TO: Broadband Grant Program – Empower Rural Iowa Committee

RE: Letter of Reference

Dear Committee Members:

Our company, Energy Panel Structures, has been a customer of River Valley Telecommunications Coop since 1988. As a growing manufacturing business, we have relied on River Valley's local and long-distance multi-line business telephone service since that time. In addition, they have installed and maintained telephone and networking systems in our offices and buildings and also provide us a 20MB ethernet circuit to our headquarters in Minnesota.

We are proud of our business relationship with River Valley Telecommunications Coop.

Sincerely,

A handwritten signature in blue ink, appearing to read "William Brown", is written over the typed name.

William Brown, President  
Energy Panel Structures  
Graettinger, Iowa
