

July 23, 2021

I am owner of 400 Rustic Station in Whittemore Iowa. I support Northwest Communications application for funding of the 100/100 broadband installation in Whittemore area.

- Higher broadband speeds which in this application would be 100/100.
- Increases value of properties
- Supports economic growth by allowing people to work from home and run local businesses
- Residents can live in smaller communities and still work from home.
- Allows schooling at home when needed.
- Promoting new businesses who require higher speed internet for operations.

Thank you,

Kim Kollasch
