This discrepancy is completely a problem due to timing—The broadband map data was due April 30, 2021. On that date, our build-out was not complete yet; therefore MTC could not honestly report that the company served these TSAs. On the appeal worksheet, I listed these TSAs as Correct, because the information was correct as of the date it was reported to Connected Nation. During the months of May and June we have completed this project and by June 30, 2021, Massena Telephone Company can serve these Census Blocks with up to 1Gbps download/200Mbps upload speeds. Massena Telephone did receive funding for these blocks from the 2020 Grant, and is compliance with that Grant. These CBs should not be funded again. The last CB on the list was erroneously omitted when reporting to Connected Nation.
