to ocio.iowa.gov/broadband. However, this Office is affirmatively reaching out to notify you of the challenge, of the circumstances surrounding the challenge, and to solicit your feedback and position. If this Office does not receive your response via Exhibit A of the Form by **November 26, 2022 at 11:59 p.m. CST**, the Office will make a final decision based on the evidence and information currently available to it.

Sincerely,

Office of the Chief Information Officer
State of Iowa

To whom it may concern:

This is a letter of inquiry concerning your organization's prior reporting to the State of Iowa Office of the Chief Information Officer ("OCIO" or "Office") regarding the availability of Broadband service at certain address location(s). Our Office received a timely-filed Challenge Form challenging information reported on the Broadband Availability Map Version 5 ("V5") of the Statewide Broadband Availability Map ("Map"). The data reflected on V5 of the Map was either: (1) provided by you to the Office's contractor, Connected Nation, during the data collection window of November 1, 2021 through February 11, 2022; (2) gathered from other sources (such as FCC) that collected data from you; or (3) carried forward from prior reporting made to this Office by you under a previous Map version.

Map V5 identifies where Broadband service was offered or facilitated at speeds greater than 25/3 as of August 2, 2022. The Map also reflects a preliminary determination of 'likely eligible' or 'likely ineligible' based on speed, technology type, and previous incentives and is a prospective estimate of potential eligibility under various federal programs. The publication of the Map on August 2, 2022 triggered a formal 30-day challenge window during which time we received challenges citing or implicating your service. The challenge(s) we received claims that the data reflected on V5 of the Map is inaccurate. All timely-filed challenges can be found at https://ocio.iowa.gov/broadband-availability-map-version-5-challenge-process. **To resolve this matter, the Office requests that your organization provide information concerning your service at the affected address locations as further identified and described below by October 24, 2022 at 5:00 CDT.**

Map V5 is designed to facilitate decisions concerning future spending under federally-funded broadband programs. Because Map V5 does not use the tiered structure envisioned by Iowa Code chapter 8B and because future federally-funded grant opportunities made available by the Office in accordance with Map V5 will not conform to Iowa Code chapter 8B, the map challenge process outlined in Iowa Code section 8B.10 does not apply. Similarly, within 30 days after the Office's official publication of the Map, the Office permitted any person or party aggrieved or adversely affected by such determination to challenge the office's finding by submitting a challenge form along with all evidence or information supporting the challenge. The

proffered bases for challenge largely mirror those offered by the FCC in their Broadband Data Collection efforts.

V5 of the Map currently shows that service offered at a particular address location renders that address location either likely eligible or likely ineligible for future federal grant funding. As part of the above-outlined process, OCIO received a formal challenge and supporting evidence from one or more Iowa residents or Communications Service Provider(s), claiming that service your organization reports is insufficient to warrant the likely ineligible status of a particular address location.

At this time, the Office requests your assistance in making an accurate determination as to whether your organization in fact offers the speeds reported at each challenged address location as of August 2, 2022. To that end, the Office requests that you:

1) Complete and return the attached Challenge Notice Form (see Exhibit A, Affirmation tab), by **October 24, 2022 at 5:00 CDT**. Pursuant to this form, OCIO requests that a representative with legal authority to bind your organization:
    a) Confirm that the speeds reported at the challenged address locations are correct as of August 2, 2022.
    b) Fully complete all other aspects of the Form.

2) In addition to the form, please also submit any other evidence or information in your possession to the Office that supports your prior representations to the Office regarding the address locations identified in Exhibit A. Examples of evidence and information the Office would consider particularly probative include: Bills or invoices provided to or received by customers at the applicable address location which identify the specific download and upload speeds provided or received as of August 2, 2022.

Please return the completed form and supporting evidence or information to ociogrants@iowa.gov.

Please note that you are under no legal obligation to respond to this request for information. The Office permits any affected person or party to submit evidence or information to the Office in support of or in opposition to a challenge within 20 days after the challenge has been posted to ocio.iowa.gov/broadband. However, this Office is affirmatively reaching out to notify you of the challenge, of the circumstances surrounding the challenge, and to solicit your feedback and position. If this Office does not receive your response via Exhibit A of the Form by **October 24, 2022 at 5:00 CDT**, the Office will make a final decision based on the evidence and information currently available to it.

