

Demonstrated Experience

This form requires information about Applicant's demonstrated experience in the provisioning of Broadband across the State of Iowa. Applicant shall include relevant information about their experience that has prepared them to deploy their proposed Project, such as, for example community partnerships and service; number of years in business; number of years' experience provide the types of services sought by this NOFA; if the Applicant is a relatively new provider/market entrant an explanation of the benefits, if any of being a newer provider. Market entrant; or the level of technical experience in providing the types of services sought by this NOFA.

As stated in the Application Business Information question, Interstate Cablevision d/b/a OminTel Communications (OmniTel) has an extensive history of fiber network builds, broadband project success and implementation. The resumes of key OmniTel management and team members are included to provide further evidence of OmniTel's ability to successfully implement the proposed Interstate Cablevision Rural Broadband Adoption Project.

OmniTel is a financially viable organization with the capability to meet all financial requirements outlined in this project. OmniTel has a history of continued business success and meeting financial obligations within the communities they serve. In support of OmniTel's financial viability, the company has included bank support letter with this application.

The specific broadband project team experience, which is most relevant to the proposed project, is as follows:

Management Team Member Name

Ron Laudner, President and CEO

Project/Work Experience Name/Title

FTTH/FTTB, State Broadband Grants & FTTH/FTTB (ARRA/BIP)

Project/Work Term: YEARS

11 years

Size of Project USD\$

\$32MM

Project/Work Experience to Proposed Project

Understating the importance to provide broadband to critical infrastructures as well as business and residential subscribers in rural Iowa. FTTH/FTTB planning and implementation of plans.

Duties and Responsibilities Relating to the Listed Project and Work Experience on FTTH/FTTB

Complete oversight and final decision making on technology, deployment, and overall project flow strategy. Complete oversight and growth on hiring personnel to facilitate project and project resources.

Project/Work Description and Similarity to Proposed Iowa Broadband Grant Project

The project work experience to previous and ongoing FTTH/FTTB builds have been on-time, shovel ready, and according to specifications.

Management Team Member Name

Josh Hveem, COO

Project/Work Experience Name/Title

FTTH/FTTB, State Broadband Grants & FTTH/FTTB (ARRA/BIP)

Project/Work Term: YEARS

11 years

Size of Project USD\$

\$32MM

Project/Work Experience to Proposed Project

Understating the importance to provide broadband to critical infrastructures as well as business and residential subscribers in rural Iowa. FTTH/FTTB planning and implementation of plans.

Duties and Responsibilities Relating to the Listed Project and Work Experience on FTTH/FTTB

Duties and responsibilities included the complete coordination across all channels in the extensive data collection, forecasting, financial modeling, mapping, engineering, pricing, marketing, advertising, location identification, qualification of location, pre-scoring, community support, job creation and excitement, as well as deadline and financial responsibilities being met to the highest of standards

Project/Work Description and Similarity to Proposed Iowa Broadband Grant Project

The project work description and similarity to the proposed BIP project relates to the facilitation of large-scale projects and how those projects are managed and implemented. The understanding of entering new territories directly relates to the Iowa Broadband project and the need for more broadband in rural America. The experienced teams related FTTH/FTTB projects and industry experience in delivering the service are key.

Management Team Member Name

Deb Ward, Director of Corporate Operations

Project/Work Experience Name/Title

FTTH/FTTB, State Broadband Grants & FTTH/FTTB (ARRA/BIP)

Project/Work Term: YEARS

11 years

Size of Project USD\$

\$32MM

Project/Work Experience to Proposed Project

Understating the importance to provide broadband to critical infrastructures as well as business and residential subscribers in rural Iowa. FTTH/FTTB planning and implementation of plans.

Duties and Responsibilities Relating to the Listed Project and Work Experience on FTTH/FTTB

Duties and responsibilities included HR, Regulatory, Customer Service, and Accounting for proper documentation and project flow. Service orders and oversight of completed customer installations and turn-ups.

Project/Work Description and Similarity to Proposed Iowa Broadband Grant Project

Customer service, regulatory, accounting, billing as key back office needs translate very similar in size and scope to the Iowa Broadband project. Systems and process are in place to ensure smooth and timely delivery as well as awareness for our rural communities.

Management Team Member Name

Bryan Nelson, Director of Southern Operations

Project/Work Experience Name/Title

FTTH/FTTB, State Broadband Grants & FTTH/FTTB (ARRA/BIP)

Project/Work Term: YEARS

11 years

Size of Project USD\$

\$16MM

Project/Work Experience to Proposed Project

Understating the importance to provide broadband to critical infrastructures as well as business and residential subscribers in rural Iowa. FTTH/FTTB planning and implementation of plans.

