

Broadband Map v5 Community and Provider Challenge Form

The Office of the Chief Information Officer ("OCIO" or "Office") recently published the Statewide Broadband Availability Map version 5 ("Map v5"). Map v5 is designed to facilitate decisions concerning future spending under federally-funded broadband programs. Because Map v5 does not use the tiered structure envisioned by Iowa Code chapter 8B and because future federally-funded grant opportunities made available by the Office in accordance with Map v5 will not conform to Iowa Code chapter 8B, the map challenge process envisioned under Iowa Code section 8B.10 does not apply. However, the Office is making available a challenge process to allow public input into whether the map accurately reflects broadband coverage as of the publication date of Map v5 (the "As Of" date of Map v5).

The Office utilizes maps and data sources made available by the Federal Communications Commission (FCC) and/or developed or produced by contractors or third parties retained or utilized by the Office. These maps and corresponding data sources represent the status of Broadband in Iowa on the As Of date as reported by Communication Service Providers in Iowa. Unlike prior broadband coverage maps, Map v5 identifies broadband coverage by individual locations, making Map v5 far more granular than prior maps that displayed eligibility at the census block level.

Challenges to Map v5 will be based on presence or reliability of service and/or speed. Challengers will be required to provide for every location challenged an address and corresponding IA Location ID, to the extent a Location ID is available on the map. Challenges without this information may not be evaluated.

Every location on Map v5 reflects a status of 'likely eligible' or 'likely ineligible.' This status is based solely on speed and technology type. The eligibility of any particular location is contingent on the requirements associated with the federal funding being used to fund future Notices of Funding Availability ("NOFAs"). Eligibility determinations are subject to change over time. In addition, eligibility designations in no way guarantee facilitation of service in the future through state- or federally-funded broadband builds.

On August 2, 2022, the Office posted the final version of Broadband Availability Map v5 and opened a 30-calendar-day challenge window wherein anyone aggrieved or adversely affected by mapping determinations may challenge the Office's final determination of whether service at a particular location is accurately reflected.

This form is for PROVIDERS and COMMUNITIES only. Resident challengers should fill out the form via the Map on the website.

You must check next to each row that you have read and understood the terms of the challenge process. Without this acknowledgment, the appeal will not be evaluated.

Use the tab titled "Challenge Form" to challenge any particular location. If you would like to report an address not presenting on the map, please use the tab titled "Location Not Present on Map." You can also use this tab to report when the location is not presenting at the correct area.

Challenger acknowledges the following (click checkbox to acknowledge):

<p>The information on the Map may be challenged for conditions existing as of August 2, 2022 (the "As Of" date). Challenges based on changes occurring to broadband service after the As Of date will not be considered.</p>	<input checked="" type="checkbox"/>
<p>When submitting a challenge, evidence must be submitted for every location challenged in support of changing the likely eligible or likely ineligible status. Documentation that is speculative, generalized, or vague will not be sufficient. You may use the Sworn Statement/Survey template provided. Supporting documentation must be provided in one pdf. Reference to the page number of the supporting evidence within the pdf must be noted in Challenge Form. Challenged locations without a referenced page will not be evaluated.</p>	<input checked="" type="checkbox"/>
<p>The Office reserves the right to reject challenges for a variety of reasons, including but not limited to: >> Challenges claiming buildout at a future date; >> Challenges received reflecting incomplete information, including lacking IA Location ID; >> Challenges to a provider's service that are submitted without supporting evidence; >> Multiple challenge forms submitted by a provider or a community; >> Challenges received after September 1, 2022; >> Challenges received without all checkboxes marked indicating acknowledgement of the terms.</p>	<input checked="" type="checkbox"/>
<p>The Office will notify affected parties by posting to the website any notice of challenge received. Final agency decisions shall become final unless within 30 days of the posting of a final decision, a challenger or person or party aggrieved or adversely affected requests a contested case proceeding pursuant to Iowa Administrative Code chapter 129-6.</p>	<input checked="" type="checkbox"/>

Broadband Map V5 Provider/Community Challenge Form

A. CHALLENGER INFORMATION

Entity/Community Name	BTC, Inc.
FRN (Provider Only)	0003768025
Address	112 East Main St.
City	Breda
State	IA
Zip	51436

B. DESIGNATED CONTACT INFORMATION

Contact Name	Kevin Skinner
Contact Phone Number	712-673-2311
Contact Email	kskinner@westianet.com

C. EXPLANATION

To the extent you believe additional explanation is required to ensure that you are communicating full and accurate information, please provide narrative to further explain your challenge.