Sincerely,

Office of the Chief Information Officer
State of Iowa

Sent via email only

To whom it may concern:

This is a letter of inquiry concerning your organization's prior reporting to the State of Iowa Office of the Chief Information Officer ("OCIO" or "Office") regarding the availability of Broadband service at certain address location(s). Our Office received a timely-filed Challenge Form challenging information reported on the Broadband Availability Map Version 5 ("V5") of the Statewide Broadband Availability Map ("Map"). The data reflected on V5 of the Map was either: (1) provided by you to the Office's contractor, Connected Nation, during the data collection window of November 1, 2021 through February 11, 2022; (2) gathered from other sources (such as FCC) that collected data from you; or (3) carried forward from prior reporting made to this Office by you under a previous Map version.

Map V5 identifies where Broadband service was offered or facilitated at speeds greater than 25/3 as of August 2, 2022. The Map also reflects a preliminary determination of 'likely eligible' or 'likely ineligible' based on speed, technology type, and previous incentives and is a prospective estimate of potential eligibility under various federal programs. The publication of the Map on August 2, 2022 triggered a formal 30-day challenge window during which time we received challenges citing or implicating your service. The challenge(s) we received claims that the data reflected on V5 of the Map is inaccurate. All timely-filed challenges can be found at https://ocio.iowa.gov/broadband-availability-map-version-5-challenge-process. **To resolve this matter, the Office requests that your organization provide information concerning your service at the affected address locations as further identified and described below by November 26, 2022 at 11:59 p.m. CST.**

Map V5 is designed to facilitate decisions concerning future spending under federally-funded broadband programs. Because Map V5 does not use the tiered structure envisioned by Iowa Code chapter 8B and because future federally-funded grant opportunities made available by the Office in accordance with Map V5 will not conform to Iowa Code chapter 8B, the map challenge process outlined in Iowa Code section 8B.10 does not apply. Similarly, within 30 days after the Office's official publication of the Map, the Office permitted any person or party aggrieved or adversely affected by such determination to challenge the office's finding by submitting a challenge form along with all evidence or information supporting the

challenge. The proffered bases for challenge largely mirror those offered by the FCC in their Broadband Data Collection efforts.

V5 of the Map currently shows that service offered at a particular address location renders that address location either likely eligible or likely ineligible for future federal grant funding. As part of the above-outlined process, OCIO received a formal challenge and supporting evidence from one or more Iowa residents or Communications Service Provider(s), claiming that service your organization reports is insufficient to warrant the likely ineligible status of a particular address location.

At this time, the Office requests your assistance in making an accurate determination as to whether your organization in fact offers the speeds reported at each challenged address location as of August 2, 2022. To that end, the Office requests that you:

1) Complete and return the attached Challenge Notice Form (see Exhibit A, Affirmation tab), by **November 26, 2022 at 11:59 p.m. CST**. Pursuant to this form, OCIO requests that a representative with legal authority to bind your organization:
   a) Confirm that the speeds reported at the challenged address locations are correct as of August 2, 2022.
   b) Fully complete all other aspects of the Form.

2) In addition to the form, please also submit any other evidence or information in your possession to the Office that supports your prior representations to the Office regarding the address locations identified in Exhibit A. Examples of evidence and information the Office would consider particularly probative include: Bills or invoices provided to or received by customers at the applicable address location which identify the specific download and upload speeds provided or received as of August 2, 2022.

Please return the completed form and supporting evidence or information to ociogrants@iowa.gov.

Please note that you are under no legal obligation to respond to this request for information. The Office permits any affected person or party to submit evidence or information to the Office in support of or in opposition to a challenge within 20 days after the challenge has been posted to ocio.iowa.gov/broadband. However, this Office is affirmatively reaching out to notify you of the challenge, of the circumstances surrounding the challenge, and to solicit your feedback and position. If this Office does not receive your response via Exhibit A of the Form by **November 26, 2022 at 11:59 p.m. CST**, the Office will make a final decision based on the evidence and information currently available to it.

