

Kim Reynolds
GOVERNOR

OFFICE OF THE GOVERNOR

Adam Gregg
LT. GOVERNOR

May 31, 2019

Josh Byrnes
Osage Municipal Utilities
720 Chestnut Street
Osage, Iowa 50461

Dear Mr. Byrnes,

Thank you for the opportunity to provide feedback for the scoring criteria of USDA's ReConnect Program. Since taking office as Governor in May 2017, I have made it a top priority to connect Iowa to the world by expanding high-speed internet access, especially in our rural communities.

When I created the Governor's Empower Rural Iowa Initiative, it included a "Connecting Rural Iowa" task force to focus on financing connectivity. The final recommendations of the Empower Rural Iowa Initiative led to the recent passage of House File 772, which will provide state incentives for broadband. Those final recommendations are found at

https://governor.iowa.gov/sites/default/files/documents/ERI_Recommendations_122018.pdf, and the legislation may be viewed at

<https://www.legis.iowa.gov/docs/publications/LGE/88/HF772.pdf>. In addition, the State of Iowa Broadband Program Landing Page is located at <https://ocio.iowa.gov/broadband>.

Regarding USDA's ReConnect Program, Iowa has no restrictions on utilities delivering broadband services. Additionally, Iowa has procedures in place to expedite administrative activities, if necessary, for completing rights-of-way and environmental permitting requirements for ReConnect projects, in order to meet USDA's project build-out timelines.

I applaud everyone at **Osage Municipal Utilities** for taking the initiative to deploy broadband services in rural Iowa, and I wish you the best outcome in seeking assistance from USDA's ReConnect Program.

Sincerely,
Kim Reynolds
Governor

the art of education
UNIVERSITY

May 30, 2019

To Whom it May Concern,

I am writing this letter in support of the high speed internet grant that Osage Municipal Utilities in Osage, Iowa is currently applying for.

My husband Derek and I are the founders of The Art of Education University - Iowa's newest University and the first non-religious graduate university in the state of Iowa in over 50 years. AOEU is an online graduate university serving tens of thousands of K-12 art teachers around the country.

The University is run 100% online from "small town Iowa." We have 55 employees, some onsite and some remote, residing in locations all around the country. To successfully run our business, high speed internet is essential.

A portion of our business resides in Mitchell, Iowa and we have future expansion plans in the Mitchell location as well. In order for this expansion to be successful, having high speed internet in Mitchell is essential.

Please seriously consider the need for this grant in Mitchell in order to help a fast-growing rural Iowa education institution thrive and expand.

Sincerely,

Jessica Balsley
Founder & President
The Art of Education University
jessica@theartofeducation.edu
515.508.1609

Mitchell County Conservation Board

May 30, 2019

To Whom it May Concern:

I am writing this letter on behalf of the Mitchell County Conservation Board (MCCB) in full support of expanding broadband (fiber) Internet service near Mitchell Iowa. MCCB owns and operates two facilities that would directly benefit from this service, these benefits would translate to the public in the form of public safety, economic opportunity, quality of life, and rural revitalization.

The Mitchell Mill Dam currently operates on intermittent, slow, and expensive satellite internet. With no other service available real time monitoring, operations, and safety features are simply unavailable. Reliable High-speed internet would be a game changer for data collection, remote operation, increased production, and most of all automatic public safety notifications.

Interstate park features a public campground in a beautiful yet poor cellular service area along the river. In today's world WI Fi connectivity is a must have amenity for campers. It is especially important to provide this amenity in rural areas to attract people who may need to stay connected for business, work, or school. This service would also give us more direct communication with campers in the event of an emergency as they would have consistent access to the county alert system. Currently the only reliable means of communication with campers during severe storms or flooding is manual communication.

In short it is hard to imagine how we have been able to operate these facilities so long without reliable and affordable connectivity. The ability to provide more services and information to users is endless once we are connected and without these connections rural Iowa is being left behind. We cannot stress enough how much we need these services to enhance Iowa's quality of life and work towards rural revitalization.

