Invitation To Qualify Application Exhibits

Required Forms and Submissions

Please indicate the community applicant type that best fits from this list.

Community Applicant Type*: Council of Government

**If Community Applicant Type is
"Other", please add additional
information here. :**

This section of the Iowa Grants system requires the Applicant to upload a cover letter as a Word doc or pdf on the Applicant's letterhead to provide a high-level overview of the Application describing your community's Broadband need in the area and the community's interest in obtaining programmatic funding in the Geographic Area of Concern. The Cover Letter is not scored.

Cover Letter*: FremontCountyCoverLetterITQ.pdf

The Applicant must upload a spreadsheet of locations obtained from the Broadband Availability Map. The system will allow you to download the locations as a CSV formatted spreadsheet. The Eligible Service Locations Spreadsheet must then be uploaded by the Community Applicant to the Iowa Grants system.

Note: Reference the "Geographic Area of Concern and Data Export/Import Instructions," labeled "Exhibit D," for instructions regarding how to properly complete this aspect of the Application.

**Eligible Service Locations
Spreadsheet*:** ITQ Eligible Locations.easternfremontcounty.csv

Generally describe the area identified with the Geographic Area of Concern Selection Tool. Example: Rural Adams County, Poweshiek County Highway 6 Corridor, etc.

**General Description of the
geographic area of the circle*:**

This includes the rural eastern portion of Fremont county, a 6 mile radius.

Write down the radius distance used to create your circle. The instructions for how to identify the radius can be found in Exhibit D Geographic Area of Concern Selection Tool and Data Export/Import Instructions ("Selection Tool").

Optional Forms and Submissions - Work, Education, and Health Monitoring

This sub-factor takes into consideration whether Broadband investments in the proposed Geographic Area of Concern will help to facilitate community members engagement in employment, search for employment, and/or develop the requisite skills and knowledge to become employed (e.g., participate in career counseling programs, workforce training programs, as well as gain access to internet websites to search for and apply to jobs).

Work:

Poor internet service is a distinct barrier to employment as the primary means by which employers currently recruit and correspond with applicants is via online forms and other internet enabled means. This area of Fremont County includes the areas off employment, which means that not only are the residents hindered in job searches by lack of decent internet, the employers as well experience significant challenges.

This subfactor takes into consideration whether Broadband investments in the proposed Geographic Area of Concern will help facilitate educational activities. Such education activities may be to acquire knowledge and/or skills, undertaken as part of a person's participation in school, an academic program, extracurricular program, social-emotional development program for students or youths, internship, or professional development program, or in another educational environment.

Education:

The geographic area identified does not include a school, as it is very rural, but students need to be able to complete homework, have access to various resources, remotely attend classes and home school. Although the nearby schools are aided by their past participation in the ICN, the students of the district do not have the same connectivity, which means doing work from home is exceptionally difficult for student within this area

This subfactor takes into consideration whether Broadband investments in the proposed Geographic Area of Concern will help facilitate health monitoring services to monitor an individual's health, including with respect to either physical or behavioral health.

Health Monitoring:

Telehealth and other services that might be available in other areas is not possible to the same extent in this area.

Barriers to Broadband

Barriers to Broadband

Installation:

The geography of eastern Fremont County has been a barrier to broadband installation to date because of the varied topography of the Loess Hills. Likewise, population densities are low. Also, the area is relatively low income. Fremont County as a whole is 51.4% LMI.