Sincerely,

Office of the Chief Information Officer
State of Iowa

Broadband Map V5 Challenge Notice

EXHIBIT A

Affirmation of Service or Lack of Service at Address Locations

Broadband Availability Map Challenge Process Version 5

A. RESPONDENT INFORMATION

Company Name	United States Cellular Corporation
Address	8410 W. Bryn Mawr
City	Chicago
State	Illinois
Zip	60631

B. DESIGNATED CONTACT INFORMATION

Contact Name	Stephanie Cassioppi
Contact Phone Number	630-201-3501
Contact Email	stephanie.cassioppi@uscellular.com

C. EXPLANATION

To the extent you believe additional explanation is required to ensure that you are communicating full and accurate information, you may provide narrative to further rebut this challenge. You may consider uploading evidence to substantiate your claims as an attachment to this Affirmation. An Affirmation submitted without sufficient and probative evidence may be inadequate to overcome a

UScellular attests to facilitating service at the varying speeds listed in the affirmation sheet.* Customers can select different plan options that may impact delivered speeds. All but one of the challengers are non-UScelluar customers. The challengers appear to be unfamiliar with UScellular's service offerings, which is understandable given the recency of these deployments. *Filed pursuant to *Establishing the Digital Opportunity Data Collection*, WC Docket No. 19-195 (March 9, 2022), coverage as of June 30, 2022.

D. AFFIRMATION

By signing and submitting this form, the authorized representative attests that to the best of the authorized representatives knowledge and belief, the information submitted through this challenge form is true and accurate, and the form is signed under the pains and penalties of perjury. By typing your name, you are affixing your signature to this form and attesting to the accuracy of the information submitted herein.

Sent via email only

To whom it may concern:

This is a letter of inquiry concerning your organization's prior reporting to the State of Iowa Office of the Chief Information Officer ("OCIO" or "Office") regarding the availability of Broadband service at certain address location(s). Our Office received a timely-filed Challenge Form challenging information reported on the Broadband Availability Map Version 5 ("V5") of the Statewide Broadband Availability Map ("Map"). The data reflected on V5 of the Map was either: (1) provided by you to the Office's contractor, Connected Nation, during the data collection window of November 1, 2021 through February 11, 2022; (2) gathered from other sources (such as FCC) that collected data from you; or (3) carried forward from prior reporting made to this Office by you under a previous Map version.

Map V5 identifies where Broadband service was offered or facilitated at speeds greater than 25/3 as of August 2, 2022. The Map also reflects a preliminary determination of 'likely eligible' or 'likely ineligible' based on speed, technology type, and previous incentives and is a prospective estimate of potential eligibility under various federal programs. The publication of the Map on August 2, 2022 triggered a formal 30-day challenge window during which time we received challenges citing or implicating your service. The challenge(s) we received claims that the data reflected on V5 of the Map is inaccurate. All timely-filed challenges can be found at https://ocio.iowa.gov/broadband-availability-map-version-5-challenge-process. **To resolve this matter, the Office requests that your organization provide information concerning your service at the affected address locations as further identified and described below by October 24, 2022 at 5:00 CDT.**

Map V5 is designed to facilitate decisions concerning future spending under federally-funded broadband programs. Because Map V5 does not use the tiered structure envisioned by Iowa Code chapter 8B and because future federally-funded grant opportunities made available by the Office in accordance with Map V5 will not conform to Iowa Code chapter 8B, the map challenge process outlined in Iowa Code section 8B.10 does not apply. Similarly, within 30 days after the Office's official publication of the Map, the Office permitted any person or party aggrieved or adversely affected by such determination to challenge the office's finding by submitting a challenge form along with all evidence or information supporting the challenge. The

proffered bases for challenge largely mirror those offered by the FCC in their Broadband Data Collection efforts.

V5 of the Map currently shows that service offered at a particular address location renders that address location either likely eligible or likely ineligible for future federal grant funding. As part of the above-outlined process, OCIO received a formal challenge and supporting evidence from one or more Iowa residents or Communications Service Provider(s), claiming that service your organization reports is insufficient to warrant the likely ineligible status of a particular address location.

At this time, the Office requests your assistance in making an accurate determination as to whether your organization in fact offers the speeds reported at each challenged address location as of August 2, 2022. To that end, the Office requests that you:

1) Complete and return the attached Challenge Notice Form (see Exhibit A, Affirmation tab), by **October 24, 2022 at 5:00 CDT**. Pursuant to this form, OCIO requests that a representative with legal authority to bind your organization:
    a) Confirm that the speeds reported at the challenged address locations are correct as of August 2, 2022.
    b) Fully complete all other aspects of the Form.

2) In addition to the form, please also submit any other evidence or information in your possession to the Office that supports your prior representations to the Office regarding the address locations identified in Exhibit A. Examples of evidence and information the Office would consider particularly probative include: Bills or invoices provided to or received by customers at the applicable address location which identify the specific download and upload speeds provided or received as of August 2, 2022.