Duties and Responsibilities Relating to the Listed Project and Work Experience on FTTH/FTTB

Duties included design of network and coordination with professional engineers and consultants. Oversight of all networking and operations during project periods.

Project/Work Description and Similarity to Proposed Iowa Broadband Grant Project

The project work description and similarity to the proposed Iowa Broadband project relates to the overall leadership capacity and the proven ability to lead projects of large scope from cradle to grave. The industry experience and hands-on experience in similar communities is essential due to the dynamics

Management Team Member Name

Spenser Gruis – Network Engineer

Project/Work Experience Name/Title

FTTH/FTTB, State Broadband Grants & FTTH/FTTB (ARRA/BIP)

Project/Work Term: YEARS

11 years

Size of Project USD\$

\$32MM

Project/Work Experience to Proposed Project

Understating the importance to provide broadband to critical infrastructures as well as business and residential subscribers in rural Iowa. FTTH/FTTB planning and implementation of plans.

Duties and Responsibilities Relating to the Listed Project and Work Experience on FTTH/FTTB

Oversight in the selection process as it pertains to the technology and the overall testing to meet our standards and objectives to deliver higher bandwidth uniformly to all exchanges. Network design and Implementation and wiring of Central Offices as well as overall transport system and redundancy of system.

Project/Work Description and Similarity to Proposed Iowa Broadband Grant Project

The project work and networking expertise has continued to provide robust delivery of high capacity networks and state of the art equipment and maintenance of equipment. Stability and performance of the Iowa Broadband Project would be delivered in the same fashion.

Management Team Member Name

Dan Childers, Outside Plant Manager

Project/Work Experience Name/Title

FTTH/FTTB, State Broadband Grants & FTTH/FTTB (ARRA/BIP)

Project/Work Term: YEARS

11 years

Size of Project USD\$

\$16MM

Project/Work Experience to Proposed Project

Understating the importance to provide broadband to critical infrastructures as well as business and residential subscribers in rural Iowa. FTTH/FTTB planning and implementation of plans.

Duties and Responsibilities Relating to the Listed Project and Work Experience on FTTH/FTTB

Supervised contractors, technicians, and in-house construction personnel to ensure the route is planned and implemented appropriately. Ensured final acceptance testing, turn-up and overall sign off of the project.

Project/Work Description and Similarity to Proposed Iowa Broadband Grant Project

The project work description and similarity to the proposed Iowa Broadband project relates to the conversion of advanced services at customers' homes, communicating with co-workers, customers, and following project plan and routes to ensure successful turn-up.

Management Team Member Name

Gary Schotanus, Director of Sales and Service

Project/Work Experience Name/Title

FTTH/FTTB, State Broadband Grants & FTTH/FTTB (ARRA/BIP)

Project/Work Term: YEARS

11 years

Size of Project USD\$

\$32MM

Project/Work Experience to Proposed Project

Understating the importance to provide broadband to critical infrastructures as well as business and residential subscribers in rural Iowa. FTTH/FTTB planning and implementation of plans.

Duties and Responsibilities Relating to the Listed Project and Work Experience on FTTH/FTTB

Developed and implemented large scale service and sales efforts to provide affordable broadband to rural Iowans. Responsible for the project flow, attainable objectives, and timelines being met in accordance with scope of project

Project/Work Description and Similarity to Proposed Iowa Broadband Grant Project

The project work description and similarity to the proposed Iowa Broadband project relates to the abilities to develop and implement projects large in scope and provide the sales knowledge, management and training to ensure proper take rates of all advanced services and customer education on technology in rural areas.

Management Resumes

Management Team Member Name	Title	Employee of the Applicant or CoApplicant? (Yes/No)	Contractor to the Applicant? (Yes/No)	Years in Industry	Duties & Responsibilities Relating to the Proposed Iowa Broadband Grant Project
Ron Laudner	President & CEO	Yes	No	41	As President & CEO, duties include the complete oversight of company affairs. **Re: Interstate Cablevision d/b/a OmniTel Communications - Iowa Broadband Grant
NOFA#003**

OmniTel Communications is a current customer at First Citizens Bank and has been since 1996. As a part of OmniTel's application to the Iowa Broadband Grant program, we completed a financial review of their current statements and their deposit account holdings with First Citizens Bank.

As of July 28, 2020, they hold current deposit balances of \$ **REDACTED**

First Citizens Bank is providing this letter to OmniTel as supporting documentation of their financial position with First Citizens Bank.

Respectfully Submitted,

A handwritten signature in black ink that reads "Wendy K. Rish".
