

## **Executive Project Summary**

### **INTRASTRUCTURE PROJECT**

Rockwell Cooperative Telephone Association (RCTA) will provide fiber facilities to the Aredale, Bristow, and Dougherty areas. The exact census blocks can be found on the Broadband Grants Core Application (Exhibit B).

RCTA has been providing service to northern Iowa for 75 years and will continue to comply with all of the terms, conditions, and requirements of Iowa Code section 8B.11, Iowa Administrative Code rule 129-22, and this NOFA.

This project design has been reviewed by our contracted engineer, RCTA would begin construction as soon as reasonable possible, RCTA anticipates this project could be completed no later than 7/1/2021.

### **ADOPTION PROGRAM**

RCTA currently provides broadband service using a combination of Cooper and FTTP based platform, these technology allows for broadband packages to be offered above the 25M speed tier. Under the Adoption Project, eligible customers would be able to receive a one-time \$500 credit to increase their broadband services.
