Question	Answer
What is driving the requirement for FedRAMP High vs Low or Moderate?	Moderate
Would you consider proposals with FedRAMP compliance at the moderate impact level instead of the high impact level?	Yes
Will a StateRamp moderate architecture hosted in a FedRamp High hosting environment (AWS Govcloud) meet this requirement?	FedRamp requirements are defined as moderate and a high hosting requirement meets the necessary threshold. Please clarify any concerns in the proposal, we do not have any defined StateRamp requirements.
