To Whom It May Concern,

I am very pleased to write this letter of recommendation for Cox Communications.

Over the past 20 years I have worked with Cox Communications on various projects. Cox is instrumental in the success of students through the connectivity and internet they have provided the Council Bluffs Community School District. They provided much needed design and security recommendations and technical support to ensure our building-to-building network and our ISP remain 100% available to students and staff.

During the pandemic Cox Communications has provided home internet to students who otherwise would not be able to afford access through their Cox Connect 2 Compete program. For all students who had the need, the Cox team waived any outstanding fees and gave access to free internet for a period of time to ensure the families had the connectivity needed.

In addition, the Cox team provided almost 10,000 reusable carry bags during the first few days of the pandemic to allow our teachers to send home necessary supplies and materials. The Cox team heard of the need and within a day-and-a-half delivered the bags.

Cox is a truly amazing partner with whom the school district is proud to partner. They are making a huge difference in our community and our schools to provide a network and ISP to all families, not just some.

A handwritten signature in blue ink, appearing to read 'John Stile'.
