Harrison County Board of Supervisors

John Straight, Chairman
Tony Smith, Vice Chair
Brian Rife, Member

March 28, 2023

To the Office of the Chief Information Officer of the State of Iowa:

Harrison County is submitting this application in response to the OCIO Invitation to Qualify for Broadband Intervention Zone. As identified in the Geographic Area of Selection Tool, Harrison County has many areas that are underserved and eligible for the ITQ. Harrison County has identified a 7-mile radius circle centered on 1583 Sandford Place, Dunlap, IA 51529. This includes the rural areas around Dunlap and Woodbine, including Highway 30. These are 11 unserved locations and 68 underserved locations. These are necessary areas for the Broadband Intervention Zone. These areas are served by only two providers Windstream Corporation and Western Iowa Wireless. These speeds are not the necessary 100/20 minimum for healthy connectivity. This ITQ application is a chance for these to be considered as areas of concern for an Intervention Zone.

We would like to be considered in this round of the broadband application program so that we can provide adequate internet access and connectivity to our citizens. The Harrison County Board of Supervisors commits to supporting broadband expansion throughout the county within its powers, including such in-kind assistance as allowing space within the County right of way for new fiber optic installations.

Sincerely,

John Straight, Chairman