All of the addresses listed on this challenge form have been overbuilt by our company with Fiber and are capable of providing speeds of up to 1,000 Mbps downstream / 1,000 Mbps upstream by or before August 2, 2022.

D. ATTESTATION

By signing and submitting this form, the authorized representative attests that to the best of the authorized representatives knowledge and belief, the information submitted through this challenge form is true and accurate, and the form is signed under the pains and penalties of perjury. By typing your name, you are affixing your signature to this form and attesting to the accuracy of the information submitted herein.

Authorized Signature:	Jeff Roiland

115 addresses which fall within our Loess Hills/Glenwood Rural fiber service area shown above (maroon and yellow areas outlined in black). Yellow areas represent funded census blocks that are part of our NOFA round 4 award. Maroon areas represent non-funded areas which were overbuilt with the funded areas, and which were served as of 8/02/2022.

1 address which falls within our Glenwood LCC 8 service area shown above in red, which was served with fiber as of 8/02/2022.

1 address which falls within our GR1 service area shown above in green, which was served with fiber as of 8/02/2022.

3 addresses (circled in red above), which border our ILEC fiber exchange boundaries (in maroon), and which were served by existing fiber facilities prior to 8/02/2022.

Attached please find the following three documents related to the broadband map version 5 challenge being submitted by BTC, Inc.:

- Community and provider challenge form - BTC INC.xlsx – contains challenges for 121 addresses which our Company has overbuilt with FTTH by or before August 2, 2022 and are capable of providing gigabit upload and download speeds.
- BBv5 challenge documentation - BTC INC.pdf – contains a list of the overbuilt addresses, as well as two pages at the end of the document which are screenshots of the addresses plotted on a Google Earth map.
- BBv5 challenge mapping documentation - BTC INC.kmz – a Google Earth kmz file of the plotted likely eligible addresses our Company overbuilt, plus layers showing the service area boundary these addresses fall within and the blocks awarded to our Company in NOFA 4, which cover part of this service area boundary.

If you have any questions or need additional information related to this challenge, please let me know.

Thank you,
Kevin Skinner

Attached are three revised documents, to replace the three documents we previously sent to support the challenge for BTC, Inc., as we noticed a few items which needed correction – I apologize for the confusion. Here is what was revised:

- Community and provider challenge form revised v2 - BTC INC.xlsx – reduced total number of challenges from 121 to 119 addresses which our Company has overbuilt with FTTH by or before August 2, 2022 and are capable of providing gigabit upload and download speeds. There were two addresses which were incorrectly included in the previous challenge – Location ID's 1050381 and 1341853 have been removed. Also, location ID 651981 was moved from the Loess Hills serving area to the Glenwood LCC 8 serving area, and location ID 417391 was moved from the Loess Hills serving area to the GR 1 serving area.
- BBv5 challenge documentation revised v2 - BTC INC.pdf – contains a revised list of the overbuilt addresses, as well as four instead of two pages at the end of the document with screenshots of the addresses plotted on a Google Earth map, to account for the changes I mentioned above. We added two more pages of screenshots, because some of the addresses were in a different serving area than where we had previously identified them, again as I mentioned above. I also added page numbers to this document while I was at it, to make it easier to cross reference with the page numbers identified in the challenge form spreadsheet.
- BBv5 challenge mapping documentation revised v2 - BTC INC.kmz – a revised Google Earth kmz file of the plotted likely eligible addresses our Company overbuilt, plus layers showing the service area boundary these addresses fall within and the blocks awarded to our Company in NOFA 4, which cover part of this service area boundary. We removed the two location ID's mentioned above, and also added two new serving area boundary layers to show the Glenwood LCC 8 and the GR 1 serving areas.

Again, I apologize for the confusion with this revision. Any questions on these changes, please let me know.

Thank you,

Kevin

Hi Kevin,

We've received your challenge form. The Office will be adjudicating challenges after the challenge window closes on Sept 2. Please check our website thereafter for updates.

Thanks,

Awna Kotchian
