Applicant Business Structure

Is the Applicant a Communications Service Provider as defined by Iowa Code chapter 8B, including but not limited to private sector carriers, local governments, utilities, and other entities that provide or intend to provide Broadband service.

Communication Service Provider* Yes

Identification of whether the Applicant is a subsidiary of one or more parent companies.

Are you a subsidiary of one or more parent companies?* No

Executive Project Summary NOFA #006

The section requires Applicant to affirm whether or not state funds are necessary for the Project to proceed.

Are state funds necessary for the project to proceed?* Yes

This section requires an Applicant to describe how the Project will or will not proceed if State funds requested are not ultimately awarded.

Describe how the Project will or will not proceed if state funds requested are not ultimately awarded.*

Coon Valley would like to expand in the southeast corner of Guthrie County adjacent to our current fiber optic ILEC. This area includes Diamondhead Lake and the rural Stuart area.

State Funds are essential for this project to be completed. Coon Valley Telephone will utilize these state funds to hit numerous homes in which broadband is relatively unavailable and increase available broadband for so many more homes. Although no work has been completed towards this proposed project Coon Valley Telephone has done several cost analyses for this proposed area and without funding the project isn't feasible.

If funding is awarded for this project Coon Valley Telephone plans to begin work as soon as possible. Having a space to expand our successful fiber optic network to an adjacent community is a true opportunity. We have already started conversations with contractors and engineering for in the event funding is made available. We anticipate completing this project with all customers in service by November of 2024.

Has construction on the project begun?* No
