Describe how the Project will or will not proceed if state funds requested are not ultimately awarded.*

West Iowa Telephone Company (WesTel Systems) has received many requests for service from residents in the areas that we are applying for grant funds. These residents have been denied adequate service from current providers whom are unwilling to upgrade their services. These residents have also been denied service from other potential providers. WesTel has been the only service provider willing to consider bringing necessary broadband service to these rural areas. Due to the distance from our current serving area, it is necessary for us to request grant funds to off-set the cost to extend our current facility network to provide superior, gig-capable broadband service to this area. If grant funds are not received, this project will not proceed.

Has construction on the project begun? * No
