The City of Keota is and has always been proud of its history. Cloudburst9 was founded in Keota, Iowa, and has been an active service in Keota ever since. Cloudburst9 has been a viable provider and partner since 2006 and the City wants to continue that relationship and help evolve from a wireless to a fiber to the home network. A great deal of residents currently use their service and in turn Cloudburst9 has supported local businesses, organizations, and events here in town for a number of years.

Cloudburst9 has been a valuable asset to Keota, providing broadband for 15 years to fill the gap in services offered by the incumbent providers. There are many Iowa cities and towns that are seeking to get fiber optic networks constructed. By having Cloudburst9 pair their current reliable service with a new fiber network, it will allow Keota to continue to grow and flourish. Reliable broadband speeds up to 1 Gigabit will support the growing City demands and greatly assist from an Economic Development perspective. The City of Keota supports Cloudburst9 and their endeavor to bring a fiber optic network to Keota.
