

ImOn Communications (Provider of Fixed Broadband Service)

ImOn Communications, LLC (ImOn) is an award-winning provider of broadband and telecommunications services for residents and businesses in Eastern Iowa, founded in 2007 and headquartered in Cedar Rapids, Iowa. In 2011, ImOn began building its fiber-optic network and was the first company in the area to offer fiber-to-the-home services. ImOn now offers advanced broadband services, digital TV, high-speed Internet and phone services to residents and businesses in Cedar Rapids, Marion, Hiawatha, Iowa City, Coralville and Dubuque, Iowa. ImOn's philosophy is to offer top quality products and services, provide exceptional customer service, employ local people, and support the communities they serve. Presently, ImOn as a voice, video and Internet Service Provider (ISP) provides its services to a total of 20,664 subscribers, including 18,183 residential and 2,481 business accounts.

ImOn is in good-standing with the Iowa Department of Commerce Utility Board (IUB) and Iowa Secretary of State's Office, is current with all registration requirements, and already holds an amended Certification of Public Convenience of Necessity for the Iowa City service exchange area with the IUB.
