Executive Project Summary NOFA #006

The section requires Applicant to affirm whether or not state funds are necessary for the Project to proceed.

Are state funds necessary for the project to proceed?* Yes

This section requires an Applicant to describe how the Project will or will not proceed if State funds requested are not ultimately awarded.

Describe how the Project will or will not proceed if state funds requested are not ultimately awarded.*

Grand Mound Cooperative Telephone Association (Grand Mound) determined the total eligible infrastructure costs to be \$261,180.34 for the DeWitt South Broadband Expansion. Grand Mound's Empower Rural Iowa Broadband grant request is 75%, \$195,885.26, of the total eligible infrastructure costs in the proposed area, with 25% being self-funded by Grand Mound.

Grand Mound is committed to working toward overall community enhancement that includes residents, businesses, and community anchor institutions within the rural areas of Clinton and Scott County. Access to high-speed broadband service should be available to every resident regardless of whether they live in town or out in the rural areas.

The locations included in Grand Mound's application would be too costly to build without grant funding assistance. Due to the rural nature and relatively low population density, this project would be difficult to justify without the financial assistance from the Empower Rural Iowa Broadband Grants Program. Therefore, the proposed DeWitt South Broadband Expansion will likely not move forward as presented without grant assistance.

Has construction on the project begun?* No
