Executive Project Summary – NOFA #0005

This project is a Fiber-To-The-Home plan consisting of installing 67,000 feet of buried fiber cable in Butler County beginning at Kesley, Iowa going west on 265th St to Forest Ave, then south to 270th and also beginning at Kesley, Iowa going north on Grand Ave to 260th St, then east to County Road T25 Hickory Ave and continuing east to Jay Ave. Dumont Telephone Company has been an established service provider since 1902 and a Fiber-To-The-Home expert since 2006. We are very familiar with this technology and this is just a simple extension of our existing network. This project is in the planning stage, engineering is engaged and the material list is ready to be ordered.