Please return the completed form and supporting evidence or information to ociogrants@iowa.gov.

Please note that you are under no legal obligation to respond to this request for information. The Office permits any affected person or party to submit evidence or information to the Office in support of or in opposition to a challenge within 20 days after the challenge has been posted to ocio.iowa.gov/broadband. However, this Office is affirmatively reaching out to notify you of the challenge, of the circumstances surrounding the challenge, and to solicit your feedback and position. If this Office does not receive your response via Exhibit A of the Form by **October 24, 2022 at 5:00 CDT**, the Office will make a final decision based on the evidence and information currently available to it.

Sincerely,

Office of the Chief Information Officer
State of Iowa

To whom it may concern:

This is a letter of inquiry concerning your organization's prior reporting to the State of Iowa Office of the Chief Information Officer ("OCIO" or "Office") regarding the availability of Broadband service at certain address location(s). Our Office received a timely-filed Challenge Form challenging information reported on the Broadband Availability Map Version 5 ("V5") of the Statewide Broadband Availability Map ("Map"). The data reflected on V5 of the Map was either: (1) provided by you to the Office's contractor, Connected Nation, during the data collection window of November 1, 2021 through February 11, 2022; (2) gathered from other sources (such as FCC) that collected data from you; or (3) carried forward from prior reporting made to this Office by you under a previous Map version.

Map V5 identifies where Broadband service was offered or facilitated at speeds greater than 25/3 as of August 2, 2022. The Map also reflects a preliminary determination of 'likely eligible' or 'likely ineligible' based on speed, technology type, and previous incentives and is a prospective estimate of potential eligibility under various federal programs. The publication of the Map on August 2, 2022 triggered a formal 30-day challenge window during which time we received challenges citing or implicating your service. The challenge(s) we received claims that the data reflected on V5 of the Map is inaccurate. All timely-filed challenges can be found at https://ocio.iowa.gov/broadband-availability-map-version-5-challenge-process. **To resolve this matter, the Office requests that your organization provide information concerning your service at the affected address locations as further identified and described below by October 24, 2022 at 5:00 CDT.**

Map V5 is designed to facilitate decisions concerning future spending under federally-funded broadband programs. Because Map V5 does not use the tiered structure envisioned by Iowa Code chapter 8B and because future federally-funded grant opportunities made available by the Office in accordance with Map V5 will not conform to Iowa Code chapter 8B, the map challenge process outlined in Iowa Code section 8B.10 does not apply. Similarly, within 30 days after the Office's official publication of the Map, the Office permitted any person or party aggrieved or adversely affected by such determination to challenge the office's finding by submitting a challenge form along with all evidence or information supporting the challenge. The

proffered bases for challenge largely mirror those offered by the FCC in their Broadband Data Collection efforts.

V5 of the Map currently shows that service offered at a particular address location renders that address location either likely eligible or likely ineligible for future federal grant funding. As part of the above-outlined process, OCIO received a formal challenge and supporting evidence from one or more Iowa residents or Communications Service Provider(s), claiming that service your organization reports is insufficient to warrant the likely ineligible status of a particular address location.

At this time, the Office requests your assistance in making an accurate determination as to whether your organization in fact offers the speeds reported at each challenged address location as of August 2, 2022. To that end, the Office requests that you:

1) Complete and return the attached Challenge Notice Form (see Exhibit A, Affirmation tab), by **October 24, 2022 at 5:00 CDT**. Pursuant to this form, OCIO requests that a representative with legal authority to bind your organization:
    a) Confirm that the speeds reported at the challenged address locations are correct as of August 2, 2022.
    b) Fully complete all other aspects of the Form.

2) In addition to the form, please also submit any other evidence or information in your possession to the Office that supports your prior representations to the Office regarding the address locations identified in Exhibit A. Examples of evidence and information the Office would consider particularly probative include: Bills or invoices provided to or received by customers at the applicable address location which identify the specific download and upload speeds provided or received as of August 2, 2022.

Please return the completed form and supporting evidence or information to ociogrants@iowa.gov.

Please note that you are under no legal obligation to respond to this request for information. The Office permits any affected person or party to submit evidence or information to the Office in support of or in opposition to a challenge within 20 days after the challenge has been posted to ocio.iowa.gov/broadband. However, this Office is affirmatively reaching out to notify you of the challenge, of the circumstances surrounding the challenge, and to solicit your feedback and position. If this Office does not receive your response via Exhibit A of the Form by **October 24, 2022 at 5:00 CDT**, the Office will make a final decision based on the evidence and information currently available to it.

