OCIO,

I am replying to this email to confirm that 12 of the 14 locations are not known to be currently served by 25/3 broadband. We found that 2 of the locations are served with 25/3 from the provided map data information in the request. These locations were not included in the costs of the build to serve the other locations and would not impact the amount of the 50% grant award. Please let us know if you require further information.
