

MiBroadband, LLC Business Organization

MiBroadband, LLC is a partnership between Mabel Cooperative Telephone Company, MiEnergy Cooperative and Spring Grove Communications. Formed in 2018, MiBroadband focuses on bringing broadband to unserved and underserved residences and businesses in southeastern Minnesota and northeastern Iowa. As a partnership of two telecommunications cooperatives and one energy cooperative, MiBroadband benefits from the expertise developed from the years of service these companies have in their industries.

As part of a shared management and services agreement, the operations for MiBroadband are performed and managed by the staff of Harmony Telephone Company. MiBroadband currently serves over 660 subscribers utilizing a fixed wireless platform. The customers have service packages available up to speeds of 50 Mbps download and 10 Mbps upload. Through their work with Harmony Telephone Company, the operations staff also have experience in fiber-to-the-premises deployments and support. In addition to broadband service, MiBroadband offers its customers a managed Wi-Fi solution to ensure service performance, as well as network optimization. The operations team is also well versed in device support and management allowing customers access to professionals to assist with their network configurations and all their broadband connected devices.