Sincerely,

Office of the Chief Information Officer
State of Iowa

C. EXPLANATION

To the extent you believe additional explanation is required to ensure that you are communicating full and accurate information, you may provide narrative to further rebut this challenge. You may consider uploading evidence to substantiate your claims as an attachment to this Affirmation. An Affirmation submitted without sufficient and probative evidence may be inadequate to overcome a challenge.

Windstream response provided on affirmation tab of this workbook.

D. AFFIRMATION

By signing and submitting this form, the authorized representative attests that to the best of the authorized representatives knowledge and belief, the information submitted through this challenge form is true and accurate, and the form is signed under the pains and penalties of perjury. By typing your name, you are affixing your signature to this form and attesting to the accuracy of the information submitted herein.

Kinetic's Internal Qualification Process

Kinetic utilizes a process known as "UQUAL" in order to determine the maximum download and upload speed that a location should be capable of receiving from Kinetic broadband service. At its essence, the process identifies the latitude and longitude of a given location and uses those coordinates to determine the proximity of the location to existing Kinetic infrastructure. That proximity is then used to determine the maximum level of service that the location should be capable of receiving.

The exact mechanism in which UQUAL operates varies by technology type:

Fiber: When a fiber build is designed, Kinetic planning engineers create polygons encompassing all of the addresses that the build is intended to serve. Upon completion of the build, all locations within the polygon qualify for fiber services delivering a minimum of 1 Gbps symmetrical download and upload. UQUAL identifies whether or not the location falls within a completed polygon and assigns it the appropriate 1G qualification to the location if so.

Cable: UQUAL references the location's address against a specific list of addresses that fall within Kinetic's cable design areas and assigns a cable qualification if a match is found. These addresses are qualified for download speeds of 1 Gbps, although Kinetic cable service does not offer symmetrical download and upload speeds.

Copper/DSL: To determine qualification of a location via DSL service, UQUAL uses the location's coordinates to calculate the distance from the location along the available copper path to the nearest serving terminal. This distance is known as the loop length. Qualification is then calculated based upon what the serving device is capable of providing over that loop length.

Fixed Wireless: UQUAL plots the location onto a propagation map that indicates the coverage of Kinetic's fixed wireless network. If the location is determined to be within line of sight and serving range of a Kinetic tower, UQUAL translate the signal strength indicated by the propagation map into a qualification for the location.

It is possible that a location may qualify for service via multiple technology types. In this event, UQUAL will assign the technology type offering the greatest speed.

To whom it may concern:

This is a letter of inquiry concerning your organization's prior reporting to the State of Iowa Office of the Chief Information Officer ("OCIO" or "Office") regarding the availability of Broadband service at certain address location(s). Our Office received a timely-filed Challenge Form challenging information reported on the Broadband Availability Map Version 5 ("V5") of the Statewide Broadband Availability Map ("Map"). The data reflected on V5 of the Map was either: (1) provided by you to the Office's contractor, Connected Nation, during the data collection window of November 1, 2021 through February 11, 2022; (2) gathered from other sources (such as FCC) that collected data from you; or (3) carried forward from prior reporting made to this Office by you under a previous Map version.

Map V5 identifies where Broadband service was offered or facilitated at speeds greater than 25/3 as of August 2, 2022. The Map also reflects a preliminary determination of 'likely eligible' or 'likely ineligible' based on speed, technology type, and previous incentives and is a prospective estimate of potential eligibility under various federal programs. The publication of the Map on August 2, 2022 triggered a formal 30-day challenge window during which time we received challenges citing or implicating your service. The challenge(s) we received claims that the data reflected on V5 of the Map is inaccurate. All timely-filed challenges can be found at https://ocio.iowa.gov/broadband-availability-map-version-5-challenge-process. **To resolve this matter, the Office requests that your organization provide information concerning your service at the affected address locations as further identified and described below by November 26, 2022 at 11:59 p.m. CST.**

Map V5 is designed to facilitate decisions concerning future spending under federally-funded broadband programs. Because Map V5 does not use the tiered structure envisioned by Iowa Code chapter 8B and because future federally-funded grant opportunities made available by the Office in accordance with Map V5 will not conform to Iowa Code chapter 8B, the map challenge process outlined in Iowa Code section 8B.10 does not apply. Similarly, within 30 days after the Office's official publication of the Map, the Office permitted any person or party aggrieved or adversely affected by such determination to challenge the office's finding by submitting a challenge form along with all evidence or information supporting the

challenge. The proffered bases for challenge largely mirror those offered by the FCC in their Broadband Data Collection efforts.

