Page Description

This page allows you to manage your existing entity registrations regardless of the record status. The Entity List contains all entities with which you have user roles. You can search for entities within this list or simply select the entity for which you want to view, update, delete, or deactivate a registration record.

Once you select an entity, your registration details will display in either the Registration Details for Complete Record section or the Registration Details for Incomplete Record section. If you started an update to either an active or inactive registration record, you will find registration details in both sections. Check the Registration Status, then select the action you wish to take.

For keyboard only users, please tab to the desired entity and then press the Enter key to expand the child entities. Press the space bar to select an entity from the Entity List and the details will display in the appropriate Registration Details table.

To register a new entity in SAM, select the Register New Entity link from the sub-navigation menu.

IMPORTANT: If you navigate away from a page during the registration process without selecting Save and Continue, the information entered on the page will NOT be saved, you must select Save and Continue on every page.
