Broadband Map v5 Community and Provider Challenge Form
Chief Information Officer e Office of the Chief Information Officer ("OCIO" or "Office") recently published the Statewide Broadband Availability Map version 5 ("Map v5"). Map v5 is designed to cilitate decisions concerning future spending under federally-funded broadband programs. Because Map v5 does not use the tiered structure envisioned by lowa Code hapter 8B and because future federally-funded grant opportunities made available by the Office in accordance with Map v5 will not conform to lowa Code chapter 8B, the ap challenge process envisioned under lowa Code section 8B.10 does not apply. However, the Office is making available a challenge process to allow public input into hether the map accurately reflects broadband coverage as of the publication date of Map v5 (the "As Of" date of Map v5).
e Office utilizes maps and data sources made available by the Federal Communications Commission (FCC) and/or developed or produced by contractors or third parties tained or utilized by the Office. These maps and corresponding data sources represent the status of Broadband in Iowa on the As Of date as reported by Communication rvice Providers in Iowa. Unlike prior broadband coverage maps, Map v5 identifies broadband coverage by individual locations, making Map v5 far more granular than prior aps that displayed eligibility at the census block level.
nallenges to Map v5 will be based on presence or reliability of service and/or speed. Challengers will be required to provide for every location challenged an address and rrresponding IA Location ID, to the extent a Location ID is available on the map. Challenges without this information may not be evaluated.
ery location on Map v5 reflects a status of 'likely eligible' or 'likely ineligible.' This status is based solely on speed and technology type. The eligibility of any particular cation is contingent on the requirements associated with the federal funding being used to fund future Notices of Funding Availability ("NOFAs"). Eligibility determinations e subject to change over time. In addition, eligibility designations in no way guarantee facilitation of service in the future through state- or federally-funded broadband uilds.
n August 2, 2022, the Office posted the final version of Broadband Availability Map v5 and opened a 30-calendar-day challenge window wherein anyone aggrieved or lversely affected by mapping determinations may challenge the Office's final determination of whether service at a particular location is accurately reflected.
is for is for PROVIDERS and COMMUNITIES only. Resident challengers should fill out the form via the Map on the website.
ou must check next to each row that you have read and understood the terms of the challenge process. Without this acknowledgment, the appeal will not be evaluated.
se the tab titled "Challenge Form" to challenge any particular location. If you would like to report an address not presenting on the map, please use the tab titled "Location of Present on Map." You can also use this tab to report when the location is not presenting at the correct area.
hallenger acknowledges the following (click checkbox to acknowledge):
he information on the Map may be challenged for conditions existing as of August 2, 2022 (the "As Of" date). Challenges based on changes occurring to oadband service after the As Of date will not be considered.
hen submitting a challenge, evidence must be submitted for every location challenged in support of changing the likely eligible or likely ineligible status. ccumentation that is speculative, generalized, or vague will not be sufficient. You may use the Sworn Statement/Survey template provided. Supporting ccumentation must be provided in one pdf. Reference to the page number of the supporting evidence within the pdf must be noted in Challenge Form. hallenged locations without a referenced page will not be evaluated.
ne Office reserves the right to reject challenges for a variety of reasons, including but not limited to: • Challenges claiming buildout at a future date; • Challenges received reflecting incomplete information, including lacking IA Location ID; • Challenges to a provider's service that are submitted without supporting evidence; • Multiple challenge forms submitted by a provider or a community; • Challenges received after September 1, 2022; • Challenges received without all checkboxes marked indicating acknowledgement of the terms.
e Office will notify affected parties by posting to the website any notice of challenge received. Final agency decisions shall become final unless within 30 days of e posting of a final decision, a challenger or person or party aggrieved or adversely affected requests a contested case proceeding pursuant to Iowa dministrative Code chapter 129-6.