V5 of the Map currently shows that service offered at a particular address location renders that address location either likely eligible or likely ineligible for future federal grant funding. As part of the above-outlined process, OCIO received a formal challenge and supporting evidence from one or more Iowa residents or Communications Service Provider(s), claiming that service your organization reports is insufficient to warrant the likely ineligible status of a particular address location.

At this time, the Office requests your assistance in making an accurate determination as to whether your organization in fact offers the speeds reported at each challenged address location as of August 2, 2022. To that end, the Office requests that you:

1) Complete and return the attached Challenge Notice Form (see Exhibit A, Affirmation tab), by **November 26, 2022 at 11:59 p.m. CST**. Pursuant to this form, OCIO requests that a representative with legal authority to bind your organization:

   a) Confirm that the speeds reported at the challenged address locations are correct as of August 2, 2022.

   b) Fully complete all other aspects of the Form.

2) In addition to the form, please also submit any other evidence or information in your possession to the Office that supports your prior representations to the Office regarding the address locations identified in Exhibit A. Examples of evidence and information the Office would consider particularly probative include: Bills or invoices provided to or received by customers at the applicable address location which identify the specific download and upload speeds provided or received as of August 2, 2022.

Please return the completed form and supporting evidence or information to ociogrants@iowa.gov.

Please note that you are under no legal obligation to respond to this request for information. The Office permits any affected person or party to submit evidence or information to the Office in support of or in opposition to a challenge within 20 days after the challenge has been posted to ocio.iowa.gov/broadband. However, this Office is affirmatively reaching out to notify you of the challenge, of the circumstances surrounding the challenge, and to solicit your feedback and position. If this Office does not receive your response via Exhibit A of the Form by **November 26, 2022 at 11:59 p.m. CST**, the Office will make a final decision based on the evidence and information currently available to it.

Sincerely,

Office of the Chief Information Officer
State of Iowa

Kinetic's Internal Qualification Process

Kinetic utilizes a process known as "UQUAL" in order to determine the maximum download and upload speed that a location should be capable of receiving from Kinetic broadband service. At its essence, the process identifies the latitude and longitude of a given location and uses those coordinates to determine the proximity of the location to existing Kinetic infrastructure. That proximity is then used to determine the maximum level of service that the location should be capable of receiving.

The exact mechanism in which UQUAL operates varies by technology type:

Fiber: When a fiber build is designed, Kinetic planning engineers create polygons encompassing all of the addresses that the build is intended to serve. Upon completion of the build, all locations within the polygon qualify for fiber services delivering a minimum of 1 Gbps symmetrical download and upload. UQUAL identifies whether or not the location falls within a completed polygon and assigns it the appropriate 1G qualification to the location if so.

Cable: UQUAL references the location's address against a specific list of addresses that fall within Kinetic's cable design areas and assigns a cable qualification if a match is found. These addresses are qualified for download speeds of 1 Gbps, although Kinetic cable service does not offer symmetrical download and upload speeds.

Copper/DSL: To determine qualification of a location via DSL service, UQUAL uses the location's coordinates to calculate the distance from the location along the available copper path to the nearest serving terminal. This distance is known as the loop length. Qualification is then calculated based upon what the serving device is capable of providing over that loop length.

Fixed Wireless: UQUAL plots the location onto a propagation map that indicates the coverage of Kinetic's fixed wireless network. If the location is determined to be within line of sight and serving range of a Kinetic tower, UQUAL translate the signal strength indicated by the propagation map into a qualification for the location.

It is possible that a location may qualify for service via multiple technology types. In this event, UQUAL will assign the technology type offering the greatest speed.

To whom it may concern:

This is a letter of inquiry concerning your organization's prior reporting to the State of Iowa Office of the Chief Information Officer ("OCIO" or "Office") regarding the availability of Broadband service at certain address location(s). Our Office received a timely-filed Challenge Form challenging information reported on the Broadband Availability Map Version 5 ("V5") of the Statewide Broadband Availability Map ("Map"). The data reflected on V5 of the Map was either: (1) provided by you to the Office's contractor, Connected Nation, during the data collection window of November 1, 2021 through February 11, 2022; (2) gathered from other sources (such as FCC) that collected data from you; or (3) carried forward from prior reporting made to this Office by you under a previous Map version.

