Letter of Support

To whom it may concern,

The purpose of this letter is to communicate that the Van Buren County Community School District is in support of the state grant application for a fiber project to bring high speed internet to our entire school district.

Here in Van Buren County, we serve a very rural population with around 60% free and reduced lunch participants that covers a very large area, in fact, it is the second largest district in the state of Iowa at 536 square miles. Last year when the pandemic began, we had to put together a virtual learning program for our students and families. One of the biggest challenges we faced was the lack of high speed internet throughout the entire district.

Having high speed internet access is a crucial and necessary project here in Van Buren County and we would appreciate the support of this project so that the Van Buren County Telephone Company can fund the project and complete it in the near future. Have a blessed summer and go Warriors!

Sincerely,

Jeremy Hissem
Superintendent
