

To whom it may concern,

We have been in contact with Modern Cooperative Telephone Co. in regards to getting fiber optics drawn to our area for quite some time. As another family that relies heavily on the internet for school, work, and entertainment, we have greatly anticipated the opportunity for a more affordable, reliable and faster connection. Modern Cooperative Telephone Co. would be a key asset in granting us such affordable luxuries, at an affordable price, that we have not had the opportunity to have since moving a few years ago. Upon hearing great reviews from friends, the chance to connect to fiber optics is a very exciting option for ourselves and many surrounding neighbors.

Thank You for your time and consideration,