Map V5 identifies where Broadband service was offered or facilitated at speeds greater than 25/3 as of August 2, 2022. The Map also reflects a preliminary determination of 'likely eligible' or 'likely ineligible' based on speed, technology type, and previous incentives and is a prospective estimate of potential eligibility under various federal programs. The publication of the Map on August 2, 2022 triggered a formal 30-day challenge window during which time we received challenges citing or implicating your service. The challenge(s) we received claims that the data reflected on V5 of the Map is inaccurate. All timely-filed challenges can be found at https://ocio.iowa.gov/broadband-availability-map-version-5-challenge-process. **To resolve this matter, the Office requests that your organization provide information concerning your service at the affected address locations as further identified and described below by October 24, 2022 at 5:00 CDT.**

Map V5 is designed to facilitate decisions concerning future spending under federally-funded broadband programs. Because Map V5 does not use the tiered structure envisioned by Iowa Code chapter 8B and because future federally-funded grant opportunities made available by the Office in accordance with Map V5 will not conform to Iowa Code chapter 8B, the map challenge process outlined in Iowa Code section 8B.10 does not apply. Similarly, within 30 days after the Office's official publication of the Map, the Office permitted any person or party aggrieved or adversely affected by such determination to challenge the office's finding by submitting a challenge form along with all evidence or information supporting the challenge. The

proffered bases for challenge largely mirror those offered by the FCC in their Broadband Data Collection efforts.

V5 of the Map currently shows that service offered at a particular address location renders that address location either likely eligible or likely ineligible for future federal grant funding. As part of the above-outlined process, OCIO received a formal challenge and supporting evidence from one or more Iowa residents or Communications Service Provider(s), claiming that service your organization reports is insufficient to warrant the likely ineligible status of a particular address location.

At this time, the Office requests your assistance in making an accurate determination as to whether your organization in fact offers the speeds reported at each challenged address location as of August 2, 2022. To that end, the Office requests that you:

1) Complete and return the attached Challenge Notice Form (see Exhibit A, Affirmation tab), by **October 24, 2022 at 5:00 CDT**. Pursuant to this form, OCIO requests that a representative with legal authority to bind your organization:
    a) Confirm that the speeds reported at the challenged address locations are correct as of August 2, 2022.
    b) Fully complete all other aspects of the Form.

2) In addition to the form, please also submit any other evidence or information in your possession to the Office that supports your prior representations to the Office regarding the address locations identified in Exhibit A. Examples of evidence and information the Office would consider particularly probative include: Bills or invoices provided to or received by customers at the applicable address location which identify the specific download and upload speeds provided or received as of August 2, 2022.

Please return the completed form and supporting evidence or information to ociogrants@iowa.gov.

Please note that you are under no legal obligation to respond to this request for information. The Office permits any affected person or party to submit evidence or information to the Office in support of or in opposition to a challenge within 20 days after the challenge has been posted to ocio.iowa.gov/broadband. However, this Office is affirmatively reaching out to notify you of the challenge, of the circumstances surrounding the challenge, and to solicit your feedback and position. If this Office does not receive your response via Exhibit A of the Form by **October 24, 2022 at 5:00 CDT**, the Office will make a final decision based on the evidence and information currently available to it.

Sincerely,

Office of the Chief Information Officer
State of Iowa

C. EXPLANATION

To the extent you believe additional explanation is required to ensure that you are communicating full and accurate information, you may provide narrative to further rebut this challenge. You may consider uploading evidence to substantiate your claims as an attachment to this Affirmation. An Affirmation submitted without sufficient and probative evidence may be inadequate to overcome a challenge.

50578 140th Avenue, Scarville, IA is in the Kiester, MN (Frontier Exchange) just over the IA border (Amund). This location just happens to have a Scarville address even though it is in the Frontier exchange. It is not in the WCTA Scarville exchange. WCTA agrees that the Frontier service is well below broadband standards. However, WCTA has buried fiber to this location in 2022 and we are preparing for customer conversions in the 4th quarter of 2022. Please see the attached document for fiber mapping information.

D. AFFIRMATION
