Minority Impact Statement

Does the proposed grant program or policy have a disproportionate or unique **positive impact** on minority persons? *

Yes

Describe the positive impact expected from this project.

Demographics show approximately 4% of Paullina is minority based groups. The minorities or persons with disabilities and female households will benefit from having access to fiber broadband. This will equalize the access so minority groups may work from home or persons can home school through on-line classes, where needed.

Detail the rationale for the existence of the proposed program or policy.

While no written policy is in place, the rationale is that minority persons gain the same opportunities afforded non-minority. The high-speed Internet access in the rural areas can be an equalizer for all consumers.

Indicate the group(s) positively impacted.

Women, Persons with a Disability, African Americans, Latinos, Asians or Pacific Islanders

Could the proposed grant program or policy have a disproportionate or unique **negative impact** on minority persons? *