Sincerely,

Adam Shirley,

Executive Director, MCCB

City of Mitchell, Iowa

125 East Van Buren Street, Mitchell, IA 50461

5/22/2019

To whom it may concern:

In 1990 the community of Mitchell had 279 residents. In 2010 we had 138 residents and the numbers continue to fall. We are a community of elderly residents who have been lifelong residents. As they pass, we are not getting young people to move to our community to replace them. We must look at what will attract younger residents. The main thing I keep hearing over and over is bandwidth/connectivity.

The community of Mitchell is woefully underserved in bandwidth. The residents of my community are using hotspots on cell phones, trying to utilize satellite internet and some have tried wireless systems provided by private individual's. Depending on the needs of the resident and number of people residing in their home, they have limited success or no success at all.

I have been amazed at what some of my residents are paying for hotspots, data and satellite service. It is not right. The youth of my community are also at a disadvantage as their school is a one-to-one school district. The youth of my community must go to a neighboring community to get connected in order to do online assignments. That is a creates an inequity in the delivery of educational opportunities.

Our small little community has a rich history of doing amazing things as we were the home to a former Governor of Maine (Governor Clauson) and home to the founder (Henry Windsor) of the magazine, *Popular Mechanics*.

For a small community we have a strong entrepreneurial spirit. We had a husband and wife in our community start a fully accredited graduate university (The Art of Education University). They continue to reside in our community but had no choice but to travel to a neighboring community to obtain the bandwidth they need to operate. If we can obtain the USDA grant, they will move everything back to our community and expand. That is, they type of stimulus we need to bring our community back from the brink of extinction.

Respectfully,

Pat Huebsch
Mayor of Mitchell, Iowa

ReConnect Program

Broadband Pre-subscription Form for Farms and Other Businesses

Osage Municipal Utilities is applying for funding from the U.S. Department of Agriculture's ReConnect Company Name Program. If successful, this funding will allow Osage Municipal Utilities to bring broadband service to Company Name your location. If you are interested in receiving broadband service, please share your responses to the questions below.

Question	Answer
1. Would you be a farm or other business customer?	<input checked="" type="checkbox"/> Farm <input type="checkbox"/> Other Business
2. What communications services are you currently using? Select all that apply.	<input checked="" type="checkbox"/> Internet <input type="checkbox"/> Landline Phone <input checked="" type="checkbox"/> Cell Phone <input type="checkbox"/> Video <input type="checkbox"/> Other (specify)
3. Approximately how much do you pay per month for each of the services that you use?	\$ <u>49</u> Internet \$ _____ Landline Phone \$ <u>250</u> Cell Phone \$ _____ Video \$ _____ Other (specify)
4. What is the broadband speed that you currently are receiving with your Internet service?	<input checked="" type="checkbox"/> None <input type="checkbox"/> < 10 Mbps downstream <input type="checkbox"/> < 25 Mbps downstream, but at least 10 Mbps downstream <input type="checkbox"/> < 100 Mbps downstream, but at least 25 Mbps downstream <input type="checkbox"/> 100 Mbps downstream or above <input type="checkbox"/> I don't know
5. What broadband speed would you need to meet your farm or business needs?	<input type="checkbox"/> < 10 Mbps downstream <input checked="" type="checkbox"/> < 25 Mbps downstream, but at least 10 Mbps downstream <input type="checkbox"/> < 100 Mbps downstream, but at least 25 Mbps downstream <input type="checkbox"/> 100 Mbps downstream or above <input type="checkbox"/> I don't know
6. Are you interested in receiving broadband service from (Company Name)?*	<input checked="" type="checkbox"/> Yes <input type="checkbox"/> No
7. How would you like us to let you know when service will be available?	<input type="checkbox"/> Email <input checked="" type="checkbox"/> Phone call <input type="checkbox"/> Mailer
