

Demonstrated Experience

Coon Valley is very excited to expand our services into areas of unserved broadband. Coon Valley bring a wealth of knowledge on deployment of fiber optic. Coon Valley has over 400 miles of fiber optic along with every home having it.

Our company dates way back in the early 60's when it was party lines and crank phones. Coon Valley became a cooperative also in the 60's, with every member buying a membership.

Our staff has close to 100 years of experience to serve our customers. Our main headquarters are located in the town of Menlo, Iowa. Doors are open everyday from 8am to 5pm

Our technology deployment will be fiber to the home with speeds up to 1Gig. Today we serve over 600 homes with this technology and still growing. We are very proud of our services and customer support.

Coon Valley is governed by a board of 9 directors, our company takes pride in our community and believes every Iowan should have access to broadband.
